富蘭克林坦伯頓世界基金 財務報告附註

1. 組織結構與重要會計政策

坦伯頓基金公司(Templeton Funds)是依據美國 1940 年投資公司法案(簡稱為 1940 法案)註 冊成立的開放式投資公司,其包括兩支個別基金。本基金遵循美國財務會計準則委員會(FASB) 所認定之 Accounting Standards Codification Topic 946(財務服務:投資公司(ASC946))且採用美國一般公認會計原則(U.S. GAAP)之專業會計和報導指南,包括但不限於 ASC946。本報告為富蘭克林坦伯頓世界基金(以下稱本基金)。本基金提供四種股份類別:A 股、C 股、R6 股及 Advisor 股。C 股在持有 8 年後每月將自動轉為 A 股。各股份類別的首次銷售手續費、或有遞延銷售手續費、對單一股份具影響之事件的投票權、轉換權益、不同約定之分銷費用及股務代理機構費用皆有所不同。

本基金重要會計政策摘要如下:

a. 財務工具評價

本基金為每日以公平價值(fair value)評價投資的財務工具。公平價值是市場參與者於秩序交易中,賣出資產或轉移負債於衡量日所被買賣參與者接受的價格。本基金在每個營業日的美東時間下午四點或紐約證券交易所(NYSE)正常排定的收盤時間計算每股淨資產價值(NAV),以較早者為準。在基金董事會(董事會)所核准的政策及程序下,董事會已指定基金的投資經理為評價指定人,並負責監督評價。投資經理在基金管理人的協助下履行此職責,亦包括領導跨職能評價委員會(the Valuation Committee(VC))。本基金得以利用獨立定價服務、來自證券和財務工具的交易商所提供的報價及其他市場資訊來決定公平價值。

在證券交易所或那斯達克交易系統掛牌之股票是分別以最後公告售價或當日官方收盤價格計價。外國證券是以證券主要交易之外國證券交易所或是東部時間下午四點的收盤價估值,其價格將以外國證券依當日東部時間下午四點的收盤匯率被轉換成美元後的價值而定。店頭市場交易證券其估值則不超過最近一次的買賣報價範圍。同時在多個市場或多個交易所進行交易的證券,其估值則以最具廣度和代表性之市場的報價為準。某些股權證券是以類似證券的基本特徵或關係為評價基礎。

投資於開放式共同基金是以結算後的淨資產價值評價。投資於定期存款是以成本評價,其成本接近公平價值。

當財務工具缺乏可以信賴或是無法獲得市場價格時,本基金採用一些程序來決定其公平價值。在這些程序下,本基金主要使用市場基礎法(market-based approach),即使用相關或可比較之資產或負債、近期交易、市場乘數及其他相關資訊來決定投資之公平價值。收益基礎衡量法(income-based valuation approach)也可用於投資之預期未來現金流量折價以計算公平價值。由於處分投資的限制的本質或是存續期間,可能也使用折價來計算。由於此類投資評價固有的不確定性,其公平價值與交易市場的價格可能會有顯著的差異。

於外國證券交易所及店頭交易市場掛牌證券的交易,可能早於東部時間下午四點時間。此外,某些外國市場的交易並不會發生在每一個基金的營業日內。有時候,在外國證券交易完畢與東部時間下午四點之間的時間裡發生的事件可能對本基金所持有之投資組合證券價值的可信度造成影響。因此,由外國市場收盤後所決定之基金組合證券價格與東部時間下午四點最近的價格間,可能會產生差異。為了最小化這些潛在的差異,本基金得採用獨立定價服務將投資組合證券的價值調整至東部時間下午四點最新指標的公平價值。截至 2024 年 8 月 31 日,部分證券已使用公平價值程序來定價,在這種情況下,這些證券被分類為公平價值衡量層級

- 1. 組織結構與重要會計政策(承續前文)
- a. 財務工具評價(承續前文)

中的等級 2 (稱為"市場公平價值")。更多說明,請參閱"公平價值衡量"附註。

當申報期間的最後一日為非營業日時,某些外國市場是在基金的淨值未被計算時營業,此可能造成基金投資組合證券的價值在申報期間的最後營業日及最後日曆日間所有差異。任何因外國市場開市所造成之顯著證券價值變動將被基金為反映財務申報目的而進行調整和反映。

b. 外幣轉換

投資組合中以外幣結算的證券以及其他資產與負債,是在估值日以這類外幣對美元的匯率轉換成美元來定價。本基金可能簽訂外匯契約協助以外幣計價的交易。以外幣結算之證券的申購與銷售,收益與費用項目是以在交易日生效的匯率轉換成美元來定價。以外幣計價之投資組合證券、資產及負債包含這些外幣相對於美元價值下跌的風險。有時候,事件的發生可能影響外幣對美元匯率的可獲得性或可信度。若有此類事件發生,將以本基金董事會所建立並核准之程序來確定該匯率的公平價值。

本基金不會單獨報告由於持有證券的市價變動而引起的外幣匯率變動的結果。這類的變動已包含在經營業績表的淨實現與未實現投資利益或損失中。

已實現的匯兌利得或損失來自於外幣銷售、在證券的交易日與交割日之間所實現的貨幣利得或損失及股利、利息、外國預扣稅的紀錄金額與其實際交付的等值美元金額之間的差異。淨未實現匯兌利得或損失來自於在報告期末除所持有的投資證券之外,以外幣結算之資產與負債的外幣匯率變動。

C. 證券借貸

本基金參與一項代理機構基礎之證券借貸計劃以賺取額外的收益。本基金收取相當於所借出證券之公平價值至少 102%的金額之現金及/或美國政府機構證券作為擔保品。在此借貸的存續期間內擔保品的金額不低於該借出證券公平價值(在基金各營業日結束時評定)的 100%,任何因證券價值變動而須追加的擔保品必須於次一營業日交付給本基金。任何現金擔保品與其他基金被存入聯合現金帳戶並習慣被投資於富蘭克林顧問公司(本基金的關係企業)所管理的貨幣市場基金裡。本基金收取來自現金擔保品的投資收益,以及從借貸者收取出借費用。來自借出證券的收益,扣除支付予證券借貸機構以及/或是第三方供應商的費用,已分別記錄來自借出證券的收益,扣除支付予證券借貸機構以及/或是第三方供應商的費用,已分別記錄構違反其對本基金義務的風險。如果借貸者違反其應返還借出證券的義務,本基金有權利運用所收取的擔保品於公開市場再買回這些證券。證券借貸機構已同意賠償本基金由第三方借入者產生的違約風險。截至 2024 年8 月 31 日,本基金無借出證券。

d. 所得稅及遞延稅

按照基金政策,本基金必须符合美國稅務法對於投資公司的規定,對股東分配幾乎所有的應稅收益與淨實現利益以免於繳納聯邦所得稅及特許權稅,因此無需預提美國聯邦所得稅。

本基金在外國管轄區域的投資所收取的收益、證券售出的資本利得以及一些外匯交易可能須繳納外國稅捐。如有外國稅捐,其金額將依據本基金所投資之外國市場實施的稅務法規與稅率申報。如外國對淨實現利得加以課稅,本基金將記錄預估的遞延稅賦義務,其金額相當於當證券在評價日交易須支付的稅額。

由於遍及歐盟一些國家的幾個訴訟案件結果,本基金已經為以前在這些國家所賺取股利的代

扣稅款申報追加的回收稅款(歐盟回收)。已認可收益,若有的話,這些歐盟回收金額是以其他收益反映於經營業績表中,而任何相關應收款項,若有的話,是以歐盟稅款回收反映於資產負債表中。而與以上相關之費用也將反映在經營業績表的其他費用上。當這些訴訟的最終裁決、取得這些回收稅款的可能性以及付款的可能時間安排尚存有不確定性時,則無金額得以被反映於財務報表中。就美國所得稅目的,本基金所收取的歐盟回收稅款,若有的話,將一個財政年度收到的歐盟回收款項超過本基金支付的外國預扣稅,並且本基金之前已將其轉嫁給其股東的外國稅款用於作為股東收入的抵免或扣除納稅,本基金將與美國國稅局 (IRS)簽訂結算協議,以代表本基金的股東支付相關的納稅義務。在截至 2024 年 8 月 31 日的財政年度期間,基金收到了超過當年支付的外國稅款的歐盟回收退稅。本基金已決定與 IRS 達成一項結算協議,並在經營業績表中將估計費用計為收益的減項。

只有當稅務機關基於稅項的技術優勢進行依據美國一般公認會計原則(U.S.GAAP)審查時認為不明確稅項低於50%的可能性將持續的情況下,本基金才會承認不明確稅項的賦稅利益。於截至2024年8月31日止及所有開放稅賦年度,本基金認為沒有因被要求於納稅申報表所揭有關不明確稅項之納稅申報(或預計在未來進行納稅申報)之未承認賦稅利益而產生的負債。開放稅賦年度為基於稅賦管轄權之法定時效限制下仍須接受審查的年度。

e. 證券交易、投資收益、費用及配息

證券交易是在交易日作入帳。證券交易之已實現利得或損失則決定於特定基礎。利息收入(若有的話,包括實物支付證券的利息收入)與預估費用則每日計提。股利收入是在除息日入帳,除了某些來自外國證券的股利是在本基金接獲除息日通知才立即認定。對股東的配息是在除息日入帳並且依據所得稅法(稅基)確定。以稅基所決定的可分配盈餘可能不同於依照一般美國公認會計準則所紀錄的盈餘。這些差異可能是永久或是暫時的。在資本帳戶中,永久性差異將被重新分類以反映其稅賦特性。這些

重新分類對淨資產或是經營業績並不會造成影響。暫時性差異則不用重新分類,因為差異在 後續期間將會迴轉。

本信託所產生的共同費用,將依個別基金的淨資產估本基金的總淨資產的比率來配置到各別基金或基於每個基金的股東人數與信託股東總數的比率,個別基金單獨產生的費用將直接記錄在招致此費用的基金帳內。

已實現與未實現利得與損失以及淨投資收益(股份等級特定費用除外),是依照個別股份等級的淨資產之相對比重而每日分配到個別股份等級。股份等級的費用差異可能導致各股份等級每股配息款項的差異。

f. 會計估計

管理階層依照美國一般公認的會計準則(U.S.GAAP)編制財務報表時需要做出會計估計與假設。這些會計估計與假設會影響於財務報表日的資產與負債金額以及在財務報表期間的收入與費用金額。實際結果可能與估計值不同。

g. 保證及賠償

在本基金的組織文件規定下,本信託同意免除其主管與董事在某些超越其職責範圍而發生的負債的責任。此外,在正常業務狀況下,本信託代表本基金與服務提供機構簽訂契約也包含責任免除條款。本信託在這些免責條款下的最大風險是未知的,因為涉及未來可能對本信託

年度財務報告/附屬的財務報表附註是財務報表的一部份

6. 集中風險(承續前文)

例如貨幣價值的波動及當地與地區經濟、政治及社會情況的變動等,該因素可能導致大幅度的市場波動。國外地區目前政治和金融的不確定性可能會增加市場的波動,以及在外國投資證券的經濟風險。此外,某些外國證券的流動性可能低於美國證券。

7. 信用工具

本基金與富蘭克林坦伯頓基金集團所管理的其他美國註冊以及外國投資基金(全體地,以下稱「全體借用人」)共同簽定一項於2025年1月31日到期之貸款總額為26.75億美元的優先無擔保聯合全球信用貸款(以下稱「全球信用工具」)。全球信用工具其為一項資金來源,以提供予全體借用人因應暫時與緊急目的,包括有能力去應付未來無預期或不尋常的大量贖回需求。

依據全球信用工具條款,本基金除了應負擔所動用任何貸款的利息,以及由本基金所產生的其他成本之外,尚須依據本基金佔全體借用人淨資產總額的相對持份比例,分攤履行及維持全球信用工具所產生的費用及支出,包括年度承諾費用為0.15%,基於全球信用工具的未使用部分。該費用已反映於經營業績表的其他費用裡。截至2024年8月31日止,本基金並未動用全球信用工具貸款。

8. 公平價值衡量

Templeton World Fund

Class A [TEMWX]

Annual Shareholder Report | August 31, 2024

This annual shareholder report contains important information about Templeton World Fund for the period September 1, 2023, to August 31, 2024.

You can find additional information about the Fund at https://www.franklintempleton.com/regulatory-fund-documents. You can also request this information by contacting us at (800) DIAL BEN/342-5236.

This report describes changes to the Fund that occurred during the reporting period.

WHAT WERE THE FUND COSTS FOR THE LAST YEAR? (based on a hypothetical \$10,000 investment)

Class Name	Costs of a \$10,000 investment	Costs paid as a percentage of a \$10,000 investment*
Class A	\$117	1.03%

Reflects fee waivers and/or expense reimbursements, without which expenses would have been higher.

HOW DID THE FUND PERFORM LAST YEAR AND WHAT AFFECTED ITS PERFORMANCE?

For the twelve months ended August 31, 2024, Class A shares of Templeton World Fund returned 27.48%. The Fund compares its performance to the MSCI All Country World Index-NR, which returned 23.44% for the same period.

PERFORMANCE HIGHLIGHTS

Top contributors to performance:

- † Stock selection in the industrials sector was the largest contributor to relative performance for the period. Rolls-Royce, a U.K.-based aerospace and defense group was the top individual relative contributor.
- † Semiconductor manufacturers TSMC, Tokyo Electron, and Applied Materials contributed to relative returns as many investors priced in faster-than-expected growth in production due to expectations of rising demand from AI.
- ↑ SAP, a Germany-based multinational software company, made a significant contribution to relative performance as it also benefited from Al-related momentum.

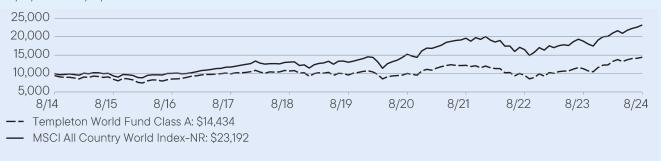

Top detractors from performance:

- ↓ Albemarle, a U.S.-based lithium producer within the electric vehicle (EV) supply chain, was a significant relative detractor, with shares coming under pressure as the lithium price reached multi-year lows. The Fund eliminated Albemarle given the changing supply and demand dynamics for lithium and little free cash flow support in the near term.
- ↓ Soitec, a French semiconductor company, detracted from relative performance as the company reported that pandemic related inventory destocking was taking longer than expected and sales for 2025 would be flat year-over-year versus consensus expectations. The Fund eliminated its position on corporate governance concerns.
- ↓ Bayer, a Germany-based multinational pharmaceutical firm, underperformed and detracted from relative performance following an announcement that it had halted a Phase 3 trial of a promising new drug after establishing that the drug did not work as well as it had hoped (not held at period-end).

HOW DID THE FUND PERFORM OVER THE LAST 10 YEARS?

The Fund's past performance is not necessarily an indication of how the Fund will perform in the future. The graph and table do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or redemption of Fund shares.

Notes to Financial Statements

1. Organization and Significant Accounting Policies

Templeton Funds (Trust) is registered under the Investment Company Act of 1940 (1940 Act) as an open-end management investment company, consisting of two separate funds (Funds). The Funds follow the accounting and reporting guidance in Financial Accounting Standards Board (FASB) Accounting Standards Codification Topic 946, Financial Services – Investment Companies (ASC 946) and apply the specialized accounting and reporting guidance in U.S. Generally Accepted Accounting Principles (U.S. GAAP), including, but not limited to, ASC 946. The classes of shares offered within each of the Funds are indicated below. Class C shares automatically convert to Class A shares on a monthly basis, after they have been held for 8 years. Each class of shares may differ by its initial sales load, contingent deferred sales charges, voting rights on matters affecting a single class, its exchange privilege and fees due to differing arrangements for distribution and transfer agent fees.

The following summarizes the Funds' significant accounting policies.

a. Financial Instrument Valuation

The Funds' investments in financial instruments are carried at fair value daily. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. The Funds calculate the net asset value (NAV) per share each business day as of 4 p.m. Eastern time or the regularly scheduled close of the New York Stock Exchange (NYSE), whichever is earlier. Under compliance policies and procedures approved by the Trust's Board of Trustees (the Board), the Board has designated the Funds' investment manager as the valuation designee and has responsibility for oversight of valuation. The investment manager is assisted by the Funds' administrator in performing this responsibility, including leading the crossfunctional Valuation Committee (VC). The Funds may utilize

independent pricing services, quotations from securities and financial instrument dealers, and other market sources to determine fair value.

Equity securities listed on an exchange or on the NASDAQ National Market System are valued at the last quoted sale price or the official closing price of the day, respectively. Foreign equity securities are valued as of the close of trading on the foreign stock exchange on which the security is primarily traded, or as of 4 p.m. Eastern time. The value is then converted into its U.S. dollar equivalent at the foreign exchange rate in effect at 4 p.m. Eastern time on the day that the value of the security is determined. Over-the-counter (OTC) securities are valued within the range of the most recent quoted bid and ask prices. Securities that trade in multiple markets or on multiple exchanges are valued according to the broadest and most representative market. Certain equity securities are valued based upon fundamental characteristics or relationships to similar securities.

Investments in open-end mutual funds are valued at the closing NAV. Investments in time deposits are valued at cost, which approximates fair value.

The Funds have procedures to determine the fair value of financial instruments for which market prices are not reliable or readily available. Under these procedures, the Funds primarily employ a market-based approach which may use related or comparable assets or liabilities, recent transactions, market multiples, and other relevant information for the investment to determine the fair value of the investment. An income-based valuation approach may also be used in which the anticipated future cash flows of the investment are discounted to calculate fair value. Discounts may also be applied due to the nature or duration of any restrictions on the disposition of the investments. Due to the inherent uncertainty of valuations of such investments, the fair values may differ significantly from the values that would have been used had an active market existed.

Trading in securities on foreign securities stock exchanges and OTC markets may be completed before 4 p.m. Eastern time. In addition, trading in certain foreign markets may not take place on every Funds' business day. Events can occur between the time at which trading in a foreign security is completed and 4 p.m. Eastern time that might call into question the reliability of the value of a portfolio security held by the Fund. As a result, differences may arise between the value of the Funds' portfolio securities as determined at the foreign market close and the latest indications of value at

1. Organization and Significant Accounting Policies (continued)

a. Financial Instrument Valuation (continued)

4 p.m. Eastern time. In order to minimize the potential for these differences, an independent pricing service may be used to adjust the value of the Funds' portfolio securities to the latest indications of fair value at 4 p.m. Eastern time. At August 31, 2024, certain securities may have been fair valued using these procedures, in which case the securities were categorized as Level 2 within the fair value hierarchy (referred to as "market level fair value"). See the Fair Value Measurements note for more information.

When the last day of the reporting period is a non-business day, certain foreign markets may be open on those days that the Funds' NAV is not calculated, which could result in differences between the value of the Funds' portfolio securities on the last business day and the last calendar day of the reporting period. Any security valuation changes due to an open foreign market are adjusted and reflected by the Funds for financial reporting purposes.

b. Foreign Currency Translation

Portfolio securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars based on the exchange rate of such currencies against U.S. dollars on the date of valuation. The Funds may enter into foreign currency exchange contracts to facilitate transactions denominated in a foreign currency. Purchases and sales of securities, income and expense items denominated in foreign currencies are translated into U.S. dollars at the exchange rate in effect on the transaction date. Portfolio securities and assets and liabilities denominated in foreign currencies contain risks that those currencies will decline in value relative to the U.S. dollar. Occasionally, events may impact the availability or reliability of foreign exchange rates used to convert the U.S. dollar equivalent value. If such an event occurs, the foreign exchange rate will be valued at fair value using procedures established and approved by the Board.

The Funds do not separately report the effect of changes in foreign exchange rates from changes in market prices on securities held. Such changes are included in net realized and unrealized gain or loss from investments in the Statements of Operations.

Realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions and the difference between the recorded amounts of dividends, interest, and foreign withholding taxes and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in foreign exchange rates on foreign denominated assets and liabilities other than investments in securities held at the end of the reporting period.

c. Securities Lending

Certain or all Funds participate in an agency based securities lending program to earn additional income. The Fund receives collateral in the form of cash and/or U.S. Government and Agency securities against the loaned securities in an amount equal to at least 102% of the fair value of the loaned securities. Collateral is maintained over the life of the loan in an amount not less than 100% of the fair value of loaned securities, as determined at the close of Fund business each day; any additional collateral required due to changes in security values is delivered to the Fund on the next business day. Any cash collateral received is deposited into a joint cash account with other funds and is used to invest in a money market fund managed by Franklin Advisers, Inc., an affiliate of the Funds. The Fund may receive income from the investment of cash collateral, in addition to lending fees paid by the borrower. Income from securities loaned, net of fees paid to the securities lending agent and/or third-party vendor, is reported separately in the Statements of Operations. The Fund bears the market risk with respect to any cash collateral investment, securities loaned, and the risk that the agent may default on its obligations to the Fund. If the borrower defaults on its obligation to return the securities loaned, the Fund has the right to repurchase the securities in the open market using the collateral received. The securities lending agent has agreed to indemnify the Fund in the event of default by a third party borrower. At August 31, 2024, the Funds had no securities on loan.

d. Income and Deferred Taxes

It is each Fund's policy to qualify as a regulated investment company under the Internal Revenue Code. Each Fund intends to distribute to shareholders substantially all of its

1. Organization and Significant Accounting Policies (continued)

d. Income and Deferred Taxes (continued)

taxable income and net realized gains to relieve it from federal income and excise taxes. As a result, no provision for U.S. federal income taxes is required.

The Funds may be subject to foreign taxation related to income received, capital gains on the sale of securities and certain foreign currency transactions in the foreign jurisdictions in which the Funds invest. Foreign taxes, if any, are recorded based on the tax regulations and rates that exist in the foreign markets in which the Funds invest. When a capital gain tax is determined to apply, certain or all Funds record an estimated deferred tax liability in an amount that would be payable if the securities were disposed of on the valuation date.

As a result of several court cases, in certain countries across the European Union, certain or all Funds filed additional tax reclaims for previously withheld taxes on dividends earned in those countries (EU reclaims). Income recognized, if any, for EU reclaims is reflected as other income in the Statements of Operations and any related receivable, if any, is reflected as European Union tax reclaims in the Statements of Assets and Liabilities. Any fees associated with these filings are reflected in other expenses in the Statements of Operations. When uncertainty exists as to the ultimate resolution of these proceedings, the likelihood of receipt of these EU reclaims, and the potential timing of payment, no amounts are reflected in the financial statements. For U.S. income tax purposes, EU reclaims received by the Fund, if any, reduce the amount of foreign taxes Fund shareholders can use as tax deductions or credits on their income tax returns. In the event that EU reclaims received by the Funds during a fiscal year exceed foreign withholding taxes paid by the Funds, and the Funds previously passed through to its shareholders foreign taxes incurred by the Funds to be used as a credit or deduction on a shareholder's income tax return, the Funds will enter into a closing agreement with the Internal Revenue Service (IRS) in order to pay the associated tax liability on behalf of the Funds' shareholders. During the year ended August 31, 2024, certain or all Funds received EU reclaims in excess of the foreign taxes paid during the year. The Funds previously determined to enter into a closing agreement with the IRS and recorded the estimated payments as a reduction to income, as reflected in the Statements of Operations.

Each Fund may recognize an income tax liability related to its uncertain tax positions under U.S. GAAP when the uncertain tax position has a less than 50% probability that it will be sustained upon examination by the tax authorities based on its technical merits. As of August 31, 2024, each Fund has determined that no tax liability is required in its financial statements related to uncertain tax positions for any open tax years (or expected to be taken in future tax years). Open tax years are those that remain subject to examination and are based on the statute of limitations in each jurisdiction in which the Fund invests.

e. Security Transactions, Investment Income, Expenses and Distributions

Security transactions are accounted for on trade date. Realized gains and losses on security transactions are determined on a specific identification basis. Interest income (including interest income from payment-in-kind securities, if any) and estimated expenses are accrued daily. Dividend income is recorded on the ex-dividend date except for certain dividends from securities where the dividend rate is not available. In such cases, the dividend is recorded as soon as the information is received by the Funds. Distributions to shareholders are recorded on the ex-dividend date. Distributable earnings are determined according to income tax regulations (tax basis) and may differ from earnings recorded in accordance with U.S. GAAP. These differences may be permanent or temporary. Permanent differences are reclassified among capital accounts to reflect their tax character. These reclassifications have no impact on net assets or the results of operations. Temporary differences are not reclassified, as they may reverse in subsequent periods.

Common expenses incurred by the Trust are allocated among the Funds based on the ratio of net assets of each Fund to the combined net assets of the Trust or based on the ratio of number of shareholders of each Fund to the combined number of shareholders of the Trust. Fund specific expenses are charged directly to the Fund that incurred the expense.

Realized and unrealized gains and losses and net investment income, excluding class specific expenses, are allocated daily to each class of shares based upon the relative proportion of net assets of each class. Differences in per share distributions by class are generally due to differences in class specific expenses.

1. Organization and Significant Accounting Policies (continued)

f. Accounting Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

the Trust. Additionally, in the normal course of business, the Trust, on behalf of the Funds, enters into contracts with service providers that contain general indemnification clauses. The Trust's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Trust that have not yet occurred. Currently, the Trust expects the risk of loss to be remote.

g. Guarantees and Indemnifications

Under the Trust's organizational documents, its officers and trustees are indemnified by the Trust against certain liabilities arising out of the performance of their duties to

c. Distribution Fees

The Board has adopted distribution plans for each share class, with the exception of Class R6 and Advisor Class shares, pursuant to Rule 12b-1 under the 1940 Act. Under the Funds' Class A reimbursement distribution plans, the Funds reimburse Distributors for costs incurred in connection with the servicing, sale and distribution of each Fund's shares up to the maximum annual plan rate. Under the Class A reimbursement distribution plans, costs exceeding the maximum for the current plan year cannot be reimbursed in subsequent periods. In addition, under the Funds' Class C and R compensation distribution plans, the Funds pay Distributors for costs incurred in connection with the servicing, sale and distribution of each Fund's shares up to the maximum annual plan rate for each class. The plan year, for purposes of monitoring compliance with the maximum annual plan rates, is February 1 through January 31 for each Fund.

The Funds do not invest for purposes of exercising a controlling influence over the management or policies. Management fees paid by the Funds are waived on assets invested in the affiliated management investment companies, as noted in the Statements of Operations, in an amount not to exceed the management and administrative fees paid directly or indirectly by each affiliate. During the year ended August 31, 2024, investments in affiliated management investment companies were as follows:

g. Waiver and Expense Reimbursements

Global Advisors has contractually agreed in advance to waive or limit its fees and to assume as its own expense certain expenses otherwise payable by Templeton Foreign Fund so that the operating expenses (excluding distribution fees, acquired fund fees and expenses and certain non-routine expenses or costs, including those relating to litigation, indemnification, reorganizations, and liquidations) for each class of the Fund do not exceed 0.85%, and for R6 do not exceed 0.74%, based on the average net assets of each class until December 31, 2024. Total expenses waived or paid are not subject to recapture subsequent to the Fund's fiscal year end.

Transfer agent fees on Class R6 shares of the Funds have been capped so that transfer agent fees for that class do not exceed 0.03% based on the average net assets of the class until December 31, 2024.

Differences between income and/or capital gains as determined on a book basis and a tax basis are primarily due to differing treatments of wash sales, passive foreign investment company shares and corporate actions.

5. Investment Transactions

Purchases and sales of investments (excluding short term securities) for the year ended August 31, 2024, were as follows:

	Templeton	Templeton
	Foreign Fund	World Fund
Purchases	\$1,079,133,149	\$1,315,793,026
Sales	\$1,131,967,150	\$1,629,960,431

6. Concentration of Risk

Investing in foreign securities may include certain risks and considerations not typically associated with investing in U.S. securities, such as fluctuating currency values and changing local, regional and global economic, political and social conditions, which may result in greater market volatility. Political and financial uncertainty in many foreign regions may increase market volatility and the economic risk of investing in foreign securities. In addition, certain foreign securities may not be as liquid as U.S. securities.

Certain investments in Chinese companies are made through a special structure known as a VIE. In a VIE structure, foreign investors, such as Templeton Foreign Fund, will only own stock in a shell company rather than directly in the VIE, which must be owned by Chinese nationals (and/or Chinese companies) to obtain the licenses and/or assets required to operate in a restricted or prohibited sector in China. The value of the shell company is derived from its ability to consolidate the VIE into its financials pursuant to contractual arrangements that allow the shell company to exert a degree of control over, and obtain economic benefits arising from, the VIE without formal legal ownership. While VIEs are a longstanding industry practice and are well known by Chinese officials and regulators, the structure historically has not been formally recognized under Chinese law and it is uncertain whether Chinese officials or regulators will withdraw their implicit acceptance of the structure. It is also uncertain whether the contractual arrangements, which may be subject to conflicts of interest between the legal owners of the VIE and foreign investors, would be enforced by Chinese courts or arbitration bodies. Prohibitions of these structures by the Chinese government, or the inability to enforce such contracts, from which the shell company derives its value, would likely cause the VIE-structured holding(s) to suffer significant, detrimental, and possibly permanent losses, and in turn, adversely affect the Fund's returns and net asset value.

7. Credit Facility

The Funds, together with other U.S. registered and foreign investment funds (collectively, Borrowers), managed by Franklin Templeton, are borrowers in a joint syndicated senior unsecured credit facility totaling \$2.675 billion (Global Credit Facility) which matures on January 31, 2025. This Global Credit Facility provides a source of funds to the Borrowers for temporary and emergency purposes, including the ability to meet future unanticipated or unusually large redemption requests.

Under the terms of the Global Credit Facility, the Funds shall, in addition to interest charged on any borrowings made by the Funds and other costs incurred by the Funds, pay their share of fees and expenses incurred in connection with the implementation and maintenance of the Global Credit Facility, based upon their relative share of the aggregate net assets of all of the Borrowers, including an annual commitment fee of 0.15% based upon the unused portion of the Global Credit Facility. These fees are reflected in other expenses in the Statements of Operations. During the year ended August 31, 2024, the Funds did not use the Global Credit Facility.

8. Fair Value Measurements

30

The Funds follow a fair value hierarchy that distinguishes between market data obtained from independent sources (observable inputs) and the Funds' own market assumptions (unobservable inputs). These inputs are used in determining the value of the Funds' financial instruments and are summarized in the following fair value hierarchy:

- Level 1 quoted prices in active markets for identical financial instruments
- Level 2 other significant observable inputs (including quoted prices for similar financial instruments, interest rates, prepayment speed, credit risk, etc.)
- Level 3 significant unobservable inputs (including the Funds' own assumptions in determining the fair value of financial instruments)

The input levels are not necessarily an indication of the risk or liquidity associated with financial instruments at that level.

A summary of inputs used as of August 31, 2024, in valuing the Funds' assets carried at fair value, is as follows:

TEMPLETON FUNDS

Templeton Foreign Fund
Templeton International Climate Change Fund
Templeton World Fund
(Fund)

At an in-person meeting held on May 22, 2024 (Meeting), the Board of Trustees (Board) of Templeton Funds (Trust), including a majority of the trustees who are not "interested persons" as defined in the Investment Company Act of 1940 (Independent Trustees), reviewed and approved the continuance of (i) the investment management agreement between Templeton Global Advisors Limited (TGAL) and the Trust, on behalf of each of Templeton Foreign Fund and Templeton World Fund; (ii) the investment management agreement between Franklin Templeton Investments Corp. (FTIC) and the Trust, on behalf of Templeton International Climate Change Fund; (iii) the investment sub-advisory agreement between FTIC and Franklin Templeton Investment Management Limited (FTIML), an affiliate of FTIC, on behalf of Templeton International Climate Change Fund; and (iv) the investment sub-advisory agreement between FTIC and TGAL, an affiliate of FTIC, on behalf of Templeton International Climate Change Fund (each a Management Agreement) for an additional one-year period, noting the pending liquidation of the Templeton International Climate Change Fund. The Independent Trustees received advice from and met separately with Independent Trustee counsel in considering whether to approve the continuation of each Management Agreement. TGAL, FTIC and FTIML are each referred to herein as a Manager.

In considering the continuation of each Management Agreement, the Board reviewed and considered information provided by each Manager at the Meeting and throughout the year at meetings of the Board and its committees. The Board also reviewed and considered information provided in response to a detailed set of requests for information submitted to the Managers by Independent Trustee counsel on behalf of the Independent Trustees in connection with the annual contract renewal process. In addition, prior to the Meeting, the Independent Trustees held a virtual contract renewal meeting at which the Independent Trustees first conferred amongst themselves and Independent Trustee counsel about contract renewal matters, and then met with management to request additional information that the Independent Trustees reviewed and considered prior to and at the Meeting. The Board reviewed and considered all of the factors it deemed relevant in approving the continuance of

each Management Agreement, including, but not limited to: (i) the nature, extent and quality of the services provided by each Manager; (ii) the investment performance of each Fund; (iii) the costs of the services provided and profits realized by each Manager and its affiliates from the relationship with each Fund; (iv) the extent to which economies of scale are realized as each Fund grows; and (v) whether fee levels reflect these economies of scale for the benefit of Fund investors.

In approving the continuance of each Management Agreement, the Board, including a majority of the Independent Trustees, determined, through the exercise of its business judgment, that the terms of the Management Agreements are fair and reasonable and that the continuance of each Management Agreement is in the best interests of the applicable Fund and its shareholders. While attention was given to all information furnished, the following discusses some primary factors relevant to the Board's determination.

Nature, Extent and Quality of Services

The Board reviewed and considered information regarding the nature, extent and quality of investment management services provided by each Manager and its affiliates to the Funds and their shareholders. This information included, among other things, the qualifications, background and experience of the senior management and investment personnel of each Manager; as well as information on succession planning where appropriate; the structure of investment personnel compensation; oversight of third-party service providers; investment performance reports and related financial information for each Fund; reports on expenses and shareholder services; legal and compliance matters; risk controls; pricing and other services provided by each Manager and its affiliates; and management fees charged by each Manager and its affiliates to US funds and other accounts, including management's explanation of differences among accounts where relevant. The Board also reviewed and considered an annual report on payments made by Franklin Templeton (FT) or the Funds to financial intermediaries, as well as a memorandum relating to third-party servicing arrangements. The Board acknowledged the ongoing integration of the Putnam family of funds into the FT family of funds and management's continued development of strategies to address areas of heightened concern in the mutual fund industry, including various regulatory initiatives and continuing geopolitical concerns.

The Board also reviewed and considered the benefits provided to Fund shareholders of investing in a fund that is part of the FT family of funds. The Board noted the financial position of Franklin Resources, Inc. (FRI), the Managers' parent, and its commitment to the mutual fund business as evidenced by its continued reassessment of the fund offerings in response to FT acquisitions and the market environment, as well as project initiatives and capital investments relating to the services provided to the Funds by the FT organization. The Board specifically noted FT's commitment to technological innovation and advancement, including its initiative to create a new enterprise-wide artificial intelligence platform.

Following consideration of such information, the Board was satisfied with the nature, extent and quality of services provided by each Manager and its affiliates to the Funds and their shareholders.

Fund Performance

The Board reviewed and considered the performance results of each Fund over various time periods ended December 31, 2023. The Board considered the performance returns for each Fund in comparison to the performance returns of mutual funds deemed comparable to the Fund included in a universe (Performance Universe) selected by Broadridge Financial Solutions, Inc. (Broadridge), an independent provider of investment company data. The Board received a description of the methodology used by Broadridge to select the mutual funds included in a Performance Universe. The Board also reviewed and considered Fund performance reports provided and discussions that occurred with portfolio managers at Board meetings throughout the year. A summary of each Fund's performance results is below.

<u>Templeton Foreign Fund</u> - The Performance Universe for the Fund included the Fund and all retail and institutional international multi-cap value funds. The Board noted that the Fund's annualized total return for the one- and three-year periods was above the median of its Performance Universe, but for the five- and 10-year periods was below the median of its Performance Universe. The Board also noted that the Fund's annualized total return was positive for all periods with a one-year return of 19.95% that fell within the first quintile of the Fund's Performance Universe. The Board concluded that the Fund's performance was satisfactory.

<u>Templeton International Climate Change Fund</u> - The Performance Universe for the Fund included the Fund and all retail and institutional international multi-cap value funds. The Board noted that the Fund's annualized total return for the one- and five-year periods was above the median and in the first quintile (best) of its Performance Universe, but for the three-year period was below the median of its Performance Universe. The Board also noted that the Fund only had approximately \$3.81 million in assets under management as of December 31, 2023 and that management proposed and the Board approved at the Meeting the liquidation of the Fund on or about August 9, 2024. The Board concluded that the Fund's performance was satisfactory and that the Management Agreement should be continued to effectuate the liquidation of the Fund.

Templeton World Fund - The Performance Universe for the Fund included the Fund and all retail and institutional global multi-cap value funds. The Board noted that the Fund's annualized total return for the one-year period was above the median and in the first quintile (best performance) of its Performance Universe, but for the three-, five- and 10-year periods was below the median of its Performance Universe. The Board discussed this performance with management and management explained that, even though the Fund's peer group is comprised of multi-cap value funds, some funds within the Performance Universe are more skewed toward the growth style, which negatively impacted the Fund's relative returns during periods of outperformance of growth investing strategies over value investing strategies. Management further explained that the Fund had underweight positions to domestic securities during the one-, three- and five-year periods compared to its Performance Universe peers, which detracted from the Fund's relative performance as domestic securities have outperformed non-US securities in recent years. Management discussed with the Board the impact the timing of the transition of the Fund's strategy from core value to quality value had on Fund performance as it coincided with a market rotation away from quality-oriented stocks to more cyclical value stocks in the face of rising inflation, increased interest rates and tightened fiscal policy. Management further discussed its view that, despite the recent market environment, it believes the Fund's current portfolio positioning will positively impact the Fund's performance over the longer term. The Board noted that the Fund's annualized total return for the one-year period was 32.30%. The Board concluded that the Fund's performance was acceptable.

Comparative Fees and Expenses

The Board reviewed and considered information regarding each Fund's actual total expense ratio and its various components, including, as applicable, management fees; transfer agent expenses; underlying fund expenses; Rule 12b-1 and non-Rule 12b-1 service fees; and other non-management fees. The Board also noted the quarterly and annual reports it receives on all marketing support payments made by FT to financial intermediaries. The Board considered the actual total expense ratio and, separately, the contractual management fee rate, without the effect of fee waivers, if any (Management Rate) of each Fund in comparison to the median expense ratio and median Management Rate, respectively, of other mutual funds deemed comparable to and with a similar expense structure to the Fund selected by Broadridge (Expense Group). Broadridge fee and expense data is based upon information taken from each fund's most recent annual or semi-annual report, which reflects historical asset levels that may be quite different from those currently existing, particularly in a period of market volatility. While recognizing such inherent limitation and the fact that expense ratios and Management Rates generally increase as assets decline and decrease as assets grow, the Board believed the independent analysis conducted by Broadridge to be an appropriate measure of comparative fees and expenses. The Broadridge Management Rate includes administrative charges, and the actual total expense ratio, for comparative consistency, was shown for: (i) Class A shares for the Templeton World Fund and Templeton Foreign Fund and for each other fund in their applicable Expense Group and (ii) Advisor Class shares for the Templeton International Climate Change Fund and Class I and Institutional Class shares for certain other funds in the Expense Group with multiple classes of shares. The Board received a description of the methodology used by Broadridge to select the mutual funds included in an Expense Group.

<u>Templeton Foreign Fund</u> - The Expense Group for the Fund included the Fund, three other international multi-cap value funds, four international multi-cap core funds, and three international multi-cap growth funds. The Board noted that the Management Rate and actual total expense ratio for the Fund were below the medians and in the first quintile (least expensive) of its Expense Group. The Board also noted that the Fund's actual total expense ratio reflected an expense cap on operating expenses. The Board concluded that the Management Rate charged to the Fund is reasonable.

<u>Templeton International Climate Change Fund</u> - The Expense Group for the Fund included the Fund and 10 other international multi-cap value funds. The Board noted that the Management Rate for the Fund was below the median of its Expense Group and the actual total expense ratio for the Fund was equal to the median of its Expense Group. The Board further noted that the Fund's actual total expense ratio reflected an expense cap on operating expenses. The Board also noted that each of the Fund's Sub-Advisers is paid by FTIC out of the management fee FTIC receives from the Fund and that the allocation of the fee between FTIC and each Sub-Adviser reflected the services provided by each to the Fund. The Board concluded that the Management Rate charged to the Fund and the sub-advisory fee paid to each Sub-Adviser are reasonable.

<u>Templeton World Fund</u> - The Expense Group for the Fund included the Fund and nine other global multi-cap value funds. The Board noted that the Management Rate and actual total expense ratio for the Fund were below the medians of its Expense Group. The Board concluded that the Management Rate charged to the Fund is reasonable.

Profitability

The Board reviewed and considered information regarding the profits realized by each Manager and its affiliates in connection with the operation of each Fund. In this respect, the Board considered the Fund profitability analysis that addresses the overall profitability of FT's US fund business, as well as its profits in providing investment management and other services to each of the individual funds during the 12-month period ended September 30, 2023, being the most recent fiscal year-end for FRI. The Board noted that although management continually makes refinements to its methodologies used in calculating profitability in response to organizational and product-related changes, the overall methodology has remained consistent with that used in the Funds' profitability report presentations from prior years. The Board also noted that an independent registered public accounting firm has been engaged to periodically review and assess the allocation methodologies to be used solely by the Funds' Board with respect to the profitability analysis.

The Board noted management's belief that costs incurred in establishing the infrastructure necessary for the type of mutual fund operations conducted by each Manager and its affiliates may not be fully reflected in the expenses allocated to each Fund in determining its profitability, as well as the fact that the level of profits, to a certain extent, reflected operational cost savings and efficiencies initiated by management. As part of this evaluation, the Board considered management's outsourcing of certain operations, which effort has required considerable up-front expenditures by each Manager but, over the long run is expected to result in greater efficiencies. The Board also noted management's expenditures in improving shareholder services provided to the Funds, as well as the need to implement systems and meet additional regulatory and compliance requirements resulting from recent US Securities and Exchange Commission and other regulatory requirements.

The Board also considered the extent to which each Manager and its affiliates might derive ancillary benefits from fund operations, including revenues generated from transfer agent services, potential benefits resulting from personnel and systems enhancements necessitated by fund growth, as well as increased leverage with service providers and counterparties. Based upon its consideration of all these factors, the Board concluded that the level of profits realized by each Manager and its affiliates from providing services to each Fund was not excessive in view of the nature, extent and quality of services provided to each Fund.

Economies of Scale

The Board reviewed and considered the extent to which each Manager may realize economies of scale, if any, as each Fund grows larger and whether each Fund's management fee structure reflects any economies of scale for the benefit of shareholders. With respect to possible economies of scale, the Board noted the existence of management fee breakpoints, which operate generally to share any economies of scale with a Fund's shareholders by reducing the Fund's effective management fees as the Fund grows in size. The Board considered the Managers' view that any analyses of potential economies of scale in managing a particular fund are inherently limited in light of the joint and common costs and investments the Managers incur across the FT family of funds as a whole. The Board noted that Templeton Foreign Fund and Templeton World Fund had experienced a significant decrease in assets and would not be expected to demonstrate additional economies

of scale in the near term. The Board noted that Templeton International Climate Change Fund does not currently have an asset size that would likely enable the Fund to achieve economies of scale. The Board concluded that to the extent economies of scale may be realized by each Manager and its affiliates, each Fund's management fee structure provided a sharing of benefits with the Fund and its shareholders as the Fund grows.

Conclusion

38

Based on its review, consideration and evaluation of all factors it believed relevant, including the above-described factors and conclusions, the Board unanimously approved the continuation of each Management Agreement for an additional one-year period.
