富蘭克林公用事業基金

財務報告附註

1. 組織結構與重要會計政策

富蘭克林保管基金（本信託）是依據美國 1940 年投資公司法案（簡稱為 1940 法案）註冊成立的開放式投資公司，其包括六檔個別基金（富蘭克林公用事業基金為其中之一）。本基金遵循美國財務會計準則委員會(FASB)所認定之 Accounting Standards Codification Topic 946（財務服務：投資公司（ASC946））且採用美國一般公認會計原則（U.S. GAAP）之專業會計和報導指南，包括但不限於 ASC946。富蘭克林公用事業基金提供六種股份類別：A 股、A1 股、C 股、R 股、R6 股與 Advisor 股。C 股在持有 8 年後將按月自動轉換為 A 股。各股份類別的首次銷售手續費、或有遞延銷售手續費、對單一股份具影響之事件的投票權、轉換權益、不同約定之分銷費用及股務代理機構費用皆有所不同。

本基金重要會計政策摘要如下：

a. 財務工具評價

本基金為每日以公平價值(fair value)評價投資的財務工具。公平價值是市場參與者於秩序交易中，賣出資產或轉移負債於衡量日所被買賣參與者接受的價格。本基金在每個營業日的美東時間下午四點或紐約證券交易所(NYSE)正常排定的收盤時間計算每股淨資產價值(NAV)，以較早者為準。在信託董事會(董事會)所核准的政策及程序下，董事會已指定基金的投資經理為評價指定人，並負責監督評價。投資經理在基金管理人的協助下履行此職責，亦包括領導跨職能評價委員會(the Valuation Committee(VC))。本基金得以利用獨立定價服務、來自證券和財務工具的交易商所提供的報價及其他市場資訊來決定公平價值。

在證券交易所或那斯達克交易系統掛牌之股票以及衍生性金融商品是分別以最後公告售價或當日官方收盤價格計價。外國證券是以證券主要交易之外國證券交易所或是東部時間下午四點的收盤價估值，其價格將以外國證券依每個營業日當日東部時間下午四點的收盤匯率被轉換成美元後的價值而定。店頭市場交易證券其估值則不超過最近一次的買賣報價範圍。同時在多個市場或多個交易所進行交易的證券，其估值則以最具廣度和代表性之市場的報價為準。某些股權證券是以類似證券的基本特徵或關係為評價基礎。

債權證券通常是在店頭市場而不在證券交易所進行交易。本基金的定價服務是使用多種評價技術來決定其公平價值。於交易活絡的市場，定價服務可能利用市場基礎法（market-based approach），即使用證券交易公司的報價來決定公平價值。於交易不活絡或有所限制的市場，定價服務亦使用財產評價模型（proprietary valuation model），其考量了市場特性（例如：基準收益率曲線、信用價差、估計違約率、預期市場利率變動性、票券利率、本金付款期待時間、擔保品及其他獨特的證券特性）來評估相關的現金流量，並再用折現法計算公平價值。外幣計價的證券係以東部時間下午四點的匯率轉換至美元，以決定外國債權證券之價值。

投資於開放式共同基金是以結算後的淨資產價值評價。

當財務工具缺乏可以信賴或是無法獲得市場價格時，本基金採用一些程序來決定其公平價值。在這些程序下，本基金主要使用市場基礎法（market-based approach），即使用相關或可比較之資產或負債、近期交易、市場乘數及其他相關資訊來決定投資之公平價值。收益基礎衡量法（income-based valuation approach）也可用於投資之預期未來現金流量折價以計算公平價值。由於處分投資的限制的本質或是存續期間，可能也使用折價來計算。由於此類投資評價固有的不確定性，其公平價值與交易市場的價格可能會有顯著的差異。

於外國證券交易所及店頭交易市場掛牌證券的交易，可能早於東部時間下午四點時間。此外，

富蘭克林公用事業基金

1. 組織結構與重要會計政策(承續前文)

a. 財務工具評價(承續前文)

某些外國市場的交易並不會發生在每一個基金的營業日內。有時候，在外國證券交易完畢與東部時間下午四點之間的時間裡發生的事件可能對本基金所持有之投資組合證券價值的可信度造成影響。因此，由外國市場收盤後所決定之基金組合證券價格與東部時間下午四點最近的價格間，可能會產生差異。為了最小化這些潛在的差異，本基金得採用獨立定價服務將本基金投資組合證券的價值調整至東部時間下午四點最新指標的公平價值。截至 2023 年 9 月 30 日，部分證券已使用公平價值程序來定價，在這種情況下，這些證券被分類為公平價值衡量層級中的等級 2，稱為「市場公平價值」，更多說明請參閱附註「公平價值衡量」。

當申報期間的最後一日為非營業日時，某些外國市場是在基金的淨值未被計算時營業，此可能造成基金投資組合證券的價值在申報期間的最後營業日及最後日曆日間所有差異。任何因外國市場開市所造成之顯著證券價值變動將被基金為反映財務申報目的而進行調整和反映。

b. 外幣轉換

投資組合中以外幣結算的證券以及其他資產與負債，是在估值日以這類外幣對美元的匯率轉換成美元來定價。本基金可能簽訂外匯契約協助以外幣計價的交易。以外幣結算之證券的申購與銷售，收益與費用項目是以在交易日生效的匯率轉換成美元來定價。以外幣計價之投資組合證券、資產及負債包含這些外幣相對於美元價值下跌的風險。有時候，事件的發生可能影響外幣對美元匯率的可獲得性或可信度。若有此類事件發生，將以本基金董事會所建立並核准之程序來確定該匯率的公平價值。

本基金並不會單獨報告由於持有證券的市價變動而引起的外幣匯率變動的結果。這類的變動已包含在經營業績表中的淨實現與未實現投資利得或損失中。

已實現的匯兌利得或損失來自於外幣銷售、在證券的交易日與交割日之間所實現的貨幣利得或損失及股利、利息、外國預扣稅的紀錄金額與其實際交付的等值美元金額之間的差異。淨未實現匯兌利得或損失來自於在報告期末除所持有的投資證券之外，以外幣結算之資產與負債的外幣匯率變動。

c. 對延遲交割證券的申購

本基金可能購買延遲交割證券其付款以及交割是預定於未來的某日。這些交易將受到市場波動的影響並具有交割日的價值可能多於或少於交易日購買價格的風險。雖然本基金通常是以持有這些證券為目的而進行購買，但是也有可能在交割日前賣出這些證券。

d. 衍生性金融商品

本基金投資於衍生性金融商品係為了管理風險或是增加對不同的其他投資或市場之曝險。衍生性金融商品為依標的資產或其名目金額為基礎之金融契約，其無須原始投資金額或其原始淨投資金額小於一般對市場因素改變有相似反應的投資金額，及其需要或允許淨額交割。衍生性金融商品存在許多風險，包含交易對手可能無法履行基於契約條款之義務、難於次級市場變現之可能性、以及/或是於市場波動時使本基金之利得或損失曝險於超過資產負債表所列金額之可能性。這些契約在本期間之已實現利得和損失及未實現溢價及折價皆已列示於經營業績表中。

擔保品要求依衍生性金融商品種類而不同。抵押品或初始保證金要求由經紀商或交易所外匯交易和設定集中清算衍生品。初始保證金存放在交易所，可以是現金和/或證券的形式。

本基金買入或賣出交易所交易之匯率遠期契約主要係為了管理曝險於利率風險之風險敞口。

富蘭克林公用事業基金

1. 組織結構與重要會計政策(承續前文)

d. 衍生性金融商品(承續前文)

期貨合約是本基金與交易對手之間在未來日期以指定價格買賣資產的協議。所需初始保證金由本基金質押，公允價值依照每日保證金變動核算作為應付或應收並記載於在資產負債表中。截至 2023 年 9 月 30 日，本基金沒有期貨合約。

本基金購買或賣出交易所交易的選擇權合約主要是為了管理曝險於股票價格風險。選擇權是一種合約賦予持有人權利以指定價格購買或出售指定數量的股份或資產單位或互換交易協定的名目金額（利率交換選擇權）。當購買或賣出選擇權時，與支付或收到的權利金相等的金額分別記為資產或負債。行使選擇權時，相關投資的購置成本或銷售收益將根據收到或支付的權利金進行調整。選擇權到期時，收到或支付的費用均記為已實現的收益或損失，在選擇權到期或行使以外的情況下平倉時，收到或支付的權利金與平倉成本之間的差額將記為已實現收益或損失。截至 2023 年 9 月 30 日，本基金沒有選擇權合約。

請參照附註 9 有關其他衍生性金融商品資訊之說明。

e. 指數連結票券

本基金可能投資於指數連結票券。指數連結票券是由金融機構發行的優先、無擔保、次級債務證券，其價值基於連結標的指數的價格變動。指數連結票券專為提供機會給投資人參與各種市場績效指標的報酬而設計的，並且企圖複製若基金直接購買相關標的參考資產或一籃子資產所產生的經濟效應。指數連結票券的風險包括連結標的指數的不利價格變動，及發行金融機構的信用風險。指數連結票券可能無法保證本金的回報，並且升值潛力可能受到限制。與基金持有的其他投資相比，指數連結票券可能更具波動性且流動性較差。

f. 股權連結證券

本基金可能投資於股權連結證券。股權連結證券是混合金融工具其通常結合債權及股權特性於單一票券形式。從股權連結證券所收取的收益是以已實現利得紀錄於經營業績表且該收益是以標的股權證券、股票指數或是選擇權部位的績效表現為基礎。投資於股權連結證券的風險包括標的證券的不利價格變動以及發行金融機構的信用風險。無法確保股權連結證券的本金得以回收，且獲利潛力可能有限。股權連結證券可能比本基金所持有的其他投資更為反覆無常且流動性更低。

g. 證券借貸

本基金參與一項代理機構基礎之證券借貸計劃以賺取額外的收益。本基金收取相當於所借出證券之公平價值至少 102% 的金額之現金擔保品及/或美國政府與機構證券擔保品。在此借貸的存續期間內擔保品的金額不低於該借出證券公平價值（在基金各營業日結束時評定）的 100%，任何因證券價值變動而須追加的擔保品必須於次一營業日交付給本基金。與其他基金存入聯合現金帳戶的擔保品習慣被投資於富蘭克林顧問公司（其為本基金的關係企業）所管理的貨幣市場基金裡。這些證券在基金託管人的獨立帳戶中作為抵押品持有。基金不能再質押或轉售這些作為抵押品持有的證券。因此，非現金抵押品不包括在資產負債表中。來自借出證券的收益，扣除支付予證券借貸機構以及/或是第三方供應商的費用，已分別記錄於經營業績表中。本基金承擔有關擔保品投資與證券借出的市場風險，以及代理機構違反其對本基金義務的風險。如果借貸者違反其應返還借出證券的義務，本基金有權利運用所收取的擔保品於公開市場再買回這些證券。證券借貸機構已同意賠償本基金由第三方借入者產生的違約風險。截至 2023 年 9 月 30 日，本基金沒有借出證券。

富蘭克林公用事業基金

1. 組織結構與重要會計政策(承續前文)

h. 優先級浮動利率債

本基金可能投資於優先級擔保公司債，其支付的利息會定期參考基本貸款利率及價差來重置。這些基本貸款利率通常是由指定的美國銀行所提供的優惠利率，或倫敦銀行同業拆借利率(LIBOR)，或擔保隔夜融資利率(SOFR)。通常要求提前償還的本金來自超額現金流，或由借款人自行決定。因此，實際到期日可能明顯短於規定的到期日。基金投資的優先級擔保公司債通常容易在市場流通，但可能會受到轉售的一些限制。

i. 所得稅及遞延稅

按照基金政策，本基金必須符合美國稅務法對於投資公司的規定，對股東分配幾乎所有的應稅收益與淨實現利益以免於繳納聯邦所得稅及特許權稅，因此無需預提美國聯邦所得稅。

本基金在外國管轄區域的投資所收取的收益、證券售出的資本利得以及一些外匯交易可能須繳納外國稅捐。如有外國稅捐，其金額將依據本基金所投資之外國市場實施的稅務法規與稅率申報。如外國對淨實現利得加以課稅，本基金將記錄預估的遞延稅賦義務，其金額相當於當證券在評價日交易須支付的稅額。

由於遍及歐盟一些國家的幾個訴訟案件結果，本基金已經為以前在這些國家所賺取股利的代扣稅款申報追加的回收稅款（歐盟回收）。已認可收益，若有的話，這些歐盟回收金額是以其他收益反映於經營業績表中，而任何相關應收款項，若有的話，是以歐盟稅款回收反映於資產負債表中。與這些文件相關的任何費用都反映在營運報表的其他費用中。當這些訴訟的最終裁決、取得這些回收稅款的可能性以及付款的可能時間安排尚存有不確定性時，則無金額得以被反映於財務報表中。就美國所得稅目的，本基金所收取的歐盟回收稅款，若有的話，將減少外國稅捐金額而使本基金股東得在個人所得稅申報單中作為稅收抵免。

只有當稅務機關基於稅項的技術優勢進行依據美國一般公認會計原則（U.S.GAAP）審查時認為該不明確稅項持續存在機率低於 50%的情況下，本基金才會承認不明確稅項的賦稅利益。於截至 2023 年 9 月 30 日止及所有開放稅賦年度，本基金認為沒有因被要求於納稅申報表所揭有關不明確稅項之納稅申報（或預計在未來進行納稅申報）之未承認賦稅利益而產生的負債。開放稅賦年度為基於稅賦管轄權之法定時效限制下仍須接受審查的年度。

j. 證券交易、投資收益、費用及配息

證券交易是在交易日作入帳。證券交易之已實現利得或損失則決定於特定基礎。利息收入與預估費用則每日計提。利息收入包括債權的折價與溢價攤銷。支付利得及損失已分別記錄於經營業績表。本基金可能會收到其他收益來自優先擔保公司債或是空頭支票，包括修改費、同意費或承諾費，這些費用會在收到時記錄於基金，融資費在可期望的貸款期間視為收入。股利收入是在除息日入帳，除了某些來自外國證券的股利是在本基金接獲除息日通知才立即認定。對股東的配息是在除息日入帳並且依據所得稅法（稅基）確定。以稅基所決定的可分配盈餘可能不同於依照一般美國公認會計準則所紀錄的盈餘。這些差異可能是永久或是暫時的。永久性差異將產生在資本帳戶被重新分類以反映其稅賦特性。這些重新分類對淨資產或是經營業績並不會造成影響。暫時性差異則不用重新分類，因為差異在後續期間將會迴轉。

本信託所招致的共同費用，將依個別基金的淨資產佔本基金的總淨資產的比率或按各基金股東人數佔信託總股東人數的比例來配置到各別基金，個別基金單獨招致的費用將直接記錄在招致此費用的基金帳內。

已實現與未實現利得與損失以及淨投資收益（股份等級特定費用除外），是依照個別股份等級

富蘭克林公用事業基金

1. 組織結構與重要會計政策(承續前文)

j. 證券交易、投資收益、費用及配息(承續前文)

的淨資產之相對比重而每日分配到個別股份等級。股份等級的費用差異可能導致各股份等級每股配息款項的差異。

k. 會計估計

管理階層依照美國一般公認的會計準則編制財務報表時需要做出會計估計與假設。這些會計估計與假設會影響於財務報表日的資產與負債金額以及在財務報表期間的收入與費用金額。實際結果可能與估計值不同。

l. 保證及賠償

在本信託的組織文件規定下，本信託同意免除其主管與董事在某些超越其職責範圍而發生的負債責任。此外，在正常業務狀況下，本信託代表本基金與服務提供機構簽訂契約也包含責任免除條款。本信託在這些免責條款下的最大風險是未知的，因為涉及未來可能對本信託發生的被訴訟索賠。目前，本信託預期損失的風險是很小的。

2. 實益權益股份

截至 2023 年 9 月 30 日，本基金授權發行無數量管制的股份(無股票面值)。股本的交易如下表：

	截至 9 月 30 日止之年度		截至 9 月 30 日止之年度	
	2023		2022	
	股份	金額	股份	金額
A 股：				
股份銷售 ^a	13,072,954	\$271,677,836	20,426,933	\$453,472,027
配息轉入再投資之股份	1,986,664	42,069,637	2,332,270	48,266,115
股份贖回	(14,408,448)	(299,448,551)	(12,123,828)	(266,521,547)
淨增加(減少)	651,170	\$14,298,922	10,635,375	\$235,216,595
A1 股：				
股份銷售	5,639,347	\$116,568,550	6,815,891	\$150,191,697
配息轉入再投資之股份	5,353,956	113,432,565	7,794,675	161,036,003
股份贖回	(22,742,906)	(471,582,946)	(19,602,339)	(428,004,505)
淨增加(減少)	(11,749,603)	\$(241,581,831)	(4,991,773)	\$(116,776,805)

^a可能包括從 C 股自動轉換為 A 股部分。

3. 與關係企業的交易

富蘭克林公司作為控股公司，與其各附屬公司合稱為富蘭克林坦伯頓基金集團。本基金的部分主管與董事也是下列附屬公司的主管以及/或是董事：

附屬公司	與本基金的關係
Franklin Advisers, Inc. (Advisers)	投資經理公司
Franklin Templeton Services, LLC (FT Services)	行政經理公司
Franklin Distributors, LLC (Distributors)	主辦承銷商
Franklin Templeton Investor Services, LLC (Investor Services)	股務代理機構

富蘭克林公用事業基金

3. 與關係企業的交易(承續前文)

a. 管理費用

本基金按基金的月底淨資產，其每日及每月計算，支付 Advisors 的投資管理費用，詳如下表所示：

年化費率	淨資產
0.625%	不超過(含)一億美元
0.500%	超過一億美元，不超過(含)二億五千萬美元
0.450%	超過二億五千萬美元，不超過(含)七十五億美元
0.440%	超過七十五億美元，不超過(含)一百億美元
0.430%	超過一百億美元，不超過(含)一百二十五億美元
0.420%	超過一百二十五億美元，不超過(含)一百五十億美元
0.400%	超過一百五十億美元，不超過(含)一百七十五億美元
0.380%	超過一百七十五億美元，不超過(含)二百億美元
0.360%	超過二百億美元，不超過(含)三百五十億美元
0.355%	超過三百五十億美元，不超過(含)五百億美元
0.350%	超過五百億美元，不超過(含)六百五十億美元
0.345%	超過六百五十億美元，不超過(含)八百億美元
0.340%	超過八百億美元

截至 2023 年 9 月 30 日，有效年化投資管理費率為基金平均每日淨資產的 0.451%。

b. 行政費用

根據與 Advisors 的協定，FT Services 為本基金提供行政管理服務。此費用由 Advisors 根據本基金的平均每日淨資產支付，並不是本基金的額外費用。

c. 配銷費用

除了 R6 股及 Advisor 股以外，本基金董事會遵循美國 1940 年投資公司法案的規則 12b-1，對於各股皆採用配銷計劃。配銷費用在本基金 A 股及 A1 股的償還配銷計劃下，每年本基金將向 Distributors 償付不超過各股的最高年度計劃費率的費用，用以彌補其銷售與配銷本基金股份所帶來的費用。在 A 股及 A1 股的償還配銷計劃下，當期計劃年度的費用超出最高償還額度的部分不會在後續期間得到償還。此外，在本基金 C 股及 R 股的補償配銷計劃下，每年本基金將向 Distributors 支付不超過各股的最高年度計劃費率的費用，用以彌補其服務、銷售與配銷本基金股份所招致的費用。為監控最高年度計劃費率之遵循情形，該計劃年度為 2 月 1 日至 1 月 31 日的整個期間。

按本基金的平均每日淨資產的特定比例，各股的最高年度計劃費率列示如下：

A 股	0.25%
A1 股	0.15%
C 股	0.65%
R 股	0.50%

富蘭克林公用事業基金

3. 與關係企業的交易(承續前文)

d. 銷售手續費/承銷合約

前收型銷售手續費以及或有遞延銷售手續費 (CDSC) 不是本基金的費用。這些手續費在投資之前就從基金股份銷售款項中扣除，或是在贖回收益匯出之前被扣除 (若適用)。

承銷商(Distributors)已告知本基金下列有關本期間基金股份銷售與贖回的交易佣金：

扣除支付給非關係企業的交易商/經紀商佣金後的銷售手續費	\$104,347
保留的或有遞延銷售手續費	\$ 63,811

e. 股務代理機構費用

每個基金股份為 Investor Services 對股東服務範圍的績效支付股務代理機構費用。自 2022 年 10 月 1 日起，費用是根據 0.016% 的年化資產基礎費用加上降低後的交易基礎費用。在 2022 年 10 月 1 日前，費用則是根據 0.02% 的年化資產基礎費用加上交易基礎費用。此外，除了 R6 股，每個股份償付 Investor Services 的墊付款項以及支付予第三方的股東服務費用。這些費用將以各個股份淨資產的相對比例為基礎每日配置於各該股份。R6 股僅對該股支付 Investor Services 股務代理機構費用。

在截至 2023 年 9 月 30 日止之年度內，本基金支付股務代理機構的費用已標示於經營業績表中，其中支付投資者服務(Investor Services)的金額為\$2,238,219 美元。

f. 投資於關係企業管理投資公司

本基金投資於一家或數家關係企業管理投資公司。根據 1940 年法案的定義，當基金直接或間接擁有附屬基金 25% 或更多已發行股份或有權對管理行使控制權時，投資被視為基金的“控制關係公司”。本基金不以對管理或政策施加控制影響為目的進行投資。本基金可減免投資於關係企業管理投資公司的資產所對應的管理費用已標示於經營業績表中，但金額不超過每一個關係企業直接或間接所支付的管理費用和行政費用。在截至 2023 年 9 月 30 日止之年度，本基金投資在關係企業管理投資公司明細如下：

	期初 價值	申購	出售	已實 現利 得(虧)	未實現溢價 (折價)淨變動	期末 價值	期末 持有股數	投資 收益
非控制關係上市 公司								
Institutional Fiduciary Trust- Money Market Portfolio, 5.019%	\$67,045,219	\$560,015,139	\$(606,660,827)	\$—	\$—	\$20,399,531	\$20,399,531	股利 \$812,396
關係上市公司 證券合計	\$67,045,219	\$560,015,139	\$(606,660,827)	\$—	\$—	\$20,399,531		\$812,396

g. 豁免及費用報酬

Investor Services 已事先簽約同意免除或是限制其收取的費用，所以 R6 股的股務代理機構費用將不會超過該級別的平均淨資產的 0.03%，直到 2024 年 1 月 31 日。

h. (略)

4. 費用抵銷約定

本基金已與保管機構簽訂合約，將未投資的現金部分所獲得的已實現信用餘額用以抵償本基金的部分保管機構費用。截至 2023 年 9 月 30 日止之年度，保管機構費用的調降已列示於經營業績表。自 2023 年 9 月 21 日起生效，獲得的信用餘額 (若有的話)，將被確認為收益。

富蘭克林公用事業基金

5. 所得稅

就稅務目的，資本虧損得用來抵銷未來的資本利得。

截至 2023 年 9 月 30 日和 2022 年 9 月 30 日止年度配息的稅收如下：

	2023	2022
所支付之配息來自：		
一般收益	\$151,418,612	\$167,618,020
長期資本利得	96,781,242	161,364,364
	<u>\$248,199,854</u>	<u>\$328,982,384</u>

基於所得稅目的，於 2023 年 9 月 30 日，本基金之投資成本、淨未實現溢價(折價)、未分配一般收益及未分配長期資本利得如下表所示：

投資成本	\$3,045,751,082
未實現溢價	\$2,491,113,570
未實現折價	(47,685,867)
淨未實現溢價(折價)	<u>\$2,443,427,703</u>
可分配盈餘	
未分配一般收益	\$4,263,996
未分配長期資本利得	178,397,942
可分配盈餘合計	<u>\$182,661,938</u>

收益以及/或是資本利得在帳面基礎與稅賦基礎上有所不同，主要是因為對沖銷性交易、支付損失、債券折價與溢價、衍生性金融工具、股權連結證券及淨營運損失的處理不同而影響分配的特性所致。

本基金利用稅務會計實務處理部分從股本贖回款的收益作為已實現資本利得分配。

6. 投資交易

截至 2023 年 9 月 30 日止之年度內買入與賣出（不包括短期證券）的交易額分別為\$282,463,109 美元及\$792,975,181 美元。

7.~10. (略)

11. 信用工具

本基金與富蘭克林坦伯頓基金集團所管理的其他美國註冊以及外國投資基金（全體地，以下稱「全體借用人」）共同簽定一項於 2024 年 2 月 2 日到期之貸款總額為 26.75 億美元的優先無擔保聯合全球信用貸款（以下稱「全球信用工具」）。全球信用工具其為一項資金來源，以提供予全體借用人因應暫時與緊急目的，包括有能力去應付未來無預期或不尋常的大量贖回需求。

依據全球信用工具條款，本基金除了應負擔所動用任何貸款的利息，以及由本基金所產生的其他成本之外，尚須依據本基金佔全體借用人淨資產總額的相對持份比例，分攤履行及維持全球信用工具所產生的費用及支出，包括全球信用工具未使用部分的0.15%年度承諾費用。該費用已反映於經營業績表的其他費用中。截至2023年9月30日止，本基金並未動用全球信用工具貸款。

12.(略)

富蘭克林公用事業基金

13. 公平價值衡量

本基金採用公平價值的等級，其係用來區別從獨立來源所取得的市場資料(可觀察信息)與基金自行的市場假設(不可觀察信息)。這些信息被用於決定基金投資的價值，並得概述於以下之公平價值的等級：

- 等級 1—用同一證券的現行活躍市場報價
- 等級 2—其他重要的明顯信息(包括對於相類似證券的報價、利率、預付款項速度及信用風險等)
- 等級 3—重要的不可觀察信息(包括基金以自行假設決定投資的公平價值)

用以評價證券的信息或方法，並非暗示與投資該證券有關的風險及流動性。

以下為截至 2023 年 9 月 30 日止，評估本基金資產之公平價值所包含的輸入等級概要：

	等級 1	等級 2	等級 3	合計
資產：				
證券投資：				
普通股：				
營建與工程	\$82,236,000	\$—	\$—	\$82,236,000
電力公用事業	3,159,980,500	—	—	3,159,980,500
瓦斯公用事業	45,264,000	—	—	45,264,000
獨立電力及再生電力製造商	194,400,723	—	—	194,400,723
複合型公用事業	1,503,356,000	166,220,902	—	1,669,576,902
燃油瓦斯及消費性燃料	242,718,000	—	—	242,718,000
水力公用事業	51,495,000	23,108,129	—	74,603,129
短期投資	20,399,531	—	—	20,399,531
證券投資總額	\$5,299,849,754	\$189,329,031 ^a	\$—	\$5,489,178,785

^a 包括價值\$189,329,031 美元的外國證券，由於應用了市場公平價值程序，這些證券被歸類為等級 2。更多資訊請參見金融工具估值說明。

當年初和/或年末存在重大的等級 3 資產和/或負債時，將列示使用等級 3 輸入值來確定公平價值的對帳。

14. 新會計原則宣告

於 2020 年 3 月，美國財務會計準則委員會 (FASB) 頒佈公報第 2020-04 號會計準則更新 (ASU) 「參考利率改革 (主題 848) — 促進參考利率改革對財務報告的影響」。2021 年 1 月及 2022 年 12 月，FASB 發布了 ASU 第 2021-01 號及 ASU 第 2022-06 號，並對主題 848 進行了進一步修訂。修訂後的會計準則提供對於由於計劃中 LIBOR 和其他銀行間報價參考利率於 2021 年底對於某些 LIBOR 設定和 2023 年對於其餘設定的契約修改所產生影響的選擇性暫時會計承認和財務報告的寬減。此會計準則對於發生在 2020 年 3 月 12 日至 2024 年 12 月 31 日期間的某些參考利率相關的契約修改具有效力。管理公司已審查了相關要求，並認為採納這些會計準則對財務報表不會產生實質影響。

15. 期後事項

本基金已評量截至本財報公告日期間的期後事項，確定沒有發生應行揭露的事項。

翻譯自獨立公開發行註冊會計師事務所簽證英文報告原文

致富蘭克林公用事業基金的全體董事與股東

財務報表之意見

我們已查核富蘭克林公用事業基金（以下簡稱「基金」）前附截至 2023 年 9 月 30 日之包括投資明細表在內的資產負債表、截至 2023 年 9 月 30 日之相關經營業績表、截至 2023 年 9 月 30 日之兩年的淨資產變動表（包括相關附註）以及截至 2023 年 9 月 30 日之其中所示期間的財務重點（以下簡稱「財務報表」）。我們認為，財務報表在所有重大方面，公允反映了基金於 2023 年 9 月 30 日的財務狀況、年度的經營成果、截至 2023 年 9 月 30 日之兩年的淨資產變動情況，以及截至 2023 年 9 月 30 日之其中所示期間各期末的財務重點，並符合美國公認會計準則的規定。

意見之基礎

這些財務報表的編制是基金管理者的責任。我們的責任是在我們查核的基礎上對這些財務報表表示意見。我們是公開發行會計公司，在公開發行公司會計監督委員會（美國）（“PCAOB”）註冊，並且被要求必須獨立於基金，符合美國聯邦證券法、美國證券交易委員會和 PCAOB 的適用規則和條例。

我們依據 PCAOB 的標準對這些財務報表進行查核。這些準則要求我們計劃與執行查核工作，以合理確信這些財務報表是否不存在重大誤述，無論是由於錯誤還是欺詐。

我們的查核工作包括評估財務報表重大誤述風險的執程序，無論是由於錯誤或是欺詐，以及執行應對這些風險的程序。這些程序包括在抽查的基礎上檢查支持財務報表金額與相關財務公開的證據。我們的查核工作也包括在評價管理當局在編制財務報表時採用的會計政策和作出的重大會計估計，以及評價財務報表的整體表達。我們的查核工作（包括於 2023 年 9 月 30 日與保管銀行、股務代理商及經紀商確認的證券餘額狀況；當沒有收到經紀商的答覆時，我們執行了其他審計程序。我們相信，我們執行的審計程序為所表示的意見提供了合理的基礎。

SHAREHOLDER LETTER

Dear Shareholder,

We are pleased to provide the annual report of Franklin Custodian Funds for the 12-month reporting period ended September 30, 2023. Please read on for a detailed look at prevailing economic and market conditions during the Funds' reporting period and to learn how those conditions have affected Fund performance.

As always, we remain committed to providing you with excellent service and a full spectrum of investment choices. We also remain committed to supplementing the support you receive from your financial advisor. One way we accomplish this is through our website, www.franklintempleton.com. Here you can gain immediate access to market and investment information, including:

- Fund prices and performance.
- Market insights and commentaries from our portfolio Managers, and
- A host of educational resources.

We look forward to helping you meet your financial goals.

Sincerely,

Gregory E. Johnson

Franklin DynaTech Fund

Fund Overview

Q. What is the Fund's investment strategy?

A. We use fundamental, bottom-up research to seek companies meeting our criteria of growth potential, quality and valuation. In seeking sustainable growth characteristics, we look for companies we believe can produce sustainable earnings and cash flow growth, evaluating the long-term market opportunity and competitive structure of an industry to target leaders and emerging leaders. We define quality companies as those with strong and improving competitive positions in attractive markets. We also believe important attributes of quality are experienced and talented management teams as well as financial strength reflected in the capital structure, gross and operating margins, free cash flow generation and returns on capital employed. Our valuation analysis includes a range of potential outcomes based on an assessment of multiple scenarios. In assessing value, we consider whether security prices fully reflect the balance of sustainable growth opportunities relative to business and financial risks.

Q. What were the overall market conditions during the Fund's reporting period?

A. Global developed and emerging market equities, as measured by the MSCI All Country World Index-NR (net of tax withholding when dividends are paid), posted a +20.80% total return for the 12 months ended September 30, 2023.¹ While inflation remained elevated in most parts of the world, it showed signs of slowing in the second half of the period, bolstering equities. This inflationary pressure led many of the world's central banks to tighten monetary policy, driving interest rates significantly higher and pressuring economic growth. However, tightening eased as the period continued, and investors foresaw an end to the current monetary policy cycle even as growth continued. Equity performance varied notably by region, as changing economic conditions had a differential impact depending on local circumstances.

In the U.S., gross domestic product (GDP) expanded in the fourth quarter of 2022 and the first half of 2023 amid rising investment and resilient spending on services. The labor market was tight, as unemployment remained very low by historic standards and wages continued to grow. In an effort to control inflation, the U.S. Federal Reserve (Fed) raised the federal funds target rate six times, ending at a

range of 5.25%–5.50%. However, at two of its meetings, the Fed declined to adjust interest rates, indicating that the pace of tightening was slowing. Nonetheless, the Fed indicated it would continue to reduce its U.S. Treasury (UST) and agency debt and mortgage-backed security holdings. Several prominent bank failures increased uncertainty among business confidence and stalled consumer spending weighed on the region. Nonetheless, inflation decelerated significantly, driving expectations that interest rate increases were nearing an end. In the wake of Russian energy supply disruptions, European governments spent significant sums to subsidize consumers and find alternative supplies. Consequently, the price of natural gas in Europe declined notably, providing a tailwind for European stocks. The European Central Bank increased interest rates at each of its eight meetings and began to reduce its bond holdings. In this environment, European developed market equities, as measured by the MSCI Europe Index-NR, posted a +28.85% total return for the 12 months under review.¹

Asian developed and emerging market equities, as measured by the MSCI All Country Asia Index-NR, posted a +16.19% total return for the 12-month period.¹ Economic activity in Japan rebounded strongly from a contraction in the third quarter of 2022, benefiting from improved net trade amid a recovery in exports. The end of pandemic-related border controls in Japan helped bolster tourism and consumer spending. On an annual basis, China's economic growth picked up but remained weak by historic standards, hindered by cooling consumer demand and slowing exports. Continued regulatory uncertainty and weakness in the property sector also negatively impacted Chinese markets.

Global emerging market stocks, as measured by the MSCI Emerging Markets Index-NR, posted a +11.70% total return for the 12 months under review.¹ Emerging market stocks are sensitive to interest rate changes in developed markets, and indications that central banks were nearing the end of their rate hiking cycles benefited emerging markets. The declining value of the U.S. dollar relative to some other currencies also boosted emerging market stocks.

The indexes are unmanaged and include reinvestment of any income or distributions. They do not reflect any fees, expenses or sales charges. One cannot invest directly in an index, and an index is not representative of the Fund's portfolio.

See www.franklintempletondatasources.com for additional data provider information.

The dollar value, number of shares or principal amount, and names of all portfolio holdings are listed in the Fund's Schedule of Investments (SOI). The SOI begins on page 53.

Q. How did we respond to these changing market conditions?

A. With more than 50 years of history investing in innovation, Franklin DynaTech Fund's investment philosophy, style, and process have remained consistent since its inception, regardless of market conditions. We believe that innovation is the primary driver of value creation in the economy, and look to new companies, products, and technologies to create long-term value for investors.

Throughout the 12-month period under review, our process was guided by expectations for a stock picker's market in innovation as uncompetitive companies finally fail. In the past few years, we have seen tight correlations among higher-revenue growth stocks. In the throes of the COVID-19 pandemic, many high-growth companies appeared to benefit, but as we emerged from the pandemic, these same companies needed to rationalize their businesses. We believe that the long-term structural winners were starting to sort themselves out, especially in the latter half of the period. Multidecade-high interest rates had an impact as they accelerated the failure of unprofitable tech-oriented companies and reduced competition. We also sought out structurally profitable companies that, in our view, can grow through the current economic cycle and eventually be rewarded with a more benign competitive environment going forward.

Thematically, we saw investment opportunities across many industries and sought to anticipate the convergence of technology in the physical, digital and biological spheres. The adoption of innovation and the invention of new technologies are rarely linear. Platforms can move forward faster than we expect, then regress. The goal of owning a portfolio of innovative companies, in our view, is to smooth out that spastic movement. Based on these convictions, we continued to invest in what we believe are secularly growing, innovative companies with compounding revenue, earnings, free cash flow, and sustainable competitive advantages over the next three-, five- and 10-year periods, according to our analysis.

Performance Overview

The Fund's Class A shares posted a +25.47% cumulative total return for the 12 months under review. In comparison, the Russell 1000® Growth Index, which is market capitalization weighted and measures performance of those Russell 1000® Index companies with relatively higher price-to-book ratios and higher forecasted growth rates, posted a cumulative total return of +27.72%.¹ Also for comparison, the broad U.S. stock market, as measured by the Standard & Poor's® 500 Index (S&P 500®) designed to measure

total U.S. equity market performance, posted a +21.62% cumulative total return.¹ You can find the Fund's long-term performance data in the Performance Summary beginning on page 8.

Performance data represent past performance, which does not guarantee future results. Investment return and principal value will fluctuate, and you may have a gain or loss when you sell your shares. Current performance may differ from figures shown. For most recent month-end performance, go to franklintempleton.com or call (800) 342-5236.

Portfolio Composition

Health Care Providers & Services	1.4%
Other*	8.0%
Short-Term Investments & Other Net Assets	0.7%

*Categories within the Other category are listed in full in the Fund's Schedule of Investments (SOI), which can be found later in this report.

Q. What were the leading contributors to performance?

A. In absolute terms, eight of the Fund's 10 equity sector allocations were net contributors for the 12 months under review. Information technology (IT) sector stocks covered roughly half of the portfolio and provided the bulk of the overall returns, led by a robust advance in the semiconductors and semiconductor equipment industry. While most of these investments posted exceptional, double-digit percentage returns, NVIDIA—our largest position in the industry—was an upside outlier among them as its share value more than tripled, and it provided nearly a quarter of the Fund's overall return. Corporate earnings were a factor, but not-as-bad-as-feared forward guidance, inventory digestion, and nascent optimism about a rebound in semiconductor sales helped drive gains. In general, a wave of investor interest and heightened trading around machine learning (ML) technology—a branch of artificial intelligence

(AI) that enables computers to emulate how humans learn and adapt by using data and experience—ignited rallies in several notable Fund contributors pursuing both themes, including semiconductor industry players situated at the core of ML/AI computing power. NVIDIA was widely seen as being a key recipient of future investment in this arena. NVIDIA's hardware originally made a name for itself powering high-end video game graphics, but in recent years the company's bet on AI and ML has begun to pay off. Machines require massive amounts of information and computer power to learn, and NVIDIA's GPUs (graphics processing units) are well-suited for the task. The company has emerged as a technological leader in the space as it continued to advance its next-generation chip circuitry amid an expanding client base and skyrocketing demand for its GPUs used in AI applications. NVIDIA consistently generates operating profit margins well into double-digit percentages, all the while spending heavily on new research and development. Among our other, lesser contributors in this industry were ASML Holding and Lam Research. ASML, a Dutch developer of advanced semiconductor equipment systems (including lithography, metrology and inspection systems for complex integrated circuits), upgraded its long-term outlook despite a soft market in 2022, while its financial earnings report generally showed surprising strength throughout the period under review. ASML raised its outlook for 2025 by about 30% above the figures it had projected one year ago—reassuring given the industry's recent downcycle. ASML also guided for continued growth to 2030, citing a brighter outlook for AI and edge computing data centers, as well as the metaverse, which emerged as a big concept a year ago.

Most of our software industry holdings also enjoyed a boom year including key contributors Microsoft, ServiceNow, Synopsys, Cadence Design Systems and HubSpot. In particular, ServiceNow compared well against its infrastructure and application software peers. The demand environment remained positive for ServiceNow as its products help customers reduce costs through the automation of critical processes. Tech bellwether Microsoft, meanwhile, often exceeded analysts' consensus estimates on revenue and earnings amidst solid gains in areas like intelligent cloud services, cybersecurity and server products, while spending on AI and LLMs (large language models)—underscored by its integration of OpenAI's ChatGPT into new search and "copilot" productivity tools—continues to ramp up. Despite its size and age, our analysis indicates Microsoft displays adaptability as a prominent consolidator in this phase of digital, cloud, AI, and vendor consolidation. In our view, we believe that the company's strategy is working as it looks set to carve out potential upside from cloud and generative AI in the years ahead.

In the financial services sector, tech-focused capital markets stocks were a distinct area of strength as all four related holdings increased solidly, as did Mastercard and Visa in the financial services industry. Mastercard and Visa, which offer similar dividends, essentially shared a duopoly in the payment card arena and continued to offer what we believe to be an excellent combination of safety, income and growth potential, which is rare in the fintech industry. They are also less cyclical than traditional banks as they operate more like communications platforms that connect various parties of a transaction, collecting a fee every time one of their cards is used. This lucrative operating model has led to high net income margins. This business has also served as a hedge against the high inflation we have been seeing for nearly two years now. If customers have to pay more for basic items like food or gas, or even for discretionary purchases, and if they use their Mastercard or Visa, the companies will benefit by generating greater fees. More recently, as travel demand has seen a resurgence, both companies' cross-border volume fees jumped in late 2022 and that momentum carried over into the first nine months of 2023.

To a lesser extent, the Fund's other key areas of sector-level strength were in health care, led by advanced medical technology equipment makers such as Intuitive Surgical (robotic systems for minimally invasive surgeries); communication services, led by tech conglomerate Alphabet (Google) in the interactive media and services industry; and industrials, where Axon Enterprise and other aerospace and defense-related companies traded solidly higher. Our much smaller stake in energy sector investments also appreciated solidly as Schlumberger and other oilfield services tracked a big rally in crude oil prices. Mixed results in the consumer discretionary sector, meanwhile, were led higher by e-commerce holdings MercadoLibre and Amazon.com.

Q. What were the leading detractors from performance?

A. During the 12 months under review, detractors were comparatively mild and concentrated in the beleaguered utilities and real estate sectors, both of which suffered from the effects of higher interest rates. Their impact was mitigated by their relatively small allocation sizes in the portfolio (when combined, they averaged just over 2% of total net assets), with losses in utilities focused on a solitary position in NextEra Energy, while the losses in real estate were focused on tech-oriented REITs (real estate investment trusts) like SBA Communications. We eventually liquidated all of the Fund's real estate holdings, but not before they had already collectively shed about a fifth of their equity value.

Top 10 Holdings

9/30/23

Company Industry, Country	% of Total Net Assets
NVIDIA Corp. <i>Semiconductors & Semiconductor Equipment, United States</i>	8.5%
Microsoft Corp. <i>Software, United States</i>	6.7%
Amazon.com, Inc. <i>Broadline Retail, United States</i>	6.5%
Alphabet, Inc. <i>Interactive Media & Services, United States</i>	4.2%
Mastercard, Inc. <i>Financial Services, United States</i>	3.4%
ServiceNow, Inc. <i>Software, United States</i>	3.3%
Tesla, Inc. <i>Automobiles, United States</i>	3.2%
Synopsys, Inc. <i>Software, United States</i>	2.9%
Cadence Design Systems, Inc. <i>Software, United States</i>	2.7%
Intuit, Inc. <i>Software, United States</i>	2.6%

The rest of the major detractors served to reduce overall gains in other sectors, none more so than electric vehicle (EV) and battery manufacturer Tesla, which saw volatile trading throughout the year and hurt our results in the consumer discretionary sector. Although Tesla reported financial pressures tied to earnings, profitability and price cuts amid its attempts to stimulate demand as car loans got more expensive to finance, the company did report encouraging growth in its vehicle production and deliveries and was finally expected to start making Cybertruck (EV pickup truck) deliveries in late 2023—four years after it was unveiled.

Amid mixed results in the health care sector, the Fund's investments in life sciences tools and services companies failed to advance, as did a smaller allocation in the health care providers and services industry. The group of companies focused on life sciences tools and diagnostics, including Repligen (bioprocessing solutions for the development and manufacture of plasmid DNA, viral vectors, mRNA and other new modalities) and Danaher (medical/ industrial products including mass spectrometers and microarray scanners), underperformed this year for multiple reasons including tough COVID-19 comparisons (inventory destocking, CDMO capacity normalization, etc.), higher interest rates impacting biotechnology company budgets, softer pharmaceutical spending, weakening business prospects in China, and general macroeconomic concerns. However, there are many more reasons to be optimistic in the longer term especially in areas such as bioprocessing, which we think should benefit from innovation happening

in GLP-1 (glucagon-like peptide 1 agonists, a class of type 2 diabetes drugs that not only improves blood sugar control but may also lead to weight loss), Alzheimer's and biosimilars to name just a few.

The rest of the notable detractors were concentrated in the IT sector, most notably in the software industry where 12 out of 35 holdings posted negative returns. These included Atlassian, CrowdStrike Holdings, Aspen Technology and Gitlab (sold by period-end). In particular, project management software specialist Atlassian's equity value fell back to levels not seen in three years as the quarterly results were mediocre at best, while guidance fell below consensus analyst projections as the company was seeing free-to-paid subscription conversions slowing in a more uncertain macro environment. Atlassian also began to see a slowdown in existing customers expanding deployments as layoffs (and hiring freezes) accelerated and IT budgets faced greater scrutiny, which we view as the bigger challenge. Despite the muted results and guidance, the company's trailing sales have more than doubled since the end of 2019, it keeps generating healthy cash flow, and we still believe there is strength in Atlassian's business model and competitive position.

In the semiconductor space, companies that specialize in chips, inverters and other equipment designed for solar/ renewable energy systems fared poorly. We selectively reduced or eliminated the portfolio's stakes in energy transition names given our concerns about demand trends in the sector, including Enphase Energy (not held at period-end) and SolarEdge Technologies (not held at period-end)—both of which operate in the U.S. residential solar market. After a period of excitement arising from the passing of infrastructure-focused stimulus initiatives in the U.S., many of the companies in the alternative energy sector reversed course. Rising rates have caused concern about higher financing costs and access to capital, resulting in slower adoption and growth. Enphase develops and manufactures solar micro-inverters, battery energy storage, and EV charging stations. The company has seen softening U.S. demand, thereby reducing visibility on orders and leading some investors to question the prospects of potentially extended inventories amid reduced battery sales. We believe the slowdown in Enphase's residential demand is mostly a function of higher interest rates, which has rendered the company's financed systems as no longer an immediate money saver in key states like Texas and Florida (and which may cause some consumers to go elsewhere if they opt for a leased home solar system). The company also faced some regulatory headwinds in California. Although we take these considerations seriously, and the shares have declined

meaningfully over the past year, we still think Enphase could regain momentum as it remains a best-in-class business in solar energy given the longer-term demand scenario for devices and systems that meter, distribute and store solar/ photovoltaic energy.

Q. Were there any significant changes to the Fund during the reporting period?

A. Based on market appreciation, some reallocation, and a reduction in the Fund's cash position, the portfolio's exposure to IT companies increased substantially. We also trimmed the Fund's health care holdings mainly in the life sciences tools and services industry, where depreciation further reduced our overall stake in it. We also divested the Fund's positions in REITs and chemical manufacturers as we sought to deploy proceeds into other investment themes; as a result, the Fund had no longer had any holdings in the real estate or materials sectors by period-end. Most of our other allocations were fairly static throughout the year though we did see an uptick in energy-related holdings with a series of new purchases in the oilfield services industry.

Thank you for your continued participation in Franklin DynaTech Fund. We look forward to serving your future investment needs.

Matthew J. Moberg, CPA
Rupert H. Johnson, Jr.

Portfolio Management Team

The foregoing information reflects our analysis, opinions and portfolio holdings as of September 30, 2023, the end of the reporting period. The way we implement our main investment strategies and the resulting portfolio holdings may change depending on factors such as market and economic conditions. These opinions may not be relied upon as investment advice or an offer for a particular security. The information is not a complete analysis of every aspect of any market, country, industry, security or the Fund. Statements of fact are from sources considered reliable, but the investment manager makes no representation or warranty as to their completeness or accuracy. Although historical performance is no guarantee of future results, these insights may help you understand our investment management philosophy.

Performance Summary as of September 30, 2023

The performance table and graphs do not reflect any taxes that a shareholder would pay on Fund dividends, capital gain distributions, if any, or any realized gains on the sale of Fund shares. Total return reflects reinvestment of the Fund's dividends and capital gain distributions, if any, and any unrealized gains or losses. Your dividend income will vary depending on dividends or interest paid by securities in the Fund's portfolio, adjusted for operating expenses of each class. Capital gain distributions are net profits realized from the sale of portfolio securities.

Performance as of 9/30/23¹

Cumulative total return excludes sales charges. Average annual total return includes maximum sales charges. Sales charges will vary depending on the size of the investment and the class of share purchased. The maximum is 5.50% and the minimum is 0%. **Class A:** 5.50% maximum initial sales charge; **Advisor Class:** no sales charges. For other share classes, visit franklintempleton.com.

Share Class	Cumulative Total Return ²	Average Annual Total Return ³
A⁴		
1-Year	+25.47%	+18.57%
5-Year	+50.47%	+7.30%
10-Year	+237.52%	+12.30%
Advisor		
1-Year	+25.79%	+25.79%
5-Year	+52.38%	+8.79%
10-Year	+246.10%	+13.22%

Performance data represent past performance, which does not guarantee future results. Investment return and principal value will fluctuate, and you may have a gain or loss when you sell your shares. Current performance may differ from figures shown. For most recent month-end performance, go to franklintempleton.com or call (800) 342-5236.

See page 10 for Performance Summary footnotes.

Total Return Index Comparison for a Hypothetical \$10,000 Investment¹

Total return represents the change in value of an investment over the periods shown. It includes any applicable maximum sales charge, Fund expenses, account fees and reinvested distributions. The unmanaged indexes include reinvestment of any income or distributions. They differ from the Fund in composition and do not pay management fees or expenses. One cannot invest directly in an index.

Class A (9/30/13–9/30/23)

Advisor Class (9/30/13–9/30/23)

See page 10 for Performance Summary footnotes.

Total Annual Operating Expenses⁶

Share Class

A	0.82%
Advisor	0.57%

Each class of shares is available to certain eligible investors and has different annual fees and expenses, as described in the prospectus.

Events such as the spread of deadly diseases, disasters, and financial, political or social disruptions, may heighten risks and adversely affect performance.

All investments involve risks, including possible loss of principal. Equity securities are subject to price fluctuation and possible loss of principal. To the extent the portfolio invests in a **concentration of certain securities, regions or industries**, it is subject to increased volatility. **Small- and mid-cap stocks** involve greater risks and volatility than large-cap stocks. The manager may consider **environmental, social and governance (ESG) criteria** in the research or investment process; however, ESG considerations may not be a determinative factor in security selection. In addition, the manager may not assess every investment for ESG criteria, and not every ESG factor may be identified or evaluated. These and other risks are discussed in the Fund's prospectus.

1. The total annual operating expenses are as of the Fund's prospectus available at the time of publication. Actual expenses may be higher and may impact portfolio returns.
2. Cumulative total return represents the change in value of an investment over the periods indicated.
3. Average annual total return represents the average annual change in value of an investment over the periods indicated. Return for less than one year, if any, has not been annualized.
4. Prior to 9/10/18, these shares were offered at a higher initial sales charge of 5.75%, thus actual returns (with sales charges) would have differed. Average annual total returns (with sales charges) have been restated to reflect the current maximum initial sales charge of 5.50%.
5. Source: FactSet. The Russell 1000[®] Growth Index is market capitalization weighted and measures performance of those Russell 1000[®] Index companies with relatively higher price-to-book ratios and higher forecasted growth rate. The S&P 500[®] is a market capitalization-weighted index of 500 stocks designed to measure total U.S. equity market performance.
6. Figures are as stated in the Fund's current prospectus and may differ from the expense ratios disclosed in the Your Fund's Expenses and Financial Highlights sections in this report. In periods of market volatility, assets may decline significantly, causing total annual Fund operating expenses to become higher than the figures shown. See www.franklintempletondatasources.com for additional data provider information.

Your Fund's Expenses

As a Fund shareholder, you can incur two types of costs: (1) transaction costs, including sales charges (loads) on Fund purchases and redemptions; and (2) ongoing Fund costs, including management fees, distribution and service (12b-1) fees, and other Fund expenses. All mutual funds have ongoing costs, sometimes referred to as operating expenses. The table below shows ongoing costs of investing in the Fund and can help you understand these costs and compare them with those of other mutual funds. The table assumes a \$1,000 investment held for the six months indicated.

Actual Fund Expenses

The table below provides information about actual account values and actual expenses in the columns under the heading "Actual." In these columns the Fund's actual return, which includes the effect of Fund expenses, is used to calculate the "Ending Account Value" for each class of shares. You can estimate the expenses you paid during the period by following these steps (*of course, your account value and expenses will differ from those in this illustration*): Divide your account value by \$1,000 (*if your account had an \$8,600 value, then $\$8,600 \div \$1,000 = 8.6$*). Then multiply the result by the number in the row for your class of shares under the headings "Actual" and "Expenses Paid During Period" (*if Actual Expenses Paid During Period were \$7.50, then $8.6 \times \$7.50 = \64.50*). In this illustration, the actual expenses paid this period are \$64.50.

Hypothetical Example for Comparison with Other Funds

Under the heading "Hypothetical" in the table, information is provided about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. This information may not be used to estimate the actual ending account balance or expenses you paid for the period, but it can help you compare ongoing costs of investing in the Fund with those of other funds. To do so, compare this 5% hypothetical example for the class of shares you hold with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that expenses shown in the table are meant to highlight ongoing costs and do not reflect any transactional costs. Therefore, information under the heading "Hypothetical" is useful in comparing ongoing costs only, and will not help you compare total costs of owning different funds. In addition, if transactional costs were included, your total costs would have been higher.

Share Class	Beginning Account Value 4/1/23	Actual (actual return after expenses)		Hypothetical (5% annual return before expenses)		Net Annualized Expense Ratio ²
		Ending Account Value 9/30/23	Expenses Paid During Period 4/1/23–9/30/23 ^{1,2}	Ending Account Value 9/30/23	Expenses Paid During Period 4/1/23–9/30/23 ^{1,2}	
A	\$1,000	\$1,069.00	\$4.15	\$1,021.06	\$4.05	0.80%
C	\$1,000	\$1,065.10	\$8.03	\$1,017.30	\$7.84	1.55%
R	\$1,000	\$1,067.70	\$5.44	\$1,019.80	\$5.32	1.05%
R6	\$1,000	\$1,070.80	\$2.44	\$1,022.72	\$2.38	0.47%
Advisor	\$1,000	\$1,070.30	\$2.86	\$1,022.31	\$2.79	0.55%

1. Expenses are equal to the annualized expense ratio for the six-month period as indicated above—in the far right column—multiplied by the simple average account value over the period indicated, and then multiplied by 183/365 to reflect the one-half year period.

2. Reflects expenses after fee waivers and expense reimbursements. Does not include acquired fund fees and expenses.

Franklin Focused Growth Fund

This annual report for Franklin Focused Growth Fund covers the fiscal year ended September 30, 2023. At a meeting held on June 30, 2023, shareholders of Franklin Focused Growth Fund (the “Fund”) approved the reorganization of the Fund into a newly-created exchange traded fund, Franklin Focused Growth ETF (“Franklin Focused Growth ETF”), a series of Franklin Templeton ETF Trust (the “Reorganization”). The Reorganization occurred as of the close of business on November 3, 2023 (the “Closing Date”). Effective as of the close of business on November 3, 2023, the Fund ceased operations in connection with the consummation of the Reorganization.

Because the Fund is the accounting survivor of the Reorganization, Franklin Focused Growth ETF will continue to show the historical investment performance and financial history of the Fund. In connection with the Reorganization, each Fund shareholder (except as noted below) received shares of Franklin Focused Growth ETF equal in value to the number of shares of the Fund they owned on the Closing Date, including a cash payment in lieu of any fractional shares. Fund Shareholders who did not have a brokerage account that could accept shares of Franklin Focused Growth ETF prior to November 3, 2023, generally have the ETF shares received in the Reorganization held on their behalf by Equiniti Trust Company, LLC (formerly known as American Stock Transfer & Trust Company, LLC) in a default trustee account. Fund Shareholders who held their shares with Fiduciary Trust International of the South (FTIOS) as the custodian and did not open a brokerage account and transfer their Fund shares into it before the close of market on October 6, 2023, had their Fund shares exchanged by FTIOS for Class A Shares of Franklin U.S. Government Money Fund. Holders of Franklin Templeton 403(b) accounts who did not exchange their Fund shares for shares of another mutual fund available to their Franklin Templeton 403(b) account or redeem their Fund shares before October 2, 2023, had their Fund shares exchanged into Class A shares of Franklin U.S. Government Money Fund. Holders of Franklin Templeton Solo(k) accounts who did not exchange their Fund shares for shares of another mutual fund available to their Franklin Templeton Solo(k) account or redeem their Fund shares before October 2, 2023, had their Fund shares exchanged into Class R shares of Franklin U.S. Government Money Fund.

Fund Overview

Q. What is the Fund's investment strategy?

A. We use fundamental, bottom-up research to seek companies meeting our criteria of growth potential, quality and valuation. In seeking sustainable growth characteristics, we look for companies we believe can produce sustainable

earnings and cash flow growth, evaluating the long-term market opportunity and competitive structure of an industry to target leaders and emerging leaders. We define quality companies as those with strong and improving competitive positions in attractive markets. We also believe important attributes of quality are experienced and talented management teams as well as financial strength reflected in the capital structure, gross and operating margins, free cash flow generation and returns on capital employed. Our valuation analysis includes a range of potential outcomes based on an assessment of multiple scenarios. In assessing value, we consider whether security prices fully reflect the balance of the sustainable growth opportunities relative to business and financial risks.

Q. What were the overall market conditions during the Fund's reporting period?

A. Global developed and emerging market equities, as measured by the MSCI All Country World Index-NR (net of tax withholding when dividends are paid), posted a +20.80% total return for the 12 months ended September 30, 2023.¹ While inflation remained elevated in most parts of the world, it showed signs of slowing in the second half of the period, bolstering equities. This inflationary pressure led many of the world's central banks to tighten monetary policy, driving interest rates significantly higher and pressuring economic growth. However, tightening eased as the period continued, and investors foresaw an end to the current monetary policy cycle even as growth continued. Equity performance varied notably by region, as changing economic conditions had a differential impact depending on local circumstances.

In the U.S., gross domestic product (GDP) expanded in the fourth quarter of 2022 and the first half of 2023 amid rising investment and resilient spending on services. The labor market was tight, as unemployment remained very low by historic standards and wages continued to grow. In an effort to control inflation, the U.S. Federal Reserve (Fed) raised the federal funds target rate six times, ending at a range of 5.25%–5.50%. However, at two of its meetings, the Fed declined to adjust interest rates, indicating that the pace of tightening was slowing. Nonetheless, the Fed indicated it would continue to reduce its U.S. Treasury (UST) and agency debt and mortgage-backed security holdings. Several prominent bank failures increased uncertainty among investors, but government intervention led to swift reorganizations and equities recovered from a brief decline.

Economic growth in the eurozone was tepid during the period, as higher interest rates, declining business confidence and stalled consumer spending weighed on the region. Nonetheless, inflation decelerated significantly, driving expectations that interest rate increases were nearing

an end. In the wake of Russian energy supply disruptions, European governments spent significant sums to subsidize consumers and find alternative supplies. Consequently, the price of natural gas in Europe declined notably, providing a tailwind for European stocks. The European Central Bank increased interest rates at each of its eight meetings and began to reduce its bond holdings. In this environment, European developed market equities, as measured by the MSCI Europe Index-NR, posted a +29.69% total return for the 12 months under review.¹

Asian developed and emerging market equities, as measured by the MSCI All Country Asia Index-NR, posted a +16.19% total return for the 12-month period.¹ Economic activity in Japan rebounded strongly from a contraction in the third quarter of 2022, benefiting from improved net trade amid a recovery in exports. The end of pandemic-related border controls in Japan helped bolster tourism and consumer spending. On an annual basis, China's economic growth picked up but remained weak by historic standards, hindered by cooling consumer demand and slowing exports. Continued regulatory uncertainty and weakness in the property sector also negatively impacted Chinese markets.

Global emerging market stocks, as measured by the MSCI Emerging Markets Index-NR, posted a +11.70% total return for the 12 months under review.¹ Emerging market stocks are sensitive to interest rate changes in developed markets, and indications that central banks were nearing the end of their rate hiking cycles benefited emerging markets. The declining value of the U.S. dollar relative to some other currencies also boosted emerging market stocks.

Q. How did we respond to these changing market conditions?

A. The Fund's investment philosophy, style, and process have remained consistent since its inception, regardless of market conditions. We believe that innovation is the primary driver of value creation in the economy, and look to new companies, products, and technologies to create long-term value for investors.

Throughout the 12-month period under review, our process was guided by expectations for a stock picker's market in innovation as uncompetitive companies finally fail. In the past few years, we have seen tight correlations among

higher-revenue growth stocks. In the throes of the COVID-19 pandemic, many high-growth companies appeared to benefit, but as we emerged from the pandemic, these same companies needed to rationalize their businesses. We believe that the long-term structural winners were starting to sort themselves out, especially in the latter half of the period. Multidecade-high interest rates had an impact as they accelerated the failure of unprofitable tech-oriented companies and reduced competition. We also sought out structurally profitable companies that, in our view, can grow through the current economic cycle and eventually be rewarded with a more benign competitive environment going forward.

Thematically, we saw investment opportunities across many industries and sought to anticipate the convergence of technology in the physical, digital and biological spheres. The adoption of innovation and the invention of new technologies are rarely linear. Platforms can move forward faster than we expect, then regress. The goal of owning a portfolio of innovative companies, in our view, is to smooth out that spastic movement. Based on these convictions, we continued to invest in what we believe are secularly growing, innovative companies with compounding revenue, earnings, free cash flow, and sustainable competitive advantages over the next three-, five- and 10-year periods, according to our analysis.

Performance Overview

The Fund's Class A shares posted a +28.24% cumulative total return for the 12 months under review. In comparison, the Russell 1000[®] Growth Index, which is market capitalization weighted and measures performance of those Russell 1000[®] Index companies with relatively higher price-to-book ratios and higher forecasted growth rates, posted a cumulative total return of +27.72%.¹ You can find the Fund's long-term performance data in the Performance Summary beginning on page 17.

Performance data represent past performance, which does not guarantee future results. Investment return and principal value will fluctuate, and you may have a gain or loss when you sell your shares. Current performance may differ from figures shown. For most recent month-end performance, go to franklintempleton.com or call (800) 342-5236.

ASML Holding NV <i>Semiconductors & Semiconductor Equipment, Netherlands</i>	3.7%

Q. What were the leading contributors to performance?

A. In absolute terms, eight of the Fund's 11 equity sector allocations were net contributors for the 12 months under review. Information technology (IT) sector stocks covered more than two-fifths of the portfolio and provided the

bulk of the overall returns, led by a robust advance in the semiconductors and semiconductor equipment industry. While some of these investments posted exceptional, double-digit percentage returns, NVIDIA—our largest position in the industry—was an upside outlier among them as its share value more than tripled, and it provided more than a third of the Fund's overall return. Corporate earnings were a factor, but not-as-bad-as-feared forward guidance, inventory digestion, and nascent optimism about a rebound in semiconductor sales helped drive gains. In general, a wave of investor interest and heightened trading around machine learning (ML) technology—a branch of artificial intelligence (AI) that enables computers to emulate how humans learn and adapt by using data and experience—ignited rallies in several notable Fund contributors pursuing both themes, including semiconductor industry players situated at the core of ML/AI computing power. NVIDIA was widely seen as being a key recipient of future investment in this arena. NVIDIA's hardware originally made a name for itself powering high-end video game graphics, but in recent years the company's bet on AI and ML has begun to pay off. Machines require massive amounts of information and computer power to learn, and NVIDIA's GPUs (graphics processing units) are well-suited for the task. The company has emerged as a technological leader in the space as it continued to advance its next-generation chip circuitry amid an expanding client base and skyrocketing demand for its GPUs used in AI applications. NVIDIA consistently generates operating profit margins well into double-digit percentages, all the while spending heavily on new research and development. Among our other, lesser contributors in this industry were ASML Holding and Analog Devices. ASML, a Dutch developer of advanced semiconductor equipment systems (including lithography, metrology and inspection systems for complex integrated circuits), upgraded its long-term outlook despite a soft market in 2022, while its financial earnings report generally showed surprising strength throughout the period under review. ASML raised its outlook for 2025 by about 30% above the figures it had projected one year ago—reassuring given the industry's recent downcycle. ASML also guided for continued growth to 2030, citing a brighter outlook for AI and edge computing data centers, as well as the metaverse, which emerged as a big concept a year ago.

Most of our software industry holdings also enjoyed a boom year including key contributors Microsoft, ServiceNow, Cadence Design Systems (purchased during the period) and Salesforce. In particular, ServiceNow compared well against its infrastructure and application software peers. The demand environment remained positive for ServiceNow as its products help customers reduce costs through the

automation of critical processes. Tech bellwether Microsoft, meanwhile, often exceeded analysts' consensus estimates on revenue and earnings amidst solid gains in areas like intelligent cloud services, cybersecurity and server products, while spending on AI and LLMs (large language models)—underscored by its integration of OpenAI's ChatGPT into new search and "copilot" productivity tools—continues to ramp up. Despite its size and age, our analysis indicates Microsoft displays adaptability as a prominent consolidator in this phase of digital, cloud, AI, and vendor consolidation. We believe the company's strategy is working as it looks set to carve out potential upside from cloud and generative AI in the years ahead.

To a much lesser extent, our health care allocation also contained several stocks that rallied sharply, none more so than pharmaceutical giant Eli Lilly. Returns in the sector were further boosted by advanced medical technology equipment makers such as Intuitive Surgical (robotic systems for minimally invasive surgeries), as well as IDEXX Laboratories, which sells next-generation products and services in the companion animal veterinary, livestock and poultry, water testing, and dairy markets.

The Fund's other key areas of sector-level strength included financials, as Mastercard and tech-focused capital markets firm MSCI (a leading provider of critical decision support tools and services for the global investment community) traded substantially higher. Mastercard, known for its dominating presence in the payment card arena, continued to offer an excellent combination of safety, dividend income and growth potential, which is rare in the fintech industry. It is also less cyclical than traditional banks as it operates more like a communications platform that connects various parties of a transaction, collecting a fee every time one of its cards is used. This lucrative operating model has led to high net income margins. Mastercard's business has also served as a hedge against the high inflation we have been seeing for nearly two years now. If customers have to pay more for basic items like food or gas, or even for discretionary purchases, and if they use their Mastercard, the company will benefit by generating greater fees. More recently, as travel demand has seen a resurgence, Mastercard's cross-border volume fees jumped in late 2022 and that momentum carried over into the first nine months of 2023.

Smaller allocations in communication services, consumer staples, industrials, materials and energy also advanced during the period under review. Communication services gains were led by tech conglomerate Alphabet (Google) in the interactive media and services industry, while Costco Wholesale provided all of the net gain in consumer staples.

There were only two holdings in the industrials sector; both traded higher including a huge 12-month gain for key contributor Axon Enterprise, which develops technology (e.g., body cameras and law enforcement networking software) and weapons (e.g., TASER electroshock devices and other sublethal weapons) for military, law enforcement and civilians. Our much smaller stake in commodity-linked materials and energy sector investments also appreciated solidly—diversified metals and mining company Freeport-McMoRan benefited from rising prices for a wide range of precious and industrial metals including iron ore and copper, while two newly-initiated holdings in oilfield services and energy conglomerates tracked rallying crude oil prices during the time in which they were held by the Fund. Mixed results in the consumer discretionary sector, meanwhile, were aided by e-commerce holdings MercadoLibre and Amazon.com.

Q. What were the leading detractors from performance?

A. During the 12 months under review, detractors were comparatively mild, with some concentration in the utilities and real estate sectors, both of which suffered from the effects of higher interest rates. Their impact was mitigated by their relatively small allocation sizes in the portfolio (when combined, they averaged just under 6% of total net assets), with losses in utilities focused on a solitary position in NextEra Energy, while the losses in real estate were focused on tech-oriented REIT (real estate investment trust) SBA Communications. We eventually liquidated the Fund's investment in SBA Communications holdings, but not before it had already shed about a fifth of its equity value.

In the consumer discretionary sector, the gains associated with MercadoLibre and Amazon were more than offset by the selloff in electric vehicle (EV) and battery manufacturer Tesla, which saw volatile trading throughout the year. Although Tesla reported financial pressures tied to earnings, profitability and price cuts amid its attempts to stimulate demand as car loans got more expensive to finance, the company did report encouraging growth in its vehicle production and deliveries and was finally expected to start making Cybertruck (EV pickup truck) deliveries in late 2023—four years after it was unveiled.

The rest of the major detractors served to reduce our overall gains in other sectors. Within health care, all three investments in the life sciences tools and services companies failed to advance, as did a smaller allocation in the health care providers and services industry. The group of companies focused on life sciences tools and diagnostics, including Repligen (bioprocessing solutions for the development and manufacture of plasmid DNA, viral vectors, mRNA and other new modalities; sold by

period-end) and Danaher (medical/industrial products including mass spectrometers and microarray scanners), underperformed this year for multiple reasons including tough COVID-19 comparisons (inventory destocking, CDMO capacity normalization, etc.), higher interest rates impacting biotechnology company budgets, softer pharmaceutical spending, weakening business prospects in China, and general macroeconomic concerns. However, there are many more reasons to be optimistic in the longer term especially in areas such as bioprocessing, which we think should benefit from innovation happening in GLP-1 (glucagon-like peptide 1 agonists, a class of type 2 diabetes drugs that not only improves blood sugar control but may also lead to weight loss), Alzheimer's and biosimilars to name just a few.

The rest of the notable detractors were concentrated in the IT sector, where five out of 17 stocks traded lower including Atlassian in software, Enphase Energy in semiconductors and semi equipment, and Snowflake in IT services; all three holdings were sold by period-end. In particular, project management software specialist Atlassian's equity value fell back to levels not seen in three years as the quarterly results were mediocre at best, while guidance fell below consensus analyst projections as the company was seeing free-to-paid subscription conversions slowing in a more uncertain macro environment. Atlassian also began to see a slowdown in existing customers expanding deployments as layoffs (and hiring freezes) accelerated and IT budgets faced greater scrutiny, which we view as the bigger challenge.

In the semiconductor space, companies that specialize in chips, inverters and other equipment designed for solar/renewable energy systems fared poorly beginning in early 2023, including Enphase Energy, which operates in the U.S. residential solar market. After a period of excitement arising from the passing of infrastructure-focused stimulus initiatives in the United States, many companies in the alternative energy sector reversed course. Rising rates have caused concern about higher financing costs and access to capital, resulting in slower adoption and growth. Enphase develops and manufactures solar micro-inverters, battery energy storage, and EV charging stations. The company has seen softening U.S. demand, thereby reducing visibility on orders and leading some investors to question the prospects of potentially extended inventories amid reduced battery sales. We believe the slowdown in Enphase's residential demand was mostly a function of higher interest rates, which has rendered the company's financed systems as no longer an immediate money saver in key states like Texas and Florida (and which may cause some consumers to go elsewhere if they opt for a leased home solar system). The company also faced some regulatory headwinds in California.

Q. Were there any significant changes to the Fund during the reporting period?

A. Based on market appreciation, some reallocation, and a reduction in the Fund's cash position, the portfolio's exposure to IT companies increased substantially. We also trimmed the Fund's health care holdings mainly in the life sciences tools and services industry, where depreciation further reduced our overall stake in it. We also divested the Fund's positions in REITs and chemical manufacturers as we sought to deploy proceeds into other investment themes; as a result, the Fund had no longer had any holdings in the real estate or materials sectors by period-end. Most of our other allocations were fairly static throughout the year, though we did see an uptick in energy-related holdings with a series of new purchases in the oilfield services industry.

Thank you for your participation in Franklin Focused Growth Fund. We look forward to serving your future investment needs.

Matthew J. Moberg, CPA
Portfolio Manager

The foregoing information reflects our analysis, opinions and portfolio holdings as of September 30, 2023, the end of the reporting period. The way we implement our main investment strategies and the resulting portfolio holdings may change depending on factors such as market and economic conditions. These opinions may not be relied upon as investment advice or an offer for a particular security. The information is not a complete analysis of every aspect of any market, country, industry, security or the Fund. Statements of fact are from sources considered reliable, but the investment manager makes no representation or warranty as to their completeness or accuracy. Although historical performance is no guarantee of future results, these insights may help you understand our investment management philosophy.

Performance Summary as of September 30, 2023

The performance table and graphs do not reflect any taxes that a shareholder would pay on Fund dividends, capital gain distributions, if any, or any realized gains on the sale of Fund shares. Total return reflects reinvestment of the Fund's dividends and capital gain distributions, if any, and any unrealized gains or losses. Your dividend income will vary depending on dividends or interest paid by securities in the Fund's portfolio, adjusted for operating expenses of each class. Capital gain distributions are net profits realized from the sale of portfolio securities.

Performance as of 9/30/23¹

*Cumulative total return excludes sales charges. Average annual total return includes maximum sales charges. Sales charges will vary depending on the size of the investment and the class of share purchased. The maximum is 5.50% and the minimum is 0%. **Class A:** 5.50% maximum initial sales charge; **Advisor Class:** no sales charges. For other share classes, visit franklintempleton.com.*

Share Class	Cumulative Total Return ²	Average Annual Total Return ³
A⁴		
1-Year	+28.24%	+28.24%
5-Year	+54.79%	+9.13%
Since Inception (4/13/16) ⁵	+166.18%	+14.01%
Advisor		
1-Year	+28.55%	+28.55%
5-Year	+56.80%	+9.41%
Since Inception (4/13/16) ⁵	+171.29%	+14.30%

Performance data represent past performance, which does not guarantee future results. Investment return and principal value will fluctuate, and you may have a gain or loss when you sell your shares. Current performance may differ from figures shown. For most recent month-end performance, go to franklintempleton.com or call (800) 342-5236.

See page 19 for Performance Summary footnotes.

Total Return Index Comparison for a Hypothetical \$10,000 Investment¹

Total return represents the change in value of an investment over the periods shown. It includes any applicable maximum sales charge, Fund expenses, account fees and reinvested distributions. The unmanaged index includes reinvestment of any income or distributions. It differs from the Fund in composition and does not pay management fees or expenses. One cannot invest directly in an index.

Class A (4/13/16–9/30/23)

Advisor Class (4/13/16–9/30/23)

See page 19 for Performance Summary footnotes.

Total Annual Operating Expenses⁷

Share Class	With Fee Waiver	Without Fee Waiver
A	1.10%	1.37%
Advisor	0.85%	1.12%

Each class of shares is available to certain eligible investors and has different annual fees and expenses, as described in the prospectus.

Events such as the spread of deadly diseases, disasters, and financial, political or social disruptions, may heighten risks and adversely affect performance.

All investments involve risks, including possible loss of principal. To the extent the portfolio invests in a **concentration of certain securities, regions or industries**, it is subject to increased volatility. The **investment style** may become out of favor, which may have a negative impact on performance. **Active management** does not ensure gains or protect against market declines. **Small- and mid-cap stocks** involve greater risks and volatility than large-cap stocks. **International investments** are subject to special risks, including currency fluctuations and social, economic and political uncertainties, which could increase volatility. These risks are magnified in **emerging markets**. The manager may consider **environmental, social and governance (ESG) criteria** in the research or investment process; however, ESG considerations may not be a determinative factor in security selection. In addition, the manager may not assess every investment for ESG criteria, and not every ESG factor may be identified or evaluated. These and other risks are discussed in the Fund's prospectus.

1. Gross expenses are the Fund's total annual operating expenses as of the Fund's prospectus available at the time of publication. Actual expenses may be higher and may impact portfolio returns. Net expenses reflect contractual fee waivers, expense caps and/or reimbursements, which cannot be terminated prior to 01/31/24 without Board consent. Additional amounts may be voluntarily waived and/or reimbursed and may be modified or discontinued at any time without notice.
2. Cumulative total return represents the change in value of an investment over the periods indicated.
3. Average annual total return represents the average annual change in value of an investment over the periods indicated. Return for less than one year, if any, has not been annualized.
4. Effective 2/14/20, the Fund began offering Class A shares. Class A performance shown has been calculated as follows: (a) for periods prior to 2/14/20, a restated figure is used based on the Fund's Advisor Class performance that includes any Rule 12b-1 rate differential that exists between Class A and Advisor Class; and (b) for periods after 2/14/20, actual Class A performance is used, reflecting all charges and fees applicable to that class.
5. Since Inception returns are based on the performance inception date of 4/13/16.
6. Source: FactSet. The Russell 1000 Growth Index is market capitalization-weighted and measures performance of those Russell 1000 Index companies with relatively higher price-to-book ratios and higher forecasted growth rates.
7. Figures are as stated in the Fund's current prospectus and may differ from the expense ratios disclosed in the Your Fund's Expenses and Financial Highlights sections in this report. In periods of market volatility, assets may decline significantly, causing total annual Fund operating expenses to become higher than the figures shown. See www.franklintempletondatasources.com for additional data provider information.

Your Fund's Expenses

As a Fund shareholder, you can incur two types of costs: (1) transaction costs, including sales charges (loads) on Fund purchases and redemptions; and (2) ongoing Fund costs, including management fees, distribution and service (12b-1) fees, and other Fund expenses. All mutual funds have ongoing costs, sometimes referred to as operating expenses. The table below shows ongoing costs of investing in the Fund and can help you understand these costs and compare them with those of other mutual funds. The table assumes a \$1,000 investment held for the six months indicated.

Actual Fund Expenses

The table below provides information about actual account values and actual expenses in the columns under the heading "Actual." In these columns the Fund's actual return, which includes the effect of Fund expenses, is used to calculate the "Ending Account Value" for each class of shares. You can estimate the expenses you paid during the period by following these steps (*of course, your account value and expenses will differ from those in this illustration*): Divide your account value by \$1,000 (*if your account had an \$8,600 value, then $\$8,600 \div \$1,000 = 8.6$*). Then multiply the result by the number in the row for your class of shares under the headings "Actual" and "Expenses Paid During Period" (*if Actual Expenses Paid During Period were \$7.50, then $8.6 \times \$7.50 = \64.50*). In this illustration, the actual expenses paid this period are \$64.50.

Hypothetical Example for Comparison with Other Funds

Under the heading "Hypothetical" in the table, information is provided about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. This information may not be used to estimate the actual ending account balance or expenses you paid for the period, but it can help you compare ongoing costs of investing in the Fund with those of other funds. To do so, compare this 5% hypothetical example for the class of shares you hold with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that expenses shown in the table are meant to highlight ongoing costs and do not reflect any transactional costs. Therefore, information under the heading "Hypothetical" is useful in comparing ongoing costs only, and will not help you compare total costs of owning different funds. In addition, if transactional costs were included, your total costs would have been higher.

Share Class	Beginning Account Value 4/1/23	Actual (actual return after expenses)		Hypothetical (5% annual return before expenses)		Net Annualized Expense Ratio ²
		Ending Account Value 9/30/23	Expenses Paid During Period 4/1/23–9/30/23 ^{1,2}	Ending Account Value 9/30/23	Expenses Paid During Period 4/1/23–9/30/23 ^{1,2}	
A	\$1,000	\$1,084.60	\$5.73	\$1,019.57	\$5.55	1.10%
C	\$1,000	\$1,080.80	\$9.66	\$1,015.78	\$9.36	1.85%
R	\$1,000	\$1,082.90	\$7.06	\$1,018.29	\$6.84	1.35%
Advisor	\$1,000	\$1,085.60	\$4.46	\$1,020.80	\$4.32	0.85%

1. Expenses are equal to the annualized expense ratio for the six-month period as indicated above—in the far right column—multiplied by the simple average account value over the period indicated, and then multiplied by 183/365 to reflect the one-half year period.

2. Reflects expenses after fee waivers and expense reimbursements. Does not include acquired fund fees and expenses.

Franklin Growth Fund

Fund Overview

Q. What is the Fund's investment strategy?

A. We use fundamental, bottom-up research to seek companies meeting our criteria of growth potential, quality and valuation. In seeking sustainable growth characteristics, we look for companies we believe can produce sustainable earnings and cash flow growth, evaluating the long-term market opportunity and competitive structure of an industry to target leaders and emerging leaders. We define quality companies as those with strong and improving competitive positions in attractive markets. We also believe important attributes of quality are experienced and talented management teams as well as financial strength reflected in the capital structure, gross and operating margins, free cash flow generation and returns on capital employed. Our valuation analysis includes a range of potential outcomes based on an assessment of multiple scenarios. In assessing value, we consider whether security prices fully reflect the balance of the sustainable growth opportunities relative to business and financial risks. The investment manager's process generally includes an assessment of the potential impacts of any material environmental, social and governance ("ESG") factors on the long-term risk and return profile of a company.

Q. What were the overall market conditions during the Fund's reporting period?

A. In the U.S., gross domestic product (GDP) expanded in the fourth quarter of 2022 and the first half of 2023 amid rising investment and resilient spending on services. The labor market was tight, as unemployment remained very low by historic standards and wages continued to grow. In an effort to control inflation, the U.S. Federal Reserve (Fed) raised the federal funds target rate six times, ending at a range of 5.25%–5.50%. However, at two of its meetings, the Fed declined to adjust interest rates, indicating that the pace of tightening was slowing. Nonetheless, the Fed indicated it would continue to reduce its U.S. Treasury (UST) and agency debt and mortgage-backed security holdings. Several prominent bank failures increased uncertainty among investors, but government intervention led to swift reorganizations and equities recovered from a brief decline.

Q. How did we respond to these changing market conditions?

A. The Franklin Growth Fund has always been a fully diversified portfolio of high-quality growth companies that can be owned for a very long time. Given the Fund's more conservative approach, over the period it performed as was expected in 2022, protecting more on the downside than its peers. On the flip side, in 2023 the recent narrow bull market in a handful of tech companies has worked to our disadvantage. Historically narrow markets are not healthy, and we believe the Fund is well positioned given its breadth of industry exposures for whatever economic environment is forthcoming.

Performance Overview

The Fund's Class A shares posted a +20.43% cumulative total return for the 12 months under review. In comparison, the Standard & Poor's® 500 Index (S&P 500®), which is a broad measure of U.S. stock performance, posted a +21.62% cumulative total return.¹ The Fund's new secondary benchmark, the Russell 1000® Growth Index, which is market capitalization weighted and measures performance of those Russell 1000® Index companies with relatively higher price-to-book ratios and higher forecasted growth rates, posted a cumulative total return of +27.72%.¹ You can find the Fund's long-term performance data in the Performance Summary beginning on page 24.

Performance data represent past performance, which does not guarantee future results. Investment return and principal value will fluctuate, and you may have a gain or loss when you sell your shares. Current performance may differ from figures shown. For most recent month-end performance, go to franklintempleton.com or call (800) 342-5236.

Q. What were the leading contributors to performance?

A. During the 12 months under review, it was the Fund's allocation effect that helped overall relative returns. Underweightings in the financials, consumer staples and consumer discretionary sectors benefited relative performance. In the consumer discretionary sector, an underweight in the poorly performing shares of Tesla delivered strong relative results. The electric vehicle manufacturer faced many headwinds over the period including raw materials inflation and affordability challenges in a rising rate environment. On an individual stock basis,

1. Source: Morningstar.

The indexes are unmanaged and include reinvestment of any income or distributions. They do not reflect any fees, expenses or sales charges. One cannot invest directly in an index, and an index is not representative of the Fund's portfolio.

See www.franklintempletondatasources.com for additional data provider information.

The dollar value, number of shares or principal amount, and names of all portfolio holdings are listed in the Fund's Schedule of Investments (SOI). The SOI begins on page 68.

the biggest contributors to relative returns were NVIDIA and ServiceNow in the information technology (IT) sector and Eli Lilly and Intuitive Surgical in the health care sector. Chipmaker NVIDIA and digital workflow provider ServiceNow benefited from broader equity market gains over the period as well as the rapid adoption of artificial intelligence (AI). In the case of NVIDIA, the firm's market cap reached \$1 trillion in May 2023 on the back of strong demand for AI products. Pharmaceutical giant Eli Lilly & Company had several drugs driving its growth along with a promising pipeline focused on diabetes/obesity, immunology, oncology, and neuroscience. Robotic surgical systems manufacturer Intuitive Surgical saw improved sales of its DaVinci machines as patient procedure growth reached pre-COVID-19 levels.

Portfolio Composition

*Categories within the Other category are listed in full in the Fund's Schedule of Investments (SOI), which can be found later in this report.

Q. What were the leading detractors from performance?

A. Leading detractors over the period included the industrials, communication services and energy sectors. Stock selection and an overweight in the aerospace and defense industry had a negative impact on relative performance in the industrials sector. Within the sector, elevated inflation, supply-chain delays and labor shortages were challenges for defense contractor Northrop Grumman. While financials were an overall contributor at the sector level, the Fund's investments in Charles Schwab and Adyen hindered relative performance. Stock market volatility and rising interest rates weighed on the shares of brokerage giant Charles Schwab, while competition and increasing operating expenses were drags on the shares of payment

processor Adyen. Manufacturing issues, slowing biotech spending and tough COVID-19 comparisons weighed on the shares of Catalent in the health care sector, which was the biggest relative detractor over the period. Elsewhere, in the IT sector, BILL Holdings was among the Fund's five biggest relative detractors. The shares of the financial software provider were pressured by a pullback in spending by small- and mid-sized businesses due to macroeconomic uncertainty, which hindered payment volume growth.

Top 10 Holdings

9/30/23

Company Industry, Country	% of Total Net Assets
Microsoft Corp. Software, United States	5.7%
Apple, Inc. Technology Hardware, Storage & Peripherals, United States	4.7%
Alphabet, Inc. Interactive Media & Services, United States	3.7%
Amazon.com, Inc. Broadline Retail, United States	3.7%
NVIDIA Corp. Semiconductors & Semiconductor Equipment, United States	3.6%

Mastercard, Inc. Financial Services, United States	2.4%
Intuit, Inc. Software, United States	2.4%
ServiceNow, Inc. Software, United States	2.3%
Union Pacific Corp. Ground Transportation, United States	1.9%

Q. Were there any significant changes to the Fund during the reporting period?

A. We reduced some of our larger technology names and trimmed various industrial positions that had grown into larger positions as valuations were at the high end and we became increasingly concerned about the impact of an economic slowdown. We also reduced or exited several small tail positions where we were concerned that higher interest rates may impact on their ability to grow or where their profit profile has been pushed out. Some of those positions included Proterra, Gitlab, Olaplex Holdings, Lucid Group, Guardant Health and 10x Genomics.

Thank you for your continued participation in Franklin Growth Fund. We look forward to serving your future investment needs.

Portfolio Management Team

The foregoing information reflects our analysis, opinions and portfolio holdings as of September 30, 2023, the end of the reporting period. The way we implement our main investment strategies and the resulting portfolio holdings may change depending on factors such as market and economic conditions. These opinions may not be relied upon as investment advice or an offer for a particular security. The information is not a complete analysis of every aspect of any market, country, industry, security or the Fund. Statements of fact are from sources considered reliable, but the investment manager makes no representation or warranty as to their completeness or accuracy. Although historical performance is no guarantee of future results, these insights may help you understand our investment management philosophy.

Performance Summary as of September 30, 2023

The performance table and graphs do not reflect any taxes that a shareholder would pay on Fund dividends, capital gain distributions, if any, or any realized gains on the sale of Fund shares. Total return reflects reinvestment of the Fund's dividends and capital gain distributions, if any, and any unrealized gains or losses. Your dividend income will vary depending on dividends or interest paid by securities in the Fund's portfolio, adjusted for operating expenses of each class. Capital gain distributions are net profits realized from the sale of portfolio securities.

Performance as of 9/30/23¹

*Cumulative total return excludes sales charges. Average annual total return includes maximum sales charges. Sales charges will vary depending on the size of the investment and the class of share purchased. The maximum is 5.50% and the minimum is 0%. **Class A:** 5.50% maximum initial sales charge; **Advisor Class:** no sales charges. For other share classes, visit franklintempleton.com.*

Share Class	Cumulative Total Return ²	Average Annual Total Return ³

Performance data represent past performance, which does not guarantee future results. Investment return and principal value will fluctuate, and you may have a gain or loss when you sell your shares. Current performance may differ from figures shown. For most recent month-end performance, go to franklintempleton.com or call (800) 342-5236.

See page 26 for Performance Summary footnotes.

Total Return Index Comparison for a Hypothetical \$10,000 Investment¹

Total return represents the change in value of an investment over the periods shown. It includes any applicable maximum sales charge, Fund expenses, account fees and reinvested distributions. The unmanaged indexes include reinvestment of any income or distributions. They differ from the Fund in composition and do not pay management fees or expenses. One cannot invest directly in an index.

Class A (9/30/13–9/30/23)

Advisor Class (9/30/13–9/30/23)

See page 26 for Performance Summary footnotes.

Distributions (10/1/22–9/30/23)

Share Class	Net Investment Income	Long-Term Capital Gain	Total
A	–	\$10.7138	\$10.7138
C	–	\$10.7138	\$10.7138
R	–	\$10.7138	\$10.7138

Advisor	\$0.1571	\$10.7138	\$10.8709

Total Annual Operating Expenses⁶

Share Class	
A	0.80%
Advisor	0.55%

Each class of shares is available to certain eligible investors and has different annual fees and expenses, as described in the prospectus.

Events such as the spread of deadly diseases, disasters, and financial, political or social disruptions, may heighten risks and adversely affect performance.

All investments involve risks, including possible loss of principal. To the extent the portfolio invests in a concentration of certain securities, regions or industries, it is subject to increased volatility. Large-capitalization companies may fall out of favor with investors based on market and economic conditions. Small- and mid-cap stocks involve greater risks and volatility than large-cap stocks. The investment style may become out of favor, which may have a negative impact on performance. International investments are subject to special risks, including currency fluctuations and social, economic and political uncertainties, which could increase volatility. These risks are magnified in emerging markets. The manager may consider environmental, social and governance (ESG) criteria in the research or investment process; however, ESG considerations may not be a determinative factor in security selection. In addition, the manager may not assess every investment for ESG criteria, and not every ESG factor may be identified or evaluated. These and other risks are discussed in the Fund's prospectus.

1. The total annual operating expenses are as of the Fund's prospectus available at the time of publication. Actual expenses may be higher and may impact portfolio returns.
2. Cumulative total return represents the change in value of an investment over the periods indicated.
3. Average annual total return represents the average annual change in value of an investment over the periods indicated. Return for less than one year, if any, has not been annualized.
4. Prior to 9/10/18, these shares were offered at a higher initial sales charge of 5.75%, thus actual returns (with sales charges) would have differed. Average annual total returns (with sales charges) have been restated to reflect the current maximum initial sales charge of 5.50%.
5. Source: FactSet. The S&P 500[®] is a market capitalization-weighted index of 500 stocks designed to measure total U.S. equity market performance. The Russell 1000[®] Growth Index is market capitalization weighted and measures performance of those Russell 1000[®] Index companies with relatively higher price-to-book ratios and higher forecasted growth rate.
6. Figures are as stated in the Fund's current prospectus and may differ from the expense ratios disclosed in the Your Fund's Expenses and Financial Highlights sections in this report. In periods of market volatility, assets may decline significantly, causing total annual Fund operating expenses to become higher than the figures shown. See www.franklintempletondatasources.com for additional data provider information.

Your Fund's Expenses

As a Fund shareholder, you can incur two types of costs: (1) transaction costs, including sales charges (loads) on Fund purchases and redemptions; and (2) ongoing Fund costs, including management fees, distribution and service (12b-1) fees, and other Fund expenses. All mutual funds have ongoing costs, sometimes referred to as operating expenses. The table below shows ongoing costs of investing in the Fund and can help you understand these costs and compare them with those of other mutual funds. The table assumes a \$1,000 investment held for the six months indicated.

Actual Fund Expenses

The table below provides information about actual account values and actual expenses in the columns under the heading "Actual." In these columns the Fund's actual return, which includes the effect of Fund expenses, is used to calculate the "Ending Account Value" for each class of shares. You can estimate the expenses you paid during the period by following these steps (*of course, your account value and expenses will differ from those in this illustration*): Divide your account value by \$1,000 (*if your account had an \$8,600 value, then $\$8,600 \div \$1,000 = 8.6$*). Then multiply the result by the number in the row for your class of shares under the headings "Actual" and "Expenses Paid During Period" (*if Actual Expenses Paid During Period were \$7.50, then $8.6 \times \$7.50 = \64.50*). In this illustration, the actual expenses paid this period are \$64.50.

Hypothetical Example for Comparison with Other Funds

Under the heading "Hypothetical" in the table, information is provided about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. This information may not be used to estimate the actual ending account balance or expenses you paid for the period, but it can help you compare ongoing costs of investing in the Fund with those of other funds. To do so, compare this 5% hypothetical example for the class of shares you hold with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that expenses shown in the table are meant to highlight ongoing costs and do not reflect any transactional costs. Therefore, information under the heading "Hypothetical" is useful in comparing ongoing costs only, and will not help you compare total costs of owning different funds. In addition, if transactional costs were included, your total costs would have been higher.

Share Class	Beginning Account Value 4/1/23	Actual (actual return after expenses)		Hypothetical (5% annual return before expenses)		Net Annualized Expense Ratio ²
		Ending Account Value 9/30/23	Expenses Paid During Period 4/1/23–9/30/23 ^{1,2}	Ending Account Value 9/30/23	Expenses Paid During Period 4/1/23–9/30/23 ^{1,2}	
A	\$1,000	\$1,031.60	\$3.98	\$1,021.15	\$3.96	0.78%
C	\$1,000	\$1,027.90	\$7.79	\$1,017.39	\$7.75	1.53%
R	\$1,000	\$1,030.40	\$5.25	\$1,019.89	\$5.23	1.03%
R6	\$1,000	\$1,033.40	\$2.39	\$1,022.72	\$2.38	0.47%
Advisor	\$1,000	\$1,032.90	\$2.71	\$1,022.40	\$2.70	0.53%

1. Expenses are equal to the annualized expense ratio for the six-month period as indicated above—in the far right column—multiplied by the simple average account value over the period indicated, and then multiplied by 183/365 to reflect the one-half year period.

2. Reflects expenses after fee waivers and expense reimbursements. Does not include acquired fund fees and expenses.

Franklin Income Fund

Fund Overview

Q. What is the Fund's investment strategy?

A. In analyzing debt and equity securities, we consider such factors as a company's experience and managerial strength; responsiveness to changes in interest rates and business conditions; debt maturity schedules and borrowing requirements; changing financial condition and market recognition of the change; and a security's relative value based on such factors as anticipated cash flow, interest or dividend coverage, asset coverage and earnings. When choosing investments for the Fund, we apply a bottom-up, value oriented, long-term approach, focusing on the market price of a company's securities relative to the investment manager's evaluation of the company's long-term earning, asset value and cash flow potential.

Q. What were the overall market conditions during the Fund's reporting period?

A. The Fund generated positive returns during the period with strong performance from both equity and fixed income holdings. Equity holdings outperformed fixed income returns during the period. Relative to the Fund's blended benchmark, the overweight allocation to credit supported absolute performance. Throughout the period, the Federal Reserve (Fed) continued to increase interest rates from 2022 levels to counteract stubborn inflation. Despite the Fed's hawkish stance, the labor market remains tight, and the economy continues to grow with gross domestic product in excess of 2%. The Fund used interest rate futures to hedge duration in the period. However, this did not cause the change to Net Assets from Operations for the fiscal year to exceed 5%.

Q. How did we respond to these changing market conditions?

A. The Fund entered the period with an equity weighting of 42.6% and a fixed income weighting of 56.2% (while holding 0.7% in cash equivalents). As interest rates rose during the period, the Fund took advantage of higher yield investment opportunities within fixed income and ended the period with

a considerable shift in asset allocation. By period-end, equity allocation was 35.9% and fixed income allocation reached 63.3%, while cash equivalents comprised 0.65% of the Fund.

Performance Overview

The Fund's Class A shares posted a cumulative total return of +8.33% for the 12 months under review. In comparison, the Standard & Poor's® 500 Index (S&P 500®), which is a broad measure of U.S. stock performance, posted a +21.62% cumulative total return.¹ The Blended Benchmark which consists of 50% MSCI USA High Dividend Yield Index + 25% Bloomberg High Yield Very Liquid Index + 25% Bloomberg U.S. Aggregate Bond Index, which is a combination of leading stock and bond indexes, posted a +9.18% cumulative total return.² Individually, the MSCI USA High Dividend Yield Index, which is based on the MSCI USA Index, its parent index, and includes large- and mid-capitalization stocks, posted a +12.62% cumulative total return, the Bloomberg High Yield Very Liquid Index, designed to track a more liquid component of the USD-denominated, high yield, fixed-rate corporate bond market, posted a +10.32% cumulative total return and the Bloomberg U.S. Aggregate Bond Index, which measures the performance of the investment-grade, U.S. dollar-denominated, fixed-rate taxable bond market, posted a +0.64% cumulative total return.¹ You can find the Fund's long-term performance data in the Performance Summary beginning on page 30.

The Fund was able to successfully meet its monthly distributions under its managed distribution policy without the return of capital and without reducing the Fund's net asset value per share due to making distributions in excess of total return performance.

Performance data represent past performance, which does not guarantee future results. Investment return and principal value will fluctuate, and you may have a gain or loss when you sell your shares. Current performance may differ from figures shown. For most recent month-end performance, go to franklintempleton.com or call (800) 342-5236.

1. Source: Morningstar.

2. Source: FactSet. The Fund's Blended Benchmark was calculated internally.

The indexes are unmanaged and include reinvestment of any income or distributions. They do not reflect any fees, expenses or sales charges. One cannot invest directly in an index, and an index is not representative of the Fund's portfolio.

See www.franklintempletondatasources.com for additional data provider information.

The dollar value, number of shares or principal amount, and names of all portfolio holdings are listed in the Fund's Schedule of Investments (SOI). The SOI begins on page 79.

Q. What were the leading contributors to performance?

A. Equity holdings contributed the highest returns to the Fund during the 12 months under review, led by the information technology (IT), energy, and industrials sectors. Cisco Systems performed best within IT, while Chevron and Exxon Mobil contributed the highest absolute performance within the energy sector. Siemens was a top performer within the industrials sector. As of period end, the Fund no longer holds Siemens. Fixed income allocation also performed well during the period under review, with the health care, consumer discretionary, and industrials sectors contributing the highest absolute returns. Within health care, Community

Health Systems and Tenet Healthcare performed best, while Ford and Boeing contributed within the consumer discretionary and industrials sectors, respectively.

Q. What were the leading detractors from performance?

A. Due to the sector's interest rate sensitivity, the utilities sector was the only detractor from stock performance during the 12-month period under review. Dominion Energy and NextEra Energy were the worst performers within utilities, while Truist detracted within the financials sector. In terms of the Fund's fixed income allocation, U.S. Treasuries (UST) detracted the most from performance. Carvana and Endo International also detracted from Fund performance within the consumer discretionary and health care sectors. The Fund no longer holds a position in Carvana, as of the period-end.

Thank you for your continued participation in Franklin Income Fund. We look forward to serving your future investment needs.

Portfolio Management Team

The foregoing information reflects our analysis, opinions and portfolio holdings as of September 30, 2023, the end of the reporting period. The way we implement our main investment strategies and the resulting portfolio holdings may change depending on factors such as market and economic conditions. These opinions may not be relied upon as investment advice or an offer for a particular security. The information is not a complete analysis of every aspect of any market, country, industry, security or the Fund. Statements of fact are from sources considered reliable, but the investment manager makes no representation or warranty as to their completeness or accuracy. Although historical performance is no guarantee of future results, these insights may help you understand our investment management philosophy.

Performance Summary as of September 30, 2023

The performance tables and graphs do not reflect any taxes that a shareholder would pay on Fund dividends, capital gain distributions, if any, or any realized gains on the sale of Fund shares. Total return reflects reinvestment of the Fund's dividends and capital gain distributions, if any, and any unrealized gains or losses. Your dividend income will vary depending on dividends or interest paid by securities in the Fund's portfolio, adjusted for operating expenses of each class. Capital gain distributions are net profits realized from the sale of portfolio securities.

Performance as of 9/30/23¹

Cumulative total return excludes sales charges. Average annual total return includes maximum sales charges. Sales charges will vary depending on the size of the investment and the class of share purchased. The maximum is 3.75% and the minimum is 0%. **Class A:** 3.75% maximum initial sales charge; **Advisor Class:** no sales charges. For other share classes, visit franklintempleton.com.

Total Annual Operating Expenses⁹

Share Class	With Fee Waiver	Without Fee Waiver
A	0.72%	0.73%
Advisor	0.47%	0.48%

Each class of shares is available to certain eligible investors and has different annual fees and expenses, as described in the prospectus.

Events such as the spread of deadly diseases, disasters, and financial, political or social disruptions, may heighten risks and adversely affect performance.

All investments involve risks, including possible loss of principal. Low-rated, high-yield bonds are subject to greater price volatility, illiquidity and possibility of default. Fixed income securities involve interest rate, credit, inflation and reinvestment risks, and possible loss of principal. As interest rates rise, the value of fixed income securities falls. Changes in the credit rating of a bond, or in the credit rating or financial strength of a bond's issuer, insurer or guarantor, may affect the bond's value. Equity securities are subject to price fluctuation and possible loss of principal. International investments are subject to special risks, including currency fluctuations and social, economic and political uncertainties, which could increase volatility. These risks are magnified in emerging markets. The manager may consider environmental, social and governance (ESG) criteria in the research or investment process; however, ESG considerations may not be a determinative factor in security selection. In addition, the manager may not assess every investment for ESG criteria, and not every ESG factor may be identified or evaluated. These and other risks are discussed in the Fund's prospectus.

1. Gross expenses are the Fund's total annual operating expenses as of the Fund's prospectus available at the time of publication. Actual expenses may be higher and may impact portfolio returns. Net expenses reflect contractual fee waivers, expense caps and/or reimbursements, which cannot be terminated prior to 01/31/2024 without Board consent. Additional amounts may be voluntarily waived and/or reimbursed and may be modified or discontinued at any time without notice.
 2. Cumulative total return represents the change in value of an investment over the periods indicated.
 3. Average annual total return represents the average annual change in value of an investment over the periods indicated. Return for less than one year, if any, has not been annualized.
 4. Effective 9/10/18, Class A shares closed to new investors, were renamed Class A1 shares, and a new Class A share with a different expense structure became available. Class A performance shown has been calculated as follows: (a) for periods prior to 9/10/18, a restated figure is used based on the Fund's Class A1 performance that includes any Rule 12b-1 rate differential that exists between Class A1 and Class A; and (b) for periods after 9/10/18, actual Class A performance is used, reflecting all charges and fees applicable to that class.
 5. Prior to 3/1/19, these shares were offered at a higher initial sales charge of 4.25%, thus actual returns (with sales charges) would have differed. Average annual total returns (with sales charges) have been restated to reflect the current maximum initial sales charge of 3.75%.
 6. Distribution rate is based on an annualization of the respective class's September dividend and the maximum offering price (NAV for Advisor Class) per share on 9/30/23.
 7. The Fund's 30-day standardized yield is calculated over a trailing 30-day period using the yield to maturity on bonds and/or the dividends accrued on stocks. It may not equal the Fund's actual income distribution rate, which reflects the Fund's past dividends paid to shareholders.
 8. Source: FactSet. The S&P 500[®] is a market capitalization-weighted index of 500 stocks designed to measure total U.S. equity market performance. The Blended 50% MSCI USA High Dividend Yield Index + 25% Bloomberg High Yield Very Liquid Index + 25% Bloomberg U.S. Aggregate Index measures performance of high dividend-paying global and developed and emerging stocks, noninvestment-grade corporate bonds and tracks performance of the U.S. investment-grade bond market.
 9. Figures are as stated in the Fund's current prospectus and may differ from the expense ratios disclosed in the Your Fund's Expenses and Financial Highlights sections in this report. In periods of market volatility, assets may decline significantly, causing total annual Fund operating expenses to become higher than the figures shown.
- See www.franklintempletondatasources.com for additional data provider information.

Your Fund's Expenses

As a Fund shareholder, you can incur two types of costs: (1) transaction costs, including sales charges (loads) on Fund purchases and redemptions; and (2) ongoing Fund costs, including management fees, distribution and service (12b-1) fees, and other Fund expenses. All mutual funds have ongoing costs, sometimes referred to as operating expenses. The table below shows ongoing costs of investing in the Fund and can help you understand these costs and compare them with those of other mutual funds. The table assumes a \$1,000 investment held for the six months indicated.

Actual Fund Expenses

The table below provides information about actual account values and actual expenses in the columns under the heading "Actual." In these columns the Fund's actual return, which includes the effect of Fund expenses, is used to calculate the "Ending Account Value" for each class of shares. You can estimate the expenses you paid during the period by following these steps (*of course, your account value and expenses will differ from those in this illustration*): Divide your account value by \$1,000 (*if your account had an \$8,600 value, then $\$8,600 \div \$1,000 = 8.6$*). Then multiply the result by the number in the row for your class of shares under the headings "Actual" and "Expenses Paid During Period" (*if Actual Expenses Paid During Period were \$7.50, then $8.6 \times \$7.50 = \64.50*). In this illustration, the actual expenses paid this period are \$64.50.

Hypothetical Example for Comparison with Other Funds

Under the heading "Hypothetical" in the table, information is provided about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. This information may not be used to estimate the actual ending account balance or expenses you paid for the period, but it can help you compare ongoing costs of investing in the Fund with those of other funds. To do so, compare this 5% hypothetical example for the class of shares you hold with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that expenses shown in the table are meant to highlight ongoing costs and do not reflect any transactional costs. Therefore, information under the heading "Hypothetical" is useful in comparing ongoing costs only, and will not help you compare total costs of owning different funds. In addition, if transactional costs were included, your total costs would have been higher.

Share Class	Beginning Account Value 4/1/23	Actual (actual return after expenses)		Hypothetical (5% annual return before expenses)		Net Annualized Expense Ratio ²
		Ending Account Value 9/30/23	Expenses Paid During Period 4/1/23–9/30/23 ^{1,2}	Ending Account Value 9/30/23	Expenses Paid During Period 4/1/23–9/30/23 ^{1,2}	
A	\$1,000	\$978.80	\$3.48	\$1,021.55	\$3.56	0.70%
A1	\$1,000	\$983.80	\$2.99	\$1,022.05	\$3.05	0.60%
C	\$1,000	\$977.30	\$5.46	\$1,019.55	\$5.57	1.10%
R	\$1,000	\$981.60	\$4.73	\$1,020.30	\$4.82	0.95%
R6	\$1,000	\$984.50	\$1.99	\$1,023.07	\$2.03	0.40%
Advisor	\$1,000	\$984.10	\$2.25	\$1,022.80	\$2.29	0.45%

1. Expenses are equal to the annualized expense ratio for the six-month period as indicated above—in the far right column—multiplied by the simple average account value over the period indicated, and then multiplied by 183/365 to reflect the one-half year period.

2. Reflects expenses after fee waivers and expense reimbursements. Does not include acquired fund fees and expenses.

Franklin U.S. Government Securities Fund

Fund Overview

Q. What is the Fund's investment strategy?

A. We currently invest the Fund's assets substantially in GNMA obligations. We analyze securities using proprietary models to help us identify attractive investment opportunities.

Since 1983, the Fund has invested substantially in Ginnie Mae securities, which carry a guarantee backed by the full faith and credit of the U.S. government as to the timely payment of interest and principal.¹ Issued by the Government National Mortgage Association (GNMA), Ginnie Maes have been among the highest yielding U.S. government obligations available.

Q. What were the overall market conditions during the Fund's reporting period?

A. Inflation levels and central bank action remained the focus of financial markets during the 12-month period under review, during which the U.S. Federal Reserve (Fed) continued its aggressive action to address the decades-high levels of inflation in the U.S. The Fed took a breather at its June 2023 meeting after a 15-month long rate hiking campaign, followed by a 25-basis point increase in the fed funds target rate in July's meeting. Although the Fed kept its policy rate unchanged in September, Fed Chair Jerome Powell stressed that the pause was no indication that policy is sufficiently restrictive. The UST yield curve shifted higher during the 12-month period under review, especially the shorter end of the curve, such as the 2-year. The yield curve remains inverted, often a sign of a slowing economy. Over the period, headline inflation measures moved significantly lower such that a soft-landing scenario for the U.S. economy has increasingly become a general market consensus. On the housing front, fundamentals are continuing to slow but remain supportive; prepayment risk remains negligible, and the MBS index is near full extension as macroeconomic conditions, particularly low unemployment, remain relatively healthy. Mortgage rates increased 60 bps (6.70% to 7.31%) during the period under review. With the Fed's balance sheet normalization plan underway, their share of the agency MBS market will continue to decline, leaving approximately \$400 billion of MBS that will need to be absorbed, primarily by money managers, and a combination of other demand sources such as overseas investors and banks.

Q. How did we respond to these changing market conditions?

A. We moved from underweight to overweight 2.5% coupons. We added to our overweight in 3.0% and 3.5% coupons. We remained overweight 4.0% coupons but decreased our exposure. Lastly, we moved from overweight to underweight in 4.5% coupons.

Performance Overview

The Fund's Class A shares posted a -0.49% cumulative total return for the 12 months under review. In comparison, the Bloomberg U.S. Government - Intermediate Index, the intermediate component of the Bloomberg U.S. Government Index, posted a +1.33% cumulative total return.² You can find the Fund's long-term performance data in the Performance Summary beginning on page 37.

Performance data represent past performance, which does not guarantee future results. Investment return and principal value will fluctuate, and you may have a gain or loss when you sell your shares. Current performance may differ from figures shown. For most recent month-end performance, go to franklintempleton.com or call (800) 342-5236.

Q. What were the leading contributors to performance?

A. Our exposure to GNMA I 4.5% and 5.0% coupons were leading contributors to relative performance, as were our allocation to GNMA II 4.0%, 5.0% and 5.5% coupons.

Q. What were the leading detractors from performance?

A. Our exposures to GNMA II 2.5% through 3.5% coupons were lead detractors from performance. Security selection in GNMA II 4.0% through 5.5% coupons also hindered results.

1. Securities owned by the Fund, but not shares of the Fund, are guaranteed by the U.S. government, its agencies or instrumentalities as to the timely payment of principal and interest. The Fund's yield and share price are not guaranteed and will vary with market conditions.

2. Source: Morningstar.

The index is unmanaged and includes reinvestment of any income or distributions. It does not reflect any fees, expenses or sales charges. One cannot invest directly in an index, and an index is not representative of the Fund's portfolio.

See www.franklintempletondatasources.com for additional data provider information.

The dollar value, number of shares or principal amount, and names of all portfolio holdings are listed in the Fund's Schedule of Investments (SOI). The SOI begins on page 109.

Q. Were there any significant changes to the Fund during the reporting period?

A. Our largest allocation remained in 2.5-3.5% coupons, and we decreased exposure to the middle of the coupon stack for 3% and 4% coupons, while adding to higher 5-6% coupons. On a relative basis, we ended the period overweight middle of the coupon stack (2.5-4%) with an underweight in 1.5%, 2.0% and 4.5% coupons.

Thank you for your continued participation in Franklin U.S. Government Securities Fund. We welcome your comments and questions and look forward to serving your investment needs in the years ahead.

Portfolio Management Team

The foregoing information reflects our analysis, opinions and portfolio holdings as of September 30, 2023, the end of the reporting period. The way we implement our main investment strategies and the resulting portfolio holdings may change depending on factors such as market and economic conditions. These opinions may not be relied upon as investment advice or an offer for a particular security. The information is not a complete analysis of every aspect of any market, country, industry, security or the Fund. Statements of fact are from sources considered reliable, but the investment manager makes no representation or warranty as to their completeness or accuracy. Although historical performance is no guarantee of future results, these insights may help you understand our investment management philosophy.

Performance Summary as of September 30, 2023

The performance tables and graphs do not reflect any taxes that a shareholder would pay on Fund dividends, capital gain distributions, if any, or any realized gains on the sale of Fund shares. Total return reflects reinvestment of the Fund's dividends and capital gain distributions, if any, and any unrealized gains or losses. Your dividend income will vary depending on dividends or interest paid by securities in the Fund's portfolio, adjusted for operating expenses of each class. Capital gain distributions are net profits realized from the sale of portfolio securities.

Performance as of 9/30/23¹

Cumulative total return excludes sales charges. Average annual total return includes maximum sales charges. Sales charges will vary depending on the size of the investment and the class of share purchased. The maximum is 3.75% and the minimum is 0%. **Class A:** 3.75% maximum initial sales charge; **Advisor Class:** no sales charges. For other share classes, visit franklintempleton.com.

Total Annual Operating Expenses⁹

Share Class	
A	0.87%
Advisor	0.62%

Each class of shares is available to certain eligible investors and has different annual fees and expenses, as described in the prospectus.

Events such as the spread of deadly diseases, disasters, and financial, political or social disruptions, may heighten risks and adversely affect performance.

All investments involve risks, including possible loss of principal. Fixed income securities involve interest rate, credit, inflation and reinvestment risks, and possible loss of principal. As interest rates rise, the value of fixed income securities falls. Asset-backed, mortgage-backed or mortgage-related securities are subject to prepayment and extension risks. Changes in the credit rating of a bond, or in the credit rating or financial strength of a bond's issuer, insurer or guarantor, may affect the bond's value. These and other risks are discussed in the Fund's prospectus.

1. The total annual operating expenses are as of the Fund's prospectus available at the time of publication. Actual expenses may be higher and may impact portfolio returns.
2. Cumulative total return represents the change in value of an investment over the periods indicated.
3. Average annual total return represents the average annual change in value of an investment over the periods indicated. Return for less than one year, if any, has not been annualized.
4. Effective 9/10/18, Class A shares closed to new investors, were renamed Class A1 shares, and a new Class A share with a different expense structure became available. Class A performance shown has been calculated as follows: (a) for periods prior to 9/10/18, a restated figure is used based on the Fund's Class A1 performance that includes any Rule 12b-1 rate differential that exists between Class A1 and Class A; and (b) for periods after 9/10/18, actual Class A performance is used, reflecting all charges and fees applicable to that class.
5. Prior to 3/1/19, these shares were offered at a higher initial sales charge of 4.25%, thus actual returns (with sales charges) would have differed. Average annual total returns (with sales charges) have been restated to reflect the current maximum initial sales charge of 3.75%.
6. Distribution rate is based on an annualization of the respective class's September dividend and the maximum offering price (NAV for Advisor Class) per share on 9/30/23.
7. The Fund's 30-day standardized yield is calculated over a trailing 30-day period using the yield to maturity on bonds and/or the dividends accrued on stocks. It may not equal the Fund's actual income distribution rate, which reflects the Fund's past dividends paid to shareholders.
8. Source: FactSet. Bloomberg U.S. Government - Intermediate Index is the intermediate component of the Bloomberg U.S. Government Index, which includes U.S. dollar-denominated, fixed-rate, nominal U.S. Treasuries and U.S. agency debentures (securities issued by U.S. government-owned or government-sponsored entities, and debt explicitly guaranteed by the U.S. government).
9. Figures are as stated in the Fund's current prospectus and may differ from the expense ratios disclosed in the Your Fund's Expenses and Financial Highlights sections in this report. In periods of market volatility, assets may decline significantly, causing total annual Fund operating expenses to become higher than the figures shown. See www.franklintempletondatasources.com for additional data provider information.

Your Fund's Expenses

As a Fund shareholder, you can incur two types of costs: (1) transaction costs, including sales charges (loads) on Fund purchases and redemptions; and (2) ongoing Fund costs, including management fees, distribution and service (12b-1) fees, and other Fund expenses. All mutual funds have ongoing costs, sometimes referred to as operating expenses. The table below shows ongoing costs of investing in the Fund and can help you understand these costs and compare them with those of other mutual funds. The table assumes a \$1,000 investment held for the six months indicated.

Actual Fund Expenses

The table below provides information about actual account values and actual expenses in the columns under the heading "Actual." In these columns the Fund's actual return, which includes the effect of Fund expenses, is used to calculate the "Ending Account Value" for each class of shares. You can estimate the expenses you paid during the period by following these steps (*of course, your account value and expenses will differ from those in this illustration*): Divide your account value by \$1,000 (*if your account had an \$8,600 value, then $\$8,600 \div \$1,000 = 8.6$*). Then multiply the result by the number in the row for your class of shares under the headings "Actual" and "Expenses Paid During Period" (*if Actual Expenses Paid During Period were \$7.50, then $8.6 \times \$7.50 = \64.50*). In this illustration, the actual expenses paid this period are \$64.50.

Hypothetical Example for Comparison with Other Funds

Under the heading "Hypothetical" in the table, information is provided about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. This information may not be used to estimate the actual ending account balance or expenses you paid for the period, but it can help you compare ongoing costs of investing in the Fund with those of other funds. To do so, compare this 5% hypothetical example for the class of shares you hold with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that expenses shown in the table are meant to highlight ongoing costs and do not reflect any transactional costs. Therefore, information under the heading "Hypothetical" is useful in comparing ongoing costs only, and will not help you compare total costs of owning different funds. In addition, if transactional costs were included, your total costs would have been higher.

Share Class	Beginning Account Value 4/1/23	Actual (actual return after expenses)		Hypothetical (5% annual return before expenses)		Net Annualized Expense Ratio ²
		Ending Account Value 9/30/23	Expenses Paid During Period 4/1/23–9/30/23 ^{1,2}	Ending Account Value 9/30/23	Expenses Paid During Period 4/1/23–9/30/23 ^{1,2}	
A	\$1,000	\$956.40	\$3.42	\$1,021.57	\$3.53	0.70%
A1	\$1,000	\$956.90	\$2.90	\$1,022.10	\$3.00	0.59%
C	\$1,000	\$953.90	\$5.37	\$1,019.57	\$5.55	1.10%
R	\$1,000	\$955.20	\$4.64	\$1,020.32	\$4.80	0.95%
R6	\$1,000	\$956.30	\$1.84	\$1,023.19	\$1.90	0.37%
Advisor	\$1,000	\$957.80	\$2.20	\$1,022.83	\$2.27	0.45%

1. Expenses are equal to the annualized expense ratio for the six-month period as indicated above—in the far right column—multiplied by the simple average account value over the period indicated, and then multiplied by 183/365 to reflect the one-half year period.

2. Reflects expenses after fee waivers and expense reimbursements. Does not include acquired fund fees and expenses.

Franklin Utilities Fund

Fund Overview

Q. What is the Fund's investment strategy?

A. We search for the best return opportunities available in the global utilities arena with a specific focus on the U.S. electricity and gas sector. Generally, we seek to invest in companies producing a high percentage of earnings from their regulated operations.

Q. What were the overall market conditions during the Fund's reporting period?

A. During the 12-month period, technology stocks led equity prices higher, rallying amid cost-cutting efforts and investor optimism that artificial intelligence ("AI") would lead to strong growth opportunities. Utilities, one of only two sectors to decline for the period, was the worst sector performer. U.S. gross domestic product (GDP) expanded in the fourth quarter of 2022 and the first half of 2023 amid rising business investment and resilient consumer spending on services. The labor market remained strong amid a high level of nominal growth, keeping U.S. unemployment very low by historic standards. Inflation declined substantially but remained elevated throughout (and rebounded slightly at period end). Rising wages and lower inflation bolstered consumer confidence, contributing to increased spending and economic growth. Nonetheless, continued tightness in the labor market led to concern that high interest rates would persist for some time. High interest rates translated to elevated borrowing costs for individuals and businesses, which dampened some economic activity, especially in the housing and financial markets. In its efforts to reduce inflation, the U.S. Federal Reserve (Fed) restricted monetary policy during the period, raising the federal funds target rate six times to a range of 5.25%–5.50%, pushing borrowing costs to their highest levels since 2001. However, at two of its meetings, the Fed declined to adjust interest rates, indicating that the pace of tightening was slowing. Toward the end of the period, investor risk appetite soured as it became clearer that the Fed intends to hold interest rates

higher for longer than investors had previously expected, and markets gave back some of their gains. The S&P 500® Utilities Index declined for the period.

Q. How did we respond to these changing market conditions?

A. We maintain a philosophy of focusing on high-quality, regulated utilities that offer above-average risk-adjusted returns within the portfolio. While we are always aware of market conditions and act accordingly, the emphasis on our bottom-up approach enables us to select companies that are structurally sound and able to weather a range of macroeconomic conditions.

Performance Overview

The Fund's Class A shares posted a -4.55% cumulative total return for the 12 months under review. In comparison, the S&P 500® Utilities Index, which measures the performance of all utilities stocks in the Standard & Poor's® 500 Index (S&P 500®), posted a -7.02% cumulative total return, and the S&P 500® Index, which is a broad measure of U.S. stock performance, posted a +21.62% cumulative total return.¹ You can find the Fund's long-term performance data in the Performance Summary beginning on page 44.

The Fund was able to successfully meet its monthly distributions under its managed distribution policy without the return of capital and without reducing the Fund's net asset value per share due to making distributions in excess of total return performance.

Performance data represent past performance, which does not guarantee future results. Investment return and principal value will fluctuate, and you may have a gain or loss when you sell your shares. Current performance may differ from figures shown. For most recent month-end performance, go to franklintempleton.com or call (800) 342-5236.

Portfolio Composition

9/30/23

	% of Total Net Assets
Electric Utilities	57.5%
Multi-Utilities	30.4%
Oil, Gas & Consumable Fuels	4.4%
Independent Power and Renewable Electricity Producers	3.5%
Construction & Engineering	1.5%
Water Utilities	1.4%
Other*	0.8%
Short-Term Investments & Other Net Assets	0.5%

*Categories within the Other category are listed in full in the Fund's Schedule of Investments (SOI), which can be found later in this report.

Q. What were the leading contributors to performance?

A. The Fund performed better than the benchmark during the 12-month period under review. At the industry level, within the utilities sector, multi-utilities and independent power and renewable electricity producers were the largest contributors to relative performance, driven by stock selection. Selection in electric utilities also added value. The Fund managers maintain a small weighting in the energy sector, and that exposure also made a meaningful contribution to relative returns. The top overall individual contributors included off-benchmark holdings Vistra and E.ON, as well as an underweight to NextEra. Vistra, a Texas-based power producer and retail energy provider, benefited from earnings that exceeded consensus expectations, supported by the company's hedging strategy, as well as warm summer weather and heat waves in Texas and other Southern states. The company's US \$6.8 billion acquisition of Energy Harbor (not a fund holding), which will allow a deeper push into nuclear energy, appeared to be on track for completion in 2023, though it may be delayed as the companies work to alleviate the U.S. Department of Justice's anti-competitive concerns. Our underweight to Florida-based electric utility NextEra Energy contributed to performance relative to the benchmark S&P 500® Utilities Index as its shares posted a double-digit decline for the period. Shares declined amid concerns about demand for solar energy and rising interest rates, as investors were disappointed by slowing net income growth at its renewable energy subsidiary, given weaker pricing for solar panels and batteries. Shares of Germany-based energy giant E.ON advanced sharply despite disruptions in European energy markets driven by the Russia-Ukraine war. E.ON's focus on crisis management execution helped the company surpass earnings expectations, and strong guidance for 2023 supported investor sentiment, as did its plans to accelerate

decarbonization and energy transition initiatives and infrastructure expansion plans through 2027.

Q. What were the leading detractors from performance?

A. At the industry level, stock selection in gas utilities detracted the most from relative performance, while positioning in water utilities and, in the energy-related group, the diversified telecommunications industry weighed modestly on relative results during the 12-month period under review. The largest individual detractors were all underweight positions: Constellation Energy, Consolidated Edison and Duke Energy. Shares of Maryland-based electric utility Constellation Energy, which was spun out of Exelon in 2022 and is a major U.S. nuclear operator, advanced sharply as earnings surpassed expectations and full-year guidance was strong. A \$1 billion stock repurchase program, announced in February 2023, also supported the stock. New York-based multi-utility Consolidated Edison followed a similar script, as shares advanced for the period on the strength of strong earnings and an accelerated share buyback, though the shares' 12-month advance was much more modest. Duke Energy, which operates electric utilities throughout the Midwest and South, also detracted on a relative basis. The company's shares posted a modest decline for the period but fared better than the benchmark.

Top 10 Holdings

9/30/23

Company Industry, Country	% of Total Net Assets
NextEra Energy, Inc. <i>Electric Utilities, United States</i>	9.9%
Southern Co. (The) <i>Electric Utilities, United States</i>	5.2%
Edison International <i>Electric Utilities, United States</i>	4.9%
Sempra <i>Multi-Utilities, United States</i>	4.5%
Exelon Corp. <i>Electric Utilities, United States</i>	4.4%
Duke Energy Corp. <i>Electric Utilities, United States</i>	4.3%
Energy Corp. <i>Electric Utilities, United States</i>	4.0%
Energy, Inc. <i>Electric Utilities, United States</i>	3.8%
PG&E Corp. <i>Electric Utilities, United States</i>	3.3%
Alliant Energy Corp. <i>Electric Utilities, United States</i>	3.3%

Q. Were there any significant changes to the Fund during the reporting period?

A. During the 12-month period, the Fund managers exited a number of positions in the portfolio to create more concentration amongst our holdings in which the managers hold greater conviction. Among our liquidations are two

Canadian-based holdings, Emera and Telus Corporation, which the managers felt had achieved relatively high valuation premiums to U.S. utility counterparts. The Fund managers also sold their position in Origin Energy, a multi-energy company based in Australia that entered into an agreement to be sold to a multi-national energy consortium. The Fund managers also liquidated three smaller-capitalization utilities that the managers felt were trading rich compared to other utilities in the portfolio: Black Hills, PNM Resources and Southwest Gas Holdings. Finally, the managers liquidated positions in two energy infrastructure companies, Equitrans Midstream and Knife River. The managers used the proceeds from the various sales within our portfolio primarily to add to existing positions, including Ameren, CenterPoint Energy, Evergy and NiSource. The managers believe each of these companies are well-positioned utilities operating in solid service territories with sound regulatory oversight. Ameren is based in St. Louis and provides electricity and natural gas across Missouri and Illinois. CenterPoint is headquartered in Houston and is experiencing above-average customer growth in its region. Evergy is based in Kansas City and serves both Missouri and Kansas. NiSource, which is headquartered in Indiana, provides both electric and natural gas service across several midwestern states. The Fund managers feel each of these companies offers an above-average return profile relative to the average utility company.

Thank you for your continued participation in Franklin Utilities Fund. We look forward to serving your future investment needs.

Portfolio Management Team

The foregoing information reflects our analysis, opinions and portfolio holdings as of September 30, 2023, the end of the reporting period. The way we implement our main investment strategies and the resulting portfolio holdings may change depending on factors such as market and economic conditions. These opinions may not be relied upon as investment advice or an offer for a particular security. The information is not a complete analysis of every aspect of any market, country, industry, security or the Fund. Statements of fact are from sources considered reliable, but the investment manager makes no representation or warranty as to their completeness or accuracy. Although historical performance is no guarantee of future results, these insights may help you understand our investment management philosophy.

Performance Summary as of September 30, 2023

The performance tables and graphs do not reflect any taxes that a shareholder would pay on Fund dividends, capital gain distributions, if any, or any realized gains on the sale of Fund shares. Total return reflects reinvestment of the Fund's dividends and capital gain distributions, if any, and any unrealized gains or losses. Your dividend income will vary depending on dividends or interest paid by securities in the Fund's portfolio, adjusted for operating expenses of each class. Capital gain distributions are net profits realized from the sale of portfolio securities.

Performance as of 9/30/23¹

Cumulative total return excludes sales charges. Average annual total return includes maximum sales charges. Sales charges will vary depending on the size of the investment and the class of share purchased. The maximum is 3.75% and the minimum is 0%. **Class A:** 3.75% maximum initial sales charge; **Advisor Class:** no sales charges. For other share classes, visit franklintempleton.com.

Total Annual Operating Expenses⁹

Share Class	
A	0.82%
Advisor	0.57%

Each class of shares is available to certain eligible investors and has different annual fees and expenses, as described in the prospectus.

Events such as the spread of deadly diseases, disasters, and financial, political or social disruptions, may heighten risks and adversely affect performance.

All investments involve risks, including possible loss of principal. To the extent the portfolio invests in a **concentration of certain securities, regions or industries**, it is subject to increased volatility. **Equity securities** are subject to price fluctuation and possible loss of principal. Securities issued by **utility companies** have been historically sensitive to interest rate changes. When interest rates fall, utility securities prices, and thus a utilities fund's share price, tend to rise; when interest rates rise, their prices generally fall. The manager may consider **environmental, social and governance (ESG) criteria** in the research or investment process; however, ESG considerations may not be a determinative factor in security selection. In addition, the manager may not assess every investment for ESG criteria, and not every ESG factor may be identified or evaluated. These and other risks are discussed in the Fund's prospectus.

- The total annual operating expenses are as of the Fund's prospectus available at the time of publication. Actual expenses may be higher and may impact portfolio returns.
- Cumulative total return represents the change in value of an investment over the periods indicated.
- Average annual total return represents the average annual change in value of an investment over the periods indicated. Return for less than one year, if any, has not been annualized.
- Effective 9/10/18, Class A shares closed to new investors, were renamed Class A1 shares, and a new Class A share with a different expense structure became available. Class A performance shown has been calculated as follows: (a) for periods prior to 9/10/18, a restated figure is used based on the Fund's Class A1 performance that includes any Rule 12b-1 rate differential that exists between Class A1 and Class A; and (b) for periods after 9/10/18, actual Class A performance is used, reflecting all charges and fees applicable to that class.
- Prior to 3/1/19, these shares were offered at a higher initial sales charge of 4.25%, thus actual returns (with sales charges) would have differed. Average annual total returns (with sales charges) have been restated to reflect the current maximum initial sales charge of 3.75%.
- Distribution rate is based on an annualization of the respective class's current quarterly dividend and the maximum offering price (NAV for Advisor Class) per share on 9/30/23.
- The Fund's 30-day standardized yield is calculated over a trailing 30-day period using the yield to maturity on bonds and/or the dividends accrued on stocks. It may not equal the Fund's actual income distribution rate, which reflects the Fund's past dividends paid to shareholders.
- Source: FactSet. The S&P 500[®] Utilities Index is market capitalization weighted and consists of all utility stocks in the S&P 500[®]. The S&P 500[®] is a market capitalization-weighted index of 500 stocks designed to measure total U.S. equity market performance.
- Figures are as stated in the Fund's current prospectus and may differ from the expense ratios disclosed in the Your Fund's Expenses and Financial Highlights sections in this report. In periods of market volatility, assets may decline significantly, causing total annual Fund operating expenses to become higher than the figures shown. See www.franklintempletondatasources.com for additional data provider information.

Your Fund's Expenses

As a Fund shareholder, you can incur two types of costs: (1) transaction costs, including sales charges (loads) on Fund purchases and redemptions; and (2) ongoing Fund costs, including management fees, distribution and service (12b-1) fees, and other Fund expenses. All mutual funds have ongoing costs, sometimes referred to as operating expenses. The table below shows ongoing costs of investing in the Fund and can help you understand these costs and compare them with those of other mutual funds. The table assumes a \$1,000 investment held for the six months indicated.

Actual Fund Expenses

The table below provides information about actual account values and actual expenses in the columns under the heading "Actual." In these columns the Fund's actual return, which includes the effect of Fund expenses, is used to calculate the "Ending Account Value" for each class of shares. You can estimate the expenses you paid during the period by following these steps (*of course, your account value and expenses will differ from those in this illustration*): Divide your account value by \$1,000 (*if your account had an \$8,600 value, then $\$8,600 \div \$1,000 = 8.6$*). Then multiply the result by the number in the row for your class of shares under the headings "Actual" and "Expenses Paid During Period" (*if Actual Expenses Paid During Period were \$7.50, then $8.6 \times \$7.50 = \64.50*). In this illustration, the actual expenses paid this period are \$64.50.

Hypothetical Example for Comparison with Other Funds

Under the heading "Hypothetical" in the table, information is provided about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. This information may not be used to estimate the actual ending account balance or expenses you paid for the period, but it can help you compare ongoing costs of investing in the Fund with those of other funds. To do so, compare this 5% hypothetical example for the class of shares you hold with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that expenses shown in the table are meant to highlight ongoing costs and do not reflect any transactional costs. Therefore, information under the heading "Hypothetical" is useful in comparing ongoing costs only, and will not help you compare total costs of owning different funds. In addition, if transactional costs were included, your total costs would have been higher.

Share Class	Beginning Account Value 4/1/23	Actual (actual return after expenses)		Hypothetical (5% annual return before expenses)		Net Annualized Expense Ratio ²
		Ending Account Value 9/30/23	Expenses Paid During Period 4/1/23–9/30/23 ^{1,2}	Ending Account Value 9/30/23	Expenses Paid During Period 4/1/23–9/30/23 ^{1,2}	
A	\$1,000	\$894.20	\$3.92	\$1,020.93	\$4.18	0.83%
A1	\$1,000	\$895.20	\$3.45	\$1,021.43	\$3.68	0.73%
C	\$1,000	\$892.70	\$5.81	\$1,018.93	\$6.20	1.23%
R	\$1,000	\$893.50	\$5.10	\$1,019.68	\$5.44	1.08%
R6	\$1,000	\$896.00	\$2.32	\$1,022.62	\$2.48	0.49%
Advisor	\$1,000	\$895.50	\$2.73	\$1,022.18	\$2.92	0.58%

1. Expenses are equal to the annualized expense ratio for the six-month period as indicated above—in the far right column—multiplied by the simple average account value over the period indicated, and then multiplied by 183/365 to reflect the one-half year period.

2. Reflects expenses after fee waivers and expense reimbursements. Does not include acquired fund fees and expenses.

Financial Highlights

Franklin DynaTech Fund

	Year Ended September 30,

[†]Rounds to less than 0.1% of net assets.

^aNon-income producing.

^bSecurity was purchased pursuant to Rule 144A or Regulation S under the Securities Act of 1933. 144A securities may be sold in transactions exempt from registration only to qualified institutional buyers or in a public offering registered under the Securities Act of 1933. Regulation S securities cannot be sold in the United States without either an effective registration statement filed pursuant to the Securities Act of 1933, or pursuant to an exemption from registration. At September 30, 2023, the value of this security was \$53,707,685, representing 0.3% of net assets.

^cFair valued using significant unobservable inputs. See Note 13 regarding fair value measurements.

^dSee Note 8 regarding restricted securities.

^eSee Note 10 regarding holdings of 5% voting securities.

^fVariable rate security. The rate shown represents the yield at period end.

^gSee Note 3(f) regarding investments in affiliated management investment companies.

^hThe rate shown is the annualized seven-day effective yield at period end.

[#] Notional amount is the number of contracts multiplied by contract size, and may be multiplied by the underlying price. May include currency units, bushels, shares, pounds, barrels or other units. Currency units are stated in U.S. dollars unless otherwise indicated.

[†] The principal amount is stated in U.S. dollars unless otherwise indicated.

[‡] Rounds to less than 0.1% of net assets.

[§] A portion or all of the security is held in connection with written option contracts open at year end.

^{||} Non-income producing.

[¶] See Note 3(f) regarding investments in affiliated management investment companies.

[‡] See Note 1(f) regarding equity-linked securities.

[§] Security was purchased pursuant to Rule 144A or Regulation S under the Securities Act of 1933. 144A securities may be sold in transactions exempt from registration only to qualified institutional buyers or in a public offering registered under the Securities Act of 1933. Regulation S securities cannot be sold in the United States without either an effective registration statement filed pursuant to the Securities Act of 1933, or pursuant to an exemption from registration. At September 30, 2023, the aggregate value of these securities was \$28,131,840,048, representing 40.7% of net assets.

[¶] A portion or all of the security purchased on a delayed delivery basis. See Note 1(c).

^{||} A portion or all of the security is on loan at September 30, 2023. See Note 1(g).

[¶] Perpetual security with no stated maturity date.

[‡] The coupon rate shown represents the rate at period end.

[¶] Income may be received in additional securities and/or cash.

[¶] See Note 7 regarding credit risk and defaulted securities.

[¶] See Note 1(e) regarding index-linked notes.

[¶] Security pays variable interest based on the distributions of the strategy index and proceeds earned from related equity derivatives. The coupon rate shown represents the combined rate at period end. Cash payment at maturity or upon early redemption is based on the performance of the strategy index.

[¶] See Note 1(h) regarding senior floating rate interests.

[¶] The coupon rate shown represents the rate inclusive of any caps or floors, if applicable, in effect at period end.

[¶] The rate shown is the annualized seven-day effective yield at period end.

[¶] See Note 1(d) regarding written options.

Franklin Income Fund (continued)

At September 30, 2023, the Fund had the following futures contracts outstanding. See Note 1(d).

Futures Contracts

Description	Type	Number of Contracts	Notional Amount*	Expiration Date	Value/ Unrealized Appreciation (Depreciation)
Interest rate contracts					
U.S. Treasury 10 Year Notes	Long	54,000	\$5,835,375,000	12/19/23	\$(120,952,289)
U.S. Treasury Ultra Bonds	Long	5,250	623,109,375	12/19/23	(44,465,285)
Total Futures Contracts					\$(165,417,574)

*As of period end.

Notes to Financial Statements

1. Organization and Significant Accounting Policies

Franklin Custodian Funds (Trust) is registered under the Investment Company Act of 1940 (1940 Act) as an open-end management investment company, consisting of six separate funds (Funds). The Funds follow the accounting and reporting guidance in Financial Accounting Standards Board (FASB) Accounting Standards Codification Topic 946, Financial Services – Investment Companies (ASC 946) and apply the specialized accounting and reporting guidance in U.S. Generally Accepted Accounting Principles (U.S. GAAP), including, but not limited to, ASC 946. The classes of shares offered within each of the Funds are indicated below. Class C shares automatically convert to Class A shares on a monthly basis, after they have been held for 8 years. Each class of shares may differ by its initial sales load, contingent deferred sales charges, voting rights on matters affecting a single class, its exchange privilege and fees due to differing arrangements for distribution and transfer agent fees.

^aEffective September 13, 2023, Franklin Focused Growth Fund liquidated Class R6.

The following summarizes the Funds' significant accounting policies.

a. Financial Instrument Valuation

The Funds' investments in financial instruments are carried at fair value daily. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. The Funds calculate the net asset value (NAV) per share each business day as of 4 p.m. Eastern time or the regularly scheduled close of the New York Stock Exchange (NYSE), whichever is earlier. Under compliance policies and procedures approved by the Trust's Board of Trustees (the Board), the Board has designated the Funds' investment manager as the valuation designee and has responsibility for oversight of valuation. The investment manager is assisted by the Funds' administrator in

performing this responsibility, including leading the cross-functional Valuation Committee (VC). The Funds may utilize independent pricing services, quotations from securities and financial instrument dealers, and other market sources to determine fair value.

Equity securities and derivative financial instruments listed on an exchange or on the NASDAQ National Market System are valued at the last quoted sale price or the official closing price of the day, respectively. Foreign equity securities are valued as of the close of trading on the foreign stock exchange on which the security is primarily traded, or as of 4 p.m. Eastern time. The value is then converted into its U.S. dollar equivalent at the foreign exchange rate in effect at 4 p.m. Eastern time on the day that the value of the security is determined. Over-the-counter (OTC) securities are valued within the range of the most recent quoted bid and ask prices. Securities that trade in multiple markets or on multiple exchanges are valued according to the broadest and most representative market. Certain equity securities are valued based upon fundamental characteristics or relationships to similar securities.

Debt securities generally trade in the OTC market rather than on a securities exchange. The Funds' pricing services use multiple valuation techniques to determine fair value. In instances where sufficient market activity exists, the pricing services may utilize a market-based approach through which quotes from market makers are used to determine fair value. In instances where sufficient market activity may not exist or is limited, the pricing services also utilize proprietary valuation models which may consider market characteristics such as benchmark yield curves, credit spreads, estimated default rates, anticipated market interest rate volatility, coupon rates, anticipated timing of principal repayments, underlying collateral, and other unique security features in order to estimate the relevant cash flows, which are then discounted to calculate the fair value. Securities denominated in a foreign currency are converted into their U.S. dollar equivalent at the foreign exchange rate in effect at 4 p.m. Eastern time on the date that the values of the foreign debt securities are determined.

Investments in open-end mutual funds are valued at the closing NAV.

The Funds have procedures to determine the fair value of financial instruments for which market prices are not reliable or readily available. Under these procedures, the Funds primarily employ a market-based approach

1. Organization and Significant Accounting Policies

(continued)

a. Financial Instrument Valuation (continued)

which may use related or comparable assets or liabilities, recent transactions, market multiples, and other relevant information for the investment to determine the fair value of the investment. An income-based valuation approach may also be used in which the anticipated future cash flows of the investment are discounted to calculate fair value. Discounts may also be applied due to the nature or duration of any restrictions on the disposition of the investments. Due to the inherent uncertainty of valuations of such investments, the fair values may differ significantly from the values that would have been used had an active market existed.

Trading in securities on foreign securities stock exchanges and OTC markets may be completed before 4 p.m. Eastern time. In addition, trading in certain foreign markets may not take place on every Funds' business day. Events can occur between the time at which trading in a foreign security is completed and 4 p.m. Eastern time that might call into question the reliability of the value of a portfolio security held by the Fund. As a result, differences may arise between the value of the Funds' portfolio securities as determined at the foreign market close and the latest indications of value at 4 p.m. Eastern time. In order to minimize the potential for these differences, an independent pricing service may be used to adjust the value of the Funds' portfolio securities to the latest indications of fair value at 4 p.m. Eastern time. At September 30, 2023, certain securities may have been fair valued using these procedures, in which case the securities were categorized as Level 2 within the fair value hierarchy (referred to as "market level fair value"). See the Fair Value Measurements note for more information.

When the last day of the reporting period is a non-business day, certain foreign markets may be open on those days that the Funds' NAV is not calculated, which could result in differences between the value of the Funds' portfolio securities on the last business day and the last calendar day of the reporting period. Any security valuation changes due to an open foreign market are adjusted and reflected by the Funds for financial reporting purposes.

b. Foreign Currency Translation

Portfolio securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars based on the exchange rate of such currencies

against U.S. dollars on the date of valuation. The Funds may enter into foreign currency exchange contracts to facilitate transactions denominated in a foreign currency. Purchases and sales of securities, income and expense items denominated in foreign currencies are translated into U.S. dollars at the exchange rate in effect on the transaction date. Portfolio securities and assets and liabilities denominated in foreign currencies contain risks that those currencies will decline in value relative to the U.S. dollar. Occasionally, events may impact the availability or reliability of foreign exchange rates used to convert the U.S. dollar equivalent value. If such an event occurs, the foreign exchange rate will be valued at fair value using procedures established and approved by the Board.

The Funds do not separately report the effect of changes in foreign exchange rates from changes in market prices on securities held. Such changes are included in net realized and unrealized gain or loss from investments in the Statements of Operations.

Realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions and the difference between the recorded amounts of dividends, interest, and foreign withholding taxes and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in foreign exchange rates on foreign denominated assets and liabilities other than investments in securities held at the end of the reporting period.

c. Securities Purchased on a Delayed Delivery Basis

Certain or all Funds purchase securities on a delayed delivery basis, with payment and delivery scheduled for a future date. These transactions are subject to market fluctuations and are subject to the risk that the value at delivery may be more or less than the trade date purchase price. Although the Funds will generally purchase these securities with the intention of holding the securities, they may sell the securities before the settlement date.

d. Derivative Financial Instruments

Certain or all Funds invested in derivative financial instruments in order to manage risk or gain exposure to various other investments or markets. Derivatives are financial contracts based on an underlying or notional

1. Organization and Significant Accounting Policies

(continued)

d. Derivative Financial Instruments (continued)

amount, require no initial investment or an initial net investment that is smaller than would normally be required to have a similar response to changes in market factors, and require or permit net settlement. Derivatives contain various risks including the potential inability of the counterparty to fulfill their obligations under the terms of the contract, the potential for an illiquid secondary market, and/or the potential for market movements which expose the Fund to gains or losses in excess of the amounts shown in the Statements of Assets and Liabilities. Realized gain and loss and unrealized appreciation and depreciation on these contracts for the period are included in the Statements of Operations.

Collateral requirements differ by type of derivative. Collateral or initial margin requirements are set by the broker or exchange clearing house for exchange traded and centrally cleared derivatives. Initial margin deposited is held at the exchange and can be in the form of cash and/or securities.

Certain or all Funds entered into exchange traded futures contracts primarily to manage and/or gain exposure to interest rate risk. A futures contract is an agreement between the Fund and a counterparty to buy or sell an asset at a specified price on a future date. Required initial margins are pledged by the Fund, and the daily change in fair value is accounted for as a variation margin payable or receivable in the Statements of Assets and Liabilities. At September 30, 2023, Franklin DynaTech Fund, Franklin Focused Growth Fund, Franklin Growth Fund, Franklin U.S. Government Securities Fund and Franklin Utilities Fund had no futures contracts.

Certain or all Funds purchased or wrote exchange traded option contracts primarily to manage exposure to equity price risk. An option is a contract entitling the holder to purchase or sell a specific amount of shares or units of an asset or notional amount of a swap (swaption), at a specified price. When an option is purchased or written, an amount equal to the premium paid or received is recorded as an asset or liability, respectively. Upon exercise of an option, the acquisition cost or sales proceeds of the underlying investment is adjusted by any premium received or paid. Upon expiration of an option, any premium received or paid is recorded as a realized gain or loss. Upon closing an option other than through expiration or exercise, the difference

between the premium received or paid and the cost to close the position is recorded as a realized gain or loss. At September 30, 2023, Franklin DynaTech Fund, Franklin Focused Growth Fund, Franklin Growth Fund, Franklin U.S. Government Securities Fund and Franklin Utilities Fund had no option contracts.

See Note 9 regarding other derivative information.

e. Index-Linked Notes

Certain or all Funds invest in index-linked notes. Index-linked notes are senior, unsecured, subordinated debt securities issued by a financial institution, and the value is based on the price movements of the underlying index. Index-linked notes are designed to provide investors access to the returns of various market benchmarks and intended to replicate the economic effects that would apply had the Fund directly purchased the underlying referenced asset or basket of assets. The risks of investing in index-linked notes include unfavorable price movements in the underlying index and the credit risk of the issuing financial institution. There may be no guarantee of a return of principal with index-linked notes and the appreciation potential may be limited. Index-linked notes may be more volatile and less liquid than other investments held by the Funds.

f. Equity-Linked Securities

Certain or all Funds invest in equity-linked securities. Equity-linked securities are hybrid financial instruments that generally combine both debt and equity characteristics into a single note form. Income received from equity-linked securities is recorded as realized gains in the Statements of Operations and may be based on the performance of an underlying equity security, an equity index, or an option position. The risks of investing in equity-linked securities include unfavorable price movements in the underlying security and the credit risk of the issuing financial institution. There may be no guarantee of a return of principal with equity-linked securities and the appreciation potential may be limited. Equity-linked securities may be more volatile and less liquid than other investments held by the Funds.

g. Securities Lending

Certain or all Funds participate in an agency based securities lending program to earn additional income. The Fund receives collateral in the form of cash and/or U.S. Government and Agency securities against the loaned securities in an amount equal to at least 102% of the fair

1. Organization and Significant Accounting Policies

(continued)

g. Securities Lending (continued)

value of the loaned securities. Collateral is maintained over the life of the loan in an amount not less than 100% of the fair value of loaned securities, as determined at the close of Fund business each day; any additional collateral required due to changes in security values is delivered to the Fund on the next business day. Any cash collateral received is deposited into a joint cash account with other funds and is used to invest in a money market fund managed by Franklin Advisers, Inc., an affiliate of the Funds. Additionally, at September 30, 2023, Franklin DynaTech Fund and Franklin Income Fund held \$492,893 and \$41,176,622, respectively, in U.S. Government and Agency securities as collateral. These securities are held as collateral in segregated accounts with the Funds' custodian. The Fund cannot repledge or resell these securities held as collateral. As such, the non-cash collateral is excluded from the Statements of Assets and Liabilities. The Fund may receive income from the investment of cash collateral, in addition to lending fees and rebates paid by the borrower. Income from securities loaned, net of fees paid to the securities lending agent and/or third-party vendor, is reported separately in the Statements of Operations. The Fund bears the market risk with respect to any cash collateral investment, securities loaned, and the risk that the agent may default on its obligations to the Fund. If the borrower defaults on its obligation to return the securities loaned, the Fund has the right to repurchase the securities in the open market using the collateral received. The securities lending agent has agreed to indemnify the Fund in the event of default by a third party borrower. At September 30, 2023, Franklin Focused Growth Fund, Franklin Growth Fund, Franklin U.S. Government Securities Fund and Franklin Utilities Fund had no securities on loan.

h. Senior Floating Rate Interests

Certain or all Funds invest in senior secured corporate loans that pay interest at rates which are periodically reset by reference to a base lending rate plus a spread. These base lending rates are generally the prime rate offered by a designated U.S. bank, or the London Interbank Offered Rate (LIBOR), or the Secured Overnight Financing Rate (SOFR). Senior secured corporate loans often require prepayment of principal from excess cash flows or at the discretion of the borrower. As a result, actual maturity may be substantially

less than the stated maturity. Senior secured corporate loans in which the Funds invest are generally readily marketable, but may be subject to certain restrictions on resale.

i. Income and Deferred Taxes

It is each Fund's policy to qualify as a regulated investment company under the Internal Revenue Code. Each Fund intends to distribute to shareholders substantially all of its taxable income and net realized gains to relieve it from federal income and excise taxes. As a result, no provision for U.S. federal income taxes is required.

The Funds may be subject to foreign taxation related to income received, capital gains on the sale of securities and certain foreign currency transactions in the foreign jurisdictions in which the Funds invest. Foreign taxes, if any, are recorded based on the tax regulations and rates that exist in the foreign markets in which the Funds invest. When a capital gain tax is determined to apply, certain or all Funds record an estimated deferred tax liability in an amount that would be payable if the securities were disposed of on the valuation date.

As a result of several court cases, in certain countries across the European Union, certain or all Funds filed additional tax reclaims for previously withheld taxes on dividends earned in those countries (EU reclaims). Income recognized, if any, for EU reclaims is reflected as other income in the Statements of Operations and any related receivable, if any, is reflected as European Union tax reclaims in the Statements of Assets and Liabilities. Any fees associated with these filings are reflected in other expenses in the Statements of Operations. When uncertainty exists as to the ultimate resolution of these proceedings, the likelihood of receipt of these EU reclaims, and the potential timing of payment, no amounts are reflected in the financial statements. For U.S. income tax purposes, EU reclaims received by the Funds, if any, reduce the amount of foreign taxes Fund shareholders can use as tax deductions or credits on their income tax returns.

Each Fund may recognize an income tax liability related to its uncertain tax positions under U.S. GAAP when the uncertain tax position has a less than 50% probability that it will be sustained upon examination by the tax authorities based on its technical merits. As of September 30, 2023, each Fund has determined that no tax liability is required in its financial statements related to uncertain tax positions for any open tax years (or expected to be taken

1. Organization and Significant Accounting Policies

(continued)

i. Income and Deferred Taxes (continued)

in future tax years). Open tax years are those that remain subject to examination and are based on the statute of limitations in each jurisdiction in which the Fund invests.

j. Security Transactions, Investment Income, Expenses and Distributions

Security transactions are accounted for on trade date. Realized gains and losses on security transactions are determined on a specific identification basis. Interest income and estimated expenses are accrued daily. Amortization of premium and accretion of discount on debt securities are included in interest income. Paydown gains and losses are recorded separately in the Statements of Operations. Certain or all Funds may receive other income from investments in senior secured corporate loans or unfunded commitments, including amendment fees, consent fees or commitment fees. These fees are recorded as income when received by the Funds. Facility fees are recognized as income over the expected term of the loan. Dividend income is recorded on the ex-dividend date except for certain dividends from securities where the dividend rate is not available. In such cases, the dividend is recorded as soon as the information is received by the Funds. Distributions to shareholders are recorded on the ex-dividend date. Distributable earnings are determined according to income tax regulations (tax basis) and may differ from earnings recorded in accordance with U.S. GAAP. These differences may be permanent or temporary. Permanent differences are reclassified among capital accounts to reflect their tax character. These reclassifications have no impact on net assets or the results of operations. Temporary differences are not reclassified, as they may reverse in subsequent periods.

Common expenses incurred by the Trust are allocated among the Funds based on the ratio of net assets of each Fund to the combined net assets of the Trust or based on the ratio of number of shareholders of each Fund to the combined number of shareholders of the Trust. Fund specific expenses are charged directly to the Fund that incurred the expense.

Realized and unrealized gains and losses and net investment income, excluding class specific expenses, are allocated daily to each class of shares based upon the

relative proportion of net assets of each class. Differences in per share distributions by class are generally due to differences in class specific expenses.

k. Accounting Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

l. Guarantees and Indemnifications

Under the Trust's organizational documents, its officers and trustees are indemnified by the Trust against certain liabilities arising out of the performance of their duties to the Trust. Additionally, in the normal course of business, the Trust, on behalf of the Funds, enters into contracts with service providers that contain general indemnification clauses. The Trust's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Trust that have not yet occurred. Currently, the Trust expects the risk of loss to be remote.

2. Shares of Beneficial Interest

At September 30, 2023, there were an unlimited number of shares authorized (without par value). Transactions in the Funds' shares were as follows:

^aEffective September 13, 2023, Class R6 was liquidated.

^bMay include a portion of Class C shares that were automatically converted to Class A.

3. Transactions with Affiliates

Franklin Resources, Inc. is the holding company for various subsidiaries that together are referred to as Franklin Templeton. Certain officers and trustees of the Trust are also officers and/or directors of the following subsidiaries:

Subsidiary	Affiliation
Franklin Advisers, Inc. (Advisers)	Investment manager
Franklin Templeton Services, LLC (FT Services)	Administrative manager
Franklin Distributors, LLC (Distributors)	Principal underwriter
Franklin Templeton Investor Services, LLC (Investor Services)	Transfer agent

3. Transactions with Affiliates (continued)

a. Management Fees

Franklin Income Fund and Franklin Utilities Fund pay an investment management fee, calculated daily and paid monthly, to Advisers based on the month-end net assets of each of the Funds as follows:

Annualized Fee Rate	Net Assets
0.625%	Up to and including \$100 million
0.500%	Over \$100 million, up to and including \$250 million
0.450%	Over \$250 million, up to and including \$7.5 billion
0.440%	Over \$7.5 billion, up to and including \$10 billion
0.430%	Over \$10 billion, up to and including \$12.5 billion
0.420%	Over \$12.5 billion, up to and including \$15 billion
0.400%	Over \$15 billion, up to and including \$17.5 billion
0.380%	Over \$17.5 billion, up to and including \$20 billion
0.360%	Over \$20 billion, up to and including \$35 billion
0.355%	Over \$35 billion, up to and including \$50 billion
0.350%	Over \$50 billion, up to and including \$65 billion
0.345%	Over \$65 billion, up to and including \$80 billion
0.340%	In excess of \$80 billion

Franklin DynaTech Fund, Franklin Growth Fund and Franklin U.S. Government Securities Fund pay an investment management fee, calculated daily and paid monthly, to Advisers based on the month-end net assets of each of the Funds as follows:

Annualized Fee Rate	Net Assets
0.625%	Up to and including \$100 million
0.500%	Over \$100 million, up to and including \$250 million
0.450%	Over \$250 million, up to and including \$7.5 billion
0.440%	Over \$7.5 billion, up to and including \$10 billion
0.430%	Over \$10 billion, up to and including \$12.5 billion
0.420%	Over \$12.5 billion, up to and including \$15 billion
0.400%	Over \$15 billion, up to and including \$17.5 billion
0.380%	Over \$17.5 billion, up to and including \$20 billion
0.360%	Over \$20 billion, up to and including \$35 billion
0.355%	Over \$35 billion, up to and including \$50 billion
0.350%	In excess of \$50 billion

3. Transactions with Affiliates (continued)**a. Management Fees** (continued)

Franklin Focused Growth Fund pays an investment management fee, calculated daily and paid monthly, to Advisers based on the average daily net assets of the Fund as follows:

Annualized Fee Rate	Net Assets
0.700%	Up to and including \$500 million
0.600%	Over \$500 million, up to and including \$1 billion
0.550%	Over \$1 billion, up to and including \$3 billion
0.500%	Over \$3 billion, up to and including \$5 billion
0.450%	In excess of \$5 billion

For the year ended September 30, 2023, each Fund's gross effective investment management fee rate based on average daily net assets was as follows:

	Franklin DynaTech Fund	Franklin Focused Growth Fund	Franklin Growth Fund
Gross effective investment management fee rate	0.436%	0.700%	0.442%

	Franklin Income Fund	Franklin U.S. Government Securities Fund	Franklin Utilities Fund
Gross effective investment management fee rate	0.376%	0.456%	0.451%

b. Administrative Fees

Under an agreement with Advisers, FT Services provides administrative services to the Funds. The fee is paid by Advisers based on each of the Funds' average daily net assets, and is not an additional expense of the Funds.

c. Distribution Fees

The Board has adopted distribution plans for each share class, with the exception of Class R6 and Advisor Class shares, pursuant to Rule 12b-1 under the 1940 Act. Under the Funds' Class A and A1 reimbursement distribution plans, the Funds reimburse Distributors for costs incurred in connection with the servicing, sale and distribution of each Fund's shares up to the maximum annual plan rate for each class. Under the Class A and A1 reimbursement distribution plans, costs exceeding the maximum for the current plan year cannot be reimbursed in subsequent periods. In addition, under the Funds' Class C and R compensation distribution plans, the Funds pay Distributors for costs incurred in connection with the servicing, sale and distribution of each Fund's shares up to the maximum annual plan rate for each class. The plan year, for purposes of monitoring compliance with the maximum annual plan rates, is February 1 through January 31 for each Fund.

The maximum annual plan rates, based on the average daily net assets, for each class, are as follows:

3. Transactions with Affiliates (continued)

c. Distribution Fees (continued)

	Franklin DynaTech Fund	Franklin Focused Growth Fund	Franklin Growth Fund
Class A	0.25%	0.25%	0.25%
Class C	1.00%	1.00%	1.00%
Class R	0.50%	0.50%	0.50%

	Franklin Income Fund	Franklin U.S. Government Securities Fund	Franklin Utilities Fund
Class A	0.25%	0.25%	0.25%
Class A1	0.15%	0.15%	0.15%
Class C	0.65%	0.65%	0.65%
Class R	0.50%	0.50%	0.50%

d. Sales Charges/Underwriting Agreements

Front-end sales charges and contingent deferred sales charges (CDSC) do not represent expenses of the Funds. These charges are deducted from the proceeds of sales of fund shares prior to investment or from redemption proceeds prior to remittance, as applicable. Distributors has advised the Funds of the following commission transactions related to the sales and redemptions of the Funds' shares for the year:

	Franklin DynaTech Fund	Franklin Focused Growth Fund	Franklin Growth Fund
Sales charges retained net of commissions paid to unaffiliated brokers/dealers	\$1,805,698	\$8,681	\$976,461
CDSC retained	\$114,789	\$237	\$49,060

	Franklin Income Fund	Franklin U.S. Government Securities Fund	Franklin Utilities Fund
Sales charges retained net of commissions paid to unaffiliated brokers/dealers	\$2,682,048	\$18,534	\$104,347
CDSC retained	\$1,210,633	\$16,434	\$63,811

Effective March 1, 2023, any front-end sales charges applicable to the purchase of Franklin Focused Growth Fund shares or CDSC applicable to the redemption of the Fund's shares are waived.

e. Transfer Agent Fees

Each class of shares pays transfer agent fees to Investor Services for its performance of shareholder servicing obligations. Effective October 1, 2022, the fees are based on an annualized asset based fee of 0.016% plus a reduced transaction based fee. Prior to October 1, 2022, the fees were based on an annualized asset based fee of 0.02% plus a transaction based fee. In addition, each class reimburses Investor Services for out of pocket expenses incurred and, except for Class R6, reimburses shareholder servicing fees paid to third parties. These fees are allocated daily based upon their relative proportion of such classes' aggregate net assets. Class R6 pays Investor Services transfer agent fees specific to that class.

3. Transactions with Affiliates (continued)

e. Transfer Agent Fees (continued)

For the year ended September 30, 2023, the Funds paid transfer agent fees as noted in the Statements of Operations of which the following amounts were retained by Investor Services:

	Franklin DynaTech Fund	Franklin Focused Growth Fund	Franklin Growth Fund
Transfer agent fees	\$5,204,602	\$83,143	\$5,274,657

	Franklin Income Fund	Franklin U.S. Government Securities Fund	Franklin Utilities Fund
Transfer agent fees	\$19,433,817	\$1,529,824	\$2,238,219

f. Investments in Affiliated Management Investment Companies

Certain or all Funds invest in one or more affiliated management investment companies. As defined in the 1940 Act, an investment is deemed to be a “Controlled Affiliate” of a fund when a fund owns, either directly or indirectly, 25% or more of the affiliated fund’s outstanding shares or has the power to exercise control over management or policies of such fund. The Funds do not invest for purposes of exercising a controlling influence over the management or policies. Management fees paid by the Funds are waived on assets invested in the affiliated management investment companies, as noted in the Statements of Operations, in an amount not to exceed the management and administrative fees paid directly or indirectly by each affiliate. During the year ended September 30, 2023, investments in affiliated management investment companies were as follows:

	Value at Beginning of Year	Purchases	Sales	Realized Gain (Loss)	Net Change in Unrealized Appreciation (Depreciation)	Value at End of Year	Number of Shares Held at End of Year	Investment Income

g. Waiver and Expense Reimbursements

Advisers has contractually agreed in advance to waive or limit its respective fees and to assume as its own expense certain expenses otherwise payable by Franklin Focused Growth Fund so that the operating expenses (excluding interest expense, distribution fees, acquired fund fees and expenses and certain non-routine expenses or costs, including those relating to litigation, indemnification, reorganizations, and liquidations) for each class of the Fund does not exceed 0.85% based on the average net assets of each class until January 31, 2024. Total expenses waived or paid are not subject to recapture subsequent to the Fund's fiscal year end.

Investor Services has contractually agreed in advance to waive or limit its fees so that the Class R6 transfer agent fees do not exceed 0.03% based on the average net assets of the class until January 31, 2024.

h. Other Affiliated Transactions

During the year ended September 30, 2022, the New Jersey Better Educational Savings Trust Program – Franklin Templeton Managed Investments Options (529 Portfolios) redeemed out of Franklin Growth Fund. As a result, on July 15, 2022, the Fund delivered portfolio securities and cash that were transferred in-kind to the 529 Portfolios, which included \$74,761,884 of net realized gains. As such gains are not taxable to the Fund and are not distributed to remaining shareholders, they are reclassified from accumulated net realized gains to paid-in capital.

4. Expense Offset Arrangement

The Funds have previously entered into an arrangement with their custodian whereby credits realized as a result of uninvested cash balances are used to reduce a portion of the Funds' custodian expenses. During the year ended September 30, 2023, the custodian fees were reduced as noted in the Statements of Operations. For Franklin Income Fund and Franklin U.S. Government Securities Fund, effective July 10, 2023, earned credits, if any, will be recognized as income. For Franklin DynaTech Fund, Franklin Growth Fund and Franklin Utilities Fund, effective September 21, 2023, earned credits, if any, will be recognized as income.

5. Income Taxes

For tax purposes, capital losses may be carried over to offset future capital gains.

At September 30, 2023, the capital loss carryforwards were as follows:

	Franklin DynaTech Fund	Franklin Focused Growth Fund	Franklin Income Fund	Franklin U.S. Government Securities Fund
Capital loss carryforwards not subject to expiration:				
Short term	\$1,494,736,002	\$10,557,832	\$672,035,575	\$349,782,198
Long term	—	4,435,190	—	457,952,751
Total capital loss carryforwards	\$1,494,736,002	\$14,993,022	\$672,035,575	\$807,734,949

During the year ended September 30, 2023, the following Fund utilized capital loss carryforwards as follows:

	Franklin Income Fund
Capital loss carryforwards utilized	\$10,715,760

For tax purposes, the Funds may elect to defer any portion of a post-October capital loss or late-year ordinary loss to the first day of the following fiscal year. At September 30, 2023, the deferred losses were as follows:

	Franklin Dynatech Fund	Franklin Focused Growth Fund
Late-year ordinary loss	\$30,489,840	\$282,820

The tax character of distributions paid during the years ended September 30, 2023 and 2022, was as follows:

	Franklin DynaTech Fund		Franklin Focused Growth Fund	
	2023	2022	2023	2022
Distributions paid from:				
Long term capital gain	\$—	\$396,128,968	\$—	\$669,614

	Franklin Growth Fund		Franklin Income Fund	
	2023	2022	2023	2022
Distributions paid from:

	\$83,593,762	\$90,397,421	\$248,199,854	\$328,982,384

5. Income Taxes (continued)

At September 30, 2023, the cost of investments, net unrealized appreciation (depreciation), undistributed ordinary income and undistributed long term capital gains for income tax purposes were as follows:

	Franklin DynaTech Fund	Franklin Focused Growth Fund	Franklin Growth Fund
Cost of investments	\$10,985,031,511	\$62,152,235	\$4,979,022,894
Unrealized appreciation.	\$8,773,211,542	\$17,842,894	\$10,873,854,365
Unrealized depreciation.	(130,598,677)	(1,837,934)	(244,747,622)
Net unrealized appreciation (depreciation).	\$8,642,612,865	\$16,004,960	\$10,629,106,743
Distributable earnings:			
Undistributed ordinary income.	\$—	\$—	\$31,307,010
Undistributed long term capital gains.	—	—	946,735,037
Total distributable earnings	\$—	\$—	\$978,042,047

	Franklin Income Fund	Franklin U.S. Government Securities Fund	Franklin Utilities Fund
Cost of investments	\$72,488,742,906	\$2,943,078,128	\$3,045,751,082
Unrealized appreciation.	\$1,996,163,481	\$394,966	\$2,491,113,570
Unrealized depreciation.	(5,862,249,379)	(436,393,374)	(47,685,867)
Net unrealized appreciation (depreciation).	\$(3,866,085,898)	\$(435,998,408)	\$2,443,427,703
Distributable earnings:			
Undistributed ordinary income.	\$33,987,448	\$2,677	\$4,263,996
Undistributed long term capital gains.	—	—	178,397,942
Total distributable earnings	\$33,987,448	\$2,677	\$182,661,938

Differences between income and/or capital gains as determined on a book basis and a tax basis are primarily due to differing treatments of wash sales, paydown losses, bond discounts and premiums, derivative financial instruments, equity-linked securities and net operating losses.

Franklin Growth Fund and Franklin Utilities Fund utilized a tax accounting practice to treat a portion of the proceeds from capital shares redeemed as a distribution from net investment income and realized capital gains.

6. Investment Transactions

Purchases and sales of investments (excluding short term securities) for the year ended September 30, 2023, were as follows:

	Franklin DynaTech Fund	Franklin Focused Growth Fund	Franklin Growth Fund
Purchases	\$2,839,735,882	\$21,721,803	\$448,821,427
Sales	\$4,038,604,283	\$31,036,303	\$2,130,226,247

6. Investment Transactions (continued)

	Franklin Income Fund	Franklin U.S. Government Securities Fund	Franklin Utilities Fund
Purchases	\$40,400,441,585	\$76,280,868	\$282,463,109
Sales	\$38,773,075,977	\$413,661,510	\$792,975,181

7. Credit Risk and Defaulted Securities

At September 30, 2023, Franklin Income Fund had 23.9% of its portfolio invested in high yield securities, senior secured floating rate loans, or other securities rated below investment grade and unrated securities. These securities may be more sensitive to economic conditions causing greater price volatility and are potentially subject to a greater risk of loss due to default than higher rated securities.

Franklin Income Fund held defaulted securities and/or other securities for which the income has been deemed uncollectible. At September 30, 2023, the aggregate value of these securities was \$218,653,724, representing 0.3% of the Fund's net assets. The Fund discontinues accruing income on securities for which income has been deemed uncollectible and provides an estimate for losses on interest receivable. The securities have been identified in the accompanying Schedule of Investments.

8. Restricted Securities

Certain or all Funds invest in securities that are restricted under the Securities Act of 1933 (1933 Act). Restricted securities are often purchased in private placement transactions, and cannot be sold without prior registration unless the sale is pursuant to an exemption under the 1933 Act. Disposal of these securities may require greater effort and expense, and prompt sale at an acceptable price may be difficult. The Funds may have registration rights for restricted securities. The issuer generally incurs all registration costs.

At September 30, 2023, investments in restricted securities, excluding securities exempt from registration under the 1933 Act, were as follows:

Shares	Issuer	Acquisition Date	Cost	Value
Franklin Growth Fund				
25,413	Canva, Inc.	11/08/21	\$43,323,040	\$28,524,759
2,353	Canva, Inc., A	11/08/21	4,011,298	2,641,119
94	Canva, Inc., A-3	11/08/21	160,247	105,510
8	Canva, Inc., A-4	11/08/21	13,638	8,980
5	Canva, Inc., A-5	11/08/21	8,524	5,612
96,603	Checkout Payments Group Ltd., B	1/11/22	30,000,062	8,383,837
822,494	Gusto, Inc., E	7/13/21	24,999,977	22,949,784
849,894	OneTrust LLC, C	4/01/21	16,666,676	12,730,065
540,043	Stripe, Inc., B	5/18/21	21,671,052	11,756,907
1,759,545	Stripe, Inc., I	3/15/23 - 5/08/23	35,426,925	38,305,853
	Total Restricted Securities (Value is 0.8% of Net Assets).		\$176,281,439	\$125,412,426

9. Other Derivative Information

At September 30, 2023, investments in derivative contracts are reflected in the Statements of Assets and Liabilities as follows:

Derivative Contracts Not Accounted for as Hedging Instruments	Asset Derivatives		Liability Derivatives	
	Statement of Assets and Liabilities Location	Fair Value	Statement of Assets and Liabilities Location	Fair Value
Franklin Income Fund				
Interest rate contracts	Variation margin on futures contracts	\$—	Variation margin on futures contracts	\$165,417,574 ^a
Equity contracts	Investments in securities, at value	—	Options written, at value	87,227,000
Total		<u>\$—</u>		<u>\$252,644,574</u>

^aThis amount reflects the cumulative appreciation (depreciation) of futures contracts as reported in the schedule of investments. Only the variation margin receivable/payable at year end is separately reported within the Statements of Assets and Liabilities. Prior variation margin movements were recorded to cash upon receipt or payment.

For the year ended September 30, 2023, the effect of derivative contracts in the Statements of Operations was as follows:

Derivative Contracts Not Accounted for as Hedging Instruments	Statement of Operations Location	Net Realized Gain (Loss) for the Year	Statement of Operations Location	Net Change in Unrealized Appreciation (Depreciation) for the Year
Franklin Income Fund				
	Net realized gain (loss) from:		Net change in unrealized appreciation (depreciation) on:	
Interest rate contracts	Futures contracts	\$(216,973,008)	Futures contracts	\$(180,221,824)
Equity Contracts	Written options	371,224,717	Written options	14,778,567
Total		<u>\$154,251,709</u>		<u>\$(165,443,257)</u>

For the year ended September 30, 2023, the average month end notional amount of futures contracts and options represented \$5,566,923,077 and \$53,743,054, respectively.

See Note 1(d) regarding derivative financial instruments.

10. Holding of 5% Voting Securities of Portfolio Companies

The 1940 Act defines "affiliated companies" to include investments in portfolio companies in which a fund owns 5% or more of the outstanding voting securities. Additionally, as defined in the 1940 Act, an investment is deemed to be a "Controlled Affiliate" of a fund when a fund owns, either directly or indirectly, 25% or more of the affiliated companies' outstanding shares or has the power to exercise control over management or policies of such company. During the year ended September 30, 2023, investments in "affiliated companies" were as follows:

10. Holding of 5% Voting Securities of Portfolio Companies (continued)

	Value at Beginning of Year	Purchases	Sales	Realized Gain (Loss)	Net Change in Unrealized Appreciation (Depreciation)	Value at End of Year	Number of Shares Held at End of Year	Investment Income
Franklin Growth Fund								
Non-Controlled Affiliates								
								Dividends
OneTrust LLC, C	\$9,210,092	\$—	\$—	\$—	\$3,519,973	\$12,730,065	849,894	\$—
Total Affiliated Securities (Value is 0.1% of Net Assets).	\$9,210,092	\$—	\$—	\$—	\$3,519,973	\$12,730,065		\$—

11. Credit Facility

The Funds, together with other U.S. registered and foreign investment funds (collectively, Borrowers), managed by Franklin Templeton, are borrowers in a joint syndicated senior unsecured credit facility totaling \$2.675 billion (Global Credit Facility) which matures on February 2, 2024. This Global Credit Facility provides a source of funds to the Borrowers for temporary and emergency purposes, including the ability to meet future unanticipated or unusually large redemption requests.

Under the terms of the Global Credit Facility, the Funds shall, in addition to interest charged on any borrowings made by the Funds and other costs incurred by the Funds, pay their share of fees and expenses incurred in connection with the implementation and maintenance of the Global Credit Facility, based upon their relative share of the aggregate net assets of all of the Borrowers, including an annual commitment fee of 0.15% based upon the unused portion of the Global Credit Facility. These fees are reflected in other expenses in the Statements of Operations. During the year ended September 30, 2023, the Funds did not use the Global Credit Facility.

12. Redemption In-Kind

During the year ended September 30, 2022, Franklin Growth Fund realized \$47,765,967 of net gains resulting from redemptions in-kind in which a shareholder redeemed fund shares for cash and securities held by the Fund. Because such gains are not taxable to the Fund and are not distributed to remaining shareholders, they are reclassified from accumulated net realized gains to paid-in capital.

13. Fair Value Measurements

The Funds follow a fair value hierarchy that distinguishes between market data obtained from independent sources (observable inputs) and the Funds' own market assumptions (unobservable inputs). These inputs are used in determining the value of the Funds' financial instruments and are summarized in the following fair value hierarchy:

- Level 1 – quoted prices in active markets for identical financial instruments
- Level 2 – other significant observable inputs (including quoted prices for similar financial instruments, interest rates, prepayment speed, credit risk, etc.)
- Level 3 – significant unobservable inputs (including the Funds' own assumptions in determining the fair value of financial instruments)

13. Fair Value Measurements (continued)

The input levels are not necessarily an indication of the risk or liquidity associated with financial instruments at that level.

A summary of inputs used as of September 30, 2023, in valuing the Funds' assets and liabilities carried at fair value, is as follows:

	Level 1	Level 2	Level 3	Total

13. Fair Value Measurements (continued)

^a Includes financial instruments determined to have no value.

^b Includes foreign securities valued at \$443,815,364, which were categorized as Level 2 as a result of the application of market level fair value procedures. See the Financial Instrument Valuation note for more information.

^c For detailed categories, see the accompanying Schedule of Investments.

^d Includes foreign securities valued at \$149,824,479, which were categorized as Level 2 as a result of the application of market level fair value procedures. See the Financial Instrument Valuation note for more information.

^e Includes foreign securities valued at \$274,336,161, which were categorized as Level 2 as a result of the application of market level fair value procedures. See the Financial Instrument Valuation note for more information.

^f Includes foreign securities valued at \$189,329,031, which were categorized as Level 2 as a result of the application of market level fair value procedures. See the Financial Instrument Valuation note for more information.

A reconciliation in which Level 3 inputs are used in determining fair value is presented when there are significant Level 3 assets and/or liabilities at the beginning and/or end of the year.

14. New Accounting Pronouncements

In March 2020, the FASB issued Accounting Standards Update (ASU) No. 2020-04, Reference Rate Reform (Topic 848) – Facilitation of the Effects of Reference Rate Reform on Financial Reporting. In January 2021 and December 2022, the FASB issued ASU No. 2021-01 and ASU No. 2022-06, with further amendments to Topic 848. The amendments in the ASUs provide optional temporary accounting recognition and financial reporting relief from the effect of certain types of contract modifications due to the planned discontinuation of LIBOR and other interbank-offered based reference rates as of the end of 2021 for certain LIBOR settings and 2023 for the remainder. The ASUs are effective for certain reference rate-related contract modifications that occur during the period March 12, 2020 through December 31, 2024. Management has reviewed the requirements and believes the adoption of these ASUs will not have a material impact on the financial statements.

15. Subsequent Events

The Funds have evaluated subsequent events through the issuance of the financial statements and determined that no events have occurred that require disclosure, except for the following:

At a meeting held on June 30, 2023, shareholders of the Franklin Focused Growth Fund (the “Fund”) approved the reorganization of the Fund into the Franklin Focused Growth ETF, a newly-organized series of Franklin Templeton ETF Trust (the “Reorganization”). The Reorganization occurred as of the close of business on November 3, 2023. Effective as of the close of business on November 3, 2023, the Fund ceased operations in connection with the consummation of the Reorganization.

Report of Independent Registered Public Accounting Firm

To the Board of Trustees of Franklin Custodian Funds and Franklin Templeton ETF Trust and Shareholders of Franklin DynaTech Fund, Franklin Focused Growth ETF, Franklin Growth Fund, Franklin Income Fund, Franklin U.S. Government Securities Fund, and Franklin Utilities Fund

Opinions on the Financial Statements

We have audited the accompanying statements of assets and liabilities, including the schedules of investments, of Franklin DynaTech Fund, Franklin Focused Growth Fund, Franklin Growth Fund, Franklin Income Fund, Franklin U.S. Government Securities Fund, and Franklin Utilities Fund (constituting Franklin Custodian Funds, hereafter collectively referred to as the "Funds") as of September 30, 2023, the related statements of operations for the year ended September 30, 2023, the statements of changes in net assets for each of the two years in the period ended September 30, 2023, including the related notes, and the financial highlights for each of the periods indicated therein (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of each of the Funds as of September 30, 2023, the results of each of their operations for the year then ended, the changes in each of their net assets for each of the two years in the period ended September 30, 2023 and each of the financial highlights for each of the periods indicated therein in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinions

These financial statements are the responsibility of the Funds' management. Our responsibility is to express an opinion on the Funds' financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Funds in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits of these financial statements in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of September 30, 2023 by correspondence with the custodian, transfer agent and brokers; when replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinions.

PricewaterhouseCoopers LLP

San Francisco, California
November 17, 2023

We have served as the auditor of one or more investment companies in the Franklin Templeton Group of Funds since 1948.

Tax Information (unaudited)

By mid-February, tax information related to a shareholder's proportionate share of distributions paid during the preceding calendar year will be received, if applicable. Please also refer to www.franklintempleton.com for per share tax information related to any distributions paid during the preceding calendar year. Shareholders are advised to consult with their tax advisors for further information on the treatment of these amounts on their tax returns.

The following tax information for the Funds is required to be furnished to shareholders with respect to income earned and distributions paid during its fiscal year.

The Funds below hereby report the following amounts, or if subsequently determined to be different, the maximum allowable amounts, for the fiscal year ended September 30, 2023:

	Pursuant to:	Franklin DynaTech Fund	Franklin Focused Growth Fund	Franklin Growth Fund
Long-Term Capital Gain Dividends Distributed	§852(b)(3)(C)	—	—	\$1,506,697,314
Income Eligible for Dividends Received Deduction (DRD)	§854(b)(1)(A)	\$64,689,418	\$360,278	\$121,344,192
Qualified Dividend Income Earned (QDI)	§854(b)(1)(B)	\$79,350,535	\$425,998	\$142,918,752

	Pursuant to:	Franklin Income Fund	Franklin U.S. Government Securities Fund	Franklin Utilities Fund
Long-Term Capital Gain Dividends Distributed	§852(b)(3)(C)	—	—	\$107,663,288
Income Eligible for Dividends Received Deduction (DRD)	§854(b)(1)(A)	\$438,464,364	—	\$186,720,891
Qualified Dividend Income Earned (QDI)	§854(b)(1)(B)	\$535,358,998	—	\$202,614,632
Qualified Net Interest Income (QII)	§871(k)(1)(C)	\$2,359,693,978	\$83,156,481	—
Short-Term Capital Gain Dividends Distributed	§871(k)(2)(C)	—	—	\$348,019
Section 163(j) Interest Dividends Earned	§163(j)	\$2,401,003,372	\$83,157,241	\$625,927
Interest Earned from Federal Obligations	Note (1)	\$322,818,350	\$688,750	—

Note (1) - The Law varies in each state as to whether and what percentage of dividend income attributable to Federal obligations is exempt from state income tax. Shareholders are advised to consult with their tax advisors to determine if any portion of the dividends received is exempt from state income taxes.

FRANKLIN FOCUSED GROWTH FUND
(a series of Franklin Custodian Funds)

Special Shareholder Meeting

June 30, 2023 (unaudited)

A Special Meeting of Shareholders of Franklin Focused Growth Fund, a series of Franklin Custodian Funds, was held on June 30, 2023. The purpose of the meeting was to approve the Agreement and Plan of Reorganization providing for the reorganization of Franklin Focused Growth Fund, a series of Franklin Custodian Funds, with and into Franklin Focused Growth ETF, a series of Franklin Templeton ETF Trust.

At the meeting the proposal was passed. No other business was transacted at the meeting with respect to the Fund.

The results of the voting at the meeting are as follows:

To approve the Agreement and Plan of Reorganization providing for the reorganization of Franklin Focused Growth Fund, a series of Franklin Custodian Funds, with and into Franklin Focused Growth ETF, a series of Franklin Templeton ETF Trust.

For	% Voted FOR	% FOR of Outstanding Shares
1,596,093	85.72%	44.33%
Against	% Voted Against	% Against of Outstanding Shares
41,448	2.23%	1.15%
Abstain	% Voted Abstain	% Abstain of Outstanding Shares
224,361	12.05%	6.23%

Board Members and Officers

The name, year of birth and address of the officers and board members, as well as their affiliations, positions held with the Trust, principal occupations during at least the past five years and number of U.S. registered portfolios overseen in the Franklin Templeton/Legg Mason fund complex, are shown below. Generally, each board member serves until that person's successor is elected and qualified.

Independent Board Members

Name, Year of Birth and Address	Position	Length of Time Served	Number of Portfolios in Fund Complex Overseen by Board Member ¹	Other Directorships Held During at Least the Past 5 Years
Harris J. Ashton (1932) One Franklin Parkway San Mateo, CA 94403-1906	Trustee	Since 1976	119	Bar-S Foods (meat packing company) (1981-2010).

Principal Occupation During at Least the Past 5 Years:

Director of various companies; and **formerly**, Director, RBC Holdings, Inc. (bank holding company) (until 2002); and President, Chief Executive Officer and Chairman of the Board, General Host Corporation (nursery and craft centers) (until 1998).

Terrence J. Checki (1945) One Franklin Parkway San Mateo, CA 94403-1906	Trustee	Since 2017	119	Hess Corporation (exploration of oil and gas) (2014-present).
--	---------	------------	-----	---

Principal Occupation During at Least the Past 5 Years:

Member of the Council on Foreign Relations (1996-present); Member of the National Committee on U.S.-China Relations (1999-present); member of the board of trustees of the Economic Club of New York (2013-present); member of the board of trustees of the Foreign Policy Association (2005-present); member of the board of directors of Council of the Americas (2007-present) and the Tallberg Foundation (2018-present); and **formerly**, Executive Vice President of the Federal Reserve Bank of New York and Head of its Emerging Markets and Internal Affairs Group and Member of Management Committee (1995-2014); and Visiting Fellow at the Council on Foreign Relations (2014).

Mary C. Choksi (1950) One Franklin Parkway San Mateo, CA 94403-1906	Trustee	Since 2014	119	Omnicom Group Inc. (advertising and marketing communications services) (2011-present) and White Mountains Insurance Group, Ltd. (holding company) (2017-present); and formerly , Avis Budget Group Inc. (car rental) (2007-2020).
--	---------	------------	-----	--

Principal Occupation During at Least the Past 5 Years:

Director of various companies; and **formerly**, Founder and Senior Advisor, Strategic Investment Group (investment management group) (2015-2017); Founding Partner and Senior Managing Director, Strategic Investment Group (1987-2015); Founding Partner and Managing Director, Emerging Markets Management LLC (investment management firm) (1987-2011); and Loan Officer/Senior Loan Officer/Senior Pension Investment Officer, World Bank Group (international financial institution) (1977-1987).

Note 1: Rupert H. Johnson, Jr. is the uncle of Gregory E. Johnson.

Note 2: Officer information is current as of the date of this report. It is possible that after this date, information about officers may change.

1. We base the number of portfolios on each separate series of the U.S. registered investment companies within the Franklin Templeton/Legg Mason fund complex. These portfolios have a common investment manager or affiliated investment managers.
2. Gregory E. Johnson is considered to be an interested person of the Fund under the federal securities laws due to his position as an officer and director of Franklin Resources, Inc. (Resources), which is the parent company of the Fund's investment manager and distributor.
3. Rupert H. Johnson, Jr. is considered to be an interested person of the Fund under the federal securities laws due to his position as an officer and director and a major shareholder of Resources, which is the parent company of the Fund's investment manager and distributor.

The Sarbanes-Oxley Act of 2002 and Rules adopted by the Securities and Exchange Commission require the Fund to disclose whether the Fund's Audit Committee includes at least one member who is an audit committee financial expert within the meaning of such Act and Rules. The Fund's Board has determined that there is at least one such financial expert on the Audit Committee and has designated Mary C. Choksi as its audit committee financial expert. The Board believes that Ms. Choksi qualifies as such an expert in view of her extensive business background and experience. She served as a director of Avis Budget Group, Inc. (2007 to 2020) and formerly, Founder and Senior Advisor, Strategic Investment Group (1987 to 2017). Ms. Choksi has been a Member of the Fund's Audit Committee since 2014. As a result of such background and experience, the Board believes that Ms. Choksi has acquired an understanding of generally accepted accounting principles and financial statements, the general application of such principles in connection with the accounting estimates, accruals and reserves, and analyzing and evaluating financial statements that present a breadth and level of complexity of accounting issues generally comparable to those of the Fund, as well as an understanding of internal controls and procedures for financial reporting and an understanding of audit committee functions. Ms. Choksi is an independent Board member as that term is defined under the relevant Securities and Exchange Commission Rules and Releases.

The Statement of Additional Information (SAI) includes additional information about the board members and is available, without charge, upon request. Shareholders may call (800) DIAL BEN/342-5236 to request the SAI.

Shareholder Information

Board Approval of Investment Management Agreements

FRANKLIN CUSTODIAN FUNDS

Franklin DynaTech Fund

Franklin Focused Growth Fund

Franklin Growth Fund

Franklin Income Fund

Franklin U.S. Government Securities Fund

Franklin Utilities Fund

(each a Fund)

At an in-person meeting held on April 18, 2023 (Meeting), the Board of Trustees (Board) of Franklin Custodian Funds (Trust), including a majority of the trustees who are not “interested persons” as defined in the Investment Company Act of 1940 (Independent Trustees), reviewed and approved the continuance of the investment management agreement between Franklin Advisers, Inc. (Manager) and the Trust, on behalf of each Fund (each a Management Agreement) for an additional one-year period. The Independent Trustees received advice from and met separately with Independent Trustee counsel in considering whether to approve the continuation of each Management Agreement. Although the Management Agreements for the Funds were considered at the same Board meeting, the Board considered the information provided to it about the Funds together and with respect to each Fund separately as the Board deemed appropriate.

In considering the continuation of each Management Agreement, the Board reviewed and considered information provided by the Manager at the Meeting and throughout the year at meetings of the Board and its committees. The Board also reviewed and considered information provided in response to a detailed set of requests for information submitted to the Manager by Independent Trustee counsel on behalf of the Independent Trustees in connection with the annual contract renewal process. In addition, prior to the Meeting, the Independent Trustees held a virtual contract renewal meeting at which the Independent Trustees first conferred amongst themselves and Independent Trustee counsel about contract renewal matters; and then met with management to request additional information that the Independent Trustees reviewed and considered prior to and at the Meeting. The Board reviewed and considered all of the factors it deemed relevant in approving the continuance of each Management Agreement, including, but not limited to: (i) the nature, extent and quality of the services provided by the Manager; (ii) the investment performance of each Fund;

(iii) the costs of the services provided and profits realized by the Manager and its affiliates from the relationship with each Fund; (iv) the extent to which economies of scale are realized as each Fund grows; and (v) whether fee levels reflect these economies of scale for the benefit of Fund investors.

In approving the continuance of each Management Agreement, the Board, including a majority of the Independent Trustees, determined that the terms of the Management Agreement are fair and reasonable and that the continuance of the Management Agreement is in the best interests of the applicable Fund and its shareholders. While attention was given to all information furnished, the following discusses some primary factors relevant to the Board’s determination.

Nature, Extent and Quality of Services

The Board reviewed and considered information regarding the nature, extent and quality of investment management services provided by the Manager and its affiliates to the Funds and their shareholders. This information included, among other things, the qualifications, background and experience of the senior management and investment personnel of the Manager, as well as information on succession planning where appropriate; the structure of investment personnel compensation; oversight of third-party service providers; investment performance reports and related financial information for each Fund; reports on expenses and shareholder services; legal and compliance matters; risk controls; pricing and other services provided by the Manager and its affiliates; and management fees charged by the Manager and its affiliates to US funds and other accounts, including management’s explanation of differences among accounts where relevant. The Board also reviewed and considered an annual report on payments made by Franklin Templeton (FT) or the Funds to financial intermediaries, as well as a memorandum relating to third-party servicing arrangements. The Board acknowledged management’s continued development of strategies to address areas of heightened concern in the mutual fund industry, including various regulatory initiatives and continuing geopolitical concerns.

The Board also reviewed and considered the benefits provided to Fund shareholders of investing in a fund that is part of the FT family of funds. The Board noted the financial position of Franklin Resources, Inc. (FRI), the Manager’s parent, and its commitment to the mutual fund business as evidenced by its reassessment of the fund offerings in

response to the market environment and project initiatives and capital investments relating to the services provided to the Funds by the FT organization. The Board specifically noted FT's commitment to technological innovation and advancement and investments to promote alternative investing.

Following consideration of such information, the Board was satisfied with the nature, extent and quality of services provided by the Manager and its affiliates to the Funds and their shareholders.

Fund Performance

The Board reviewed and considered the performance results of each Fund over various time periods ended December 31, 2022. The Board considered the performance returns for each Fund in comparison to the performance returns of mutual funds deemed comparable to the Fund included in a universe (Performance Universe) selected by Broadridge Financial Solutions, Inc. (Broadridge), an independent provider of investment company data. The Board received a description of the methodology used by Broadridge to select the mutual funds included in a Performance Universe. The Board further reviewed and considered Fund performance reports provided and discussions that occurred with portfolio managers at Board meetings throughout the year. A summary of each Fund's performance results is below.

Franklin DynaTech Fund - The Performance Universe for the Fund included the Fund and all retail and institutional multi-cap growth funds. The Board noted that the Fund's annualized total return for the one- and three-year periods was below the median of its Performance Universe, but for the five- and 10-year periods was above the median of its Performance Universe. The Board discussed the Fund's performance with management and management explained that, during the one-year period, there was a broad sell-off of growth equities which adversely impacted the Fund's short- and long-term performance. Management further explained that the Fund's one-year below median performance was due, in part, to the Fund's overweight positions in the information technology and healthcare sectors, which management believed would offer more growth in the long term. The Board noted management's conviction in the Fund's investment strategies. The Board concluded that the Fund's Management Agreement should be continued for an additional one-year period, while management's efforts continue to be closely monitored.

Franklin Focused Growth Fund - The Performance Universe for the Fund included the Fund and all retail and institutional large-cap growth funds. The Board noted that the Fund's annualized total return for the one-, three- and five-year

periods was below the median of its Performance Universe. The Board further noted that it had approved, subject to shareholder approval, the reorganization of the Fund into the Franklin Focused Growth ETF, which is expected to occur in the fourth quarter of 2023. After consideration of the above, the Board concluded that the Fund's Management Agreement should be continued for an additional one-year period.

Franklin Growth Fund - The Performance Universe for the Fund included the Fund and all retail and institutional multi-cap growth funds. The Board noted that the Fund's annualized total return for the one-, three-, five- and 10-year periods was above the median of its Performance Universe. The Board concluded that the Fund's performance was satisfactory.

Franklin Income Fund - The Performance Universe for the Fund included the Fund and all retail and institutional flexible portfolio funds. The Board noted that the Fund's annualized income return and annualized total return for the one-, three-, five- and 10-year periods were above the medians of its Performance Universe. The Board further noted management's view regarding the income-related attributes of the Fund (e.g., a fund's investment objective) as set forth in the Fund's registration statement and that the evaluation of the Fund's performance relative to its peers on an income return basis was appropriate given these attributes. The Board concluded that the Fund's performance was satisfactory.

Franklin U.S. Government Securities Fund - The Performance Universe for the Fund included the Fund and all retail and institutional Government National Mortgage Association (Ginnie Mae) funds. The Board noted that the Fund's annualized income return for the one-, three-, five- and 10-year periods was above the median of its Performance Universe. The Board also noted that the Fund's annualized total return for the one- and three-year periods was above the median of its Performance Universe, but for the five- and 10-year periods was below the median of its Performance Universe. The Board further noted management's view regarding the income-related attributes of the Fund (e.g., a fund's investment objective) as set forth in the Fund's registration statement and that the evaluation of the Fund's performance relative to its peers on an income return basis was appropriate given these attributes. The Board concluded that the Fund's performance was satisfactory.

Franklin Utilities Fund - The Performance Universe for the Fund included the Fund and all retail and institutional utility funds. The Board noted that the Fund's annualized income return for the one-, three-, five- and 10-year periods was above the median of its Performance Universe. The Board also noted that the Fund's annualized total return for the three-year period was slightly below the median of its Performance Universe, but for the one-, five- and 10-year periods was above the median of its Performance Universe. The Board further noted management's view regarding the income-related attributes of the Fund (e.g., a fund's investment objective) as set forth in the Fund's registration statement and that the evaluation of the Fund's performance relative to its peers on an income return basis was appropriate given these attributes. The Board concluded that the Fund's performance was satisfactory.

Comparative Fees and Expenses

The Board reviewed and considered information regarding each Fund's actual total expense ratio and its various components, including, as applicable, management fees; transfer agent expenses; underlying fund expenses; Rule 12b-1 and non-Rule 12b-1 service fees; and other non-management fees. The Board also noted the quarterly and annual reports it receives on all marketing support payments made by FT to financial intermediaries. The Board considered the actual total expense ratio and, separately, the contractual management fee rate, without the effect of fee waivers, if any (Management Rate) of each Fund in comparison to the median expense ratio and median Management Rate, respectively, of other mutual funds deemed comparable to and with a similar expense structure to the Fund selected by Broadridge (Expense Group). Broadridge fee and expense data is based upon information taken from each fund's most recent annual or semi-annual report, which reflects historical asset levels that may be quite different from those currently existing, particularly in a period of market volatility. While recognizing such inherent limitation and the fact that expense ratios and Management Rates generally increase as assets decline and decrease as assets grow, the Board believed the independent analysis conducted by Broadridge to be an appropriate measure of comparative fees and expenses. The Broadridge Management Rate includes administrative charges, and the actual total expense ratio, for comparative consistency, was shown for Class A1 shares for the Franklin Income Fund and for Class A shares and Class M shares for the other funds in the Fund's expense group. The actual total expense ratio was shown for Class A1 shares for the Franklin U.S. Government Securities Fund and Franklin Utilities Fund and for Class A shares for the other funds in their expense groups. The actual total expense ratio was shown for Class

A shares for Franklin DynaTech Fund and Franklin Growth Fund and for each other fund in the applicable Expense Group. In addition, the actual total expense ratio was shown for Advisor Class shares for the Franklin Focused Growth Fund and for Class I shares, Class N shares, Class P shares, Class Z shares, Class Y shares, Administrative Class shares, Investor Class shares or Institutional Class shares for each other fund in the Fund's Expense Group. The Board received a description of the methodology used by Broadridge to select the mutual funds included in an Expense Group.

Franklin DynaTech Fund, Franklin Growth Fund, Franklin Income Fund and Franklin Utilities Fund - The Expense Group for the Franklin DynaTech Fund included the Fund and 14 other multi-cap growth funds. The Expense Group for the Franklin Growth Fund included the Fund and 13 other multi-cap growth funds. The Expense Group for the Franklin Income Fund included the Fund and 13 other flexible portfolio funds. The Expense Group for the Franklin Utilities Fund included the Fund and six other utility funds. The Board noted that the Management Rates and actual total expense ratios for the Funds were below the medians and in the first quintile (least expensive) of their respective Expense Groups. The Board concluded that the Management Rates charged to the Funds are reasonable.

Franklin Focused Growth Fund - The Expense Group for the Fund included the Fund and 16 other large-cap growth funds. The Board noted that the Management Rate for the Fund was below the median of its Expense Group. The Board also noted that the actual total expense ratio for the Fund was equal to the median of its Expense Group. The Board concluded that the Management Rate charged to the Fund is reasonable.

Franklin U.S. Government Securities Fund - The Expense Group for the Fund included the Fund, five other Ginnie Mae funds, and six US mortgage funds. The Board noted that the Management Rate for the Fund was less than two basis points above the median of its Expense Group. The Board also noted that the actual total expense ratio for the Fund was below the median and in the first quintile (least expensive) of its Expense Group. The Board concluded that the Management Rate charged to the Fund is reasonable.

Profitability

The Board reviewed and considered information regarding the profits realized by the Manager and its affiliates in connection with the operation of each Fund. In this respect, the Board considered the Fund profitability analysis provided by the Manager that addresses the overall profitability of FT's US fund business, as well as its profits in providing

investment management and other services to each of the individual funds during the 12-month period ended September 30, 2022, being the most recent fiscal year-end for FRI. The Board noted that although management continually makes refinements to its methodologies used in calculating profitability in response to organizational and product-related changes, the overall methodology has remained consistent with that used in the Funds' profitability report presentations from prior years. The Board also noted that PricewaterhouseCoopers LLP, auditor to FRI and certain FT funds, has been engaged by the Manager to periodically review and assess the allocation methodologies to be used solely by the Funds' Board with respect to the profitability analysis.

The Board noted management's belief that costs incurred in establishing the infrastructure necessary for the type of mutual fund operations conducted by the Manager and its affiliates may not be fully reflected in the expenses allocated to each Fund in determining its profitability, as well as the fact that the level of profits, to a certain extent, reflected operational cost savings and efficiencies initiated by management. As part of this evaluation, the Board considered management's outsourcing of certain operations, which effort has required considerable up-front expenditures by the Manager but, over the long run is expected to result in greater efficiencies. The Board also noted management's expenditures in improving shareholder services provided to the Funds, as well as the need to implement systems and meet additional regulatory and compliance requirements resulting from recent US Securities and Exchange Commission and other regulatory requirements.

The Board also considered the extent to which the Manager and its affiliates might derive ancillary benefits from fund operations, including revenues generated from transfer agent services, potential benefits resulting from personnel and systems enhancements necessitated by fund growth, as well as increased leverage with service providers and counterparties. Based upon its consideration of all these factors, the Board concluded that the level of profits realized by the Manager and its affiliates from providing services to each Fund was not excessive in view of the nature, extent and quality of services provided to each Fund.

Economies of Scale

The Board reviewed and considered the extent to which the Manager may realize economies of scale, if any, as each Fund grows larger and whether each Fund's management fee structure reflects any economies of scale for the benefit of shareholders. With respect to possible economies of scale, the Board noted the existence of management fee breakpoints, which operate generally to share any

economies of scale with a Fund's shareholders by reducing the Fund's effective management fees as the Fund grows in size. The Board considered the Manager's view that any analyses of potential economies of scale in managing a particular fund are inherently limited in light of the joint and common costs and investments the Manager incurs across the FT family of funds as a whole. The Board noted that the Franklin Focused Growth Fund does not have an asset size that would likely enable the Fund to achieve economies of scale. The Board further noted that the Franklin U.S. Government Securities Fund experienced a decline in assets and would not be expected to experience additional economies of scale in the foreseeable future. The Board concluded that to the extent economies of scale may be realized by the Manager and its affiliates, each Fund's management fee structure provided a sharing of benefits with the Fund and its shareholders as the Fund grows.

Conclusion

Based on its review, consideration and evaluation of all factors it believed relevant, including the above-described factors and conclusions, the Board unanimously approved the continuation of each Management Agreement for an additional one-year period.

Liquidity Risk Management Program

Each of the Franklin Templeton and Legg Mason Funds has adopted and implemented a written Liquidity Risk Management Program (the "LRMP") as required by Rule 22e-4 under the Investment Company Act of 1940 (the "Liquidity Rule"). The LRMP is designed to assess and manage each Fund's liquidity risk, which is defined as the risk that the Fund could not meet requests to redeem shares issued by the Fund without significant dilution of remaining investors' interests in the Fund. In accordance with the Liquidity Rule, the LRMP includes policies and procedures that provide for: (1) assessment, management, and review (no less frequently than annually) of each Fund's liquidity risk; (2) classification of each Fund's portfolio holdings into one of four liquidity categories (Highly Liquid, Moderately Liquid, Less Liquid, and Illiquid); (3) for Funds that do not primarily hold assets that are Highly Liquid, establishing and maintaining a minimum percentage of the Fund's net assets in Highly Liquid investments (called a "Highly Liquid Investment Minimum" or "HLIM"); and (4) prohibiting the Fund's acquisition of Illiquid investments that would result in the Fund holding more than 15% of its net assets in Illiquid assets. The LRMP also requires reporting to the Securities and Exchange Commission ("SEC") (on a non-public basis) and to the Board if the Fund's holdings of Illiquid assets exceed 15% of the Fund's net assets. Funds with HLIMs

must have procedures for addressing HLIM shortfalls, including reporting to the Board and, with respect to HLIM shortfalls lasting more than seven consecutive calendar days, reporting to the SEC (on a non-public basis).

The Director of Liquidity Risk within the Investment Risk Management Group (the “IRMG”) is the appointed Administrator of the LRMP. The IRMG maintains the Investment Liquidity Committee (the “ILC”) to provide oversight and administration of policies and procedures governing liquidity risk management for Franklin Templeton and Legg Mason products and portfolios. The ILC includes representatives from Franklin Templeton’s Risk, Trading, Global Compliance, Legal, Investment Compliance, Investment Operations, Valuation Committee, Product Management and Global Product Strategy.

In assessing and managing each Fund’s liquidity risk, the ILC considers, as relevant, a variety of factors, including the Fund’s investment strategy and the liquidity of its portfolio investments during both normal and reasonably foreseeable stressed conditions; its short and long-term cash flow projections; and its cash holdings and access to other funding sources including the Funds’ interfund lending facility and line of credit. Classification of the Fund’s portfolio holdings in the four liquidity categories is based on the number of days it is reasonably expected to take to convert the investment to cash (for Highly Liquid and Moderately Liquid holdings) or sell or dispose of the investment (for Less Liquid and Illiquid investments), in current market conditions without significantly changing the investment’s market value.

Each Fund primarily holds liquid assets that are defined under the Liquidity Rule as “Highly Liquid Investments,” and therefore is not required to establish an HLIM. Highly Liquid Investments are defined as cash and any investment reasonably expected to be convertible to cash in current market conditions in three business days or less without the conversion to cash significantly changing the market value of the investment.

At meetings of the Funds’ Board of Trustees held in May 2023, the Program Administrator provided a written report to the Board addressing the adequacy and effectiveness of the program for the year ended December 31, 2022. The Program Administrator report concluded that (i.) the LRMP, as adopted and implemented, remains reasonably designed to assess and manage each Fund’s liquidity risk; (ii.) the LRMP, including the Highly Liquid Investment Minimum (“HLIM”) where applicable, was implemented and operated

effectively to achieve the goal of assessing and managing each Fund’s liquidity risk; and (iii.) each Fund was able to meet requests for redemption without significant dilution of remaining investors’ interests in the Fund.

Proxy Voting Policies and Procedures

The Trust’s investment manager has established Proxy Voting Policies and Procedures (Policies) that the Trust uses to determine how to vote proxies relating to portfolio securities. Shareholders may view the Trust’s complete Policies online at franklintempleton.com. Alternatively, shareholders may request copies of the Policies free of charge by calling the Proxy Group collect at (954) 527-7678 or by sending a written request to: Franklin Templeton Companies, LLC, 300 S.E. 2nd Street, Fort Lauderdale, FL 33301, Attention: Proxy Group. Copies of the Trust’s proxy voting records are also made available online at franklintempleton.com and posted on the U.S. Securities and Exchange Commission’s website at sec.gov and reflect the most recent 12-month period ended June 30.

Quarterly Schedule of Investments

The Trust files a complete schedule of investments with the U.S. Securities and Exchange Commission for the first and third quarters for each fiscal year as an exhibit to its report on Form N-PORT. Shareholders may view the filed Form N-PORT by visiting the Commission’s website at sec.gov. The filed form may also be viewed and copied at the Commission’s Public Reference Room in Washington, DC. Information regarding the operations of the Public Reference Room may be obtained by calling (800) SEC-0330.

Householding of Reports and Prospectuses

You will receive, or receive notice of availability of, the Fund’s financial reports every six months. In addition, you will receive an annual updated summary prospectus (detail prospectus available upon request). To reduce Fund expenses, we try to identify related shareholders in a household and send only one copy of the financial reports (to the extent received by mail) and summary prospectus. This process, called “householding,” will continue indefinitely unless you instruct us otherwise. If you prefer not to have these documents househanded, please call us at (800) 632-2301. At any time you may view current prospectuses/summary prospectuses and financial reports on our website. If you choose, you may receive these documents through electronic delivery.
