## 富蘭克林坦伯頓成長基金 財務報告附註

#### 1. 組織結構與重要會計政策

富蘭克林坦伯頓成長基金(以下稱本基金)是依據美國 1940 年投資公司法案(簡稱為 1940 法案)註冊成立的開放式投資公司並且採行美國一般公認會計原則(U.S. GAAP)之專業會計和報導指南。本基金提供五種股份類別:A股、C股、R股、R6股與 Advisor股。C股在持有8年後每月將自動轉為A股。各股份類別的首次銷售手續費、或有遞延銷售手續費、對單一股份具影響之事件的投票權、轉換權益、不同約定之分銷費用及股務代理機構費用皆有所不同。

本基金重要會計政策摘要如下:

#### a. 財務工具評價

本基金為每日以公平價值(fair value)評價投資的財務工具。公平價值是市場參與者於秩序交易中,賣出資產或轉移負債於衡量日所被買賣參與者接受的價格。本基金在每個營業日的美東時間下午四點或紐約證券交易所(NYSE)正常排定的收盤時間計算每股淨資產價值(NAV),以較早者為準。在本基金董事會所核准的政策及程序下,本基金的行政經理公司負責監控及評價的範圍包括:主導具有交叉功能之**評價委員會**(the Valuation Committee(VC))。本基金得以利用獨立定價服務、來自證券和財務工具的交易商所提供的報價及其他市場資訊來決定公平價值。

在證券交易所或那斯達克交易系統掛牌之股票是分別以最後公告售價或當日官方收盤價格計價。外國證券是以證券主要交易之外國證券交易所或是東部時間下午四點的收盤價估值,其價格將以外國證券依每個營業日當日東部時間下午 4 點的收盤匯率被轉換成美元後的價值而定。店頭市場交易證券其估值則不超過最近一次的買賣報價範圍。同時在多個市場或多個交易所進行交易的證券,其估值則以最具廣度和代表性之市場的報價為準。某些股權證券是以類似證券的基本特徵或關係為評價基礎。

投資於開放式共同基金是以結算後的淨資產價值評價。投資於定期存款是以成本評價,其成本接近公平價值。

當財務工具缺乏可以信賴或是無法獲得市場價格時,本基金採用一些程序來決定其公平價值。在這些程序下,本基金主要使用市場基礎法 (market-based approach),即使用相關或可比較之資產或負債、近期交易、市場乘數、帳面價值及其他相關資訊來決定投資之公平價值。收益基礎衡量法 (income-based valuation approach) 也可用於投資之預期未來現金流量折價以計算公平價值。由於處分投資的限制的本質或是存續期間,可能也使用折價來計算。由於此類投資評價固有的不確定性,其公平價值與交易市場的價格可能會有顯著的差異。

於外國證券交易所及店頭交易市場掛牌證券的交易,可能早於東部時間下午四點時間。此外,某些外國市場的交易並不會發生在每一個基金的營業日內。有時候,在外國證券交易完畢與東部時間下午四點之間的時間裡發生的事件可能對本基金所持有之投資組合證券價值的可信度造成影響。因此,由外國市場收盤後所決定之基金組合證券價格與東部時間下午四點最近的價格間,可能會產生差異。為了最小化這些潛在的差異,本基金得採用獨立定價服務將投資組合證券的價值調整至東部時間下午四點最新指標的公平價值。截至 2022 年 8 月 31 日,部分證券已使用公平價值程序來定價,在這種情況下,這些證券被分類為公平價值衡量層級中的等級 2。稱為"市場公平價值"更多說明,請參閱"公平價值衡量"附註。

當申報期間的最後一日為非營業日時,某些外國市場是在基金的淨值未被計算時營業,此可 能造成基金投資組合證券的價值在申報期間的最後營業日及最後日曆日間所有差異。任何因 年度財務報告/附屬的財務報表附註是財務報表的一部份

- 1. 組織結構與重要會計政策(承續前文)
- a. 財務工具評價(承續前文)

外國市場開市所造成之顯著證券價值變動將被基金為反映財務申報目的而進行調整和反映。

#### b. 外幣轉換

投資組合中以外幣結算的證券以及其他資產與負債,是在估值日以這類外幣對美元的匯率轉換成美元來定價。本基金得簽訂外匯契約協助以外幣計價的交易。以外幣結算之證券的申購與銷售,收益與費用項目是以在交易日生效的匯率轉換成美元來定價。以外幣計價之投資組合證券、資產及負債包含這些外幣相對於美元價值下跌的風險。有時候,事件的發生可能影響外幣對美元匯率的可獲得性或可信度。若有此類事件發生,將以本基金董事會所建立並核准之程序來確定該匯率的公平價值。

本基金不會單獨報告由於持有證券的市價變動而引起的外幣匯率變動的結果。這類的變動已包含在經營業績表的淨實現與未實現投資利益或損失中。

已實現的匯兌利得或損失來自於外幣銷售、在證券的交易日與交割日之間所實現的貨幣利得或損失及股利、利息、外國預扣稅的紀錄金額與其實際交付的等值美元金額之間的差異。淨未實現匯兌利得或損失來自於在報告期末除所持有的投資證券之外,以外幣結算之資產與負債的外幣匯率變動。

#### C. 證券借貸

本基金參與一項代理機構基礎之證券借貸計劃以賺取額外的收益。本基金收取相當於所借出證券之公平價值至少 102%的金額之現金及/或美國政府與機構證券擔保品。在此借貸的存續期間內擔保品的金額不低於該借出證券公平價值(在基金各營業日結束時評定)的 100%,任何因證券價值變動而須追加的擔保品必須於次一營業日交付給本基金。與其他基金存入聯合現金帳戶的現金擔保品習慣被投資於富蘭克林顧問公司(本基金之關係企業)所管理的貨幣市場基金裡。本基金收取來自現金擔保品的投資收益,以及從借貸者收取出借費用與回扣。來自借出證券的收益,扣除支付予證券借貸機構以及/或是第三方供應商的費用,已分別記錄於經營業績表中。本基金承擔有關現金擔保品投資與證券借出的市場風險,以及代理機構違反其對本基金義務的風險。如果借貸者違反其應返還借出證券的義務,本基金有權利運用所收取的擔保品於公開市場再買回這些證券。證券借貸機構已同意賠償本基金由第三方借入者產生的違約風險。

#### d. 所得稅及遞延稅

按照基金政策,本基金必须符合美國稅務法對於投資公司的規定,對股東分配幾乎所有的應稅收益與淨實現利益以免於繳納聯邦所得稅及特許權稅,因此無需預提美國聯邦所得稅。

本基金在外國管轄區域的投資所收取的收益、證券售出的資本利得以及一些外匯交易可能須繳納外國稅捐。如有外國稅捐,其金額將依據本基金所投資之外國市場實施的稅務法規與稅率申報。如外國對淨實現利得加以課稅,本基金將記錄預估的遞延稅賦義務,其金額相當於當證券在評價日交易須支付的稅額。

由於遍及歐盟一些國家的幾個訴訟案件結果,本基金已經為以前在這些國家所賺取股利的代扣稅款申報追加的回收稅款(歐盟回收)。已認可收益,若有的話,這些歐盟回收金額是以其他收益反映於經營業績表中,而任何相關應收款項,若有的話,是以歐盟稅款回收反映於資產負債表中。而與以上相關之費用也將反映在經營業績表的其他費用上。當這些訴訟的最終裁決、取得這些回收稅款的可能性以及付款的可能時間安排尚存有不確定性時,則無金額得

- 1. 組織結構與重要會計政策(承續前文)
- d. 所得稅及遞延稅(承續前文)

以被反映於財務報表中。就美國所得稅目的,本基金所收取的歐盟回收稅款,若有的話,將減少外國稅捐金額而使本基金股東得在個人所得稅申報單中作為減稅或抵免。如果本基金在一個財政年度收到的歐盟回收款項超過本基金支付的外國預扣稅,並且本基金之前已將其轉嫁給其股東的外國稅款用於作為股東收入的抵免或扣除納稅申報表後,本基金將與美國國稅局(IRS)簽訂結算協議,以代表本基金的股東支付相關的納稅義務。在截至 2022 年 8 月 31日的財政年度期間,基金收到了超過當年支付的外國稅款的歐盟回收退稅。本基金已決定與IRS達成一項結算協議,並在經營業績表中將估計費用計為收益的減項。

只有當稅務機關基於稅項的技術優勢進行依據美國一般公認會計原則(U.S.GAAP)審查時認為不明確稅項低於50%的可能性將持續的情況下,本基金才會承認不明確稅項的賦稅利益。於截至2022年8月31日止及所有開放稅賦年度,本基金認為沒有因被要求於納稅申報表所揭有關不明確稅項之納稅申報(或預計在未來進行納稅申報)之未承認賦稅利益而產生的負債。開放稅賦年度為基於稅賦管轄權之法定時效限制下仍須接受審查的年度。

#### e. 證券交易、投資收益、費用及配息

證券交易是在交易日作入帳。證券交易之已實現利得或損失則決定於特定基礎。利息收入與預估費用則每日計提。利息收入包括債券折價及溢價攤銷。股利收入是在除息日入帳,除了某些來自外國證券的股利是在本基金接獲除息日通知才立即認定。對股東的配息是在除息日入帳並且依據所得稅法(稅基)確定。以稅基所決定的可分配盈餘可能不同於依照一般美國公認會計準則所紀錄的盈餘。這些差異可能是永久或是暫時的。在資本帳戶中,永久性差異將被重新分類以反映其稅賦特性。這些重新分類對淨資產或是經營業績並不會造成影響。暫時性差異則不用重新分類,因為差異在後續期間將會迴轉。

已實現與未實現利得與損失以及淨投資收益(股份等級特定費用除外),是依照個別股份等級的淨資產之相對比重而每日分配到個別股份等級。股份等級的費用差異可能導致各股份等級每股配息款項的差異。

#### f. 會計估計

管理階層依照美國一般公認的會計準則編制財務報表時需要做出會計估計與假設。這些會計估計與假設會影響於財務報表日的資產與負債金額以及在財務報表期間的收入與費用金額。實際結果可能與估計值不同。

#### g. 保證及賠償

在本基金的組織文件規定下,本基金同意免除其主管與董事在某些超越其職責範圍而發生的負債的責任。此外,在正常業務狀況下,本基金代表本基金與服務提供機構簽訂契約也包含責任免除條款。本基金在這些免責條款下的最大風險是未知的,因為涉及未來可能對本基金發生的被訴訟索賠。目前,本基金預期損失的風險是很小的。

#### 2. 實益權益股份

在截至 2022 年 8 月 31 日,本基金經授權發行的股份為 27 億股(每股面值\$0.01)。本基金股份的交易如下表:

## SHAREHOLDER LETTER

Dear Shareholder:

During the 12 months ended August 31, 2022, global equities benefited earlier in the period from ongoing COVID-19 vaccination programs and some easing of restrictions. However, the combination of resilient consumer demand and persistent supply-chain disruptions contributed to higher inflation in many countries, which led many of the world's central banks to adopt less accommodative monetary policies in 2022, hindering stocks. New lockdowns by China to limit the spread of COVID-19 variants also pressured emerging market stocks, especially in Asia, and Russia's invasion of Ukraine increased investor uncertainty given the resulting disruption of global trade and commodity markets. In this environment, global developed and emerging market stocks, as measured by the MSCI All Country World Index-NR (net of tax withholding when dividends are paid), posted a -15.88% total return for the period.1

We are committed to our long-term perspective and disciplined investment approach as we conduct a rigorous, fundamental analysis of securities with a regular emphasis on investment risk management.

Historically, patient investors have achieved rewarding results by evaluating their goals, diversifying their assets globally and maintaining a disciplined investment program, all hallmarks of the Templeton investment philosophy. We continue to recommend investors consult financial professionals and review their portfolios to design a long-term strategy and portfolio allocation that meet their individual needs, goals and risk tolerance.

Templeton Growth Fund's annual report includes more detail about prevailing conditions and a discussion about investment decisions during the period. Please remember all securities markets fluctuate, as do mutual fund share prices.

We thank you for investing with Franklin Templeton, welcome your questions and comments, and look forward to serving your investment needs in the years ahead.

Sincerely,

Alan Bartlett
Chief Investment Officer

#### **Economic and Market Overview**

Global developed and emerging market equities, as measured by the MSCI ACWI-NR, posted a -15.88% total return for the 12 months ended August 31, 2022.1 Although global equities benefited earlier in the period from ongoing COVID-19 vaccination programs and some easing of restrictions, the combination of resilient consumer demand and persistent supply-chain disruptions contributed to higher inflation in many countries. This inflationary pressure led many of the world's central banks to adopt less accommodative stances regarding monetary policy in 2022, hindering stocks. New lockdowns imposed by China's government to quell the spread of the Omicron variant of COVID-19 also pressured emerging market stocks, especially in Asia. Russia's invasion of Ukraine also increased investor uncertainty, as international sanctions on Russia disrupted global trade and commodity markets.

In the U.S., after robust growth earlier in the period, gross domestic product (GDP) slightly contracted in the first two quarters of 2022 as high inflation, supply constraints and record trade deficits weighed on economic output. Rising prices precipitated a notable decline in consumer confidence, despite high spending levels, robust job growth and low unemployment. In an effort to control inflation, the U.S. Federal Reserve (Fed) raised the federal funds target rate in March 2022 for the first time since 2018. The Fed raised the federal funds rate again at its subsequent three meetings to end the period at a range of 2.25%–2.50%. Furthermore, the Fed said it would continue to reduce its bond holdings and anticipated additional interest-rate increases at future meetings to curtail inflation.

Economies in the eurozone decelerated to a slightly positive growth rate during the year. The lifting of COVID-related restrictions in some European countries and the summer tourism season strengthened economies. However, the war in Ukraine disrupted supply chains, weakened the economic outlook and contributed to record high inflation across the eurozone, as energy prices soared. Electricity prices hit record highs in Germany and France as coal futures and natural gas prices climbed. Consequently, the European Central Bank raised interest rates in July 2022 for the first time in 11 years to curtail growing inflation. In

The index is unmanaged and includes reinvestment of any income or distributions. It does not reflect any fees, expenses or sales charges. One cannot invest directly in an index, and an index is not representative of the Fund's portfolio. Net Returns (NR) include income net of tax withholding when dividends are paid. this environment, European developed market equities, as measured by the MSCI Europe Index-NR, posted a -21.57% total return for the 12 months under review.<sup>1</sup>

Asian developed and emerging market equities, as measured by the MSCI All Country Asia Index-NR, posted a -20.73% total return for the 12-month period.¹ Growth in Japan remained slow, alternating between positive quarterly GDP growth and contraction. China's economy contracted sharply in 2022's second quarter as COVID-related restrictions in many major cities, including Shanghai, weakened consumer demand. Unexpected regulatory changes by China's government, which negatively impacted education- and technology-related businesses, and investor concerns about the solvency of several large property developers in China further pressured stocks in that country.

Global emerging market stocks, as measured by the MSCI Emerging Markets Index-NR, posted a -21.80% total return for the 12 months under review.¹ The index declined for four straight quarters, the longest downturn since 2008, weakened by central bank tightening and the threat of recession. Following Russia's invasion of Ukraine, climbing food and energy prices kindled inflationary pressures and raised concerns over the possibility of government debt defaults in some countries. However, some other countries, particularly in Latin America, as well as South Africa and Saudi Arabia, benefited from rising commodity prices.

## **Investment Strategy**

When choosing equity investments for the Fund, we apply a bottom-up, value-oriented, long-term approach. We focus on the market price of a company's securities relative to our evaluation of the company's long-term earnings, asset value and cash flow potential. We also consider the company's price/earnings ratio, price/cash flow ratio, profit margins and liquidation value.

The Fund may also use a variety of equity-related derivatives, which may include equity futures and equity index futures, for various purposes including enhancing Fund returns, increasing liquidity and gaining exposure to particular markets in more efficient or less expensive ways.

#### Manager's Discussion

Templeton Growth Fund, Inc. underperformed its benchmark MSCI ACWI-NR during the 12-month review period. Relative weakness early and late in the period outweighed strength in the middle six months, when the Fund significantly outperformed its benchmark. Early weakness was largely a function of the continued strength of high-growth stocks prior to the Fed's pivot toward more restrictive monetary policy. The Fund's value-oriented philosophy put it at odds with a market obsessed with growth, where we believe valuations had largely come unmoored from fundamentals. That changed in late 2021 when the Fed began to take rising inflation seriously and pivoted toward a less accommodative monetary policy. Rising interest rates favored value stocks at the expense of growth stocks and caused investors to refocus on business fundamentals and re-prioritize the importance of cash flow and profitability. This, in our experience, is how markets traditionally worked—as discounting mechanisms for future earnings—though the post-pandemic era of ultra-stimulative monetary policy saw investors shift their focus to more speculative bets on the future. As conditions reverted to a more normal environment in the middle of the period, relative performance improved, with the Fund significantly beating its benchmark during the six months from December 2021 through May 2022. However, relative performance faltered again in the final three months of the period as policy tightening and stillelevated inflation gave rise to recessionary fears, throwing markets into "risk-off" mode.

From a sector standpoint, the bulk of relative weakness during the period came from consumer discretionary and consumer staples. From consumer discretionary, European food delivery service Just Eat Takeaway.com was the Fund's most significant relative detractor, pressured by concerns

about competition and profitability. Nevertheless, we were encouraged by a constructive earnings call during the period and believe management is taking appropriate steps to unlock value for shareholders. Investors will want to see the strategic divestiture of certain assets (which management is exploring), more consistency hitting guidance targets, and an improving competitive environment that shifts from "growth at any cost" to "profitable growth." We see numerous catalysts that should help Just Eat achieve these goals, creating what we believe to be considerable upside potential from current depressed valuation levels.

Other underperforming sectors included financials, information technology and health care. German medical devices firm Fresenius Medical Care was the biggest detractor from these sectors, declining after management reported weak preliminary second-quarter 2022 figures and cut its full-year guidance, blaming labor shortages and rising costs. While we accept there may be volatility in the near-term, Fresenius is trading near historically low valuations on depressed earnings and should benefit from improving revenues and margins as we move past the pandemic (which negatively impacted patient volumes) over our investment horizon. We continue to like Fresenius's positioning in the dialysis market, where the firm stands to benefit from its popular home dialysis offerings, changes in Medicare laws in the U.S., intelligent free cash flow allocation, and optionality around partial sales or potential takeovers. The broad thesis around the health care sector more generally is a combination of defensiveness and secular growth, with high profitability and free cash flow generation, consolidation opportunities, good revenue visibility and idiosyncratic value creation opportunities.

Turning to contributors, stock selection and a favorable overweighting in energy aided relative performance during the period. U.S.-based refiner Marathon Petroleum was the Fund's largest relative contributor during the period, rallying as oil prices topped \$100/barrel and the firm beat earnings estimates, buoyed by stronger-than-expected refining results and the authorization of a \$5 billion share buyback. We remain constructive on the energy sector more broadly given favorable supply-and-demand fundamentals and the prodigious cash flow generating capabilities of oil companies that have become much more capital disciplined over the course of the cycle. While the sector has benefited from the strong price environment, we view elevated oil prices in many cases as a free call option on these stocks, which in our view represent good value even at the more normalized price levels of \$60-70/barrel that are embedded in our company models.

5

franklintempleton.com Annual Report

Communication services was another notable contributor. limiting losses during the period relative to the benchmark. Shares of U.S. mobile operator T-Mobile US rallied after the firm reported earnings well above analysts' expectations. Following the merger with U.S. carrier Sprint in 2020, the combined company now has a strong competitive advantage with superior spectrum assets and greater scale, which we believe will allow it to grow market share and outperform revenue growth expectations. As synergies are realized and grow, leverage is expected to fall, compounding free cash flow growth and funding share repurchases. To this end, we expect T-Mobile will repurchase close to onethird of its outstanding shares over the next five years. The firm's superior network, with industry low prices and operating costs, gives T-Mobile a strong growth platform and competitive advantages that are not fully discounted in the stock price, in our view.

From a regional standpoint, stock selection in the U.S., where our price discipline helped us avoid some of the more expensive stocks that fell significantly during the period, was offset by an unfavorable overweighting to Europe. In Asia, our low exposure to the weak Chinese market contributed to relative performance, but was offset by weakness in Japan.

Thank you for your continued participation in Templeton Growth Fund, Inc. We look forward to serving your future investment needs.

Each class of shares is available to certain eligible investors and has different annual fees and expenses, as described in the prospectus.

All investments involve risks, including possible loss of principal. Special risks are associated with foreign investing, including currency fluctuations, economic instability and political developments; investments in emerging markets involve heightened risks related to the same factors. Because the Fund may invest its assets in companies in a specific region, including Europe, it is subject to greater risks of adverse developments in that region and/or the surrounding regions than a fund that is more broadly diversified geographically. Political, social or economic disruptions in the region, even in countries in which the Fund is not invested, may adversely affect the value of securities held by the Fund. Current political uncertainty concerning the economic consequences of the departure of the U.K. from the European Union may increase market volatility. Derivatives involve costs and can create economic leverage which may result in significant volatility and cause the Fund to participate in losses (and enable gains) on an amount that exceeds the Fund's initial investment. In addition, securities issued by small- and mid-capitalization companies have historically experienced more price volatility than larger-company stocks, especially over the short term and may involve additional risks. The manager's portfolio selection strategy is not solely based on environmental, social and governance (ESG) considerations, and therefore the issuers in which the Fund invests may not be considered ESG-focused companies. Integrating ESG considerations into the investment process is not a guarantee that better performance will be achieved. Events such as the spread of deadly diseases, disasters, and financial, political or social disruptions, may heighten risks and adversely affect performance. The Fund's prospectus also includes a description of the main investment risks.

Russia's military invasion of Ukraine in February 2022, the resulting responses by the United States and other countries, and the potential for wider conflict could increase volatility and uncertainty in the financial markets and adversely affect regional and global economies. The United States and other countries have imposed broad-ranging economic sanctions on Russia and certain Russian individuals, banking entities and corporations as a response to its invasion of Ukraine. The United States and other countries have also imposed economic sanctions on Belarus and may impose sanctions on other countries that support Russia's military invasion. These sanctions, as well as any other economic consequences related to the invasion, such as additional sanctions, boycotts or changes in consumer or purchaser preferences or cyberattacks on governments, companies or individuals, may further decrease the value and liquidity of certain Russian securities and securities of issuers in other countries that are subject to economic sanctions related to the invasion.

- 1. Cumulative total return represents the change in value of an investment over the periods indicated.
- 2. Average annual total return represents the average annual change in value of an investment over the periods indicated. Return for less than one year, if any, has not been annualized
- 3. Prior to 9/10/18, these shares were offered at a higher initial sales charge of 5.75%, thus actual returns (with sales charges) would have differed. Average annual total returns (with sales charges) have been restated to reflect the current maximum initial sales charge of 5.50%.
- 4. Source: Morningstar. The MSCI ACWI-NR is a free float-adjusted, market capitalization-weighted index designed to measure the equity market performance of global developed and emerging markets. Net Returns (NR) include income net of tax withholding when dividends are paid.
- 5. Figures are as stated in the Fund's current prospectus and may differ from the expense ratios disclosed in the Your Fund's Expenses and Financial Highlights sections in this report. In periods of market volatility, assets may decline significantly, causing total annual Fund operating expenses to become higher than the figures shown. ## Your Fund's Expenses

As a Fund shareholder, you can incur two types of costs: (1) transaction costs, including sales charges (loads) on Fund purchases and redemptions; and (2) ongoing Fund costs, including management fees, distribution and service (12b-1) fees, and other Fund expenses. All mutual funds have ongoing costs, sometimes referred to as operating expenses. The table below shows ongoing costs of investing in the Fund and can help you understand these costs and compare them with those of other mutual funds. The table assumes a \$1,000 investment held for the six months indicated.

#### **Actual Fund Expenses**

10

The table below provides information about actual account values and actual expenses in the columns under the heading "Actual." In these columns the Fund's actual return, which includes the effect of Fund expenses, is used to calculate the "Ending Account Value" for each class of shares. You can estimate the expenses you paid during the period by following these steps (of course, your account value and expenses will differ from those in this illustration): Divide your account value by 1,000 (if your account had an 8,600 value, then  $8,600 \div 1,000 = 8.6$ ). Then multiply the result by the number in the row for your class of shares under the headings "Actual" and "Expenses Paid During Period" (if Actual Expenses Paid During Period were 7.50, then  $8.6 \times 7.50 = 64.50$ ). In this illustration, the actual expenses paid this period are 64.50.

#### Hypothetical Example for Comparison with Other Funds

Under the heading "Hypothetical" in the table, information is provided about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. This information may not be used to estimate the actual ending account balance or expenses you paid for the period, but it can help you compare ongoing costs of investing in the Fund with those of other funds. To do so, compare this 5% hypothetical example for the class of shares you hold with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that expenses shown in the table are meant to highlight ongoing costs and do not reflect any transactional costs. Therefore, information under the heading "Hypothetical" is useful in comparing ongoing costs only, and will not help you compare total costs of owning different funds. In addition, if transactional costs were included, your total costs would have been higher.

### Notes to Financial Statements

#### 1. Organization and Significant Accounting Policies

Templeton Growth Fund, Inc. (Fund) is registered under the Investment Company Act of 1940 (1940 Act) as an open-end management investment company and applies the specialized accounting and reporting guidance in U.S. Generally Accepted Accounting Principles (U.S. GAAP). The Fund offers five classes of shares: Class A, Class C, Class R, Class R6 and Advisor Class. Class C shares automatically convert to Class A shares on a monthly basis, after they have been held for 8 years. Each class of shares may differ by its initial sales load, contingent deferred sales charges, voting rights on matters affecting a single class, its exchange privilege and fees due to differing arrangements for distribution and transfer agent fees.

The following summarizes the Fund's significant accounting policies.

#### a. Financial Instrument Valuation

The Fund's investments in financial instruments are carried at fair value daily. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. The Fund calculates the net asset value (NAV) per share each business day as of 4 p.m. Eastern time or the regularly scheduled close of the New York Stock Exchange (NYSE), whichever is earlier. Under compliance policies and procedures approved by the Fund's Board of Directors (the Board), the Fund's administrator has responsibility for oversight of valuation, including leading the cross-functional Valuation Committee (VC). The Fund may utilize independent pricing services, quotations from securities and financial instrument dealers, and other market sources to determine fair value.

Equity securities listed on an exchange or on the NASDAQ National Market System are valued at the last quoted sale price or the official closing price of the day, respectively. Foreign equity securities are valued as of the close of trading on the foreign stock exchange on which the security is primarily traded, or as of 4 p.m. Eastern time. The value is then converted into its U.S. dollar equivalent at the foreign exchange rate in effect at 4 p.m. Eastern time on the day that the value of the security is determined. Over-the-counter (OTC) securities are valued within the range of the most recent quoted bid and ask prices. Securities that trade in multiple markets or on multiple exchanges are valued

according to the broadest and most representative market. Certain equity securities are valued based upon fundamental characteristics or relationships to similar securities.

Investments in open-end mutual funds are valued at the closing NAV. Investments in time deposits are valued at cost, which approximates fair value.

The Fund has procedures to determine the fair value of financial instruments for which market prices are not reliable or readily available. Under these procedures, the Fund primarily employs a market-based approach which may use related or comparable assets or liabilities, recent transactions, market multiples, book values, and other relevant information for the investment to determine the fair value of the investment. An income-based valuation approach may also be used in which the anticipated future cash flows of the investment are discounted to calculate fair value. Discounts may also be applied due to the nature or duration of any restrictions on the disposition of the investments. Due to the inherent uncertainty of valuations of such investments, the fair values may differ significantly from the values that would have been used had an active market existed.

Trading in securities on foreign securities stock exchanges and OTC markets may be completed before 4 p.m. Eastern time. In addition, trading in certain foreign markets may not take place on every Fund's business day. Events can occur between the time at which trading in a foreign security is completed and 4 p.m. Eastern time that might call into question the reliability of the value of a portfolio security held by the Fund. As a result, differences may arise between the value of the Fund's portfolio securities as determined at the foreign market close and the latest indications of value at 4 p.m. Eastern time. In order to minimize the potential for these differences, an independent pricing service may be used to adjust the value of the Fund's portfolio securities to the latest indications of fair value at 4 p.m. Eastern time. At August 31, 2022, certain securities may have been fair valued using these procedures, in which case the securities were categorized as Level 2 inputs within the fair value hierarchy (referred to as "market level fair value"). See the Fair Value Measurements note for more information.

When the last day of the reporting period is a non-business day, certain foreign markets may be open on those days that the Fund's NAV is not calculated, which could result in differences between the value of the Fund's portfolio securities on the last business day and the last calendar

## 1. Organization and Significant Accounting Policies (continued)

#### a. Financial Instrument Valuation (continued)

day of the reporting period. Any security valuation changes due to an open foreign market are adjusted and reflected by the Fund for financial reporting purposes.

#### b. Foreign Currency Translation

Portfolio securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars based on the exchange rate of such currencies against U.S. dollars on the date of valuation. The Fund may enter into foreign currency exchange contracts to facilitate transactions denominated in a foreign currency. Purchases and sales of securities, income and expense items denominated in foreign currencies are translated into U.S. dollars at the exchange rate in effect on the transaction date. Portfolio securities and assets and liabilities denominated in foreign currencies contain risks that those currencies will decline in value relative to the U.S. dollar. Occasionally, events may impact the availability or reliability of foreign exchange rates used to convert the U.S. dollar equivalent value. If such an event occurs, the foreign exchange rate will be valued at fair value using procedures established and approved by the Board.

The Fund does not separately report the effect of changes in foreign exchange rates from changes in market prices on securities held. Such changes are included in net realized and unrealized gain or loss from investments in the Statement of Operations.

Realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions and the difference between the recorded amounts of dividends, interest, and foreign withholding taxes and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in foreign exchange rates on foreign denominated assets and liabilities other than investments in securities held at the end of the reporting period.

#### c. Securities Lending

The Fund participates in an agency based securities lending program to earn additional income. The Fund receives collateral in the form of cash and/or U.S. Government and Agency securities against the loaned securities in an amount equal to at least 102% of the fair value of the loaned securities. Collateral is maintained over the life of the loan in an amount not less than 100% of the fair value of loaned securities, as determined at the close of Fund business each day; any additional collateral required due to changes in security values is delivered to the Fund on the next business day. Any cash collateral received is deposited into a joint cash account with other funds and is used to invest in a money market fund managed by Franklin Advisers, Inc., an affiliate of the Fund. The Fund may receive income from the investment of cash collateral, in addition to lending fees and rebates paid by the borrower. Income from securities loaned, net of fees paid to the securities lending agent and/ or third-party vendor, is reported separately in the Statement of Operations. The Fund bears the market risk with respect to any cash collateral investment, securities loaned, and the risk that the agent may default on its obligations to the Fund. If the borrower defaults on its obligation to return the securities loaned, the Fund has the right to repurchase the securities in the open market using the collateral received. The securities lending agent has agreed to indemnify the Fund in the event of default by a third party borrower.

#### d. Income and Deferred Taxes

It is the Fund's policy to qualify as a regulated investment company under the Internal Revenue Code. The Fund intends to distribute to shareholders substantially all of its taxable income and net realized gains to relieve it from federal income and excise taxes. As a result, no provision for U.S. federal income taxes is required.

The Fund may be subject to foreign taxation related to income received, capital gains on the sale of securities and certain foreign currency transactions in the foreign jurisdictions in which it invests. Foreign taxes, if any, are recorded based on the tax regulations and rates that exist in the foreign markets in which the Fund invests. When a capital gain tax is determined to apply, the Fund records an estimated deferred tax liability in an amount that would be payable if the securities were disposed of on the valuation date.

## 1. Organization and Significant Accounting Policies (continued)

#### d. Income and Deferred Taxes (continued)

As a result of several court cases, in certain countries across the European Union, the Fund filed additional tax reclaims for previously withheld taxes on dividends earned in those countries (EU reclaims). Income recognized, if any, for EU reclaims is reflected as other income in the Statement of Operations and any related receivable, if any, is reflected as European Union tax reclaims in the Statement of Assets and Liabilities. Any fees associated with these filings are reflected in other expenses in the Statement of Operations. When uncertainty exists as to the ultimate resolution of these proceedings, the likelihood of receipt of these EU reclaims, and the potential timing of payment, no amounts are reflected in the financial statements. For U.S. income tax purposes, EU reclaims received by the Fund, if any, reduce the amount of foreign taxes Fund shareholders can use as tax deductions or credits on their income tax returns. In the event that EU reclaims received by the Fund during a fiscal year exceed foreign withholding taxes paid by the Fund, and the Fund previously passed through to its shareholders foreign taxes incurred by the Fund to be used as a credit or deduction on a shareholder's income tax return, the Fund will enter into a closing agreement with the Internal Revenue Service (IRS) in order to pay the associated tax liability on behalf of the Fund's shareholders. During the fiscal year ended August 31, 2022, the Fund received EU reclaims in excess of the foreign taxes paid during the year. The Fund determined to enter into a closing agreement with the IRS and recorded the estimated payments as a reduction to income, as reflected in the Statement of Operations.

The Fund may recognize an income tax liability related to its uncertain tax positions under U.S. GAAP when the uncertain tax position has a less than 50% probability that it will be sustained upon examination by the tax authorities based on its technical merits. As of August 31, 2022, the Fund has determined that no tax liability is required in its financial statements related to uncertain tax positions for any open tax years (or expected to be taken in future tax years). Open tax years are those that remain subject to examination and are based on the statute of limitations in each jurisdiction in which the Fund invests.

## e. Security Transactions, Investment Income, Expenses and Distributions

Security transactions are accounted for on trade date. Realized gains and losses on security transactions are determined on a specific identification basis. Interest income and estimated expenses are accrued daily. Amortization of premium and accretion of discount on debt securities are included in interest income. Dividend income is recorded on the ex-dividend date except for certain dividends from securities where the dividend rate is not available. In such cases, the dividend is recorded as soon as the information is received by the Fund. Distributions to shareholders are recorded on the ex-dividend date. Distributable earnings are determined according to income tax regulations (tax basis) and may differ from earnings recorded in accordance with U.S. GAAP. These differences may be permanent or temporary. Permanent differences are reclassified among capital accounts to reflect their tax character. These reclassifications have no impact on net assets or the results of operations. Temporary differences are not reclassified, as they may reverse in subsequent periods.

Realized and unrealized gains and losses and net investment income, excluding class specific expenses, are allocated daily to each class of shares based upon the relative proportion of net assets of each class. Differences in per share distributions by class are generally due to differences in class specific expenses.

#### f. Accounting Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

#### g. Guarantees and Indemnifications

Under the Fund's organizational documents, its officers and directors are indemnified by the Fund against certain liabilities arising out of the performance of their duties to the Fund. Additionally, in the normal course of business, the Fund enters into contracts with service providers that contain general indemnification clauses. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. Currently, the Fund expects the risk of loss to be remote.

Under an agreement with Global Advisors, FT Services provides administrative services to the Fund. The fee is paid by Global Advisors based on the Fund's average daily net assets, and is not an additional expense of the Fund.

#### c. Distribution Fees

The Board has adopted distribution plans for each share class, with the exception of Class R6 and Advisor Class shares, pursuant to Rule 12b-1 under the 1940 Act. Under the Fund's Class A reimbursement distribution plan, the Fund reimburses Distributors for costs incurred in connection with the servicing, sale and distribution of the Fund's shares up to the maximum annual plan rate. Under the Class A reimbursement distribution plan, costs exceeding the maximum for the current plan year cannot be reimbursed in subsequent periods. In addition, under the Fund's Class C and R compensation distribution plans, the Fund pays Distributors for costs incurred in connection with the servicing, sale and distribution of the Fund's shares up to the maximum annual plan rate for each class. The plan year, for purposes of monitoring compliance with the maximum annual plan rates, is February 1 through January 31.

The maximum annual plan rates, based on the average daily net assets, for each class, are as follows:

Class A	0.25%
Class C.	1.00%
Class R	0.50%

#### 3. Transactions with Affiliates (continued)

#### d. Sales Charges/Underwriting Agreements

Front-end sales charges and contingent deferred sales charges (CDSC) do not represent expenses of the Fund. These charges are deducted from the proceeds of sales of Fund shares prior to investment or from redemption proceeds prior to remittance, as applicable. Distributors has advised the Fund of the following commission transactions related to the sales and redemptions of the Fund's shares for the year:

Sales charges retained net of commissions paid to unaffiliated brokers/dealers	\$192,834
CDSC retained	\$5,783

#### e. Transfer Agent Fees

Each class of shares pays transfer agent fees to Investor Services for its performance of shareholder servicing obligations. The fees are based on an annualized asset based fee of 0.02% plus a transaction based fee. In addition, each class reimburses Investor Services for out of pocket expenses incurred and, except for Class R6, reimburses shareholder servicing fees paid to third parties. These fees are allocated daily based upon their relative proportion of such classes' aggregate net assets. Class R6 pays Investor Services transfer agent fees specific to that class.

For the year ended August 31, 2022, the Fund paid transfer agent fees of \$6,844,888, of which \$3,909,470 was retained by Investor Services.

#### f. Investments in Affiliated Management Investment Companies

The Fund invests in one or more affiliated management investment companies. As defined in the 1940 Act, an investment is deemed to be a "Controlled Affiliate" of a fund when a fund owns, either directly or indirectly, 25% or more of the affiliated fund's outstanding shares or has the power to exercise control over management or policies of such fund. The Fund does not invest for purposes of exercising a controlling influence over the management or policies. Management fees paid by the Fund are waived on assets invested in the affiliated management investment companies, as noted in the Statement of Operations, in an amount not to exceed the management and administrative fees paid directly or indirectly by each affiliate. During the year ended August 31, 2022, the Fund held investments in affiliated management investment companies as follows:

	Value at Beginning of Year	Purchases	Sales	Realized Gain (Loss)	Net Change in Unrealized Appreciation (Depreciation)	Value at End of Year	Number of Shares Held at End of Year	Investment Income
Templeton Growth Fund, Inc.

#### g. Waiver and Expense Reimbursements

28

Investor Services has contractually agreed in advance to waive or limit its fees so that the Class R6 transfer agent fees do not exceed 0.03% based on the average net assets of the class until December 31, 2022.

#### 3. Transactions with Affiliates (continued)

#### h. Other Affiliated Transactions

During the year ended August 31, 2021, the Franklin Global Allocation Fund (formerly Franklin Founding Funds Allocation Fund) (Allocation Fund), a series of the Franklin Fund Allocator Series, repositioned to a direct investment fund and subsequently fully redeemed out of the Fund. As a result, on January 29, 2021, the Fund delivered portfolio securities and cash that were transferred in-kind to the Allocation Fund, which included \$161,407,329 of net realized gains. As such gains are not taxable to the Fund and are not distributed to remaining shareholders, they are reclassified from accumulated net realized gains to paid-in capital.

#### 4. Income Taxes

For tax purposes, capital losses may be carried over to offset future capital gains.

At August 31, 2022, the capital loss carryforwards were as follows:

Capital loss carryforwards not subject to expiration:

Short term	\$96,571,211
Long term	260,731,930
Total capital loss carryforwards	\$357,303,141

During the year ended August 31, 2022 the Fund utilized \$675,307,332 of capital loss carryforwards.

The tax character of distributions paid during the years ended August 31, 2022 and 2021, was as follows:

	2022	2021
Distributions paid from:		
Ordinary income	\$160,941,704	\$110,850,988

At August 31, 2022, the cost of investments, net unrealized appreciation (depreciation) and undistributed ordinary income for income tax purposes were as follows:

Oost of investments	Ψ1,131,300,240
Unrealized appreciation	\$899,239,809
Unrealized depreciation	(1,052,333,411)
Net unrealized appreciation (depreciation).	\$(153,093,602)
Distributable earnings:	
Distributable earnings.	
Undistributed ordinary income	\$57,740,212

Differences between income and/or capital gains as determined on a book basis and a tax basis are primarily due to foreign currency transactions, wash sales, EU reclaims and corporate actions.

#### 5. Investment Transactions

Purchases and sales of investments (excluding short term securities) for the year ended August 31, 2022, aggregated \$3,586,809,027 and \$4,342,342,453, respectively.

#### 5. Investment Transactions (continued)

At August 31, 2022, in connection with securities lending transactions, the Fund loaned equity investments and received \$54,376,208 of cash collateral. The gross amount of recognized liability for such transactions is included in payable upon return of securities loaned in the Statement of Assets and Liabilities. The agreements can be terminated at any time.

#### 6. Concentration of Risk

Investing in foreign securities may include certain risks and considerations not typically associated with investing in U.S. securities, such as fluctuating currency values and changing local, regional and global economic, political and social conditions, which may result in greater market volatility. Political and financial uncertainty in many foreign regions may increase market volatility and the economic risk of investing in foreign securities. In addition, certain foreign securities may not be as liquid as U.S. securities.

#### 7. Geopolitical Risk

On February 24, 2022, Russia engaged in military actions in the sovereign territory of Ukraine. The current political and financial uncertainty surrounding Russia and Ukraine may increase market volatility and the economic risk of investing in securities in these countries and may also cause uncertainty for the global economy and broader financial markets. The ultimate fallout and long-term impact from these events are not known. The Fund will continue to assess the impact on valuations and liquidity and will take any potential actions needed in accordance with procedures approved by the Board.

#### 8. Novel Coronavirus Pandemic

The global outbreak of the novel coronavirus disease, known as COVID-19, has caused adverse effects on many companies, sectors, nations, regions and the markets in general, and may continue for an unpredictable duration. The effects of this pandemic may materially impact the value and performance of the Fund, its ability to buy and sell fund investments at appropriate valuations and its ability to achieve its investment objectives.

#### 9. Credit Facility

The Fund, together with other U.S. registered and foreign investment funds (collectively, Borrowers), managed by Franklin Templeton, are borrowers in a joint syndicated senior unsecured credit facility totaling \$2.675 billion (Global Credit Facility) which matures on February 3, 2023. This Global Credit Facility provides a source of funds to the Borrowers for temporary and emergency purposes, including the ability to meet future unanticipated or unusually large redemption requests.

Under the terms of the Global Credit Facility, the Fund shall, in addition to interest charged on any borrowings made by the Fund and other costs incurred by the Fund, pay its share of fees and expenses incurred in connection with the implementation and maintenance of the Global Credit Facility, based upon its relative share of the aggregate net assets of all of the Borrowers, including an annual commitment fee of 0.15% based upon the unused portion of the Global Credit Facility. These fees are reflected in other expenses in the Statement of Operations. During the year ended August 31, 2022, the Fund did not use the Global Credit Facility.

#### 10. Fair Value Measurements

The Fund follows a fair value hierarchy that distinguishes between market data obtained from independent sources (observable inputs) and the Fund's own market assumptions (unobservable inputs). These inputs are used in determining the value of the Fund's financial instruments and are summarized in the following fair value hierarchy:

• Level 1 – quoted prices in active markets for identical financial instruments

#### 10. Fair Value Measurements (continued)

- Level 2 other significant observable inputs (including quoted prices for similar financial instruments, interest rates, prepayment speed, credit risk, etc.)
- Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of financial instruments)

The input levels are not necessarily an indication of the risk or liquidity associated with financial instruments at that level.

A summary of inputs used as of August 31, 2022, in valuing the Fund's assets carried at fair value, is as follows:

#### 11. New Accounting Pronouncements

In June 2022, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2022-03, Fair Value Measurement (Topic 820) – Fair Value Measurement of Equity Securities Subject to Contractual Sale Restrictions. The amendments in the ASU clarify that a contractual restriction on the sale of an equity security is not considered part of the unit of account of the equity security and, therefore, should not be considered in measuring fair value. The ASU is effective for interim and annual reporting periods beginning after December 15, 2023, with the option of early adoption. Management is currently evaluating the impact, if any, of applying this ASU.

#### 12. Subsequent Events

The Fund has evaluated subsequent events through the issuance of the financial statements and determined that no events have occurred that require disclosure.

b Includes foreign securities valued at \$3,046,921,375, which were categorized as Level 2 as a result of the application of market level fair value procedures. See the Financial Instrument Valuation note for more information.

The Sarbanes-Oxley Act of 2002 and Rules adopted by the U.S. Securities and Exchange Commission require the Fund to disclose whether the Fund's Audit Committee includes at least one member who is an audit committee financial expert within the meaning of such Act and Rules. The Fund's Board has determined that there is at least one such financial expert on the Audit Committee and has designated each of Ann Torre Bates and David W. Niemiec as an audit committee financial expert. The Board believes that Ms. Bates and Mr. Niemiec qualify as such an expert in view of their extensive business background and experience. Ms. Bates has served as a member of the Fund Audit Committee since 2008. She currently serves as a director of Ares Capital Corporation (2010-present) and United Natural Foods, Inc. (2013-present) and was formerly a director of Navient Corporation from 2014 to 2016, SLM Corporation from 1997 to 2014 and Allied Capital Corporation from 2003 to 2010, Executive Vice President and Chief Financial Officer of NHP Incorporated from 1995 to 1997 and Vice President and Treasurer of US Airways, Inc. until 1995. Mr. Niemiec has served as a member of the Fund Audit Committee since 2005, currently serves as an Advisor to Saratoga Partners and was formerly its Managing Director from 1998 to 2001 and serves as a director of Hess Midstream LP (2017-present). Mr. Niemiec was formerly a director of Emeritus Corporation from 1999 to 2010 and OSI Pharmaceuticals, Inc. from 2006 to 2010, Managing Director of SBC Warburg Dillon Read from 1997 to 1998, and was Vice Chairman from 1991 to 1997 and Chief Financial Officer from 1982 to 1997 of Dillon, Read & Co. Inc. As a result of such background and experience, the Board believes that Ms. Bates and Mr. Niemiec have each acquired an understanding of generally accepted accounting principles and financial statements, the general application of such principles in connection with the accounting estimates, accruals and reserves, and analyzing and evaluating financial statements that present a breadth and level of complexity of accounting issues generally comparable to those of the Fund, as well as an understanding of internal controls and procedures for financial reporting and an understanding of audit committee functions. Ms. Bates and Mr. Niemiec are independent Board members as that term is defined under the applicable U.S. Securities and Exchange Commission Rules and Releases.

### Shareholder Information

### Liquidity Risk Management Program

Each Fund has adopted and implemented a written Liquidity Risk Management Program (the "LRMP") as required by Rule 22e-4 under the Investment Company Act of 1940 (the "Liquidity Rule"). The LRMP for the Franklin Templeton and Legg Mason Funds is designed to assess and manage each Fund's liquidity risk, which is defined as the risk that the Fund could not meet requests to redeem shares issued by the Fund without significant dilution of remaining investors' interests in the Fund. In accordance with the Liquidity Rule, the LRMP includes policies and procedures that provide for: (1) assessment, management, and review (no less frequently than annually) of each Fund's liquidity risk; (2) classification of each Fund's portfolio holdings into one of four liquidity categories (Highly Liquid, Moderately Liquid, Less Liquid, and Illiquid); (3) for Funds that do not primarily hold assets that are Highly Liquid, establishing and maintaining a minimum percentage of the Fund's net assets in Highly Liquid investments (called a "Highly Liquid Investment Minimum" or "HLIM"); and (4) prohibiting the Fund's acquisition of Illiquid investments that would result in the Fund holding more than 15% of its net assets in Illiquid assets. The LRMP also requires reporting to the Securities and Exchange Commission ("SEC") (on a non-public basis) and to the Board if the Fund's holdings of Illiquid assets exceed 15% of the Fund's net assets. Funds with HLIMs must have procedures for addressing HLIM shortfalls, including reporting to the Board and, with respect to HLIM shortfalls lasting more than seven consecutive calendar days, reporting to the SEC (on a non-public basis).

The Director of Liquidity Risk within the Investment Risk Management Group (the "IRMG") is the appointed Administrator of the LRMP. The IRMG maintains the Investment Liquidity Committee (the "ILC") to provide oversight and administration of policies and procedures governing liquidity risk management for Franklin Templeton and Legg Mason products and portfolios. The ILC includes representatives from Franklin Templeton's Risk, Trading, Global Compliance, Legal, Investment Compliance, Investment Operations, Valuation Committee, Product Management and Global Product Strategy.

In assessing and managing each Fund's liquidity risk, the ILC considers, as relevant, a variety of factors, including the Fund's investment strategy and the liquidity of its portfolio investments during both normal and reasonably foreseeable stressed conditions; its short and long-term cash flow projections; and its cash holdings and access to

other funding sources including the Funds' interfund lending facility and line of credit. Classification of the Fund's portfolio holdings in the four liquidity categories is based on the number of days it is reasonably expected to take to convert the investment to cash (for Highly Liquid and Moderately Liquid holdings) or sell or dispose of the investment (for Less Liquid and Illiquid investments), in current market conditions without significantly changing the investment's market value.

Each Fund primarily holds liquid assets that are defined under the Liquidity Rule as "Highly Liquid Investments," and therefore is not required to establish an HLIM. Highly Liquid Investments are defined as cash and any investment reasonably expected to be convertible to cash in current market conditions in three business days or less without the conversion to cash significantly changing the market value of the investment.

At meetings of the Funds' Board of Trustees held in May 2022, the Program Administrator provided a written report to the Board addressing the adequacy and effectiveness of the program for the year ended December 31, 2021. The Program Administrator report concluded that (i.) the LRMP, as adopted and implemented, remains reasonably designed to assess and manage each Fund's liquidity risk; (ii.) the LRMP, including the Highly Liquid Investment Minimum ("HLIM") where applicable, was implemented and operated effectively to achieve the goal of assessing and managing each Fund's liquidity risk; and (iii.) each Fund was able to meet requests for redemption without significant dilution of remaining investors' interests in the Fund.
