

年度報告暨經查核之 財務報表 (中文簡譯本)

美盛全球系列基金 (Franklin Templeton Global Funds Plc) 子基金債務相互分離之傘型基金 截至 2025 年 2 月 28 日止

中譯文僅供參考,與原文相較不盡完整或有歧異,如有疑義應以英文版為準

重要資料

本報告中文簡譯本由富蘭克林證券投資顧問股份有限公司提供。此報告僅供參考,並非為投資人提供投資建議。所有圖表、數據、意見、預測與其他資料為刊載日期的判斷,並可作修改而不會預先通知。本文件的提供並非為基金申購之邀約或為促銷特定境外基金之目的,投資人若打算投資於境外基金的任何單位或股份,請詳閱境外基金的最新公開說明書及投資人須知。本境外基金經金管會核准(或同意生效)在國內募集及銷售,惟不表示絕無風險。基金經理公司或基金以往之經理績效不保證基金之最低投資收益。投資本身就具有風險,境外基金亦涉及匯率波動風險。基金經理公司除盡善善良管理人之注意義務外,不負責基金之盈虧,亦不保證基金之績效或最低之收益,投資人申購前應詳閱並瞭解基金的公開說明書及投資人須知。有關基金應負擔之費用(含分銷費用)已揭露於基金之公開說明書及投資人須知中,投資人可至境外基金資訊觀測站中查詢。本文提及之經濟走勢預測不必然代表本基金之績效,本基金投資風險請詳閱基金公開說明書。本文件為專有資料,在未取得富蘭克林投顧的書面同意前不得以任何方式重製、散布或發行。任何擁有本文件的人,請自行詢問及遵守有關的限制。

董事報告

本公司董事(下稱「董事」)檢呈其年度報告以及截至2025年2月28日為止之財務年度經查核之財務報表。

董事責任之說明

董事負責依愛爾蘭法編製董事報告及財務報告。

愛爾蘭公司法要求董事就每個會計年度,編製能呈現本公司財務年度終了,具真實且公平觀點之資產、負債及財務部位及本公司該財務年度損益之財務報表。本公司董事業根據愛爾蘭公認之會計準則 (包括財務報導準則(下稱「FRS」)102:「適用於英國及愛爾蘭共和國之財務報導準則」)(下稱「FRS 102」)編製財務報表。

依據愛爾蘭公司法,除非董事認為其已就本公司財務年度終了之資產、債務及財務部位及本公司該財務年度之損益給予真實且公平觀點,否則董事不應核准財務報表。

於編製此等財務報表時,董事應:

- •選擇適當之會計政策並持續適用之;
- •作出合理且謹慎之判斷及預估;
- ・說明財務報表是否已依據應適用之會計準則加以編製,及說明發生疑義之標準,但應於於財務報表附註揭露並解釋任何對於標準之重大違反;及
- •除非假設本公司將持續營業為不適當之情形外,應在持續經營之基礎上編製財務報表。

董事應負責確認保存適當之會計紀錄俾:

- •正確地記錄並解釋本公司之交易;
- •使本公司之資產、負債、財務部位及損益能於任何時點被合理正確地決定;
- •使董事確保財務報表遵循 2014 年公司法,並確保此等財務報表經查核。

為達此目的,董事已指派有經驗的行政管理人 BNY Mellon Fund Services (Irland) Designated Actively Company,維持會計紀錄,並履行其他行政責任。

董事亦應負責保護本公司之資產。為達此義務,其已依據公司章則指派 The Bank of New York Mellon SA/NV, Dublin Branch 保管本公司資產。此外,董事應負責採取合理步驟,以避免並發現詐欺及其他不法情事。

董事負責本公司於富蘭克林坦伯頓分銷本基金之關係企業網站上所顯示財務報表之維護及誠信。愛爾 蘭規範財務報表之編製及分發之法律可能與其他管轄地之法律不同。

業務及未來發展之審查

第 16 頁之致股東函中業已包含對本年度基金績效表現有影響之各要素的審查。董事對於現有基金之 投資目標,並未有任何變動之計畫。

有關各主動型基金份額類別績效的詳情,請參閱補充資料-基金績效資料(未經審計)。

在財政年度末,以公允價值計量且其變動計入損益的金融資產和金融負債在基金的投資組合中揭露。

截至 2025 年 2 月 28 日為止,本公司運作中的基金有 40 檔 (2024 年:44 檔基金)。基金截至 2025 年 2 月 28 日為止之淨資產價值詳細資訊,請參閱英文版第 140 至 158 頁之財務狀況表。

自 2024 年 5 月 31 日起生效, 美盛凱利價值基金(FTGF ClearBridge Value Fund) 更名為美盛美國價值基金(FTGF ClearBridge US Value Fund)。

風險管理目標及政策

與本公司風險管理目標與政策有關之資訊,已包含於財務報表附註 12中。

截至 2025 年 2 月 28 日之年度結果及事務陳述

2025年2月28日及2024年2月29日之財務狀況表,及截至2025年2月28日及2024年2月29日為止之財務年度的綜合收入表等,分別載明於英文版第140至158及第160至168頁。

對於可買回參與股份持有人之分配

對於可買回參與股份持有人在 2025 年 2 月 28 日及 2024 年 2 月 29 日為止之財務年度所為的分配,列於綜合收入表中。

重大事件

今年度之重大事件細節請參照附註14。

後續事件

截至年度終了並無後續之重大事件之詳述請參照附註16。

董事

目前擔任董事或曾於本年度之任何時點擔任董事之姓名如下:

Joseph Carrier (美國)

Fionnuala Doris (愛爾蘭) (獨立董事)

Joseph Keane (愛爾蘭) (獨立董事)

Joseph LaRocque (美國)

Elinor Murray (英國)

Jaspal Sagger (英國)

Craig Tyle (美國)

董事及秘書之利害關係

董事、秘書及其家屬於2025年2月28日及2024年2月29日,對本公司之股份均無任何利益。就與本公司業務有關,並且於年度中或年度終了時存在之任何重要契約,所有董事在本年度任何時間中對其均無任何之重大利害關係。

公司治理說明

本公司董事會(下稱「董事會」)業已評估 2011 年 12 月由愛爾蘭基金所發行之集合投資計畫與管理公司治理規範(Corporate Governance Code for Collective Investment Schemes and Management Companies)(下稱「Irish Funds Code」)所包含之所有措施。董事會業已採用所有 Irish Funds Code中之公司治理實務與程序。

董事之遵循聲明

遵守相關義務係本公司的政策(定義於 2014 年公司法)。依據 2014 年公司法第 225(2)條之要求,董事知悉其有責任確保本公司遵循相關義務。董事業已制定 2014 年公司法第 225(3)(a)條所定義之遵循政策擊明及與正在執行中與安排與架構有關之遵循政策,且董事認為該安排與結構設計旨在確保公司

實質遵循相關義務。於履行第225條所規定之職責時,董事仰賴包括其相信具有足夠知識和經驗的第三方所提供之服務、諮詢意見及/或陳述等,以確保確保公司實質遵循相關義務。

相關審計資訊

就董事所知,本公司之稽核人員並無未知悉的相關審計資料,且董事已採取身為董事應採取之一切步 驟,以了解有關審計資料,並確定公司的審計人員知悉該等資訊。

關係人交易

中央銀行 2013 年(監督及執行)法(第 48(1)條) 2019 年(可轉讓證券集合投資計畫)規定(下稱「中央銀行 UCITS 法規」)第 43(1)條說明「負責人應確保 UCITS 與關係人間的任何交易係(a)常規交易; 且(b)符合 UCITS 單位持有人之最佳利益」。

根據中央銀行 UCITS 法規第 81(4)條規定要求,董事會對下述事項感到滿意(a)已具有為確保第 43(1)條規定所載適用於所有關係人交易義務之安排,並有書面程序證明;(b) 該財務年度所有與關係人進行之交易符合第 43(1)條規定之義務。

獨立查核人員

PricewaterhouseCoopers 依據 2014 年公司法第 383(2)條之規定表示願意繼續擔任獨立查核人員。

投資目標與投資政策

截至2025年2月28日止所有進行交易基金之投資目標與政策臚列如下及續頁。並未擔保每檔基金可以達成其投資目的,並且亦不擔保投資策略將會成功或獲得任何特定成果或一定水平之獲利(相關用詞之定義請參閱相關基金之公開說明書(下稱「公開說明書」)。每檔基金之投資政策之細節說明,請參閱相關公開說明書。

存託機構報告

存託機構致股東之報告 (日期:2025年6月19日)

於 2024 年 3 月 1 日至 2025 年 2 月 28 日之期間(下稱「期間」)。

The Bank of New York Mellon SA/NV, Dublin Branch (下稱「存託機構」或「我們」)作為公司之存託機構,已調查美盛全球系列基金(Franklin Templeton Global Funds Plc (下稱「公司」)) 於期間內之行為。

本報告(包括本意見)係依據我們作為公司存託機構而為公司之股東所準備,不得用作其他任何目的。 就此報告之提供,我們並不為其他任何目的、或其他任何被提供此報告之人而接受或承擔任何責任。

存管機構之職責

我們的職責業已列在歐洲共同體規則 34(可轉讓證券集合投資事業) 2011 規則 (2011 年 S.I. 第 352 號) 及其修定 (下稱「規則」)中。

我們的報告應顯示,依我們的意見,公司在前開期間內是否依據公司章程等基礎文件及規則之條款進行管理。依照前開條款規定進行管理全部係公司之責任。如果公司為依該等規定管理,身為存託機構, 我們必須說明在哪些方面未依規定管理以及我們就此已採取之步驟。

存託機構意見之基礎

依據存託機構之合理意見,存託機構就其認為必要之範圍內進行了檢查,以符合各項職責,並且確保在各個重要面向上公司已經:(i)依照其公司組成文件以及相關適當法令針對對投資及借貸權限所為限制;及(ii)在其他方面,依據公司組成文件以及相關適當法令等進行管理。

意見

依我們的意見,公司於期間內在所有重要面向上已經:

- a) 依照其公司章程等基礎文件以及規則對投資及借貸權限所為限制;及
- b) 在其他方面,依據公司章程等基礎文件以及規則等進行管理。

代表 The Bank of New York Mellon SA/NV Dublin Branch, 20-26 Sir John Rogerson's Quay Grand Canal Dock Dublin 2, D02 Y049 愛爾蘭

獨立查核人員報告

致美盛全球系列基金成員之獨立查核人員報告

就財務報告之查核報告

意見

依我們之意見,美盛全球系列基金之財務報告:

- •係就本公司及子基金之資產、負債及財務部位截至 2025 年 2 月 28 日之狀況,及該年度之經營成果提供真實且公允之看法;
- •已依愛爾蘭一般公認會計常規適當編製(英國金融報告局公布及愛爾蘭法律發布之會計原則,包括英國金融報告局公布之「適用於英國及愛爾蘭共和國之財務報告準則」之FRS102);及
- •已依2014年公司法及歐洲共同體(可轉讓證券集合投資事業)2011年規則(及其增補)之規定適當編製。

我們已查核財務報告(包含於年報及經審計的財務報告),其包括:

- 截至 2025 年 2 月 28 日之財務狀況表;
- 年度終了之綜合收入表;
- 年度終了之參與可買回單位之淨資產變動報告;
- •各子基金截至2025年2月28日之投資組合;及
- •本公司及其各子基金財務報告之附註,包括重大會計政策之說明。

意見基礎

我們根據國際審計標準(愛爾蘭)(「ISAs(愛爾蘭)」)及相關法律進行了查核。在 ISAs(愛爾蘭)之規範下,我們所承擔之責任在本報告「查核會計師查核財務報表之責任」乙節有進一步描述。我們相信,我們已取得充分且適當之查核證據,作為意見之基礎。

獨立性

根據與本財務報表之查核相關之愛爾蘭道德規範,包括愛爾蘭審計及會計監督管理局(「IAASA」)發布之道德準則,我們與本公司互為獨立,且依據該規定符合其他道德責任。

本公司及本基金採取持續經營會計基礎之持續經營相關結論

根據我們的審計,我們並未辨識出任何具重大不確定性的相關事件或狀況,在以持續經營為會計基礎下,該重大不確定性可能為單一或共同之事件或狀況,會在本財務報表簽證發行後之至少 12 個月內,對本公司及本基金繼續採取持續經營為會計基礎之能力產生重大懷疑。

在審計財務報表時,我們認為董事在編制財務報表時使用持續經營會計基礎為適當的。

然而,由於並非所有未來事件或狀況皆得預測,本結論並非保證本公司及本基金繼續採取持續經營為會計基礎之能力。

我們的責任與董事在持續經營方面的責任有在本報告的相關章節中提及。

其他資訊之報告

其他資訊構成年報及經審計的財務報告所載之所有資訊,但不包括財務報表及我們查核人員之查核報告。董事負責提供其他資訊。我們對於財務報表之查核報告並不包含其他資訊,因此,除非本會計師查核報告另有明確陳述,我們就此未出具任何保證形式之結論。有關我們對財務報表之查核,我們之

責任為審閱其他資訊,並藉此考量其他資訊是否與財務報表或本所於查核過程中所知悉者有重大不符,或所呈現者為重大不實陳述。若我們辨識出該重大不符或顯然重大不實陳述,我們應執行一定程序,判斷是否財務報告有重大不實陳述或其他資訊之重大不實陳述。若,基於本所執行之工作,本所認為其他資訊有重大不實陳述,本所應陳報該事實。

針對董事報告,我們亦考量是否業已包括 2014 年公司法要求揭露之事項。

基於上述責任及查核過程執行之作業, ISAs (愛爾蘭)及 2014 年公司法規定我們亦須報告下列特定意見:

- 依我們的意見,基於查核過程執行之作業,董事報告所提供之截至 2024 年 2 月 29 日之資訊與財務報告一致,並係依據相關法律規定備製。
- 基於我們在查核過程中,對本公司及其環境之所知及瞭解,我們並未發現董事報告有任何重大不實陳述。

財務報告及查核之責任

董事之財務報告責任

如英文版第 17 頁董事責任說明完整陳述者,董事負責依相關架構編製並對此等財務報表呈現真實且 公平之觀點感到滿意。

董事並負責其認為為確保所編製之財務報表並無重大不實陳述(不論是由詐欺或錯誤引起)而必要之內部控制。

編製財務報表時,除非董事有意清算本公司或停止營運,或現實上已無其他選項而僅得如此,在以持續經營為會計基礎下,董事負責評估本公司及本基金為持續經營而持續之能力、揭露(如有適用)與持續經營有關之事項並以持續經營為會計基礎。

查核人員之財務報告查核責任

我們的查核目標係就財務報表整體是否存在重大不實陳述一事取得合理確信,無論重大不實陳述係因詐欺或錯誤所致,並出具查核會計師報告,其中包含我們之意見。合理確信是高程度的確信,但不能保證根據 ISAs(愛爾蘭)所進行的查核作業總是能發現所有重大不實陳述的存在。不實陳述可能是因詐欺或錯誤所致,若其單獨或合計可合理預期會影響財務報表使用者的經濟決策時,則可視為重大。

我們的查核測試可能包括測試某些交易和餘額之母體,可能使用資料查核技術。然而,它通常涉及選擇有限數量的項目進行測試,而非測試母體。我們經常會根據特定項目之大小或風險特徵來對目標之特定項目進行測試。在其他情況下,我們將使用查核抽樣之樣本得出母體的結論。

有關我們之財務報表查核責任詳細說明,請參見 IAASA 網站:

https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description_of_auditors_responsibilities_for_audit.pdf.

該說明亦構成我們查核報告之一部分。

本報告之使用

本報告(含意見書)僅為本公司成員為整體以符合 2014 年公司法第 391 條之目的而編製,並非為其他目的。除經我們事前書面明示同意外,我們出具本意見並未為其他目的或對其他被交付本報告之人或可能持有本報告之人接受或承擔責任。

其他必要之報告

依 2014 年公司法事項之意見

- •我們已取得所有我們認為為查核所必要之資訊及說明。
- •依據我們意見,該公司之會計表測足以使財務報告精確並被適當查核。
- •財務報告與會計表冊相符。

依 2014 年公司法之例外報告 董事之報酬及交易

依據 2014 年公司法,如依據我們之意見,規定於公司法第 305 條至 312 條之董事之報酬及交易未被揭露,則我們應向台端報告。我們就此責任無應報告之例外事項。

Andrew O'Callaghan 代表 PricewaterhouseCoopers 特許會計師及法定查核事務所 都柏林

2025年6月19日

Letter to Shareholders

Dear Shareholder,

We are pleased to provide you with the annual report for Franklin Templeton Global Funds Plc (the "Company") for the 12-months ended 28 February 2025. In this report, we highlight the key drivers behind the performance of bond and equity markets over the period.

Global Economic Review

Despite numerous headwinds, the global economy was resilient and continued to expand during the reporting period. In its January 2025 World Economic Outlook Update, the International Monetary Fund (the "IMF") projected global gross domestic product ("GDP") growth will be 3.3% in 2025, versus 3.2% in 2024. According to the IMF, "The forecast for 2025 is broadly unchanged from that in the October 2024 World Economic Outlook, primarily on account of an upward revision in the United States offsetting downward revisions in other major economies. Global headline inflation is expected to decline to 4.2 percent in 2025 and to 3.5 percent in 2026, converging back to target earlier in advanced economies than in emerging market and developing economies. Medium-term risks to the baseline are tilted to the downside, while the near-term outlook is characterized by divergent risks." From a regional perspective, the IMF projects 2025 GDP growth in the US will be 2.7% (versus 2.8% in 2024), 1.0% in the Eurozone (versus 0.8% in 2024), 1.6% in the UK (versus 0.9% in 2024), and 1.1% in Japan (versus -0.2% in 2024), 1.6% in the UK (versus 0.9% in 2024), and 1.1% in Japan (versus -0.2% in 2024).

Market Review - Fixed Incomei

The overall global fixed income market experienced periods of volatility, but generated a positive return during the reporting period. Looking back, in July 2023 the US Federal Reserve Board ("Fed") raised interest rates to 5.25%-5.50%, a 22-year high, given elevated inflation. The central bank then remained on hold until September 2024, when it lowered interest rates for the first time since March 2020. The central bank again cut rates at its meetings in November and December 2024, but has since been on hold as inflation remained above its 2% target. At its January 2025 meeting Fed officials agreed they would need to see inflation come down more before again cutting interest rates, and expressed concerns about the impact from President Trump's tariff plans. All told, the global bond, as measured by the Bloomberg Global Aggregate Bond Index, returned 2.98% during the 12-months ended 28 February 2025. Lower-rated US corporateil bonds and US dollar-denominated emerging market sovereign debt generated stronger results over the reporting period.

Market Review - Global Equitiesiii

The global equity market posted strong results during the reporting period. The market was supported by expanding global growth, moderating inflation, and strong performance from artificial intelligence ("AI") related companies. For the 12-months ended 28 February 2025, the S&P 500 Index returned 18.41%. Outside the US, international developed equities, as measured by the MSCI EAFE Index (net), gained 8.77%, whereas emerging markets equities, as measured by the MSCI Emerging Markets Index (net), returned 10.07%.

We thank you for your continued support.

Yours sincerely.

Franklin Templeton International Services S.à r.l

March 2025

Past performance is no guarantee of future results. The information is not intended to be a forecast of future events, a guarantee of future results or investment advice.

All data as at 28 February 2025 unless otherwise stated.

Franklin Templeton Global Funds plc is an umbrella fund with segregated liability between sub-funds, established as an open-ended investment company with variable capital, authorised in Ireland by the Central Bank of Ireland as an undertaking for collective investment in transferable securities.

All investments involve risk, including the possible loss of principal. Past performance is no guide to future returns and may not be repeated.

This information has been prepared from sources believed reliable but is not guaranteed by Franklin Resources, Inc. company or affiliate (together "Franklin Templeton") and is not a complete summary or statement of all available data.

Opinions expressed are subject to change without notice and do not take into account the particular investment objectives, financial situation or needs of individual investors.

Before investing you should read the key investor information document and the prospectus, which describe the sub-funds' full objectives and risk factors. These and other relevant documents may be obtained in a number of languages at BNY Mellon Fund Services (Ireland) Designated Activity Company, One Dockland Central, Guild Street, IFSC, Dublin 1, Ireland, www.franklinresources.com and the registered office

Directors' Report

The directors of the Company (the "Directors") submit their annual report together with the audited financial statements for the financial year ended 28 February 2025.

Statement of Directors' Responsibilities

The Directors are responsible for preparing the directors' report and the financial statements in accordance with Irish law.

Irish company law requires the Directors to prepare financial statements for each financial year that give a true and fair view of the Company's assets, liabilities and financial position as at the end of the financial year and of the profit or loss of the Company for the financial year. The Directors have prepared the financial statements in accordance with the accounting standards generally accepted in Ireland, including Financial Reporting Standard ("FRS") 102: "The Financial Reporting Standard applicable in the United Kingdom and the Republic of Ireland" ("FRS 102").

Under Irish company law, the Directors shall not approve the financial statements unless they are satisfied that they give a true and fair view of the Company's assets, liabilities and financial position as at the end of the financial year and the profit or loss of the Company for the financial year.

In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether the financial statements have been prepared in accordance with applicable accounting standards and identify the standards in question, subject to any material departures from those standards being disclosed and explained in the notes to the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for ensuring that adequate accounting records are kept that are sufficient to:

- correctly record and explain the transactions of the Company;
- enable, at any time, the assets, liabilities, financial position and profit or loss of the Company to be determined with reasonable accuracy; and
- enable the Directors to ensure that the financial statements comply with the requirements of the Companies Act 2014 and enable those financial statements to be audited.

To achieve this, the Directors have appointed an experienced administrator, BNY Mellon Fund Services (Ireland) Designated Activity Company, to maintain the accounting records and perform additional administrative duties.

The Directors are also responsible for safeguarding the assets of the Company. In fulfilment of this responsibility, they have appointed The Bank of New York Mellon SA/NV, Dublin Branch, to safekeep the Company's assets in accordance with the constitution of the Company. In addition, the Directors are responsible for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Directors are responsible for the maintenance and integrity of the financial statements of the Company included on the website of Franklin Templeton affiliates that distribute the Funds. Legislation in Ireland governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Review of Business and Future Developments

The Letter to Shareholders on page 16 contains a review of the factors which contributed to the performance of the Funds for the year. The Directors do not anticipate any changes to the investment objectives of the existing Funds.

For details of each active Fund's share class performance, refer to Supplemental Information - Fund Performance Data (unaudited).

Financial assets and financial liabilities held at fair value through profit or loss at the financial year end are disclosed in the Portfolios of Investments of the Funds.

As at 28 February 2025, the Company has 40 active Funds (2024: 44 Funds) in operation. Details of their net asset values as at 28 February 2025 are disclosed in the Statement of Financial Position on pages 140 to 158.

Effective 27 March 2024, Franklin Responsible Income 2029 Fund^ commenced trading.

Effective 31 May 2024, FTGF ClearBridge Value Fund was re-named to FTGF ClearBridge US Value Fund.

Directors' Report – (continued)

Directors

The names of the persons who are currently Directors or who served as a Director at any time during the financial year are set out below.

Joseph Carrier (United States) Fionnuala Doris (Ireland) (Independent) Joseph Keane (Ireland) (Independent) Joseph LaRocque (United States) Elinor Murray (United Kingdom) Jaspal Sagger (United Kingdom) Craig Tyle (United States)

Directors' and Secretary's Interests

The Directors and secretary and their families had no interests in the shares of the Company as at 28 February 2025 and 29 February 2024. No Director had at any time during the financial year, a material interest in any contract of significance, subsisting during or at the end of the financial year, in relation to the business of the Company.

Corporate Governance Statement

The Board of Directors of the Company (the "Board") has assessed all measures included in the voluntary Corporate Governance Code for Collective Investment Schemes and Management Companies as published by the Irish Funds in December 2011 (the "Irish Funds Code"). The Board has adopted all corporate governance practices and procedures in the Irish Funds Code.

Director's Compliance Statement

It is the policy of the Company to comply with its relevant obligations (as defined in the Companies Act 2014). As required by Section 225(2) of the Companies Act 2014, the Directors acknowledge that they are responsible for securing the Company's compliance with the relevant obligations. The Directors have drawn up a compliance policy statement as defined in Section 225(3)(a) of the Companies Act 2014 and a compliance policy which refers to the arrangements and structures that are in place and which are, in the Directors' opinion, designed to secure material compliance with the Company's relevant obligations. In discharging their responsibilities under Section 225, the Directors relied upon, among other things, the services provided, advice and/or representations from third parties whom the Directors believe have the requisite knowledge and experience in order to secure material compliance with the Company's relevant obligations.

Relevant Audit Information

So far as the Directors are aware, there is no relevant audit information of which the Company's auditors are unaware and the Directors have taken all the steps that ought to have been taken as Directors in order to make themselves aware of any relevant audit information and to establish that the Company's auditors are aware of that information

Connected Person Transactions

Regulation 43(1) of the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations") states that a "responsible person shall ensure that any transaction between a UCITS and a connected person is (a) conducted at arm's length; and (b) in the best interests of the unit-holders of the UCITS".

As required under Regulation 81(4) of the Central Bank UCITS Regulations, the Board is satisfied that (a) there are arrangements in place, evidenced by written procedures, to ensure that the obligations that are prescribed by Regulation 43(1) are applied to all transactions with connected persons; and (b) all transactions with connected persons that were entered into during the financial year complied with the obligations that are prescribed by Regulation 43(1).

Independent Auditors

PricewaterhouseCoopers have indicated their willingness to remain in office in accordance with Section 383(2) of the Companies Act 2014.

Investment Objectives and Investment Policies

All active Funds, except FTGF Western Asset Global Core Plus Bond Fund^, FTGF Western Asset Global Credit Fund^, FTGF Western Asset Multi-Asset Credit Fund^, FTGF Western Asset Structured Opportunities Fund^, FTGF Western Asset US Mortgage-Backed Securities Fund^, Western Asset UCITS SMASh Series Core Plus Completion Fund^, FTGF Brandywine Global Fixed Income Absolute Return Fund^, FTGF Brandywine Global High Yield Fund^, FTGF Brandywine Global Credit Opportunities Fund^, FTGF Brandywine Global - US Fixed Income Fund^, FTGF ClearBridge Infrastructure Value Fund^, FTGF ClearBridge Global Sustainability Improvers Fund^, FTGF Royce Global Small Cap Premier Fund^, FTGF Martin Currie Global Long-Term Unconstrained Fund^, FTGF Martin Currie Global Emerging Markets Fund^, FTGF Martin Currie European Unconstrained Fund^, FTGF Martin Currie Improving Society Fund^, Franklin Responsible Income 2028 Fund^ and Franklin Responsible Income 2029 Fund^, have been authorised by the Securities and Futures Commission in Hong Kong. Therefore, the Funds noted above are not authorised for sale to the public in Hong Kong. The authorisation by the Securities and Futures Commission of Hong Kong does not imply recommendation for investment into the Funds.

The principal investment objective and policies of all Funds are set out in the applicable Fund supplement to the Prospectus. There can be no assurance that any Fund will achieve its objective and there is no guarantee that an investment strategy will succeed or attain any particular results or level of profitability (defined terms are as defined in the prospectus for the relevant Fund (the "Prospectus").

Periodic Reporting for Article 8 and Article 9 SFDR Products only

Transparency of the promotion of environmental or social characteristics and of sustainable investments in periodic reports

The Sustainable Finance Disclosure Regulation ((EU) 2019/2088), (the "SFDR") requires the Company to include a description in its periodic reports of the extent to which any Fund classified pursuant to Article 8 of the SFDR (an "Article 8 Fund") or Article 9 of the SFDR (an "Article 9 Fund") has met its environmental or social characteristics. The SFDR also empowered the European Banking Authority, the European Insurance and Occupational Pensions Authority and the European Securities and Markets Authority (collectively "ESAs") to develop draft regulatory technical standards ("RTS") to specify the information and presentation format in the periodic reports. The following disclosures have been prepared using the common set of sustainability disclosures or reporting requirements of the RTS which came into effect on 1 January 2023.

More information is available in the Appendix to this Annual Report - Sustainability Finance Disclosure Regulation (unaudited).

Franklin Templeton Global Funds Plc Annual Report

Directors' Report – (continued)

Taxonomy

Transparency of environmentally sustainable investments in period reports

In line with its ESG investment methodology, an Article 8 Fund may hold investments that contribute to climate change mitigation and climate change adaptation. Due to the lack of reliable, timely and verifiable data, it is, however, currently not possible to determine how and to what extent the activities of the underlying investments are in economic activities that qualify as environmentally sustainable under Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020 on the establishment of a framework to facilitate sustainable investment, and amending Regulation (EU) 2019/2088, as may be amended from time to time (the "Taxonomy Regulation") and so it is not possible to commit to a minimum proportion of an Article 8 Fund's underlying investments which take into account the EU criteria for environmentally sustainable economic activities, including enabling or transitional activities, within the meaning of the Taxonomy Regulation.

The investments underlying the Funds in scope of the present "RTS" periodic reporting do not or did not (up to the date when they ceased trading) take into account the EU criteria for environmentally sustainable economic activities, including enabling or transitional activities, within the meaning of the Regulation (EU 2020/852) (the "Taxonomy Regulation") at this time, therefore, there may be zero investments whose economic activities qualify as environmentally sustainable economic activities under the Taxonomy Regulation (please refer to the below RTS periodic reports' EU Taxonomy dedicated sections). However, in line with its ESG investment methodology, an Article 8 Fund may hold investments that contribute to climate change mitigation and climate change adaptation. Investors should note that the "do no significant harm" principle under Taxonomy Regulation applies only to those investments underlying the Article 8 Fund that take into account the EU criteria for environmentally sustainable economic activities within the meaning of the Taxonomy Regulation. The investments underlying the remaining portion of an Article 8 Fund do not take into account the EU criteria for environmentally sustainable economic activities under the Taxonomy Regulation. The above statement applies or applied (up to the date when the relevant Fund ceased trading) in relation to the following Article 8 Funds: FTGF Western Asset US Core Bond Fund, FTGF Western Asset US Core Plus Bond Fund, FTGF Western Asset US Core Plus Bond Fund, FTGF Western Asset Short Duration Blue Chip Bond Fund, FTGF Western Asset Global High Yield Fund, FTGF Brandywine Global Multi Strategy Fund, FTGF ClearBridge US Value Fund, FTGF ClearBridge US Appreciation Fund, FTGF ClearBridge US Large Cap Growth Fund, FTGF ClearBridge US Agpreciation Fund, FTGF ClearBridge US Equity Sustainability Leaders Fund, FTGF ClearBridge Global Infrastructure Income Fund, FTGF ClearBridge Global Sustainability Improvers Fund^, FTGF Martin Currie Global Long-Term Unconstrained Fund^

FTGF Martin Currie Improving Society Fund^ is a Sustainable Fund, as per the requirements of Article 9 of the SFDR.

The investments underlying the remaining Funds, not listed above, do not or did not (up to the date when they ceased trading) consider the EU criteria for environmentally sustainable economic activities.

REPORT FROM THE DEPOSITARY TO THE SHAREHOLDERS DATED 19 JUNE 2025

For the period from 1 March 2024 to 28 February 2025 (the "Period")

The Bank of New York Mellon SA/NV, Dublin Branch (the "Depositary" "us", "we", or "our") has enquired into the conduct of Franklin Templeton Global Funds plc (the "Company") for the Period, in its capacity as depositary to the Company.

This report including the opinion has been prepared for and solely for the shareholders in the Company, in accordance with our role as depositary to the Company and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

Responsibilities of the Depositary

Our duties and responsibilities are outlined in Regulation 34 of the of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (S.I. No 352 of 2011), as amended (the "Regulations").

Our report shall state whether, in our opinion, the Company has been managed in that period in accordance with the provisions of the Company's constitutional documentation and the Regulations. It is the overall responsibility of the Company to comply with these provisions. If the Company has not been so managed, we as depositary must state in what respects it has not been so managed and the steps which we have taken in respect thereof.

Basis of Depositary Opinion

The Depositary conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties and to ensure that, in all material respects, the Company has been managed (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of its constitutional documentation and the appropriate regulations and (ii) otherwise in accordance with the Company's constitutional documentation and the appropriate regulations.

Opinion

In our opinion, the Company has been managed during the Period, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the constitutional documentation and the Regulations; and
- (ii) otherwise in accordance with the provisions of the constitutional documentation and the Regulations.

Independent Auditors' Report

Independent auditors' report to the members of Franklin Templeton Global Funds Plc

Report on the audit of the financial statements

Opinion

In our opinion, Franklin Templeton Global Funds Plc's financial statements:

- give a true and fair view of the Company's and sub-funds' assets, liabilities and financial position as at 28 February 2025 and of their results for the year then ended;
- have been properly prepared in accordance with Generally Accepted Accounting Practice in Ireland (accounting standards issued by the Financial Reporting Council of the UK, including Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and Irish law); and
- have been properly prepared in accordance with the requirements of the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended).

We have audited the financial statements, included within the Annual Report and Audited Financial Statements, which comprise:

- the Statement of Financial Position as at 28 February 2025;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares for the year then ended;
- the Portfolio of Investments for each of the sub-funds as at 28 February 2025; and
- the notes to the financial statements for the Company and for each of its sub-funds, which include a description of the accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) ("ISAs (Ireland)") and applicable law.

Our responsibilities under ISAs (Ireland) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, which includes IAASA's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Emphasis of matter - financial statements prepared on a basis other than going concern

In forming our opinion on the financial statements, which is not modified, we draw attention to note 2 to the financial statements which describes the reasons why the financial statements of FTGF Western Asset Euro Core Plus Bond Fund^, Legg Mason Western Asset Short Duration High Income Bond Fund^, Legg Mason Western Asset Emerging Markets Total Return Bond Fund^, Legg Mason Western Asset US Adjustable Rate Fund^, Engl Mason Western Asset US Corporate Bond Fund^, FTGF Western Asset Macro Opportunities Bond Fund^, Engl Mason Brandywine Global Sovereign Credit Fund^, FTGF Western Asset US Corporate Bond Fund^, Engl Mason Brandywine Global Sovereign Credit Fund^, FTGF Brandywine Global Defensive High Yield Fund^, FTGF Brandywine Global - US High Yield Fund^, Engl Mason Brandywine Global Enhanced Absolute Return Fund^, FTGF Brandywine Global Multi-Sector Impact Fund^, FTGF Brandywine Global Dynamic US Equity Fund^, Legg Mason ClearBridge Growth Fund^, Legg Mason ClearBridge Emerging Markets Infrastructure Fund^, Legg Mason US Equity Fund^, Franklin MV European Equity Growth and Income Fund^, FTGF Franklin MV Asia Pacific Ex Japan Equity Growth and Income Fund^, Legg Mason Batterymarch International Large Cap Fund^, Legg Mason QS Emerging Markets Equity Fund^, FTGF Martin Currie Asia Long-Term Unconstrained Fund^, Legg Mason Martin Currie Asia Pacific Fund^, Legg Mason Martin Currie European Absolute Alpha and FTGF Martin Currie Global Resources Fund^, Legg Mason Martin Currie Greater China Fund^, FTGF Martin Currie Asia Pacific Urban Trends Income Fund^ and FTGF Martin Currie Improving Society Fund^ have been prepared on a basis other than going concern.

Conclusions relating to going concern

With the exception of FTGF Western Asset Euro Core Plus Bond Fund^, Legg Mason Western Asset Short Duration High Income Bond Fund^, Legg Mason Western Asset Emerging Markets Total Return Bond Fund^, Legg Mason Western Asset Emerging Markets Corporate Bond Fund^, Legg Mason Western Asset US Short-Term Government Fund^, Legg Mason Western Asset US Adjustable Rate Fund^, Legg Mason Western Asset Global Inflation Management Fund^, Legg Mason Western Asset Euro High Yield Fund^, FTGF Western Asset Macro Opportunities Bond Fund^, FTGF Western Asset US Corporate Bond Fund^, FTGF Western Asset Sustainable Global Corporate Bond Fund^, Legg Mason Brandywine Global Sovereign Credit Fund^, FTGF Brandywine Global Defensive High Yield Fund^, FTGF Brandywine Global - US High Yield Fund^, FTGF Brandywine Global Enhanced Absolute Return Fund^, FTGF Brandywine Global Multi-Sector Impact Fund^, FTGF Brandywine Global Dynamic US Equity Fund^, Legg Mason ClearBridge Growth Fund^, Legg Mason ClearBridge Emerging Markets Infrastructure Fund^, Legg Mason US Equity Fund^, Franklin MV European Equity Growth and Income Fund^, Legg Mason Batterymarch International Large Cap Fund^, Legg Mason QS Emerging Markets Equity Fund^, Franklin MV Global Equity Growth and Income Fund^, Legg Mason Betterymarch International Large Cap Fund^, Legg Mason QS Emerging Markets Equity Fund^, Franklin MV Global Equity Growth and Income Fund^, Legg Mason Japan Equity Fund^, FTGF Martin Currie Asia Long-Term Unconstrained Fund^, Legg Mason Martin Currie Asia Pacific Fund^, Legg Mason Martin Currie European Absolute Alpha Fund^, Legg Mason Martin Currie Global Resources Fund^, Legg Mason Martin Currie Greater China Fund^, FTGF Martin Currie Asia Pacific Urban Trends Income Fund^ and FTGF Martin Currie Improving Society Fund^ where a basis of accounting other than going concern has been adopted as set out in the Emphasis of matter - financial statements prepared on a basis other than going concern above, based on the work we have performed, we have not identifie

With the exception of FTGF Western Asset Euro Core Plus Bond Fund^, Legg Mason Western Asset Short Duration High Income Bond Fund^, Legg Mason Western Asset Emerging Markets Total Return Bond Fund^, Legg Mason Western Asset Emerging Markets Corporate Bond Fund^, Legg Mason Western Asset US Short-Term Government Fund^, Legg Mason Western Asset US Adjustable Rate Fund^, Legg Mason Western Asset Global Inflation Management Fund^, Legg Mason Western Asset Euro High Yield Fund^, FTGF Western Asset Macro Opportunities Bond Fund^, FTGF Western Asset US Corporate Bond Fund^, FTGF Western Asset US Corporate Bond Fund^, FTGF Western Asset US Corporate Bond Fund^, FTGF Western Asset Sustainable Global Corporate Bond Fund^, Legg Mason Brandywine Global Sovereign Credit Fund^, FTGF Brandywine Global Defensive High Yield Fund^, FTGF Brandywine Global - US High Yield Fund^, FTGF Brandywine Global Enhanced Absolute Return Fund^, FTGF Brandywine Global Multi-Sector Impact Fund^, FTGF Brandywine Global Dynamic US Equity Fund^, Legg Mason ClearBridge Growth Fund^, Legg Mason ClearBridge Emerging Markets Infrastructure Fund^, Legg Mason US Equity Fund^, Franklin MV European Equity Growth and Income Fund^, Legg Mason Batterymarch International Large Cap Fund^, Legg Mason QS Emerging Markets Equity Fund^, Franklin MV Global Equity Growth and Income Fund^, Legg Mason Martin Currie Asia Pacific Urban Trends Income Fund^, Legg Mason Martin Currie Greater China Fund^, Legg Mason Martin Currie European Absolute Alpha Fund^, Legg Mason Martin Currie Global Resources Fund^ Where a basis of accounting other than going concern has been adopted as set out in the Emphasis of matter - financial statements prepared on a basis other than going concern above, in auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

^ Not authorised for sale to the public in Hong Kong.

Independent Auditors' Report – (continued)

Conclusions relating to going concern - (continued)

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the Company's and sub-funds' ability to continue as a going concern.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Reporting on other information

The other information comprises all of the information in the Annual Report and Audited Financial Statements other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Directors' Report, we also considered whether the disclosures required by the Companies Act 2014 have been included.

Based on the responsibilities described above and our work undertaken in the course of the audit, ISAs (Ireland) and the Companies Act 2014 require us to also report certain opinions and matters as described below:

- In our opinion, based on the work undertaken in the course of the audit, the information given in the Directors' Report for the year ended 28 February 2025 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.
- Based on our knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified any material misstatements in the Directors' Report.

Responsibilities for the financial statements and the audit

Responsibilities of the directors for the financial statements

As explained more fully in the Statement of Directors' Responsibilities, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view.

The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's and sub-funds' ability to continue as going concerns, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Our audit testing might include testing complete populations of certain transactions and balances, possibly using data auditing techniques. However, it typically involves selecting a limited number of items for testing, rather than testing complete populations. We will often seek to target particular items for testing based on their size or risk characteristics. In other cases, we will use audit sampling to enable us to draw a conclusion about the population from which the sample is selected.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA website at:

 $https://www.iaasa.ie/get media/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description_of_auditors_responsibilities_for_audit.pdf.$

This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the Company's members as a body in accordance with section 391 of the Companies Act 2014 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Companies Act 2014 opinions on other matters

- · We have obtained all the information and explanations which we consider necessary for the purposes of our audit.
- In our opinion the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited.
- The financial statements are in agreement with the accounting records.

Companies Act 2014 exception reporting

Directors' remuneration and transactions

Under the Companies Act 2014 we are required to report to you if, in our opinion, the disclosures of directors' remuneration and transactions specified by sections 305 to 312 of that Act have not been made. We have no exceptions to report arising from this responsibility.

- Amounts designated as "-" are either \$0, less than \$1,000, less than 1,000 shares or less than 0.01%.
- 144A Securities exempt from registration under Rule 144A of the Securities Act of 1933, as amended. These securities may only be resold, in transactions exempt from registration, to qualified institutional buyers. As at 28 February 2025, these securities amounted to \$1,704,000 or 6.28% of net assets.
- * Variable rate security. The interest rate shown reflects the rate in effect at 28 February 2025.
- t Illiquid.
- ∞ Security is valued in good faith at fair value by or at the discretion of the Valuation Committee.

ABBREVIATIONS:

Perpetual – A bond with no maturity date. Perpetual bonds are not redeemable but pay a steady stream of interest.

EUR – Euro GBP – British Pound

- Amounts designated as "-" are either \$0, less than \$1,000, less than 1,000 shares or less than 0.01%.
- 144A Securities exempt from registration under Rule 144A of the Securities Act of 1933, as amended. These securities may only be resold, in transactions exempt from registration, to qualified institutional buyers. As at 28 February 2025, these securities amounted to \$195,000 or 0.53% of net assets.
- Variable rate security. The interest rate shown reflects the rate in effect at 28 February 2025.

ABBREVIATIONS:

Perpetual – A bond with no maturity date. Perpetual bonds are not redeemable but pay a steady stream of interest.

Notes to Financial Statements

1. Genera

Franklin Templeton Global Funds plc (the "Company") is an open-ended investment company with variable capital incorporated under the laws of Ireland as a public limited company pursuant to the Companies Act 2014, the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the "UCITS Regulations") and the Central Bank UCITS Regulations. It was incorporated on 13 January 1998 with registration number 278601.

Its objective, as set out in its constitutional documents is the collective investment in transferable securities and other liquid financial assets of capital raised from the public and which operate on the principle of risk spreading. The Company is organised in the form of an umbrella fund. The constitutional documents of the Company provide that the Company may offer separate classes of shares, each representing interests in a sub-fund (the "Fund" or the "Funds" collectively) comprising a distinct portfolio of investments. A separate portfolio of assets shall not be maintained for a class. The Funds established by the Company are included in the General Information section of this report. The principal investment objective and policies of all Funds are set out in the applicable Fund supplement to the Prospectus.

2. Significant Accounting Policies

The significant accounting policies and estimation techniques adopted by the Company in the preparation of these financial statements are set out below.

Statement of Compliance

The financial statements for the financial year ended 28 February 2025 have been prepared in accordance with the accounting standards generally accepted in Ireland, including Financial Reporting Standard ("FRS") 102: "The Financial Reporting Standard applicable in the United Kingdom and the Republic of Ireland" ("FRS 102") and Irish statute comprising the Companies Act 2014, the UCITS Regulations and the Central Bank UCITS Regulations. These policies are consistent with the policies applied in the financial statements for the financial year ended 29 February 2024.

Basis of Preparation

The financial statements have been prepared on a going concern basis for the Company under the historical cost convention as modified by the revaluation of financial assets and liabilities held at fair value through the profit or loss. The financial statements of FTGF Western Asset Euro Core Plus Bond Fund^, Legg Mason Western Asset Short Duration High Income Bond Fund^, Legg Mason Western Asset Emerging Markets Total Return Bond Fund^, Legg Mason Western Asset US Short-Term Government Fund^, Legg Mason Western Asset US Adjustable Rate Fund^, Legg Mason Western Asset US Adjustable Rate Fund^, Legg Mason Western Asset Global Inflation Management Fund^, Legg Mason Western Asset Euro High Yield Fund^, FTGF Western Asset Mason Opportunities Bond Fund^, FTGF Western Asset UK Investment Grade Credit Fund^, FTGF Western Asset US Corporate Bond Fund^, FTGF Western Asset Sustainable Global Corporate Bond Fund^, Legg Mason Brandywine Global Sovereign Credit Fund^, FTGF Brandywine Global Defensive High Yield Fund^, FTGF Brandywine Global Fundanced Absolute Return Fund^, Legg Mason US Equity Fund^, FTGF Brandywine Global Multi-Sector Impact Fund^, FTGF Brandywine Global Poynamic US Equity Fund^, Legg Mason ClearBridge Growth Fund^, Legg Mason ClearBridge Emerging Markets Infrastructure Fund^, Legg Mason US Equity Fund^, Franklin MV Equity Fund^, FTGF Brandywine Global Enthanced Absolute Alpha Fund^, Legg Mason Batterymarch International Large Cap Fund^, Legg Mason QS Emerging Markets Equity Fund^, Franklin MV Global Equity Growth and Income Fund^, Legg Mason Japan Equity Fund^, FTGF Martin Currie Asia Long-Term Unconstrained Fund^, Legg Mason Martin Currie Asia Pacific Fund^, Legg Mason Martin Currie European Absolute Alpha Fund^, Legg Mason Martin Currie Global Resources Fund^, Legg Mason Martin Currie Asia Pacific Urban Trends Income Fund^ and FTGF Martin Currie Improving Society Fund^ have been prepared on a nongoing concern basis as these Funds were closed during the current and previous financial years or subsequent t

The format and certain wordings of the financial statements have been adapted from those contained in the Companies Act 2014 so that, in the opinion of the Directors, they more appropriately reflect the nature of the Company's business as an investment fund.

The Company has availed of the exemption available to open-ended investment funds under Section 7 "Statement of Cash Flows" of FRS 102 not to prepare a cash flow statement on the basis that substantially all of the Company's investments are highly liquid and carried at fair value, and the Company provides a statement of changes in net assets attributable to holders of redeemable participating shares.

(a) Investments at Fair Value

The Company classified all financial instruments, including its investments in debt and equity securities, and securities sold short, and related derivatives, as financial assets or financial liabilities at fair value through profit or loss. Financial assets or financial liabilities held for trading are acquired or incurred principally for the purpose of selling or repurchasing in the short term. Derivatives are also categorised as held for trading, as the Company does not classify any derivatives as hedges in a hedging relationship.

Financial assets and financial liabilities at fair value through profit or loss are initially recognised at fair value. Transaction costs are expensed in the Statement of Comprehensive Income. Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of the financial assets or financial liabilities at fair value through profit or loss category are presented in the Statement of Comprehensive Income in the financial year in which they arise.

The fair value of financial instruments traded in active markets (such as publicly traded derivatives and trading securities) is based on quoted market prices at the Statement of Financial Position date. Financial instruments (including bonds) held by the Funds, which are listed or traded on a regulated market, are valued on the basis of the latest available mid-price on the dealing day. The fair value of collective investment schemes is based on the traded net asset value of the relevant fund at the Statement of Financial Position date as provided by the fund's administrator.

The Company may from time to time invest in financial instruments that are not traded in an active market (for example in over-the-counter derivatives). The fair value is determined by using valuation techniques. The Company uses a variety of methods and makes assumptions that are based on market conditions existing at each Statement of Financial Position date. Valuation techniques used include the use of comparable recent arm's length transactions, discounted cash flow analysis and other valuation techniques commonly used by market participants. The values assigned to these instruments are based upon the best available information and because of the uncertainty of the valuation, these values may differ significantly from the values that would have been realised had a ready market for these instruments existed and the differences could be material. Entering into these agreements involves, to varying degrees, elements of credit, legal, market and documentation risk in excess of amounts recognised in the Statement of Comprehensive Income. Such risks involve the possibility that there will be no liquid market for these agreements, that the counterparties to the agreements may default on their obligations to perform or disagree as to the meaning of contractual terms in the agreements, or that there may be unfavourable changes in interest rates or the price of the index or security underlying these transactions. The prices used at the year end which have been sourced from a single broker source or based upon valuation techniques are the best estimate of fair value as at the year end date. However, there is a degree of uncertainty in respect of these prices. It may not always be possible to close out the positions at the stated market value with the given counterparty.

(b) Recognition/Derecognition

Regular-way purchases and sales of investments are recognised on trade date plus one – the date on which the Company commits to purchase or sell the asset. Investments are initially recognised at fair value and transaction costs for all financial assets carried at fair value through profit or loss are expensed as incurred. Investments cease to be recognised when the rights to receive cash flows from the investments have expired or the Company has transferred substantially all risks and rewards of ownership.

(c) Single Broker Pricing

The prices used at the year end which have been sourced from a single broker source are the best estimate of fair value as at the year end date. However, there is a degree of uncertainty in respect of these prices. It may not always be possible to close out the positions at the stated mark with the given counterparty. Values of securities for each Fund which have been priced using single broker sources as at 28 February 2025 and 29 February 2024 are disclosed in Note 12.1 (d).

(d) Accounting for Investments

Security transactions are accounted for on trade date plus one. Investments are initially recognised at fair value and transaction costs for all "fair-valued-through profit or loss" securities are expensed as incurred. Gains or losses on the sale of securities are calculated by using the First-In-First-Out ("FIFO") basis.

(e) Income from Investments

Interest income and expense are recognised in the Statement of Comprehensive Income for all debt instruments using the effective interest method. The Investment Managers monitor interest income receivable for any delinquent interest receivable amounts. The accounts have been reviewed for delinquent interest receivable and as at 28 February 2025 and 29 February 2024 all amounts were deemed to be recoverable.

Dividends are reported in the Statement of Comprehensive Income on the dates on which the relevant securities are listed as "ex-dividend". Dividend income is shown gross of any non-recoverable withholding taxes, which is disclosed separately in the Statement of Comprehensive Income.

(f) Offsetting Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously. There are no offsetting financial instruments as at 28 February 2025 and 29 February 2024.

(g) Critical Accounting Estimates and Assumptions

Management makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are outlined below.

^ Not authorised for sale to the public in Hong Kong

2. Significant Accounting Policies - (continued)

(g) Critical Accounting Estimates and Assumptions – (continued)

Fair Value of Derivative Financial Instruments

The Company may, from time to time, hold financial instruments that are not quoted in active markets, such as over-the-counter derivatives. Fair values of such instruments are determined by using valuation techniques as discussed in Note 2(a). Where valuation techniques (for example, models) are used to determine fair values, they are validated and periodically reviewed and compared to the price provided by an independent pricing service provider, where available.

Models use observable data, to the extent practicable. However, areas such as credit risk (both own and counterparty), volatilities and correlations require management to make estimates. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

The values assigned to these instruments are based upon the best available information and because of the uncertainty of the valuation, these values may differ significantly from the values that would have been realised had a ready market for these instruments existed and the differences could be material. Entering into these agreements involves, to varying degrees, elements of credit, legal, market and documentation risk in excess of the amounts recognised in the Statement of Comprehensive Income. Such risks involve the possibility that there will be no liquid market for these agreements, that the counterparties to the agreements may default on their obligations to perform or disagree as to the meaning of contractual terms in the agreements, or that there may be unfavourable changes in interest rates or the price of the index or security underlying these transactions.

(h) Lending of Securities

Certain Funds may lend securities to brokers, dealers and other financial organisations to earn additional income. Each security loan is collateralised with collateral assets in an amount equal to or greater than the current market value of the loaned securities. There is a risk of delay in receiving collateral or in recovering the securities loaned or even a loss of rights in collateral should the borrower fail financially.

As at 28 February 2025 and 29 February 2024, no Funds were engaged in securities lending.

(i) Equalisation

An equalisation account is maintained so that the amount distributed is the same for all shares of the same type notwithstanding different dates of issue. Equalisation income and expense are recorded in the Statement of Comprehensive Income.

Equalisation Income

A sum equal to that part of the issued price of a share which reflects income (if any) accrued but undistributed up to the date of issue will be deemed to be an equalisation payment and treated as repaid by shareholders in the first dividend to which the shareholder was entitled in the same accounting period as that in which the shares are issued.

Equalisation Expense

A sum equal to that part of the issued price of a share which reflects expense (if any) accrued but undistributed up to the date of issue will be deemed to be an equalisation receipt and treated as repaid to shareholders to the first dividend to which the shareholder was entitled in the same accounting period as that in which the shares are issued.

(J) Expenses

Expenses are accounted for on an accruals basis. Certain expenses are share class specific expenses and are charged directly to the share class. General Fund expenses are allocated to the various share classes on the basis of relative net asset value.

(k) Transaction Costs

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or financial liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument. When a financial asset or financial liability is recognised initially, an entity shall measure it at its fair value with transaction costs for such instruments being recognised directly in the Statement of Comprehensive Income.

Transaction costs charged by the Depositary on the settlement of purchases and sales of investments are disclosed within administrator and depositary fees in the Statement of Comprehensive Income for each Fund.

Transaction costs on purchases and sales of equities, collective investment schemes, futures contracts and options are disclosed in Note 4 for each Fund.

Transaction costs on the purchase and sale of bonds and other derivative instruments are included in the purchase and sale price of the investment. These costs cannot be practically or reliably gathered as they are embedded in the cost of the investment and cannot be separately verified or disclosed.

(I) Foreign Exchange Translation

- (a) Functional and presentation currency: Items included in the Company's financial statements are measured using the currency of the primary economic environment in which it operates (the "functional currency"). This is US Dollars (United States Dollars) for all Funds except FTGF Western Asset Euro Core Plus Bond Fund^, Legg Mason Western Asset Euro High Yield Fund^, FTGF ClearBridge Infrastructure Value Fund^, Franklin MV European Equity Growth and Income Fund^, Legg Mason Martin Currie European Absolute Alpha Fund^, FTGF Martin Currie European Unconstrained Fund^, Franklin Responsible Income 2028 Fund^ and Franklin Responsible Income 2029 Fund^ for which the functional currency is Euro, FTGF Western Asset UK Investment Grade Credit Fund^ for which the functional currency is Pound Sterling (British Pound), and Legg Mason Japan Equity Fund^ for which the functional currency is Japanese Yen. The Company has adopted the functional currency of each Fund as the presentation currency for these financial statements. The financial statements of the Company are presented in US Dollars.
- (b) Purchases and sales of securities, and income and expenses are translated at the rate of exchange quoted on the respective date that such transactions are recorded. Assets and liabilities are translated at the foreign exchange rate at the end of the financial year. Differences between income and expense amounts recorded and collected or paid are recorded as foreign exchange gains/losses in the Statement of Comprehensive Income under net gain/(loss) on financial assets and liabilities at fair value through profit or loss.

(m) Forward and Spot Foreign Currency Contracts

A forward foreign currency contract ("forward contract") is a commitment to purchase or sell a foreign currency at a future date, at a negotiated rate. Forward contracts are used to seek to manage foreign currency risks and to tactically shift portfolio currency risk. Forward contracts are generally entered into as a hedge upon the purchase or sale of a security denominated in a foreign currency. The Fund will realise a gain or loss upon the closing or settlement of the forward transaction. Unrealised appreciation or depreciation or forward contracts is reported in the Statement of Financial Position and Statement of Comprehensive Income. Realised gains and losses are reported with all other foreign currency gains and losses in the Statement of Comprehensive Income. Risks relating to forward contracts include the potential inability of the counterparty to meet the terms of the contract and unanticipated movements in the value of a foreign currency relative to the base currency of the Fund. Forward contracts are fair valued by an independent price source by reference to the price at which a new forward contract of the same size and maturity could be undertaken. For each relevant Fund, gains or losses on open spot foreign currency contracts are included in cash in the Statement of Financial Position.

(n) Futures Contracts

Initial margin deposits are made upon entering into futures contracts and are generally made in cash. Futures contracts are fair valued based upon their quoted daily settlement prices. Changes in the value of open futures contracts are recognised as unrealised gains or losses on futures contracts until the contracts are terminated, at which time realised gains and losses are recognised as a realised gain or loss and included in net gain/(loss) on financial assets and liabilities at fair value through profit and loss in the Statement of Comprehensive Income. Unrealised appreciation or futures contracts are shown in the Statement of Financial Position. Realised gains and losses not yet delivered are shown within margin accounts and restricted cash in the Statement of Financial Position.

(o) Option Contracts

The premium on purchased put options exercised is subtracted from the proceeds of the sale of the underlying security or foreign currency in determining the realised gain or loss. The premium on purchased call options exercised is added to the cost of the securities or foreign currency purchased. Premiums paid from the purchase of options, which expire unexercised, are treated as realised losses. The unrealised gain or loss on open option positions is calculated and recorded as the fair value of the option less the premium paid on that option. Unrealised gains or losses on open option positions are reflected as assets or liabilities in the Statement of Financial Position.

The premium on written call options exercised is added to the proceeds from the sale of the underlying security or foreign currency in determining the realised gain or loss. The premium on written put options exercised is subtracted from the cost of the securities or foreign currencies purchased. Premiums received from written options, which expire unexercised, are treated as realised gains.

(p) Swap Instruments

Swap Instruments are recognised at fair value on the date on which the derivative contract is entered into and are subsequently remeasured at their fair value. Fair values are obtained from quoted market prices in active markets, including recent market transactions, and valuation techniques, including discounted cash flow models and options pricing models, as appropriate. All derivatives are carried as assets when fair value is positive and as liabilities when fair value is negative. Movement in the fair value of the swap instruments and interest paid and earned from the swap instruments are recognised in the Statement of Comprehensive Income under net gain/(loss) on financial assets and liabilities at fair value through profit or loss.

(p) Swap Instruments – (continued)

Credit Default Swaps

Each Fixed Income Fund (Fixed Income Fund as defined on page 15), except FTGF Western Asset US Government Liquidity Fund, may enter into credit default swap agreements, provided that (i) the credit default swap agreement must be subject to daily valuation by the Funds and independently verified at least weekly, and (ii) the risks attached to the credit default swap must be independently assessed on a half-yearly basis and the report must be submitted to the Directors for review. A Fund may be either the buyer or seller in a credit default swap transaction. The "buyer" in a credit default contract is obligated to pay the counterparty a periodic stream of payments over the term of the contract provided that no event of default on an underlying reference obligation has occurred. If a Fund is a buyer and no event of default occurs, the Fund will lose its investment and recover nothing. On the other hand, if the Fund is a buyer and an event of default does occur, the Fund (the buyer) will receive the full notional value of the reference obligation that may have little or no value. Conversely, if the Fund is a seller and an event of default occurs, the Fund (the seller) must pay the counterparty the full notional value, or "par value", of the reference obligation in exchange for the reference obligation. As a seller, a Fund receives a fixed rate of income throughout the term of the contract, which typically is between six months and three years, provided that there is no default event.

The Funds purchase credit default swap contracts in order to hedge against the risk of a fall in the capital price, or default, of debt securities they hold. The Funds sell credit default swap contracts in order to get exposure to the rise in the capital price, and the risk of default is transferred from the purchaser of credit default contracts to the Fund as a seller of the credit default swap contract. This involves the risk that the swap may expire worthless and the credit risk that the seller may fail to satisfy its payment obligations to the Funds in the event of a default. The Funds may only enter into such transactions with counterparties rated A- or higher.

Interest Rate Swaps

An interest rate swap or cross currency interest rate swap involves the exchange by a Fund with another party of their respective commitments to pay or receive cash flows e.g., an exchange of floating rate payments for fixed-rate payments in base or foreign currencies. The purchase of a cap entitles the purchaser, to the extent that a specified index exceeds a predetermined value, to receive payments on a notional principal amount from the party selling the cap. The purchase of a floor entitles the purchaser, to the extent that a specified index falls below a predetermined value, to receive payments on a notional principal amount from the party selling the floor. A collar combines elements of buying a cap and selling a floor. Spread locks are contracts that guarantee the ability to enter into an interest rate swap at a predetermined rate above some benchmark rate.

Fauity Swap

Equity swaps are agreements between a Fund and third parties, which allow the Funds to acquire an exposure to the price movement of specific securities without actually purchasing the securities. The changes in contract values are recorded as unrealised gains or losses and the Funds recognise a realised gain or loss when the contract is closed.

Total Return Swaps

Certain of the Funds may invest in total return swaps to reduce their long-term exposure to market risk and credit risk. Total return swaps are contracts in which a Fund pays or receives a series of cash flows based upon the total return of a specified asset in return for paying or receiving, respectively, a fixed or floating rate of interest based upon that same specified asset. Total return swaps are fair valued by an independent pricing vendor. If the price is not available they are fair valued by the Franklin Templeton Global Valuation Committee (the "Valuation Committee"). These positions are reconciled to the counterparty price on a monthly basis.

Cross Currency Swaps

Cross currency swaps involve the exchange of two different currencies with an agreement to reverse the exchange at a later date at specified exchange rates. The exchange of currencies at the inception date of the contract takes place at the current spot rate. The re-exchange at maturity may take place at the same exchange rate, a specified rate, or the then current spot rate. Interest payments, if applicable, are made between the parties based on interest rates available in the two currencies at the inception of the contract.

Inflation Swans

Inflation swaps involve an exchange of a fixed rate on a notional principal amount and a floating rate linked to an inflation index. The party paying the floating rate pays the inflation adjusted rate multiplied by the notional principal amount.

Index Swaps

An index swap refers to a hedging contract in which a party exchanges a predetermined cash flow with a counterparty on a specified date. A debt, equity, or other price index is used as the agreed exchange for one side of this swap. An overnight index swap applies an overnight rate index such as the federal funds or London Interbank Offered Rate (LIBOR) rates. The overnight index swap denotes an interest rate swap involving the overnight rate being exchanged for a fixed interest rate.

(q) Contracts for Difference

A contract for difference is an arrangement between two parties to exchange the difference between the opening price and closing price of a contract. In a long contracts for difference contract, the counterparty agrees to pay the Fund the amount, if any, by which the notional amount of the contract would have increased in value had it been invested in the underlying security or securities, plus any dividends that would have been received on those stocks. In a short contracts for difference contract, the counterparty agrees to pay the Fund the amount, if any, by which the notional amount of the contract would have decreased in value had it been invested in the underlying security or securities. The Fund must also pay the counterparty the value of any dividends that would have been received on those stocks.

(r) Securities Traded on a "To-Be-Announced" Basis

The Funds may trade securities on a "'to-be-announced" ("TBA") basis. In a TBA transaction, a Fund commits to purchase or sell securities for which specific information is not yet known at the time of the trade. Securities purchased on a TBA basis are not settled until they are delivered to or from the relevant Fund, normally 15 to 45 days later. These transactions are subject to market fluctuations and their current value is determined in the same manner as for other securities.

(s) Short-Term Investments

Certificates of deposit, time deposits and other short-term investments maintained with financial institutions are fair valued at their face value with interest accrued, as applicable.

(t) Repurchase and Reverse Repurchase Agreements

Repurchase agreement means any agreement pursuant to which a Fund transfers securities, or any rights related to a title or security, to a counterparty subject to a commitment to repurchase them at a specified price on a future date specified or to be specified. Reverse repurchase agreement means any agreement pursuant to which a Fund receives securities, or any rights related to a title or security, from a counterparty subject to a commitment to sell them back at a specific price on a future date specified or to be specified.

Securities purchased under agreements to resell are fair valued at their face value and adjusted for any movements in foreign exchange rates. Interest rates vary for each agreement and are set at the initiation of the agreement. It is the Company's policy to take custody of securities purchased under reverse repurchase agreements and to value the securities on a daily basis to protect the Company in the event the securities are not repurchased by the counterparty. The Company will generally obtain additional collateral if the market value of the underlying securities is less than the face value of the reverse repurchase agreement plus any accrued interest. In the event of default on the obligation to repurchase, the Company has the right to liquidate the collateral and apply the proceeds in satisfaction of the obligation. In the event of default or bankruptcy by the counterparty to the agreement, realisation and/or retention of the collateral or proceeds may be subject to legal proceedings. Reverse repurchase agreements have been used during the financial year for the purpose of efficient portfolio management.

(u) Exchange Traded Funds

The Funds may invest in exchange traded funds ("ETFs"). ETFs are securities that track an index, a commodity or a basket of assets like an index fund, but trade like a stock on an exchange. These securities are subject to market fluctuations and their current value is determined in the same manner as for other securities.

(v) Shares in Collective Investment Schemes

The fair value of investments in open-ended investment funds is based upon the unaudited net asset value per share as supplied by the respective funds' administrator.

(w) Swaptions

Certain of the Funds may invest in swaptions for the purposes of hedging against adverse movements in interest rates. Such instruments combine the features of two other financial instruments namely an option and an interest rate swap. The Funds record an unrealised gain/(loss) (fair value) for the amount expected to be received or paid under the agreement if such amount was terminated on valuation. The fair value is provided on a daily basis by Markit as the vendor. The unrealised gain/(loss) are reflected as a financial asset or financial liability in the Statement of Financial Position.

(x) Treasury Inflationary Index Obligations (TIPS)

Certain of the Funds may invest in indexed securities. Indexed securities are securities whose prices are indexed to the prices of securities indices, currencies, or other financial statistics. Indexed securities typically are debt securities or deposits whose value at maturity and/or coupon rate is determined by reference to a specific instrument or statistic. The performance of indexed securities fluctuates (either directly or inversely, depending upon the instrument) with the performance of the index, security or currency. The securities are fair valued daily by the relevant vendor and the change in fair value is recorded by the Funds as an unrealised gain or loss.

2. Significant Accounting Policies – (continued)

(y) Loan Notes & Loan Participations

Loan notes & loan participations are fixed and floating rate loans arranged through private negotiations between a corporation or other type of entity and one or more financial institution. Such investments are expected to be in the form of participations in, or assignment of, the loans, which may or may not be securitised. Loan notes & loan participations are classified by the Company as financial assets at fair value through profit or loss, and are initially recognised at fair value. Gains and losses arising from changes in the fair value of the financial assets are presented in the Statement of Comprehensive Income, in the financial year in which they arise.

(z) Master-Limited Partnership

Certain Funds may invest in master-limited partnerships (MLPs) by purchasing units issued to limited partners of the MLP that are publically traded on regulated markets. MLPs are limited partnerships or limited liability companies that typically derive income and gains from the exploration, development, storage, gathering, mining, production, processing, refining, transportation (including pipelines transporting gas, oil or products thereof) or marketing of any mineral or natural resources. MLPs generally have two classes of owners, the general partner and the limited partners. Limited partners own the remainder of the partnership, through ownership of common units, and have a limited role in the operations and management.

The fair value of an investment in MLP is determined in the same manner as for other securities. The changes in the fair value is recorded as an unrealised gain or loss.

(aa) Interest income and interest expense

Interest income and interest expense include interest income and interest expense on cash, cash equivalents, time deposits and margin cash. Interest income and interest expense are disclosed in the Statement of Comprehensive Income.

(ab) Margin accounts and restricted cash

"Margin accounts and restricted cash" in the Statement of Financial Position represent margin deposits, cash collateral and realised gains and losses on futures contracts not yet delivered.

Margin deposits are held or pledged with / to brokers in respect of open exchange-traded and over-the-counter derivative contracts. Cash collateral provided or received by the Funds for derivatives trading are likewise identified in the Statement of Financial Position within margin accounts and restricted cash and are not included as components of cash and cash equivalents. Cash collateral balances are amounts relating to derivatives trading and are held at the year end with brokers. Cash collateral balances received in relation to derivatives trading are held with The Bank of New York Mellon SA/NV, Dublin Branch and any sub-custodians and are payable to brokers at the year end.

(ac) Receivable for investments / redeemable participating shares sold and payable for investments purchased / redeemable participating shares reacquired

Receivable for investments / redeemable participating shares sold represents receivables for securities / redeemable participating shares sold that have been contracted for but not yet settled or delivered on the Statement of Financial Position date. These amounts are recognised initially at fair value and subsequently measured at amortised cost.

Payable for investments purchased / redeemable participating shares reacquired represents payables for securities purchased / redeemable participating shares reacquired that have been contracted for but not yet settled or delivered on the Statement of Financial Position date. These amounts are recognised initially at fair value and subsequently measured at amortised cost.

(ad) Distributions to holders of redeemable participating shares

Distributions to holders of redeemable participating shares are recognised on an ex-dividend date and presented as "finance costs" in the Statement of Comprehensive Income.

(ae) Securities sold short

Certain Funds of the Company may engage in selling securities short. The Company makes short sales in which a borrowed security is sold in anticipation of a decline in the market value of that security, or it may use short sales for various arbitrage transactions. Short sales are held for trading and are consequently classified as financial liabilities at fair value through profit or loss.

3. Efficient Portfolio Management

Subject to the conditions and within the limits from time to time laid down by the Central Bank of Ireland (the "Central Bank"), and except as otherwise stated in the investment objective and policies of a Fund, the Investment Managers and/or the Sub-Investment Managers may employ investment techniques and instruments such as futures, options, forward foreign currency contracts and other derivatives for efficient portfolio management purposes. Furthermore, new techniques and instruments may be developed which may be suitable for use by a Fund in the future and a Fund may employ such techniques and instruments subject to the prior approval of, and any estrictions imposed by, the Central Bank.

For UCITS which have engaged in efficient portfolio management techniques and instruments, disclosures are required under the Central Bank UCITS Regulations. A UCITS is required to disclose the revenues arising from efficient portfolio management techniques and instruments for the entire reporting year together with the direct and indirect operational costs and fees incurred. Please refer to the table helpow

Details of open financial derivative instruments at the financial year end are disclosed in the Portfolio of Investments of the Funds. All realised gains and losses arising from the use of derivative contracts for efficient portfolio management purposes are included in net gains/(losses) on financial assets and liabilities at fair value through profit or loss in the Statement of Comprehensive Income.

During the financial year, reverse repurchase agreements were entered into for the purpose of efficient portfolio management. Details of all reverse repurchase agreements at the financial year end are disclosed in the Portfolio of Investments.

Reverse repurchase agreements

A portion of each Fund's assets may be held in ancillary liquid assets. For efficient portfolio management purposes, each Fund may enter into repurchase agreements and reverse repurchase agreements. Details of all reverse repurchase agreements at the financial year end are disclosed in the Portfolio of Investments.

The table below shows the revenue earned from reverse repurchase agreements during the financial years ended 28 February 2025 and 29 February 2024:

Fund name	28 February 2025 (000's)	29 February 2024 (000's)
FTGE Western Asset US Government Liquidity Fund	\$19.764	\$14.616

There have been no transaction costs on the purchases and sales of reverse repurchase agreements.

Stocklending transactions

Certain Funds may also utilise stocklending agreements for efficient portfolio management purposes as described above. In such transactions the Fund may temporarily transfer its securities to a borrower, with agreement by the borrower to return equivalent securities to the Fund at a pre-agreed time. In entering into such transactions the Fund will endeavour to increase the returns on its portfolio of securities by receiving a fee for making its securities available to the borrower. There were no stocklending transactions on any of the Funds for the financial years ended 28 February 2025 and 29 February 2024.

4. Operating Expenses and Other Related Party Transactions

Pursuant to the management agreement between Franklin Templeton International Services S.à r.l (the "Manager" or "FTIS") and the Company (the "Management Agreement"), the Manager shall be entitled to receive a management fee out of the assets of the relevant Fund for its investment management and distribution services, which shall accrue on each dealing day and be payable monthly in arrears (the "Management Fees"). The Company shall also be responsible for the prompt payment or reimbursement to the Manager of any commissions, transfer fees, registration fees, taxes and similar liabilities, costs and out-of-pocket expenses properly payable or incurred by FTIS.

The maximum Management Fee for each share class (expressed as a percentage of the relevant Fund's net asset value attributable to such class) as at financial year end is as follows:

Maximum

In the tables above, the Management Fees provided for each Fund apply to any of the share classes listed in the relevant column that are offered by the Fund. Not all share classes are offered by each Fund and not all share classes were in issue as at current and prior financial year end. The Prospectus, as it may be amended or supplemented from time to time, indicates which share classes are offered by each Fund.

Pursuant to each Investment Management Agreement, the Manager shall be responsible for paying the fees and out-of-pocket expenses of the relevant Investment Manager.

The Manager has voluntarily agreed to waive a portion of their fees and/or reimburse for certain expenses so that the total expenses would not exceed certain voluntary expense limitations established for the Funds. The Manager, at its discretion, may revise or discontinue the voluntary waivers and/or expense reimbursements at any time.

For the financial years ended 28 February 2025 and 29 February 2024, the Management Fees waived, reimbursed and other expenses recouped were as follows:

Pursuant to each Investment Management Agreement, each Investment Manager is entitled to receive an investment management fee and each Investment Manager shall be responsible for paying the fees and out-of-pocket expenses of any Sub-Investment Managers out of its own Investment Management Fee (which may include "performance fees").

Under the terms of the Master Distribution Agreement between the Manager, the Company and Franklin Distributors, LLC (the "Master Distributor"), the Master Distributor is authorised to market, promote, offer and arrange for the sale and redemption of Shares of the Company (collectively, "distribution services"). In addition, the Master Distributor is authorised at its own costs and expenses to engage one or more distributors for the purpose of assisting it with carrying out in duties and responsibilities, provided the appointments of such other firms are made in accordance with the requirements of the Central Bank Rules. Under the terms of the Master Distribution Agreement between the Manager, the Company and the Master Distributor, the Master Distributor in such instances shall remain responsible to the Manager for the performance of its obligations under such agreement. The Master Distributor, in accordance with the requirements of the Central Bank, has appointed Franklin Templeton Investments (Asia) Limited ("FTIA") and Templeton Asset Management Ltd. ("TAM") as additional Distributors of the Funds. The Manager has also appointed itself and Franklin Templeton Securities Investment Consulting (SinoAm) Inc to provide certain distribution services.

The Company shall also be responsible for the prompt payment or reimbursement to the Manager of any commissions, transfer fees, registration fees, taxes and similar liabilities, costs and out-of-pocket expenses properly payable or incurred by the Manager.

Shareholder Services Fee

Pursuant to the Management Agreement between the Company and the Manager, the Manager shall be entitled to receive a shareholder services fee out of the assets of the relevant Funds for its services, which shall accrue on each dealing day and be payable monthly in arrears (the "Shareholder Services Fees"). Under the Master Shareholder Servicing Agreement between the Manager, the Company and Franklin Distributors, LLC (the "Master Shareholder Servicing Agent"), the Master Shareholder Servicing Agent shall be entitled to receive from the Manager a shareholder services fee from certain of the share classes for their services as Shareholder Servicing Agent.

Under the terms of the Master Shareholder Servicing Agent Agreement, the Master Shareholder Servicing Agent is authorised at its own costs and expenses to engage one or more parties for the purpose of assisting it with carrying out in duties under the agreement, provided that the Master Shareholder Servicing Agent shall remain responsible to the Manager for the performance of its obligations under such agreement. Pursuant to this, the Master Shareholder Servicing Agent has appointed FTIA and TAM as additional Shareholder Servicing Agents of the Company. The Manager has authorised Franklin Templeton Securities Investment Consulting (SinoAm) Inc to provide shareholder services in respect of Taiwan.

The aggregate amount of Shareholder Services Fees paid by each share class shall be or has been equal to the following:

- (i) 0.15 per cent, per annum of the net asset value of FTGF Western Asset US Core Bond Fund, FTGF Western Asset US Core Plus Bond Fund, FTGF Western Asset Euro Core Plus Bond Fund^, FTGF Western Asset Global Multi Strategy Fund, FTGF Western Asset US High Yield Fund, FTGF Western Asset Global High Yield Fund, FTGF Western Asset Asian Opportunities Fund, FTGF Western Asset Short Duration Blue Chip Bond Fund, FTGF Western Asset Global Core Plus Bond Fund^, FTGF Western Asset Global Credit Fund^, FTGF Western Asset Multi-Asset Malti-Asset Credit Fund^, FTGF Western Asset Structured Opportunities Fund^, FTGF Western Asset US Mortgage-Backed Securities Fund^, FTGF Brandywine Global Fixed Income Fund, FTGF Brandywine Global High Yield Fund^, FTGF Brandywine Global Opportunistic Fixed Income Fund, FTGF Brandywine Global Income Optimiser Fund, FTGF Brandywine Global Credit Opportunities Fund^, FTGF Brandywine Global Enhanced Absolute Return Fund^, FTGF Brandywine Global Multi-Sector Impact Fund^ and FTGF Brandywine Global US Fixed Income Fund^, and
- (ii) 0.35 per cent, per annum, of the net asset value of FTGF ClearBridge US Value Fund, FTGF ClearBridge US Appreciation Fund, FTGF ClearBridge US Large Cap Growth Fund, FTGF ClearBridge US Aggressive Growth Fund, FTGF ClearBridge Global Dividend Income Fund, FTGF ClearBridge US Equity Sustainability Leaders Fund^, FTGF ClearBridge Global Growth Leaders Fund^, FTGF ClearBridge Global Infrastructure Value Fund^, FTGF Royce US Small Cap Opportunity Fund, FTGF Royce US Smaller Companies Fund, FTGF Royce Global Small Cap Premier Fund^, FTGF Martin Currie Global Long-Term Unconstrained Fund^, FTGF Martin Currie Asia Pacific Urban Trends Income Fund^, FTGF Martin Currie Global Emerging Markets Fund^, FTGF Martin Currie European Unconstrained Fund^ and FTGF Martin Currie Improving Society Fund^.

Shareholder Services Fees are payable on all classes except Class F Share Classes, Class J Share Classes, Class P1 and Class P2 Shares, Class Y Share Classes, Permier Share Classes, S Class Shares, LM Share Classes and Grandfathered Share Classes (each as defined in the Prospectus), nor these are payable on all share classes offered by FTGF Western Asset US Government Liquidity Fund, Western Asset UCITS SMASh Series Core Plus Completion Fund^, Franklin Responsible Income 2028 Fund^ and Franklin Responsible Income 2029 Fund^.

During the financial years ended 28 February 2025 and 29 February 2024, the Shareholder Services Fees waived were as follows:

4. Operating Expenses and Other Related Party Transactions – (continued)

Additionally, certain operating expenses, including but not limited to, fees payable to subsidiaries of Franklin Templeton for the provision of governance support and reporting to the Board, insurance services to the Board and ongoing registration services for jurisdictions where the Funds are publicly offered. For the financial year ended 28 February 2025, these expenses amounted to \$1,019,558 (29 February 2024: \$1,037,845).

Related Parties

Directors' fees are not payable in respect of Jaspal Sagger, Craig Tyle and Elinor Murray who are employees of the Manager, the Investment Managers or their affiliates. Effective 30 August 2024, Jaspal Sagger was appointed as Director to the Board of Directors of FTIS. Save as disclosed above, none of the Directors has or has had any interest, direct or indirect, in any contract or arrangement subsisting at the date hereof which is significant in relation to the business of the Company.

As at 28 February 2025 and 29 February 2024, the Funds in the table below held investments in collective investment schemes which have appointed the same Manager, Investment Managers, or Sub-Investment Managers as the Fund, or have appointed a related party of that Manager, Investment Managers or Sub-Investment Managers.

Below is a table that shows the percentage ownership of such collective investment schemes held by the Company:

Performance Fee

In addition to the Investment Management Fees described above, the Investment Manager may be entitled to receive a fee (a "Performance Fee") depending on the performance of the PF Class Shares (Performance Fee Classes, as indicated by "(PF)" in the name of the share class).

There have been no Performance Fees charged during the financial years ended 28 February 2025 and 29 February 2024, as there have been no active (PF) share classes in issue.

Administrator and Depositary Fees

The Bank of New York Mellon SA/NV, Dublin Branch acts as depositary (the "Depositary") and BNY Mellon Fund Services (Ireland) Designated Activity Company acts as administrator (the "Administrator") to all Funds in the Company. For administration, accounting, shareholder, trustee and depositary services, they collectively receive from the Funds a fee of up to 0.15% of the net asset value of each Fund.

Directors' Remuneration

Directors' fees and out-of-pocket expenses charged through profit and loss in the Statement of Comprehensive Income and which pertain to the financial year ended 28 February 2025 were \$170,000 (29 February 2024: \$198,000).

Directors' fees are not payable in respect of Jaspal Sagger, Craig Tyle and Elinor Murray who are employees of the Manager, the Investment Managers or their affiliates.

Auditors' Remuneration

Fees paid to the auditors, PricewaterhouseCoopers of €1,019,700 (excluding VAT), in respect of the financial year, relate to statutory audit of the financial statements of the Company (29 February 2024: €1,017,115 (excluding VAT)). The total audit fee for the Company as detailed within the Statement of Comprehensive Income on page 168 is inclusive of VAT at 23% and is presented in the presentational currency of the Company (US Dollar).

% Holding

% Holding

For the financial year ended 28 February 2025, out-of-pocket expenses paid to the auditors amounted to €12,600 (29 February 2024: €12,100).

5. Distributions to Holders of Redeemable Participating Shares

Distributing Share Classes

The letter in parentheses at the end of the name of each Distributing Share Class indicates a particular frequency of dividend declarations and dividend payments, as detailed in the following table.

Distributing Share Class Designation	Frequency of Dividend Declarations	Frequency of Dividend Payments
(D)	Daily	Monthly
(M)	Monthly	Monthly
(Q)	Quarterly	Quarterly (March, June, September, December)
(S)	Semi-Annually	Semi-Annually (March, September)
(A)	Annually	Annually (March)

For each Distributing Share Class of each Fixed Income Fund (Fixed Income Fund as defined on page 15), at the time of each dividend declaration: (1) all, or some portion of, net investment income, if any, will be declared as a dividend; and (2) all, or some portion, of realised and unrealised capital gains net of realised and unrealised capital losses may be, but is not required to be, declared as a dividend.

For each Distributing Share Class of each Equity Fund (Equity Fund as defined on page 15), at the time of each dividend declaration: all, or some portion of, net investment income, if any, will be declared as a dividend. For each Shareholder of each Distributing Share Class, distributions will be made in the currency in which the Shareholder subscribed for shares, unless the Shareholder requests otherwise.

For each Distributing Share Class of each Multi-Asset Fund (Multi-Asset Fund as defined on page 15), at the time of each dividend declaration, all, or some portion of, net investment income, if any, will be declared as a dividend. For each Shareholder of each Distributing Share Class, distributions will be made in the currency in which the Shareholder subscribed for shares, unless the Shareholder requests otherwise.

The Distributing Plus Share Classes may declare and pay distributions out of capital. Investors in these share classes should be aware that payment of dividends out of capital amounts to a return or withdrawal of part of an investor's original investment or of capital gains attributable to that original investment, and such distributions will result in a corresponding immediate decrease in the net asset value per share of the share class. The payment of distributions out of capital will accordingly lead to capital erosion and may be achieved by forgoing the potential for future capital growth.

During the financial year, the following Funds have paid distributions out of capital on Distributing Plus Share Classes:

	Distributions out of capital for the year ended 28 February 2025 (000's)	Distributions out of capital for the year ended 29 February 2024 (000's)

Amounts designated as "-" are either \$0/€0 or less than \$1,000/€1,000.

The Distributing Plus (e) and Distributing Plus (u) Share Classes offered by certain of the Funds may charge certain fees and expenses to capital rather than income. Charging all or part of the fees and expenses to capital will result in income being increased for distribution; however, the capital that these Distributing Plus (e) and Distributing Plus (u) Share Classes have available for investment in the future, and capital growth, may be reduced. Shareholders should note that there is an increased risk that on the redemption of shares of Distributing Plus (e) and Distributing Plus (u) Share Classes, shareholders may not receive back the full amount invested. For investors in Distributing Plus (e) and Distributing Plus (u) Share Classes, this may result in the erosion of investors' capital investment notwithstanding the performance of the relevant Fund, or capital gains attributable to that original investment, which will likely diminish the value of future returns. The increased dividend payout as a result of charging fees and expenses to capital effectively amounts to a return or withdrawal of an investor's original capital investment or of capital gains attributable to that original investment. The higher level of dividend payout under this charging mechanism will result in a corresponding immediate decrease in the net asset value of the share classes on the ex-dividend date. Shareholders should note that to the extent expenses are charged to capital, some or all of the distributions made by the Distributing Plus (e) and Distributing Plus (u) Share Classes should be considered to be a form of capital reimbursement. All expenses of the Distributing Plus (e) Share Classes have been charged to capital.

During the financial year, the following Funds have charged fees and expenses to capital on Distributing Plus (e) Share Classes:

	Fees and expenses charged to capital for the year ended 28 February 2025 (000's)	Fees and expenses charged to capital for the year ended 29 February 2024 (000's)

Amounts designated as "-" are either \$0/€0 or less than \$1,000/€1,000.

Accumulating Share Classes

With respect to Accumulating Share Classes, it is intended that, in the normal course of business, distributions will not be declared and that any net investment income attributable to each Accumulating Share Class will be accumulated daily in the respective net asset value per share of each respective share class.

6. Share Capital and Redeemable Participating Shares

Share Capital

The Company was incorporated with an initial share capital of Euro 39,000 represented by 39,000 subscriber shares of no par value. All but three of the subscriber shares have been repurchased by the Company. Shareholders of these three subscriber shares are entitled to attend and vote at all of the meetings of the Company, but are not entitled to participate in the dividends or net assets of any Fund or of the Company.

Redeemable Participating Shares

The share capital of the Company shall at all times equal the net asset value. The Directors are empowered to issue up to five hundred billion shares of no par value in the Company at the net asset value per share on such terms as they may see fit. There are no rights of pre-emption upon the issue of shares in the Company.

Each of the shares entitles the Shareholder to participate equally on a pro rata basis in the dividends, where applicable, and net assets of the Fund in respect of which they are issued, save in the case of dividends declared prior to becoming a shareholder.

The proceeds from the issue of shares shall be applied in the books of the Company to the relevant Fund and shall be used in the acquisition on behalf of the relevant Fund of assets in which the Fund may invest. The records and accounts of each Fund shall be maintained separately.

Each Fund has different share classes offered as indicated in the Company's Prospectus. These different classes of shares differ principally in terms of their sales charges, fees, rates of expenses, distribution policy, and currency denomination. Investors are thus able to choose a share class that best suits their investment needs, considering the amount of investment and anticipated holding period.

Each share class is designated as a Distributing Share Class or an Accumulating Share Class. Accumulating Share Classes do not distribute net income, net realised or net unrealised capital gains whereas Distributing Share Classes will distribute at certain intervals, which will vary depending on the letter in parentheses at the end of the name of the Distributing Share Class, as explained under Note 5 - Distributions to Holders of Redeemable Participating Shares. In addition, the Company has subscriber shares outstanding. The subscriber shares do not entitle the holders to participate in the assets of appreciated the participation of the participation

Each Fund may offer share classes designated in currencies other than the base currency of the Fund. For each such share class, unless indicated by "(Hedged)" in the name of the share class, the relevant Investment Manager and Sub-Investment Manager will not employ any techniques to hedge the share class's exposure to changes in exchange rates between the base currency of the Fund and the currency of the share class.

Class A Shares are available to all investors. Commission/rebate payments may be made by distributors to dealers or other investors who have an agreement with a distributor with respect to such shares. Class AX Shares are available to all investors. Following the relevant initial offer period, the subscription price per share shall be the NAV per share next determined plus an initial charge of up to 1.5%. Class B, C, D, E and K Shares are available to all investors who are clients of dealers appointed by a distributor with respect to such shares. Commission payments may be made by distributors to dealers or other investors who have an agreement with a distributor with respect to such shares. Class F Shares are available to professional investors and investors with a discretionary investment agreement with a dealer appointed by the distributor with respect to such shares. Commission/rebate payments may be made by distributors to dealers or other investors who have an agreement with the distributor with respect to such shares. Class J Shares are for Japanese distribution, at the discretion of the Directors or distributors. For the FTGF Western Asset Structured Opportunities Fund, Class M Shares are available to professional Investors and investors with a discretionary investment agreement with a dealer or other entity appointed by a Distributor with respect to such shares. For all other Funds, Class M Shares are available to professional investors, platforms which are not allowed to accept and retain trail commissions, and investors with a discretionary investment agreement with a Dealer or other entity appointed by a Distributor with respect to such shares. Class R Shares are available to all investors who have a fee-based arrangement with an intermediary from whom they have received a personal recommendation in relation to their investment in the Funds. S Class Shares (formerly Class U, re-named on 31 May 2024) are available to an investor who makes a minimum initial investment of at least US\$50,000,000 in the relevant sub-fund, unless the investor satisfies either of the following criteria: (i) at least US\$1,000,000,000 (or equivalent in other currency), in aggregate, invested in, or committed to (by way of a letter of intent), Franklin Templeton's EU domiciled collective investment schemes; and/or (ii) at least US\$5,000,000,000 (or equivalent in other currency), in currency), in aggregate, of assets under, or committed to (by way of a letter of intent), the management of Franklin Templeton globally; provided that any such eligible institutional investor in (i) or (ii) above may not receive and retain any trail, commission, rebate, or other similar fees (referred to as inducements). Class T Shares are for Taiwanese distribution, at the discretion of the Directors or Distributors. Class X Shares are available to dealers, portfolio managers or platforms which, according to regulatory requirements or based on fee arrangements with their clients, are not allowed to accept and retain trail commissions; and institutional investors (for investors in the European Union, this means "Eligible Counterparties" as defined under MIFID II) investing for their own account. Class Y Shares are available to institutional investors at the discretion of the Directors or distributors. BW LM Share Classes are available at the discretion of the Directors or distributors to qualifying investors who are members of the Franklin Templeton group or clients of such members. LM Share Classes are available at the discretion of the Directors or distributors to qualifying investors who are members of the Franklin Templeton group, or clients of such members. For the Franklin Templeton group, or clients of such members based in the European Union, BW Premier Share Classes are available at the discretion of the Directors or distributors to "Eligible Counterparties" as defined under MIFID II; for investors based outside the European Union, BW Premier Share Classes are available to institutional investors at the discretion of the Directors or distributors or to qualifying investors who are members of the Franklin Templeton group or clients of such members. For investors based in the European Union, Premier Share Classes are available to "Eligible Counterparties" as defined under MIFID II; for investors based outside the European Union, Premier Share Classes are available to institutional investors

For Class P1 (available from 31 May 2024), unless otherwise indicated in the relevant Supplement, it is intended that the Directors will accept applications from institutional investors investing a minimum of U\$\$10,000,000 in Class P1 Shares for a limited time until the total net asset value of the relevant Share Class(es) of the Fund (excluding seed capital) reaches U\$\$100,000,000 (or equivalent in other currency), or such other amounts as specifically determined by the Manager and disclosed on the Franklin Templeton website. For Class P2 (available from 31 May 2024), unless otherwise indicated in the relevant Supplement, it is intended that the Directors will accept applications from institutional investors, intermediaries, distributors, platforms and/or brokers/dealers investing a minimum of U\$\$5,000,000 in Class P2 Shares for a limited time until the total net asset value of the relevant Share Class(es) of the Fund (excluding seed capital) reaches U\$\$200,000,000 (or equivalent in other currency), or such other amounts as specifically determined by the Manager and disclosed on the Franklin Templeton website.

For share classes that include "(Hedged)" in their name after the currency denomination, it is intended that such share classes will be hedged against movements in exchange rates between the currency of the share class and the base currency of the relevant Fund. Certain share classes in Funds managed by Brandywine Global Investment Management, LLC are hedged relative to an index, as indicated by the inclusion of an "(IH)" in the Share Class name. The Funds managed by Brandywine Global Investment Management, LLC and the FTGF ClearBridge Infrastructure Value Fund managed by ClearBridge Investments (North America) Pty Limited offer portfolio hedged share classes, as indicated by the inclusion of a "(PH)" in the share class name. Certain Funds offer share classes that may pay a performance fee, as indicated by "(PF)" in the name of the share class. A selective hedged share class version, as indicated by the inclusion of a "(SH)" in the share class name, is available in respect of certain share classes of FTGF Brandywine Global Income Optimiser Fund.

Certain Funds also have issued shares of Grandfathered Share Classes, as indicated by the inclusion of "GA", "GE", "GP" or "(G)" in the name of the share class. The Grandfathered Share Classes are available only to unitholders of the affiliated funds. The Grandfathered Class Shares are closed to any subsequent subscriptions, both by existing shareholders in the share class and by new investors, except that shares may continue to be acquired through (1) dividend reinvestment; (2) automatic conversions from a Class B (G) Share Class of the Fund to a Class A (G) Share Class of the same Fund; and (3) exchanges of shares of a Grandfathered Share Class with the same letter designation. Notwithstanding the foregoing, as indicated in the Fund Supplements, certain Grandfathered Share Classes for certain Funds may be made available for subsequent subscriptions by existing shareholders in the share class in the sole discretion of the Directors.

^ Not authorised for sale to the public in Hong Kong

Under current Irish law and practice, the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997 (as amended). On that basis, the Company will not generally be liable to Irish tax in respect of its income and gains, other than on the occurrence of a chargeable event. Generally a chargeable event arises on any distribution, redemption repurchase, cancellation, transfer of shares or on the ending of a 'Relevant Period', a 'Relevant Period' being an eight year period beginning with the acquisition of the shares by the Shareholders and each subsequent period of eight years beginning immediately after the preceding Relevant Period.

No Irish tax will arise on the Company in respect of chargeable events in respect of

- a shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided an appropriate valid declaration is in place, or the Company has been authorised by Irish Revenue to make gross payments in the absence of appropriate declarations; and
- (ii) certain exempted Irish tax resident shareholders who have provided the Company with the necessary signed statutory declarations.

In addition, any transaction (which might otherwise be a chargeable event) in relation to shares held in a recognised clearing system as designated by order of the Irish Revenue Commissioners will not constitute a chargeable event

In the absence of an appropriate declaration, the Company will be liable to Irish tax on the occurrence of a chargeable event.

Capital gains, dividends and interest received may be subject to taxes, including withholding taxes imposed by the country of origin and such taxes may not be recoverable by the Fund or its shareholders.

8. Cash and Cash Equivalents and Margin Accounts

Cash and cash equivalents are valued at their face value with interest accrued, where applicable. The cash and cash equivalents and cash overdraft balances of any Fund are held with the Depositary. "Margin accounts and restricted cash" in the Statement of Financial Position represent margin deposits, cash collateral and realised gains and losses on futures contracts not yet delivered. As at 28 February 2025, margin deposits and cash collateral, held in relation to OTCs and exchange traded derivatives trading, were held with the following brokers: Bank of America Merrill Lynch, Barclays, BNY, Citi, Goldman Sachs, HSBC, JP Morgan, Morgan Stanley and UBS (29 February 2024: Bank of America Merrill Lynch, BNP Paribas, BNY, Citi, Goldman Sachs, HSBC, JP Morgan, Morgan Stanley and UBS).

9. Commitments and Contingent Liabilities

There were no significant commitments or contingent liabilities as at 28 February 2025 and 29 February 2024.

The Company has policies designed to ensure that its service providers act in the Funds' best interests when executing decisions to deal on behalf of those Funds in the context of managing the Funds' portfolios. For these purposes, all reasonable steps must be taken to obtain the best possible result for the Funds, taking into account price, costs, speed, likelihood of execution and settlement, order size and nature, or any other consideration relevant to the execution of the order. Any cash rebates received from a broker or dealer in consideration of Fund brokerage transactions directed to that broker or dealer will not be retained by the Investment Manager, the Sub-Investment Manager or any of their connected persons. The Company will not bear the costs of external research obtained by the Investment Managers and the Sub-Investment Managers. Such costs will be borne by the relevant Investment Manager or Sub-Investment Manager. Information about the Funds' execution policies is available to Shareholders at no charge upon request.

During the financial years ended 28 February 2025 and 29 February 2024, Royce & Associates, LP ("Royce") entered into soft commission arrangements with brokers, but reimbursed the relevant Funds for any research costs incurred as part of such arrangements

11. Exchange Rates

12. Risk Exposure and Risk Management

Following its appointment as the UCITS management company of the Company, with responsibility for managing the Company and for certain investment management, administration and distribution functions in respect of the Company as set out in the UCITS Regulations, FTIS (the "Manager") has made the decision to delegate some, but not all investment management activities to relevant Investment Managers and/or Sub-Investment Managers, provided that the Manager remains responsible to the Funds for the performance of their agreed upon obligations (please refer to the General Information pages for the line-up of Investment Managers and Sub-Investment Managers for each Fund, as applicable, as per the Prospectus).

The Company, in conjunction with the Manager and the Investment Managers, has determined that certain of its material risks are market risk, credit risk and liquidity risk. In respect of the use of financial derivative instruments, the risks are counterparty risk, credit risk, increased margin calls and unlimited risk of loss. Further details of these and other risks are set out below and in the Prospectus under "Risk Factors".

Market risk includes market price risk, foreign currency risk, interest rate risk and other price risk.

Market price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. The maximum price risk resulting from the ownership of financial instruments is determined by the fair value of financial instruments. The Investment Managers or Sub-Investment Managers may consider the asset allocation of the portfolios in order to minimise the risk associated with particular countries, industry sectors or securities while continuing to follow each Fund's investment objective as outlined in the applicable Fund supplement to the Prospectus. Risk is managed by each Investment Manager or Sub-Investment Manager, as applicable, through careful selection of securities and other financial instruments within specified limits and investment mandates. Details of each Fund's investment policies are outlined in the applicable Fund supplement to the Prospectus. Details of each Fund's financial assets and financial liabilities are presented on the Statement of Financial Position.

Foreign currency risk is the risk that the value of a financial instrument will fluctuate because of changes in the rate of exchange between the currency in which the financial asset or financial liability is denominated and the functional currency of the Funds. The value of the investments of a Fund denominated in a currency other than the functional currency may rise and fall due to exchange rate fluctuations by the relevant currencies. There is a risk that large exchange rate fluctuations may have a significant impact on the performance of the Funds.

Where a Fund holds investments in a currency other than that Fund's functional currency, the relevant Investment Manager or Sub-Investment Manager may manage foreign currency risk by either hedging foreign currency into the functional currency of the Fund or alternatively by diversifying investments across multiple currencies using a multi-bank foreign exchange trading network.

Interest rate risk is the risk that the value of a financial instrument will fluctuate because of changes in market interest rate. The Funds which hold fixed interest rate debt securities and overdraft positions are exposed to interest rate risk where the value of these securities or loans may fluctuate as a result of a change in interest rates. Holdings in floating and variable rate securities may also be subject to interest rate risk although to a lesser degree. Cash assets held via the Depositary have the potential to yield interest income, the level of which will fluctuate according to the prevailing level of market interest rates.

The Equity Funds generally do not invest in any interest bearing securities other than cash balances held with the Depositary. Cash assets yield interest income, the level of which will fluctuate according to the prevailing level of market interest rates. As a result, the Equity Funds are not subject to significant amounts of risk due to fluctuations in the prevailing levels of market interest rates on its financial assets and financial liabilities.

The Fixed Income Funds and the Multi-Asset Funds invest in interest bearing financial assets and financial liabilities which expose them to risks associated with the effects of fluctuations in the prevailing levels of market interest rates on their financial positions and cash flows. The value of investments in fixed rate interest bearing securities may be subject to price volatility due to changes in interest rates. Fluctuations in market interest rates will impact upon the level of interest received by a Fund.

An increase in interest rates will generally reduce the value of debt securities that are issued and outstanding, while a decline in interest rates will generally increase the value of debt securities that are issued and outstanding. The magnitude of these price fluctuations will be greater when the maturity of the outstanding securities is longer. Changes in the value of securities held by a Fund when interest rates change mean that a Fund's net asset value per share can go up or down because of the effect on the value of the Fund's portfolio of debt securities.

The Manager to each Fixed Income Fund monitors the interest-rate environment and evaluates risks on major strategies. Interest rate risk is controlled by monitoring maturities and duration relative to the Funds' benchmarks. Techniques such as key rate duration measurement are used to evaluate portfolio curve exposures.

Details of each Fixed Income Fund's weighted average yield, weighted average years to maturity and an analysis of fixed and non-interest bearing securities are set out in Notes 12.1(b) and 12.1(c) below.

The risks involved with investing in Equity Funds include changing economic conditions, industry and company conditions and security selection. Fixed Income Funds and Multi-Asset Funds are also subject to interest rate risk, credit risk, maturity risk and market risk. International securities are subject to changing exchange rates, less liquid markets and political and economic instability depending on the country. Developing markets are subject to these same risks however it may be to a greater degree. For the purpose of efficient portfolio management, the Funds may enter into exchange traded or over-the-counter ("OTC") derivatives, including but not limited to, futures, swaps, forwards, options and warrants and may enter into stock lending agreements.

The Investment Management and Portfolio Oversight Committee ("IMPOC" or the "Committee") has been established within Franklin Templeton to oversee the delegation of investment management responsibilities for all Funds. The Committee is comprised of members who, as a group, have experience and specialised knowledge in such areas as investment management including equity, fixed income and derivatives; investment analysis and reporting; risk management; and compliance. The Committee, on behalf of the Manager, has been responsible for overseeing that the Funds are managed within the terms of the Funds' investment guidelines and limits set out in the Prospectus and the UCITS Regulations as well as the relevant Investment Manager's or Sub-Investment Managers, as applicable, report to the Committee matters arising in relation to the monitoring of certain material risks arising from a Fund's investments in financial instruments.

12.1 Market Risk

Each Fund using financial derivative instruments ("FDI"s) seeks to limit the market risk and leverage created through the use of derivatives by using either the commitment approach or by using a sophisticated risk measurement technique known as "value-at-risk" (the "VaR approach"). Each Fund using FDI (other than FTGF Western Asset Multi-Asset Credit Fund^, FTGF Western Asset Structured Opportunities Fund^, Western Asset UCITS SMASh Series Core Plus Completion Fund^, FTGF Brandywine Global Fixed Income Absolute Return Fund^, FTGF Brandywine Global Income Optimiser Fund and FTGF Brandywine Global Credit Opportunities Fund^) use the commitment approach. FTGF Western Asset Multi-Asset Credit Fund^, FTGF Western Asset Structured Opportunities Fund^, Western Asset UCITS SMASh Series Core Plus Completion Fund^, FTGF Brandywine Global Fixed Income Absolute Return Fund^, FTGF Brandywine Global Income Optimiser Fund and FTGF Brandywine Global Credit Opportunities Fund^ use the VaR approach. FTGF Brandywine Global Enhanced Absolute Return Fund^, FTGF Western Asset Macro Opportunities Bond Fund^ and FTGF Brandywine Global Multi-Sector Impact Fund^ used the VaR approach up to the date when they ceased trading on 17 July 2024, 29 October 2024 and 19 December 2024, respectively.

The Manager employs a risk management process to enable it to accurately measure, monitor and manage the risks attached to FDI positions

The commitment approach calculates leverage by measuring the market value of the underlying exposures of derivatives relative to the relevant Fund's Net Asset Value. VaR is a statistical methodology that seeks to predict, using historical data, the likely maximum loss that a Fund could suffer, calculated to a specific (e.g., "one tailed" 99 per cent) confidence level. FTGF Western Asset Macro Opportunities Bond Fund^, FTGF Western Asset Multi-Asset Credit Fund^, FTGF Western Asset Structured Opportunities Fund^, Western Asset UCITS SMASh Series Core Plus Completion Fund^, FTGF Brandywine Global Fixed Income Absolute Return Fund^, FTGF Brandywine Global Income Optimiser Fund, FTGF Brandywine Global Credit Opportunities Fund^, FTGF Brandywine Global Enhanced Absolute Return Fund^a and FTGF Brandywine Global Multi-Sector Impact Fund^a use or have used (up to the date of their respective termination) an "absolute" VaR model where the measurement of VaR is relative to the Net Asset Value of the Fund. A VaR model has certain inherent limitations and it cannot be relied upon to predict or guarantee that the size or frequency of losses incurred by a Fund will be limited to any extent. As the VaR model relies on historical market data as one of its key inputs, if current market conditions differ from those during the historical observation period, the effectiveness of the VaR model in predicting the VaR of a Fund may be materially impaired. Investors may suffer serious financial consequences under abnormal market conditions.

The effectiveness of the VaR model could be impaired in a similar fashion if other assumptions or components comprised in the VaR model prove to be inadequate or incorrect.

Western Asset Management Company Limited and Western Asset Management Company, LLC ("Western Asset") calculate VaR at a 99% confidence level for a 1 day time horizon using an appropriate sample of historical data. The table below indicates the absolute VaR for the Funds:

Fund	As at 28 February 2025	As at 28 February 2024
FTGF Western Asset Macro Opportunities Bond Fund^	n/a	2.36%
FTGF Western Asset Multi-Asset Credit Fund^	0.71%	1.10%
FTGF Western Asset Structured Opportunities Fund^	0.30%	0.81%
Western Asset UCITS SMASh Series Core Plus Completion Fund^	0.96%	1.47%

12. Risk Exposure and Risk Management – (continued)

12.1 Market Risk – (continued)

Brandywine Global Investment Management, LLC ("Brandywine") calculates VaR at a 95% confidence level for a 1 day time horizon using 2 years of historical data. The table below indicates the absolute VaR for the Funds:

Fund	As at 28 February 2025	As at 28 February 2024
FTGF Brandywine Global Fixed Income Absolute Return Fund^	0.55%	0.77%
FTGF Brandywine Global Income Optimiser Fund	0.48%	0.62%
FTGF Brandywine Global Credit Opportunities Fund^	0.30%	0.50%
FTGF Brandywine Global Enhanced Absolute Return Fund^	n/a	1.23%
FTGF Brandywine Global Multi-Sector Impact Fund^	n/a	0.61%

Where FTGF Western Asset Macro Opportunities Bond Fund^, FTGF Western Asset Multi-Asset Credit Fund^, FTGF Western Asset Structured Opportunities Fund^, Western Asset UCITS SMASh Series Core Plus Completion Fund^, FTGF Brandywine Global Fixed Income Absolute Return Fund^, FTGF Brandywine Global Income Optimiser Fund, FTGF Brandywine Global Credit Opportunities Fund^, FTGF Brandywine Global Enhanced Absolute Return Fund^ and FTGF Brandywine Global Multi-Sector Impact Fund^ use or have used (up to the date of their respective termination) an absolute VaR model, in accordance with the requirements of the Central Bank, each of these Funds is or has been subject to an absolute VaR limit of 20% of the Fund's Net Asset Value. However, each of these Funds may from time to time experience or may have experienced (up to the date of their termination, respectively) a change in Net Asset Value over a 20 day holding period greater than 20% of Net Asset Value.

In addition to using the VaR approach, the Manager of FTGF Western Asset Macro Opportunities Bond Fund^, FTGF Western Asset Multi-Asset Credit Fund^, FTGF Western Asset Structured Opportunities Fund^, Western Asset UCITS SMASh Series Core Plus Completion Fund^, FTGF Brandywine Global Fixed Income Absolute Return Fund^, FTGF Brandywine Global Income Optimiser Fund, FTGF Brandywine Global Credit Opportunities Fund^, FTGF Brandywine Global Enhanced Absolute Return Fund^ and FTGF Brandywine Global Multi-Sector Impact Fund^ monitor or has been monitoring (up to the date of their termination, respectively) the leverage levels on a daily basis to monitor changes due to market movements. In addition, the respective Investment Managers and/or Sub-Investment Managers of each of these Funds shall carry out pre-trade testing to consider the impact that the trade would have on the relevant Fund's overall leverage and to consider the risk/ reward levels of the trade.

The lowest, average and highest VaR levels, at a 99% confidence level for a 20 day time horizon, for relevant Western Asset and Brandywine Funds, were as follows:

For the year ended 28 February 2025

Fund	Minimum	Average	Maximum
FTGF Western Asset Macro Opportunities Bond Fund^	3.15%	9.21%	12.58%
FTGF Western Asset Multi-Asset Credit Fund^	3.24%	4.12%	5.26%
FTGF Western Asset Structured Opportunities Fund^	1.34%	2.19%	3.96%
Western Asset UCITS SMASh Series Core Plus Completion Fund^	4.52%	5.89%	7.24%
FTGF Brandywine Global Fixed Income Absolute Return Fund^	2.66%	4.28%	6.89%
FTGF Brandywine Global Income Optimiser Fund	2.85%	3.54%	4.70%
FTGF Brandywine Global Credit Opportunities Fund^	1.89%	2.58%	3.79%
FTGF Brandywine Global Enhanced Absolute Return Fund^	0.94%	7.90%	8.83%
FTGF Brandywine Global Multi-Sector Impact Fund^	0.04%	3.43%	4.48%

For the year ended 29 February 2024

Fund	Minimum	Average	Maximum
FTGF Western Asset Macro Opportunities Bond Fund^	7.65%	12.29%	19.71%
FTGF Western Asset Multi-Asset Credit Fund^	4.88%	5.71%	7.25%
FTGF Western Asset Structured Opportunities Fund^	2.52%	3.25%	5.16%
Western Asset UCITS SMASh Series Core Plus Completion Fund^	4.55%	7.71%	9.37%
FTGF Brandywine Global Fixed Income Absolute Return Fund^	4.77%	5.59%	7.45%
FTGF Brandywine Global Income Optimiser Fund	3.87%	5.10%	5.84%
FTGF Brandywine Global Credit Opportunities Fund^	2.11%	4.52%	8.80%
FTGF Brandywine Global Enhanced Absolute Return Fund^	7.64%	8.23%	8.83%
FTGF Brandywine Global Multi-Sector Impact Fund^	3.39%	4.51%	5.24%

For Funds using VaR, leverage is calculated as the sum of the notionals of the derivatives used.

Average levels of leverage employed were as follows:

Fund	For the year ended 28 February 2025	For the year ended 28 February 2024
FTGF Western Asset Macro Opportunities Bond Fund^	966.85%*	1,522.96%
FTGF Western Asset Multi-Asset Credit Fund^	58.36%	95.37%
FTGF Western Asset Structured Opportunities Fund^	23.06%	24.33%
Western Asset UCITS SMASh Series Core Plus Completion Fund^	277.34%	415.50%
FTGF Brandywine Global Fixed Income Absolute Return Fund^	153.57%	191.10%
FTGF Brandywine Global Income Optimiser Fund	31.71%	64.20%

FTGF Brandywine Global Multi-Sector Impact Fund^	36.42%*	74.62%

^{*} up to the date when respective Fund ceased trading.

Stress testing is the examination of the potential effects on a Fund's financial condition of a set of specific changes in risk factors, relating to exceptional but possible events. Western Asset take a conservative approach by applying stress tests that are beyond the range of reasonably likely occurrences. Western Asset expect (although there is no assurance) that if FTGF Western Asset US Government Liquidity Fund is able to withstand stress tests that are beyond the range of reasonably likely occurrences, that the Net Asset Value per share (or any particular class of share) of this Fund, would remain stable in the event of reasonable negative market events.

A scenario based stress test can be used to meet the sensitivity analysis requirement of FRS 102. FRS 102 does not prescribe a specific basis point movement or percentage movement for sensitivity analyses. Accordingly for the purposes of this annual report, the monetary impact on FTGF Western Asset US Government Liquidity Fund of an instantaneous 25 basis points increase in short-term interest rates is shown:

	FTGF Western Asset US Government Liquidity Fund
As at 28 February 2025	(\$379,240)
As at 29 February 2024	(\$223,701)

(a) Market Price Risk

Each Fund's market price risk is monitored, but not managed, relative to an index. The indices as at 28 February 2025 and 29 February 2024 are outlined overleaf.

The following tables set out the index for each Fund, except for FTGF Western Asset Multi-Asset Credit Fund^, FTGF Western Asset Structured Opportunities Fund^, Western Asset UCITS SMASh Series Core Plus Completion Fund^, FTGF Brandywine Global Income Optimiser Fund, FTGF Brandywine Global Credit Opportunities Fund^, and quantify the probable impact to the value of the net asset value for each Fund based on positive and negative movement in the index, including one year beta for each Fund. Beta is a measure of a Fund's holdings' volatility in relation to the market or index. While beta offers a clear, quantifiable measure, it does not incorporate new information, and past price movements are not accurate predictors of the future.

^{*} The most probable outcome is based on a +5% outperformance or -5% underperformance against the actual current year benchmark performance.

The sensitivity analysis set out above should not be used as an indication of future performance.

The market price risk sensitivity analysis for FTGF Western Asset Macro Opportunities Bond Fund^ (as of the year ended 29 February 2024, as it ceased trading during the financial year ended 28 February 2025), FTGF Western Asset Multi-Asset Credit Fund^, FTGF Western Asset Structured Opportunities Fund^, Western Asset UCITS SMASh Series Core Plus Completion Fund^, FTGF Brandywine Global Fixed Income Absolute Return Fund^, FTGF Brandywine Global Fixed Proportunities Fund^, FTGF Brandywine Global Enhanced Absolute Return Fund^ (as of the year ended 29 February 2024, as it ceased trading during the financial year ended 28 February 2025) and FTGF Brandywine Global Multi-Sector Impact Fund^ (as of the year ended 29 February 2024, as it ceased trading during the financial year ended 28 February 2025) has been incorporated into the calculation of the market risk using the VaR approach (Note 12.1 above).

(b) Foreign Currency Risk

A portion of the financial assets of the Funds are denominated in currencies other than the US Dollar, Euro and British Pound (the functional currencies of the Funds) with the effect that the Statement of Financial Position and total return can be significantly affected by currency movements.

Western Asset have a strong bias to hedge all foreign currencies into the functional currency of the Fund's portfolio. Western Asset will typically leave only a small portion of the portfolio unhedged, and then only if the outlook strongly suggests that currency risk is attractive. In other portfolios, hedges are implemented whenever a currency is seen to be at risk of depreciating by more than the cost of the hedge transaction. Western Asset may cross-hedge into non-functional currencies – when permitted by guidelines, under severe limits (typically less than 5% of the portfolio), and seeking to reflect an exposure relative to the benchmark.

The following tables set out the Funds' net exposure to foreign currency as at 28 February 2025 and 29 February 2024.

Amounts represented below primarily are monetary assets and monetary liabilities except for investments in non-interest bearing securities, which include equities, which are non-monetary assets. Amounts noted below for forward foreign currency contracts represent the values to be received under the currency contracts and include foreign exchange hedging transactions. Whilst amounts noted for other derivatives represent the unrealised appreciation/(depreciation) at year end.

Certain Funds also have share classes issued in foreign currencies. Certain Funds (as indicated in the relevant Supplement to the Prospectus) may enter into forward foreign currency contracts, both deliverable and non-deliverable, to hedge against exchange risk, to increase exposure to a currency, to shift exposure to currency fluctuations from one currency to another, or to enhance return. Each Fixed Income Fund may also enter into options on forward foreign currency contracts, both deliverable and non-deliverable, which in exchange for a premium gives the Fund the option, but not the obligation, to enter into such a contract at some time before a specified date.

The following table sets out a sensitivity analysis in relation to foreign currency risk and its effect on the net asset value of the Funds where foreign currency risk is deemed significant. A snapshot of the underlying positions for all Funds was taken as at 28 February 2025 and 29 February 2024. Exchange rates were appreciated/depreciated by +/- 5% (given the nature of the markets that the Funds are invested in a 5% increase/decrease has been applied); the corresponding impact was estimated for the total net asset value. All other market parameters are also assumed unchanged.

Analysis is shown where significant foreign currency exposure is held on the Fund. Significant exposure is deemed to be in excess of 10% of net assets. Movements in all foreign currency exchange rates will have a direct impact on the net asset value. The foreign currency exchange rates as at 28 February 2025 and 29 February 2024 are listed in Note 11. This sensitivity analysis should not be used as a prediction of future performance.

The foreign currency risk sensitivity analysis for FTGF Western Asset Macro Opportunities Bond Fund^ (as of the year ended 29 February 2024, as it ceased trading during the financial year ended 28 February 2025), FTGF Western Asset Multi-Asset Credit Fund^, FTGF Western Asset Structured Opportunities Fund^, Western Asset UCITS SMASh Series Core Plus Completion Fund^, FTGF Brandywine Global Fixed Income Absolute Return Fund^, FTGF Brandywine Global Income Optimiser Fund, FTGF Brandywine Global Credit Opportunities Fund^, FTGF Brandywine Global Enhanced Absolute Return Fund^ (as of the year ended 29 February 2024, as it ceased trading during the financial year ended 28 February 2025) and FTGF Brandywine Global Multi-Sector Impact Fund^ (as of the year ended 29 February 2024, as it ceased trading during the financial year ended 28 February 2025) has been incorporated into the calculation of the market risk using the VaR approach (Note 12.1 above).

(c) Interest Rate Risk

A sensitivity analysis for the Equity Funds has not been prepared as the majority of the Equity Funds' assets are non-interest bearing assets and therefore the risk is not sufficiently material.

As at 28 February 2025 and 29 February 2024, all of the cash held by the Funds is held with the Depositary or other brokers and have the potential to yield interest income, the level of which will fluctuate according to the prevailing level of market interest rates.

The analysis of fixed, variable and non-interest bearing securities is disclosed in Note 12.1(b) above.

The weighted average yield and weighted average years to maturity of each Fund on its fixed rate instruments per currency as at 28 February 2025 and 29 February 2024 are as follows:

(d) Other Price Risk – Fair Value of Financial Assets and Financial Liabilities

In addition to the Committee, Franklin Templeton has established the Valuation Committee to oversee the implementation of the valuation policies and procedures adopted by the Board of Directors (the "Board"). The Valuation Committee, including the Chairperson, is comprised of no fewer than four members and no more than ten members. Representatives of Franklin Templeton Legal and Compliance will serve the Valuation Committee in an advisory capacity. The Valuation Committee meets on a monthly basis to review all securities which are manually priced, broker priced, matrix priced, fair valued, illiquid or stale. A Valuation Committee meeting, however, may be called at any time to consider any question or issue that falls under their procedures. Valuation Committee meetings can be in person, or via email or other writing.

Some Funds entered into derivative contracts during the year. The value of derivatives is based on certain underlying stocks or bonds, interest rates, currencies or indices and includes futures, options, options on futures, contracts for difference and swap agreements. Derivatives may be hard to sell at an advantageous price or time and are sensitive to changes in the underlying security, interest rate, currency or index. Therefore, derivatives can be highly volatile and could result in a loss to the Fund. Refer to the respective Funds' Portfolio of Investments for details of open derivative positions as at the financial year end.

Fair Value Estimation

In accordance with FRS 102, the Company has elected to apply the recognition and measurement provisions of International Accounting Standards ("IAS") 39 "Financial Instruments: Recognition and Measurement" ("IAS 39") as adopted for use in the European Union and the disclosure requirements of Sections 11 and 12 of FRS 102.

The fair value of financial instruments traded in active markets (such as publicly traded derivatives and trading securities) is based on quoted market prices at the Statement of Financial Position date. When a "readily available market quotation" for a security is not available, the Company employs "fair value" methodologies to price securities. As a general principle, fair value is the price that the Fund might reasonably expect to receive upon a current sale. The fair valuation process requires the Valuation Committee to make a determination in good faith as to the value of a particular security or group of securities depending on the particular facts and circumstances involved.

Circumstances in which a market quotation is not readily available may include, trading suspensions prior to the close of the relevant market; events that unexpectedly close entire markets such as natural disasters, power blackouts, or similar major events; market holidays; or volume of trading in a security.

When determining the fair value of a portfolio security, the Valuation Committee may consider all relevant methods, including but not limited to any one or all of the following pricing methods:

- (i) A multiple of earnings;
- (ii) A discount from market of a similar freely traded security;
- (iii) A discounted cash-flow analysis;
- (iv) The book value or a multiple thereof;
- (v) A risk premium/yield analysis;
- (vi) Yield to maturity; and/or
- (vii) Fundamental investment analysis.

12. Risk Exposure and Risk Management – (continued)

12.1 Market Risk – (continued)

(d) Other Price Risk – Fair Value of Financial Assets and Financial Liabilities – (continued)

The Valuation Committee reviews the appropriateness and accuracy of the methods used in fair valuing securities on a monthly basis including a comparison of fair values against the last market price and the next available market price, such as the next-day opening price.

The Company has classified fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1 inputs are unadjusted quoted prices in an active market for identical assets or liabilities that the entity can access at the measurement date.

Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable (i.e. developed using market data) for the asset or liability, either directly or indirectly.

Level 3 inputs are unobservable inputs (i.e. for which market data is unavailable) for the asset or liability.

An investment is always categorised as level 1, 2 or 3 in its entirety. In certain cases, the fair value measurement for an investment may use a number of different inputs that fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The assessment of the significance of a particular input to the fair value measurement requires judgement and is specific to the investment.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in these securities.

The following table analyses under the fair value hierarchy the Funds' financial assets and financial liabilities measured at fair value as at 28 February 2025:

Securities which are fair valued by the Manager or the respective Investment Manager as at 28 February 2025 are noted on the Portfolio of Investments. In the event a price is not available from a Pricing Service, the Valuation Committee may obtain one or more indicative quotes from approved broker-dealers.

Matrix pricing is used for Funds when the Valuation Committee is unable to obtain one or more broker-dealer quotes for a security for which there is no price available from a pricing service. Matrix pricing estimates a US Dollar-denominated security's current market value by using the most recent quote received from a broker-dealer and adjusting the price by the change in the yield of the US treasury security most similar in duration to the security being valued.

The following tables set out the value of securities for each Fund which have been priced using single broker sources and fair valued by the Valuation Committee as at 28 February 2025 and 29 February 2024:

For details of derivative assets and liabilities held for trading which were fair valued as at 28 February 2025, please refer to the Portfolio of Investments.

In certain circumstances the Company employs ICE Data Services ("ICE") adjusted pricing in the valuation of non-US equities. ICE calculates and supplies an adjusted closing price to use as a fair value price.

As at 28 February 2025, ICE adjusted pricing was applied to FTGF Brandywine Global Income Optimiser Fund, FTGF ClearBridge US Value Fund, FTGF ClearBridge US Appreciation Fund, FTGF ClearBridge US Aggressive Growth Fund, FTGF ClearBridge Tactical Dividend Income Fund, FTGF ClearBridge US Equity Sustainability Leaders Fund, FTGF ClearBridge Global Growth Leaders Fund, FTGF ClearBridge Global Infrastructure Income Fund, FTGF ClearBridge Global Sustainability Improvers Fund^, FTGF Royce US Small Cap Opportunity Fund, FTGF Royce US Smaller Companies Fund, FTGF Royce Global Small Cap Premier Fund^, FTGF Martin Currie Asia Long-Term Unconstrained Fund^, FTGF Martin Currie Blobal Emerging Markets Fund^, FTGF Martin Currie European Absolute Alpha Fund^, FTGF Martin Currie Global Long-Term Unconstrained Fund^, FTGF Martin Currie Global Emerging Markets Fund^, FTGF Martin Currie European Unconstrained Fund^ and FTGF Martin Currie Improving Society Fund^ (29 February 2024: ICE adjusted pricing was applied to FTGF Brandywine Global Income Optimiser Fund, FTGF ClearBridge US Appreciation Fund, FTGF ClearBridge US Appreciation Fund, FTGF ClearBridge US Appreciation Fund, FTGF ClearBridge Global Growth Fund, FTGF ClearBridge US Equity Sustainability Leaders Fund, FTGF ClearBridge Global Growth Fund, FTGF ClearBridge Global Sustainability Improvers Fund^, FTGF Martin Currie Asia Pacific Urban Trends Income Fund, FTGF Martin Currie Global Emerging Markets Fund^, FTGF Martin Currie European Unconstrained Fund^ and FTGF Martin Currie Improving Society Fund^().

12.2 Credit Risk

Credit risk is the risk that a counterparty to or issuer of a financial instrument will fail to discharge an obligation or commitment that it has entered into with a Fund. The Company will be exposed to credit risk on parties with whom it trades and will also bear the risk of settlement default. The relevant Investment Manager and/or Sub-Investment Managers minimise concentrations of credit risk by undertaking transactions with a large number of brokers and counterparties on recognised and reputable exchanges. All transactions in listed securities are settled/paid for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet its obligation.

Each Fund will be exposed to credit risk on the counterparties with whom it trades in relation to options, forward contracts and other derivative financial instruments that are not traded on a recognized exchange. Such instruments are not afforded the same protections as may apply to participants trading swaps, futures or options on organised exchanges, such as the performance guarantee of an exchange clearing house. The Funds will be subject to the possibility of the insolvency, bankruptcy or default of a counterparty with whom the Funds trade such instruments, which could result in substantial losses to the Funds.

The Company is exposed to credit risk on the OTC counterparties with whom it trades. All OTC counterparties must meet the following criteria as set out in the Regulations namely:

- (i) Be a credit institution in accordance with Regulation 7 of the Central Bank UCITS Regulations, or an investment firm authorised in accordance with the Markets in Financial Instruments Directive in an EEA Member State, or is an entity subject to regulation as a Consolidated Supervised Entity by the Securities and Exchange Commission, or
- (ii) Have a minimum credit rating of A2 or equivalent, or in the opinion of the relevant Investment Manager and/or Sub-Investment Managers, an implied credit minimum rating of A2 or equivalent.

Exposures to individual counterparties are normally limited to 10% of net asset value in the case of authorised credit institutions and 5% of net asset value in the case of other counterparties.

Transactions involving derivative financial instruments are usually with counterparties with whom the Company has signed master netting agreements. Master netting agreements provide for the net settlement of contracts for a particular Fund with the same counterparty in the event of default. The credit risk associated with derivative financial assets subject to a master netting arrangement is eliminated only to the extent that financial liabilities due to the same counterparty will be settled after the assets are realised.

Transactions resulting in large unrealised gains to a Fund may require a Fund to hold collateral received from a broker. In these instances, the credit risk to the Fund is reduced by the value of the collateral held. In the event a broker files for bankruptcy, in the U.S. (though regulations may vary by jurisdiction), collateral posted in connection with certain derivative financial instruments is exempt from the automatic stay implemented at the inception of a bankruptcy proceeding. This derivative financial instruments exemption would allow a Fund to immediately foreclose on collateral posted by the insolvent party in order to satisfy claims against such insolvent party.

The value of securities received as collateral in relation to derivatives trading held by the following Funds as at 28 February 2025 and 29 February 2024 was as follows:

Fund	Broker	As at 28 February 2025 Market Value of Collateral 000's	Market Value of Collateral 000's
FTGF Western Asset US Core Plus Bond Fund	BNP Paribas	\$-	\$79
FTGF Western Asset US Core Plus Bond Fund	Goldman Sachs	\$-	\$62
FTGF Western Asset Global Core Plus Bond Fund^	JP Morgan	\$47	\$69
FTGF Western Asset Macro Opportunities Bond Fund^	Bank of America Merrill Lynch	\$-	\$2,873
FTGF Western Asset Macro Opportunities Bond Fund^	BNP Paribas	\$-	\$8,658
FTGF Western Asset Macro Opportunities Bond Fund^	Goldman Sachs	\$-	\$79
FTGF Western Asset Macro Opportunities Bond Fund^	JP Morgan	\$-	\$1,581
FTGF Western Asset Multi-Asset Credit Fund^	Goldman Sachs	\$-	\$58
FTGF Western Asset US Mortgage-Backed Securities Fund^	Goldman Sachs	\$272	\$-
FTGF Western Asset US Mortgage-Backed Securities Fund^	Morgan Stanley	\$18	\$-

Amounts designated as "-" are either \$0 or less than \$1,000.

The Company monitors its risk by periodically considering the credit quality and financial positions of the counterparties which the Funds use. The Funds may only trade with approved counterparties. A list of approved counterparties is maintained and the Funds may only trade with these approved counterparties. Additions to this list are reviewed quarterly and a thorough re-evaluation of all counterparties is conducted annually. The review includes analysis of the counterparty's capital adequacy, profitability, liquidity and other factors as may be appropriate.

For efficient portfolio management purposes, each Fund may enter into repurchase agreements, reverse repurchase agreements and stock lending agreements subject to the conditions and limits set out in the Central Bank UCITS Regulations.

Until the expiry of the repurchase agreements, reverse repurchase agreements and the stock lending transactions; collateral obtained under such contracts or transactions:

- (i) must be marked to market daily;
- (ii) must equal or exceed, in value, at all times the value of the amount invested or securities loaned;
- (iii) must be transferred to the trustee, or its agent; and
- (iv) must be immediately available to the scheme, without recourse to the counterparty, in the event of a default by that entity.

Any non-cash collateral received by the Company cannot be sold or repledged; must be held at the credit risk of the counterparty; and must be issued by an entity independent of the counterparty. Credit risk is addressed through diversified use of counterparties and issuers, and through minimum security ratings and average portfolio ratings. The respective Investment Manager and/or Sub-Investment Managers may set portfolio limits and may invest based on internal parameters with mutually agreed limits set at a Fund's inception, including issue and issuer limitations, credit minimums, and an average credit quality, and the account is monitored on an ongoing basis to ensure it continues to meet these parameters. Rigorous independent analysis of all credit securities before purchase, including financial modeling, scenario analysis, and monitoring changes in risk profile may also be performed. Generally no more than 5% of the portfolio may be invested in any single corporate issuer at the time of purchase.

The Valuation Committee meets at least monthly and whenever the circumstances so require, to review and deliberate on valuation concerns including credit risk. The respective Investment Manager and/or Sub-Investment Managers provide risk analysis to the Board and the Committee on a semi-annual basis.

Substantially all of the cash and securities held by the Funds are held via the Depositary, who has a credit rating of AA- (29 February 2024: AA-). Bankruptcy or insolvency by the Depositary may cause the Funds' rights with respect to the cash held by the Depositary to be delayed or limited. The credit rating of the Depositary is highly rated by prominent rating agencies. If the credit quality or financial position of the Depositary deteriorates significantly, the respective Investment Manager and/or Sub-Investment Managers may move the cash holdings to another bank.

^ Not authorised for sale to the public in Hong Kong

12. Risk Exposure and Risk Management – (continued)

12.2 Credit Risk – (continued)

Any securities placed as collateral are disclosed on the Portfolio of Investments. Cash and cash equivalents held at the Depositary and margin accounts and restricted cash are disclosed in the Statement of Financial Position.

If a Fund has posted collateral to a counterparty, in a counterparty insolvency, that Fund may have the right under trading agreements with the counterparty to recall such posted collateral. In practice, however, the Fund may seek to reduce any amounts owed to the counterparty to settle any open transactions by setting off the amounts owed against the posted collateral. If the Fund was due back any collateral after setting off against the amounts owed (e.g., the Fund's position was over collateralised), it is likely the Fund would have an unsecured claim against the counterparty in the insolvency proceeding for the excess amount due to it.

To mitigate counterparty credit risk, certain over-the-counter derivatives are cleared through central clearing houses. Under this arrangement, trades entered with counterparties are given up to clearing houses, which after acceptance effectively replace the counterparty for the risk aspects of the trade.

The following table represents the market value of the securities which have been placed as collateral with brokers as at 28 February 2025 and 29 February 2024 in relation to derivatives trading:

Fund	Broker	As at 28 February 2025 Market Value of Collateral 000's	As at 29 February 2024 Market Value of Collateral 000's
FTGF Western Asset US Core Plus Bond Fund	Citi	\$14	\$-
FTGF Western Asset Global Multi Strategy Fund	Morgan Stanley	\$-	\$1
FTGF Western Asset Global Core Plus Bond Fund^	Citi	\$37	\$-
FTGE Western Asset Macro Opportunities Bond Fund^	Bank of America Merrill Lynch	\$ _	\$69 547

Amounts designated as "-" are either \$0 or less than \$1,000.

The portfolio is constructed on a bottom-up basis using Western Asset's fundamental value process. The investment team does not rely on rating agencies research; however, it evaluates their work and enhancement levels in securities. For securities that are not rated by a nationally recognized statistical rating organisation (NRSRO), the investment team assigns an internal credit rating based on the investment team's fundamental analysis.

12.3 Liquidity Risk

The Company's Prospectus provides for the daily creation and cancellation of shares and the Company is therefore exposed to the liquidity risk of meeting shareholder redemptions at any time

The Administrator monitors subscription and redemption volumes on a daily basis and notifies the relevant Investment Manager or Sub-Investment Managers of significant movements and unusual trends as appropriate. If redemption requests on any dealing day (as defined in the Prospectus) exceed 10% of the shares in issue in respect of any Fund, the Company may elect to restrict the total number of shares redeemed on that dealing day to 10% of the outstanding shares of the Fund, in which case all the relevant redemption requests shall be scaled down pro rata. The Company shall defer the excess redemption requests, and shall treat the deferred requests as if they were received for each subsequent dealing day (in relation to which the Company has the same power of deferral at the then prevailing limit) until all the shares to which the original request relates have been redeemed. In such cases, the Company may reduce requests pro rata on the next and following dealing days so as to give effect to the above limitation.

The Company may temporarily suspend the determination of the net asset value and the sale or redemptions of shares in any Fund during any period:

- (i) when any market is closed which is the main market for a significant part of the Fund's investments, or when trading thereon is restricted or suspended;
- (ii) when any emergency exists as a result of which disposal by the Company of investments which constitute a substantial portion of the assets of the Fund is not practically feasible;
- (iii) when for any reason the prices of any investments of the Fund cannot be reasonably, promptly or accurately ascertained by the Fund;
- (iv) when remittance of monies which will, or may be, involved in the realisation of, or in the payment for, investments of the Fund cannot, in the opinion of the Directors, be carried out at normal rates of exchange; or
- (v) when proceeds of the sale or redemption of the shares cannot be transmitted to or from the Fund's accounts.

The Company has the ability to borrow in the short term to ensure settlement. In accordance with the UCITS Regulations a Fund may borrow money only as follows:

- (a) a Fund may acquire foreign currency by means of a ''back-to-back'' loan; and
- (b) a Fund may borrow:
 - (i) up to 10% of its net asset value provided that such borrowing is on a temporary basis; and
 - (ii) up to 10% of its net asset value provided that the borrowing is to make possible the acquisition of real property required for the purpose of its business;

provided that such borrowing referred to in subparagraph b (i) and b (ii) may not in total exceed 15% of the borrower's assets.

Global Credit Facility

The Company together with other European and U.S. registered investment funds managed by Franklin Templeton Investments (individually, "Borrower", collectively, "Borrowers"), entered into a joint syndicated senior unsecured credit facility totalling US\$2,675 million (the "Global Credit Facility") to provide a source of funds to the Borrowers for temporary and emergency purposes, including the ability to meet future unanticipated or unusually large redemption requests.

Under the terms of the Global Credit Facility, the Company will, in addition to interest charged on any borrowings made by the Company and other costs incurred by the Company, pay its share of fees and expenses incurred in connected with the implementation and maintenance of the Global Credit Facility, based upon its relative share of the aggregate net assets of all of the Borrowers, including an annual commitment fee based upon the unused portion of the Global Credit Facility.

All of the Funds of the Company, with the exception of FTGF Western Asset US Government Liquidity Fund, are within the scope of the Global Credit Facility.

One of the responsibilities of the Valuation Committee is to review and deliberate on valuation concerns, including illiquid securities. The Company may from time to time invest in derivative contracts traded over-the-counter, which are not traded in an organised public market and may be illiquid. As a result, the Company may not be able to liquidate quickly its investments in these instruments at an amount close to their fair value in order to meet its liquidity requirements or to respond to specific events such as deterioration in the creditworthiness of any particular issuer.

The tables below have been prepared based on the undiscounted gross cash outflows relating to respective financial liabilities. The forward foreign currency contracts included in the tables below settle on a gross basis. Please refer to the relevant Portfolio of Investment for details of gross settlement amounts on these contracts.

13. Disclosure for Cross Investments by Funds within the Company

Certain Funds invest in other Funds of the Company. These cross investments have been eliminated in the financial statements of the Company, as follows:

- the market values of the underlying collective investment schemes have been eliminated in the total Company amounts in the Statement of Financial Position:
- the realised gains and losses, including movements in unrealised gains and losses, and the relevant dividend income and distributions on the cross investments have been eliminated in the total Company amounts disclosed in the Statement of Comprehensive Income; and
- the monetary amounts of purchases and sales of units in such collective investment schemes have been eliminated from the net proceeds from sales of shares and cost of shares reacquired, respectively, in the total Company amounts disclosed in the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares.

FTGF Brandywine Global Enhanced Absolute Return Fund^

FTGF Brandywine Global Enhanced Absolute Return Fund^ held Nil (2024: 29,816) shares in FTGF Brandywine Global Credit Opportunities Fund^ at the year end. Transactions involving these shares and the related gains, losses and distributions during the year were:

		ne Global Credit ities Fund^

14. Significant Events

On 14 March 2024, an updated Supplement of Franklin Responsible Income 2029 Fund^ was issued by the Company and noted by the Central Bank.

Effective 27 March 2024, Franklin Responsible Income 2029 Fund^ commenced trading.

Effective 1 April 2024, the Company Secretary has been changed from Bradwell Limited to OGS Corporate Governance Limited.

On 30 April 2024, authorisations for Legg Mason Western Asset EM Local Currency Debt Fund^ and Legg Mason Western Asset Global Total Return Investment Grade Bond Fund^ were revoked, at the request of the Company, by the Central Bank.

On 31 May 2024, a new version of the Prospectus was noted by the Central Bank. The primary purpose of the updated Prospectus was to facilitate a change in the naming convention across a number of share classes of the Company. In addition, the FTGF ClearBridge Value Fund changed its name to FTGF ClearBridge US Value Fund. Please further note that some additional amendments were carried out on certain Funds, as necessary and, as set out in the notice to Shareholders dated 12 April 2024.

In addition to the above, the investment policy in respect of FTGF Brandywine Global Fixed Income Fund was also materially amended. These amendments included: (i) a reduction of emerging market country exposure, (ii) amendments to the average weighted duration limits, (iii) a change of benchmark, (iv) change of targeted returns and (v) an introduction of currency exposure limits. The changes to the policy were approved by the Shareholders of the Fund at an EGM held on 8 May 2024 and were noted by the Central Bank on 31 May 2024.

Effective 31 May 2024, FTGF ClearBridge Value Fund was re-named to FTGF ClearBridge US Value Fund.

Effective 17 July 2024, FTGF Brandywine Global Enhanced Absolute Return Fund^ ceased trading.

Effective 26 July 2024, FTGF Martin Currie Asia Pacific Urban Trends Income Fund^ ceased trading

Effective 29 July 2024, FTGF Western Asset Euro Core Plus Bond Fund^ ceased trading.

Effective 30 August 2024, Jaspal Sagger was appointed as Director to the Board of Directors of FTIS.

Effective 29 October 2024, FTGF Western Asset Macro Opportunities Bond Fund^ ceased trading.

Effective 31 October 2024, FTGF ClearBridge Global Growth Fund^ was re-named to FTGF ClearBridge Global Growth Leaders Fund^.

^ Not authorised for sale to the public in Hong Kong.

Notes to Financial Statements – (continued)

14. Significant Events – (continued)

As a result of the recent purchase of Putnam Investments by Franklin Resources, Inc ("Franklin Templeton"), new sub-funds called FTGF Franklin Ultra Short Duration Income Fund^, FTGF Franklin Global High Yield Bond Fund^ and FTGF Putnam US Large Cap Growth Fund^ (the "New Funds") have been created on behalf of the Company, for the purpose of merging Putnam Ultra Short Duration Income Fund, Putnam Global High Yield Bond Fund and Putnam U.S. Large Cap Growth Fund (the "Merging Funds") into the New Funds (the "Merger"). On 25 October 2024, an updated Main Prospectus, which included the New Funds' Supplements, was issued by the Company and noted by the Central Bank.

On 31 October 2024, a new version of the Prospectus was issued by the Company and noted by the Central Bank. The primary purpose of the updated Prospectus was to facilitate a change in the name of ClearBridge Global Growth Fund to ClearBridge Global Growth Leaders Fund and some additional amendments or clarifications carried out on certain Funds' investment policies, benchmarks or performance target changes, ESG disclosures, binding elements and exclusions, as necessary and, as set out in the notice to Shareholders dated 17 September 2024.

On 19 November 2024, authorisation for Legg Mason ClearBridge Global Equity Fund was revoked, at the request of the Company, by the Central Bank.

Effective 19 December 2024, FTGF Brandywine Global Multi-Sector Impact Fund^ ceased trading.

On 21 January 2025, a Supplement of FTGF Putnam US Large Cap Value Fund^, a Supplemental Prospectus and a Specialist Prospectus for Franklin Templeton Global Funds Plc were issued by the Company and noted by the Central Bank.

On 14 February 2025, a Supplement of FTGF Brandywine Global Opportunistic Equity Fund^, a Supplemental Prospectus and a Specialist Prospectus for Franklin Templeton Global Funds Plc were issued by the Company and noted by the Central Bank.

On 27 February 2025, an updated Supplement of FTGF Brandywine Global Opportunistic Equity Fund^ was issued by the Company and noted by the Central Bank.

There have been no other significant events during the financial year ended 28 February 2025.

15. Segregated Liability

The Company is an umbrella fund with segregated liability between its Funds. As such, as matter of Irish law the assets of each of the Funds will not be exposed to the liabilities of the Company's other Funds. Notwithstanding the foregoing there can be no assurance that, should an action be brought against the Company in the court of another jurisdiction, the segregated nature of the Funds would necessarily be upheld.

16. Subsequent Events

Effective 14 March 2025, FTGF Putnam US Large Cap Value Fund^ commenced trading.

On 19 March 2025, an updated Supplement of FTGF Franklin Ultra Short Duration Income Fund^ was issued by the Company and noted by the Central Bank.

Effective 24 March 2025, FTGF Brandywine Global Opportunistic Equity Fund^ commenced trading

Effective 4 April 2025, FTGF Franklin Ultra Short Duration Income Fund^, FTGF Franklin Global High Yield Bond Fund^ and FTGF Putnam US Large Cap Growth Fund^, which have been created as a result of the Merger, commenced trading.

On 23 April 2025, a Supplement of FTGF Putnam Balanced Fund^, a Specialist Prospectus and the existing Funds of the Company Supplement for Franklin Templeton Global Funds Plc were issued by the Company and noted by the Central Bank.

Effective 28 April 2025, a Supplemental Prospectus for Franklin Templeton Global Funds plc and a Supplement for FTGF Putnam US Research Fund were issued by the Company and noted by the Central Bank. As of the date of the Supplemental Prospectus, FTGF ClearBridge US Appreciation Fund was renamed to FTGF Putnam US Research Fund, and the Investment Manager changed from ClearBridge Investments, LLC to The Putnam Advisory Company, LLC. Effective the same date, FTGF ClearBridge Global Sustainability Improvers Fund^ was renamed to FTGF ClearBridge Global Value Improvers Fund^

On 8 May 2025, authorisations for Legg Mason Western Asset Emerging Markets Corporate Bond Fund^, Legg Mason Western Asset Euro High Yield Fund^, Legg Mason Brandywine Global Sovereign Credit Fund^, Legg Mason ClearBridge Emerging Markets Infrastructure Fund^ and Legg Mason Martin Currie European Absolute Alpha Fund^ were revoked, at the request of the Company, by the Central Bank

On 14 May 2025, a Supplement of FTGF Putnam Global Healthcare Fund^ was issued by the Company and noted by the Central Bank.

On 21 May 2025, an updated Supplement of FTGF Putnam Balanced Fund^ and an updated Supplement of FTGF Franklin Ultra Short Duration Income Fund^ were issued by the Company and noted by the Central Bank.

Effective 27 May 2025, FTGF Putnam Balanced Fund^ commenced trading.

Effective 30 May 2025, FTGF Putnam Global Healthcare Fund^ commenced trading.

With effect from 7 July 2025, FTGF Martin Currie Improving Society Fund^ will cease trading

With effect from 14 July 2025, FTGF Martin Currie Global Long-Term Unconstrained Fund^ will be renamed to FTGF Franklin Global Long-Term Unconstrained Fund^ and FTGF Martin Currie European Unconstrained Fund^ will be renamed to FTGF Franklin European Unconstrained Fund^, respectively. Effective the same date, their Investment Manager will change from Martin Currie Investment Management Limited to Franklin Templeton Investment Management Limited.

There were no other material events subsequent to the Statement of Financial Position date which require disclosure in the financial statements

17. Approval of the Annual Report and Audited Financial Statements

Fund Performance Data do not take account of the commissions and costs incurred on the issue and redemption of shares.

Past performance is no indication of current or future performance.

Statement of Major Portfolio Changes (unaudited)

For the year ended 28 February 2025

In accordance with the UCITS Regulations, a statement of significant changes in the composition of each Fund's Portfolio of Investments during the reporting year is provided to ensure that shareholders can identify changes in the investments held by each of the Funds. These are defined as the aggregate purchases and sales of an investment (including maturities but excluding financial derivative instruments) exceeding 1.00% of the total value of purchases and sales for the year. At a minimum the largest twenty purchases and twenty sales are listed. If a Fund entered into less than twenty purchases or sales during the reporting year, then all transactions are presented.

UCITS V Remuneration Policy (unaudited)

Remuneration

Franklin Templeton International Services S.à.r.l. ("FTIS"), as UCITS licensed management company (the "Management Company") has a remuneration policy (the "Policy") in place which applies to all UCITS funds (each a "UCITS" and together the "UCITS") under its management. The Policy has been designed to discourage excessive risk taking, integrating in its performance management systems risk criteria specific to the business units it covers. The policy has a governance structure aimed at preventing internal conflicts of interest.

There are defined procedures in place for the creation, update, review and approval of the Policy as well as for communication and implementation of the Policy. Senior Management, Human Resources, Compliance and other functions are all involved in this process and the Policy is approved by Senior Management and the Board of Directors of the Management Company.

Fixed remuneration is defined as base salary plus other benefits which may include pension contributions, life assurance premiums or private medical insurance premiums. Levels of fixed remuneration are set with reference to job complexity, level of responsibility, performance and market benchmarking data. These levels are reviewed on a regular basis.

Variable remuneration is defined as annual bonuses, long term awards in the form of performance share grants or sales bonus payments. Levels of variable remuneration are set with reference to overall corporate and business unit performance as well as individual performance.

The full Policy is available at the registered office of the Management Company. Quantitative information relevant to the Funds is outlined below:

Total amount of fixed remuneration paid by FTIS and its delegates during the year ended 30 September 2024*,**,***	€10,890,555

- * The total amount of compensation paid by FTIS has been allocated to each UCITS based on their pro rata share of the average month end total net assets of FTIS for the year ended 30 September 2024.
- ** The total amount of compensation paid by the FTIS delegates has been allocated to each UCITS based on their pro rata share of the average month end total net assets of the FTIS delegates for the year ended 30 September 2024.
- *** Delegates are Investment Management entities which are subject to regulatory requirements that are equally as effective as those under Article 69(3)(a) of the UCITS Directive.

Appendix: Securities Financing Transactions Regulation (SFTR) (unaudited)

The following tables detail the gross aggregate notional value for Reverse Repurchase Agreements as well as the absolute fair value as a proportion of each Fund's net asset value, analysed by counterparty, as at 28 February 2025:

Reverse Repurchase Agreements

FTGF Western Asset US Government Liquidity Fund

Counterparty	Country of Incorporation	Gross Aggregate Notional Value ('000) \$	Absolute Fair Value ('000) \$	% of Net Asset Value
Canadian Imperial Bank of Commerce	Canada	140,000	140,000	8.33
HSBC Bank (USA)	United Kingdom	75,000	75,000	4.46
JP Morgan Securities LLC	United States	150,000	150,000	8.92
Royal Bank of Canada	Canada	50,000	50,000	2.98
TD Securities (USA) LLC	Canada	22,443	22,443	1.34
		437,443	437,443	26.03

The following table lists the ten largest collateral issuers based on the value of non-cash collateral received and the currency of non-cash collateral received as at 28 February 2025:

			Aggregate value of collateral held
Fund	Collateral Issuer*	Currency	(000's)
FTGF Western Asset US Government Liquidity Fund	United States**	US Dollar	\$446,327

Where there are less than ten collateral issuers as at 28 February 2025, all issuers have been included.

The following table provides an analysis of the type and quality of non-cash collateral received as at 28 February 2025:

			Aggregate value of collateral held
Fund	Type of collateral	Quality of collateral	(000's)
FTGF Western Asset US Government Liquidity Fund	Government Bonds and Notes	Investment Grade	\$446,327

The below maturity tenor analysis has been based on the contractual maturity date of the Reverse Repurchase Agreements and the associated collateral received/(provided) as at 28 February 2025:

Fund	Type of derivative/collateral	Less than 1 day (000's)	1 day to 1 week (000's)	1 week to 1 month (000's)	1 month to 3 months (000's)	3 months to 1 year (000's)	Above 1 year (000's)	Open maturity (000's)	Total (000's)
FTGF Western Asset US Government Liquidity Fund	Reverse Repurchase Agreements Non-Cash Collateral Received	-	\$437,443	_	<u>-</u>	- \$829	- \$445.498		\$437,443 \$446.327

Reverse Repurchase Agreements held on FTGF Western Asset US Government Liquidity Fund are tri-party agreements. Collaterals received by the Fund, in respect of the open Reverse Repurchase Agreements as at 28 February 2025, are held with The Bank of New York Mellon, in segregated accounts in the name of the Company. Collateral received is not reused.

All costs and returns on Reverse Repurchase Agreements accrue to the Fund in full.

[&]quot;* Underlying bonds & notes held as collateral are issued by the United States Treasury.

Appendix: Connected Persons Disclosure (unaudited)

During the financial year ended 28 February 2025, Pershing Limited, a subsidiary of The Bank of New York Mellon Corporation and a connected person of the Depositary, provided brokerage services in relation to securities trading to the Hong Kong registered Funds, enacted via the Sub-Investment Managers of the respective Funds. The total aggregate value of transactions with the connected persons of the Depositary in regard securities trading amounted to U\$\$309 million which represents 0.09% of the total value of such transactions entered into by these Funds. Brokerage fees and commissions paid by the Funds to Pershing Limited in relation to such securities trading for the financial year ended 28 February 2025 amounted to U\$\$59,531 with an average commission rate of 2 bps. These have been included within the transaction costs on purchases and sales of relevant securities and are disclosed in Note 4 of these Financial Statements.

During the financial year ended 28 February 2025, The Bank of New York Mellon (Institutional Bank) and The Bank of New York Mellon SA/NV, both connected persons of the Depositary, acted in custody foreign exchange transactions and in Currency Administration / Hedging programmes, respectively, for the Hong Kong registered Funds. Total commissions paid in relation to these transactions amounted to US\$998,889 with an average commission rate of 0.23 bps. The total aggregate value of transactions with the connected persons of the Depositary in that regard amounted to US\$43,505 million which represents 2.74% of the total value of such transactions entered into by the Funds.

All transactions with the connected persons of the Depositary were entered into the ordinary course of business and on normal commercial terms.

Appendix: Sustainability Finance Disclosure Regulation (unaudited)

The Sustainable Finance Disclosure Regulation ((EU) 2019/2088), (the "SFDR") requires the Company to include a description in its periodic reports of the extent to which any Fund classified pursuant to Article 8 of the SFDR (an "Article 8 Fund") or Article 9 Fund") has met its environmental or social characteristics. The SFDR also empowered the European Banking Authority, the European Insurance and Occupational Pensions Authority and the European Securities and Markets Authority (collectively "ESAs") to develop draft regulatory technical standards ("RTS") to specify the information and presentation format in the periodic reports.

The following Appendix includes each SFDR Article 8 and Article 9 Fund's periodic disclosure, which have been prepared using the common set of sustainability disclosures or reporting requirements of the RTS which came into effect on 1 January 2023. The asset classifications in the following disclosures are based upon MSCI and may differ to the classification of the securities in the Portfolios of Investments

FTGF Western Asset US Core Bond Fund (the "Fund")

Legal Entity Identifier: 549300WRHLJECFCSP797

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

Did this financial product have a sustainable investment objective? **⋈** NO ☐ YES 00 It promoted Environmental/Social ☐ It made sustainable investments with an characteristics and while it did not have as its environmental objective: 0.00% objective a sustainable investment, it had a proportion of 1.37% of sustainable investments in economic activities that qualify as with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy environmentally sustainable under the EU Taxonomy with an environmental objective in economic in economic activities that do not qualify as activities that do not gualify environmentally sustainable under the EU environmentally sustainable under the EU Taxonomy with a social objective ☐ It made sustainable investments with a ☐ It promoted E/S characteristics, but did not social objective: 0.00% make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted the following environmental and/or social characteristics:

- alignment with one or more UN Sustainable Development Goals ("SDGs") through investment in green, social, sustainable and sustainability-linked bonds and through best-in-class investments;
- alignment with the following PAI indicators:
- o GHG Intensity (PAI #3 and PAI #15);
- o Social and Employee Matters (PAI #10); and
- Controversial Weapons (PAI #14).

Derivative instruments have not been used to attain the environmental and/or social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental and/or social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The sustainability indicators used to measure the attainment of each of the environmental or social characteristics promoted by the Fund were:

- The PAI indicators mentioned in the answer above. Please refer to the values displayed in the section "How did this financial product consider principal adverse impacts on sustainability factors?" which represent the performance of the indicators during the reference period.
- the allocation to green, social, sustainable and sustainability-linked bonds was at 1.37% as of 28 February 2025.

		PAI historical comparison					
		:	2025	:	2024	:	2023
PAI indicators	Unit of measurement	Value	Coverage	Value	Coverage	Value	Coverage
GHG Intensity USD	tCO2e/M\$ revenue	121.92	96.00%	109.18	64.62%	121.00	95.90%
GHG Intensity of investee countries USD	tCO2e/M\$ revenue	188.33	100.00%	203.33	100.00%	235.40	100.00%
Violations of UNGC principles and OECD Guidelines	Percentage of Fund invested	0.00%	19.72%	0.00%	65.42%	0.00%	95.00%
Exposure to controversial weapons	Percentage of Fund invested	0.00%	69.22%	0.00%	65.42%	0.00%	95.00%

… And compared to previous periods?

The general sustainability indicators are in line with those in the previous period.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

The Fund's sustainable investments were in green, social, sustainable and sustainability-linked bonds which were achieved through a minimum allocation of 20% to issuers aligned with one or several of the UN SDGs and issuers that met best-in-class thresholds set by the Investment Manager. Such bonds had sustainability-linked KPIs, or had proceeds which were used for projects which included, but were not limited to:

- Green Projects: renewable energy, energy efficiency, pollution prevention and control, environmentally sustainable
 management of living natural resources and land use, biodiversity, clean transportation, sustainable water and
 wastewater management, climate change adaptation, circular economy and green buildings; and
- Social Projects: affordable housing, affordable infrastructure (clean drinking water, sanitation), employment
 programmes and socio-economic advancement such as, but not restricted to, education, diversity, equality and
 inclusion to name a few.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Investment Manager used proprietary research and PAIs to ensure that sustainable investments did not cause significant harm to any material environmental and/or social sustainable investment objective. Proprietary research, along with the use of inhouse developed tools, including but not limited to negative screening, enabled portfolio managers to identify issuers that the Investment Manager does not believe cause significant harm.

As a result, the Investment Manager was able to invest in issuers which aligned with the PAI indicators while avoiding issuers which did not. As part of the Fund's investment in green, social, sustainable and sustainability-linked bonds, the Investment Manager applied this approach to determine whether a bond met sustainability criteria.

Additionally, sovereign issuers were subjected to tests based on their political liberties and/or corruption.

When deploying funds to sustainable investments, especially the minimum 1% of the Fund committed towards environmental objectives, where relevant, the Investment Manager utilised additional qualitative assessment (based on internal research or on external third-party opinion) of the issuers and of the projects "do no significant harm" eligibility.

Further, a number of exclusions were applied to the Fund to preclude issuers that may cause significant harm, as detailed further below.

-How were the indicators for adverse impacts on sustainability factors taken into account?

The Investment Manager developed a proprietary PAI tool which took into account material PAIs and which helped measure the Fund's alignment with respect to PAI indicators that were deemed to be material to the Fund.

PAIs served as a useful barometer to gauge which issuers to seek to invest in. More specifically, PAI #3 was utilised for assessment of corporate GHG intensity and PAI #15 for sovereign GHG intensity respectively, PAI #10 was utilised to identify issuers that fail as per UNGC Principles and OECD Guidelines; and PAI #14 was utilised to identify issuers that fail controversial weapons screens across the whole Fund compared to those in the investable universe.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

While the Fund did not commit to having a PAI average better than its Benchmark, the difference between the two metrics helped to inform how successful the Fund was at managing adverse impacts.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Fund adhered to explicit guidelines which excluded issuers that failed as per UNGC Principles and OECD Guidelines. The Investment Manager's engagement with issuers was built on the principles of UNGC Principles and OECD Guidelines. Issuers that were deemed to fail as per UNGC Principles and OECD Guidelines were added to the Investment Manager's ESG Red List which was then utilised to exclude issuers from being an eligible investment in the Fund. Where relevant and where it had concerns, the Investment Manager sought to engage with issuers which may or may not have explicitly failed as per the underlying guidelines.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The manner in which PAIs were considered and taken into account is set out in further detail above.

PAI metrics provided are based on the average calculation of quarterly snapshots during the reference period. The relevant metric calculation relates to the investments for which the underlying ESG data is available rather than all investments held by the Fund. Please note that this information is subject to change and should be used for informational purposes only.

What were the top investments of this financial product?

The largest investments of this Fund during the reference period, excluding cash and derivatives, were:

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is - 2024-03-01 - 2025-02-28.

Largest investments	Sector	% of Assets	Country
Federal National Mortgage Association	Financials	17.57%	United States
United States of America	Financials	16.48%	United States
Freddie Mac	Financials	10.53%	United States
WELLS FARGO & COMPANY	Financials	2.42%	United States
BANK OF AMERICA CORPORATION	Financials	2.18%	United States
UBS Group AG	Financials	1.92%	Switzerland

What was the proportion of sustainability-related investments?

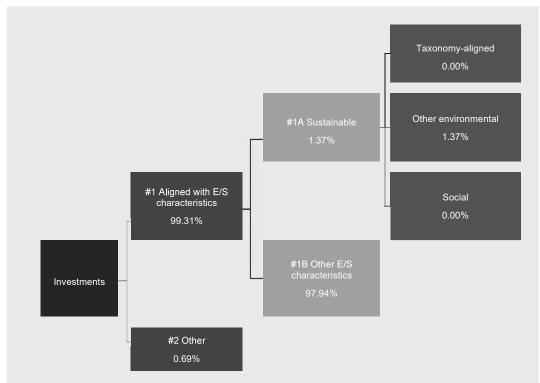

The proportion of sustainability-related investments was 1.37%

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

99.31% of the Fund was aligned with the environmental and/or social characteristics promoted by the Fund. The remaining portion (0.69%) was not aligned with the promoted characteristics and consisted primarily of liquid assets or issuers for which no ESG rating was available.

Out of the Fund's segment which was aligned with the promoted environmental and/or social characteristics, the Fund invested 1.37% of its assets in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category #1A Sustainable covers environmentally and socially sustainable investments.
- The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

	Asset Allocation historical comparison				
	2025	2024	2023		
Investment Category	Proportion of Investments	Proportion of Investments	Proportion of Investments		
#1 Aligned with E/S characteristics	99.31%	94.20%	92.20%		
#2 Other	0.69%	5.80%	7.80%		
#1A Sustainable	1.37%	3.55%	3.30%		
#1B Other E/S characteristics	97.94%	90.65%	88.90%		
Taxonomy-aligned	N/A	N/A	N/A		
Other environmental	1.37%	3.55%	3.30%		
Social	N/A	N/A	N/A		

In which economic sectors were the investments made?

The top sectors and sub-sectors of this Fund during the reference period, excluding cash and derivatives, were:

Top sector	% of Assets
Financials	69.99%
Government Bonds	9.05%
Energy	4.94%
Communication Services	3.79%
Health Care	3.68%
Consumer Discretionary	1.76%
Information Technology	1.72%
Utilities	1.30%
Industrials	1.12%
Materials	0.84%
Consumer Staples	0.62%
Real Estate	0.49%
Top sub-sector	% of Assets
Financial Services	57.42%
Government Bonds	9.05%
Banks	8.43%
Oil, Gas & Consumable Fuels	4.79%
Capital Markets	2.99%
Media	1.61%
Health Care Providers & Services	1.46%
Diversified Telecommunication Services	1.34%
Pharmaceuticals	1.01%
Electric Utilities	0.83%
Broadline Retail	0.81%
Semiconductors & Semiconductor Equipment	0.80%
Biotechnology	0.74%
Metals & Mining	0.70%
Metals & Milling	0.7070

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- operational expenditure (OpEx) reflecting the green operational activities of investee companies.

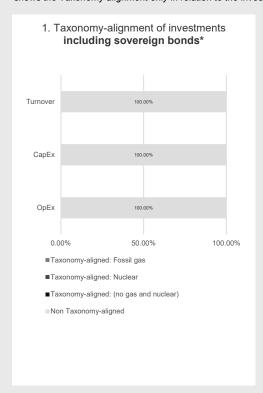

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

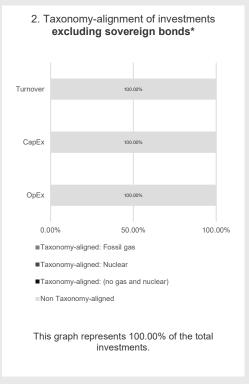

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?¹

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

- * For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures
- What was the share of investments made in transitional and enabling activities?
 The Fund did not invest in transitional and enabling activities.
- How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

In line with its investment strategy, namely, the Fund's commitment to maintain a minimum exposure to 'sustainable investments' with an environmental objective as per the SFDR art. 2(17) that do not qualify as environmentally sustainable under the EU Taxonomy Regulation, 1.37% of the Fund was comprised of 'sustainable investments' with an environmental objective that do not qualify as environmentally sustainable under the EU Taxonomy.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The proportion of investments under '#2 Other' was 0.69% and included cash and derivatives or other issuers for which there were no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Western Asset believes that financially material ESG factors can affect the creditworthiness of fixed-income issuers' securities and therefore impact the performance of fixed-income investment portfolios. These factors are wholly consistent with the Firm's long-term, fundamental value-oriented investment philosophy. Western Asset's research analysts were responsible for providing fundamental analysis at the industry and issuer levels and for opining on industry and issuer risk/reward characteristics by incorporating financially material ESG considerations. Supported by this broader approach, the Fund aimed to meet its environmental and social characteristics by seeking to invest in issuers such that the overall portfolio met minimum ESG ratings, achieved its decarbonisation and SDG alignment, as well as avoided issuers which were identified through application of SRI exclusions, allocated to sectors and invested in issuers targeting.

In order to meet the environmental and/or social characteristics during the reference period:

- A. The Fund sought an average MSCI ESG rating of BBB or better
- B. The Fund sought an overall Weighted Average Carbon Intensity ("WACI") that was at least 20% below the Benchmark. This helped the Fund align with PAI #3 and PAI #15 (GHG Intensity).
- C. The Fund sought to align, better than the Benchmark, with regards to investments in securities of issuers whose activities contributed to at least 1 of 8 selected SDGs.
- D. The Fund excluded issuers that failed on a range of SRI goals such as outlined below:
- a. Issuers deriving over 5% of revenue from tobacco production and/or distribution and from the production of nuclear weapons;
- b. Issuers deriving over 10% of revenue from civilian firearms (manufacture or supply), conventional weapons or thermal coal mining (production or distribution);
- c. Issuers that manufacture controversial weapons (anti-personnel landmines, biochemical weapons, blinding laser weapons, depleted uranium, incendiary weapons, and non-detectable fragments), own a controversial weapons company, or are owned by a controversial weapons company, aligning with PAI indicator #14 (Controversial Weapons);
- d. Issuers that 'Fail' UNGC and OECD principles based on internal research which seeks to identify gaps in issuers meeting their goals, aligning with PAI indicator #10 (Social and Employee Matters).

As part of the minimum 1% investment in sustainable investments (defined to be green, social, sustainable and sustainability-linked bonds), the Fund had1.37% invested by market value % as of 28 February 2025.

The Fund met its environmental and/or sustainable guidelines as highlighted below:

- A. The Fund was rated _A_ as per MSCI ESG.
- B. The Fund's overall WACI was 61.2% of the Benchmark.
- C. The Fund's allocation to issuers and issues aligned with SDGs was 26.1%
- D. The Fund had 1.37% invested in sustainable investments by market value % as of 28 February 2025.
- E. The Fund did not hold any issuers that were in breach of SRI guidelines.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote. Not applicable.

FTGF Western Asset US Core Plus Bond Fund (the "Fund")

Legal Entity Identifier: 472PNIHDHJOEBNUD0P21

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance

practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

Did this financial product have a sustainable investment objective? ☐ YES **⋈** NO 00 promoted Environmental/Social (E/S) ☐ It made sustainable investments with an characteristics and while it did not have as its environmental objective: 0.00% objective a sustainable investment, it had a proportion of 2.42% of sustainable investments in economic activities that qualify as with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy environmentally sustainable under the EU Taxonomy with an environmental objective in economic in economic activities that do not qualify as activities that do not qualify environmentally sustainable under the EU environmentally sustainable under the EU Taxonomy with a social objective ☐ It made sustainable investments with a ☐ It promoted E/S characteristics, but did not make any sustainable investments social objective: 0.00%

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted the following environmental and/or social characteristics: $\begin{tabular}{ll} \hline \end{tabular}$

- alignment with one or more UN Sustainable Development Goals ("SDGs") compared to the Fund's Benchmark through investment in green, social, sustainable and sustainability-linked bonds and through best-in-class investments;
- alignment with the following PAI indicators:
 - o GHG Intensity (PAI #3 and PAI #15);
 - Social and Employee Matters (PAI #10); and
 - Controversial Weapons (PAI #14).

Derivative instruments have not been used to attain the environmental and/or social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental and/or social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The sustainability indicators used to measure the attainment of each of the environmental or social characteristics promoted by the Fund were:

- The PAI indicators mentioned in the answer above. Please refer to the values displayed in the section "How did this financial product consider principal adverse impacts on sustainability factors?" which represent the performance of the indicators during the reference period.
- the allocation to green, social, sustainable and sustainability-linked bonds was at 2.42% as of 28 February 2025.

		PAI historical comparison					
		:	2025	2	2024	2	2023
PAI indicators	Unit of measurement	Value	Coverage	Value	Coverage	Value	Coverage
GHG Intensity USD	tCO2e/M\$ revenue	817.96	63.34%	151.54	72.43%	149.90	93.20%
GHG Intensity of investee countries USD	tCO2e/M\$ revenue	311.36	18.04%	183.19	100.00%	232.10	100.00%
Violations of UNGC principles and OECD Guidelines	Percentage of Fund invested	0.00%	38.08%	0.00%	72.48%	0.00%	92.00%
Exposure to controversial weapons	Percentage of Fund invested	0.00%	62.90%	0.00%	72.52%	0.00%	92.00%

… And compared to previous periods?

The general sustainability indicators are in line with those in the previous period.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

The Fund's sustainable investments were in green, social, sustainable and sustainability-linked bonds which were achieved through a minimum allocation of 20% to issuers aligned with the SDGs and issuers that met best-in-class thresholds set by the Investment Manager. Such bonds had sustainability-linked KPIs, or had proceeds which were used for projects which included, but were not limited to:

- Green Projects: renewable energy, energy efficiency, pollution prevention and control, environmentally sustainable management of living natural resources and land use, biodiversity, clean transportation, sustainable water and wastewater management, climate change adaptation, circular economy and green buildings; and
- Social Projects: affordable housing, affordable infrastructure (clean drinking water, sanitation), employment
 programmes and socio-economic advancement such as, but not restricted to, education, diversity, equality and
 inclusion to name a few.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Investment Manager used proprietary research and PAIs to ensure that sustainable investments did not cause significant harm to any material environmental and/or social sustainable investment objective. Proprietary research, along with the use of inhouse developed tools, including but not limited to screening, enabled portfolio managers to identify issuers that the Investment Manager does not believe cause significant harm.

As a result, the Investment Manager was able to invest in issuers which aligned with the PAI indicators while avoiding issuers which do not. As part of the Fund's investment in green, social, sustainable and sustainability-linked bonds, the Investment Manager applies this approach to determine whether a bond met sustainability criteria.

Additionally, sovereign issuers were subjected to tests based on their political liberties and/or corruption.

When deploying funds to sustainable investments, especially the minimum 1% of the Fund committed towards environmental objectives, where relevant, the Investment Manager utilised additional qualitative assessment (based on internal research or on external third-party opinion) of the issuers and of the projects "do no significant harm" eligibility.

Further, a number of exclusions were applied to the Fund to preclude issuers that may cause significant harm, as detailed further below

--How were the indicators for adverse impacts on sustainability factors taken into account?

The Investment Manager developed a proprietary PAI tool which took into account material PAIs and which helped measure the Fund's alignment with respect to PAI indicators that were deemed to be material to the Fund.

PAIs served as a useful barometer to gauge which issuers to seek to invest in. More specifically, PAI #3 was utilised for assessment of corporate GHG intensity and PAI #15 for sovereign GHG intensity respectively; PAI #10 was utilised to identify issuers that fail as per UNGC Principles and OECD Guidelines; and PAI #14 was utilised to identify issuers that fail controversial weapons screens across the whole Fund compared to those in the investable universe.

While the Fund did not commit to having a PAI average better than its benchmark, the difference between the two metrics helped to inform how successful the Fund was at managing adverse impacts.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Fund adhered to explicit guidelines which excluded issuers that failed as per UNGC Principles and OECD Guidelines. The Investment Manager's engagement with issuers was built on the principles of UNGC Principles and OECD Guidelines. Issuers that were deemed to fail as per UNGC Principles and OECD Guidelines were added to the Investment Manager's ESG Red List which was then utilised to exclude issuers from being an eligible investment in the Fund. Where relevant, the Investment Manager sought to engage with issuers where it had concerns, which may or may not have explicitly failed as per the underlying guidelines.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The manner in which PAIs were considered and taken into account is set out in further detail above.

PAI metrics provided are based on the average calculation of quarterly snapshots during the reference period. The relevant metric calculation relates to the investments for which the underlying ESG data is available rather than all investments held by the Fund. Please note that this information is subject to change and should be used for informational purposes only.

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is - 2024-03-01 - 2025-02-28.

What were the top investments of this financial product?

The largest investments of this Fund during the reference period, excluding cash and derivatives, were:

Largest investments	Sector	% of Assets	Country
Federal National Mortgage Association	Financials	16.44%	United States
United States of America	Financials	14.05%	United States
Freddie Mac	Financials	8.31%	United States
UBS Group AG	Financials	2.89%	Switzerland
Estados Unidos Mexicanos	Government Bonds	2.34%	Mexico
WELLS FARGO & COMPANY	Financials	2.13%	United States
BANK OF AMERICA CORPORATION	Financials	2.04%	United States
CITIGROUP INC.	Financials	1.83%	United States

What was the proportion of sustainability-related investments?

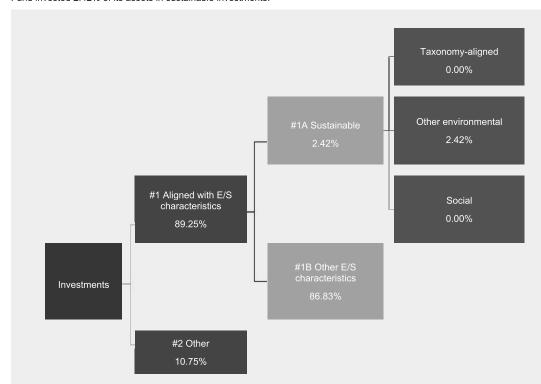

The proportion of sustainability-related investments was 2.42%.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

89.25% of the Fund was aligned with the environmental and/or social characteristics promoted by the Fund. The remaining portion (10.75%) was not aligned with the promoted characteristics and consisted primarily of liquid assets or issuers for which there was no ESG Rating.

Out of the Fund's portfolio segment which was aligned with the promoted environmental and/or social characteristics, the Fund invested 2.42% of its assets in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category #1A Sustainable covers environmentally and socially sustainable investments.
- The sub-category #18 Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

	Asset Allocation historical comparison					
	2025 2024 2023					
Investment Category	Proportion of Investments	Proportion of Investments	Proportion of Investments			
#1 Aligned with E/S characteristics	89.25%	97.77%	95.20%			
#2 Other	10.75%	2.23%	4.80%			
#1A Sustainable	2.42%	3.68%	3.30%			
#1B Other E/S characteristics	86.83%	94.09%	91.90%			
Taxonomy-aligned	N/A	N/A	N/A			
Other environmental	2.42%	3.68%	3.30%			
Social	N/A	N/A	N/A			

In which economic sectors were the investments made?

The top sectors and sub-sectors of this Fund during the reference period, excluding cash and derivatives, were:

Top sector	% of Assets
Financials	58.39%
Government Bonds	10.00%
Energy	4.71%
Communication Services	3.92%
Health Care	3.89%
Consumer Discretionary	2.59%
Industrials	1.44%
Utilities	1.08%
Information Technology	1.04%
Materials	0.95%
Real Estate	0.75%
Consumer Staples	0.49%
Top sub-sector	% of Assets
Financial Services	46.96%
Government Bonds	10.00%
Banks	7.01%
Oil, Gas & Consumable Fuels	4.58%
Capital Markets	2.73%
Media	1.98%
Health Care Providers & Services	1.67%
Pharmaceuticals	1.15%
Diversified Telecommunication Services	1.12%
Hotels, Restaurants & Leisure	0.99%
Electric Utilities	0.68%
Wireless Telecommunication Services	0.60%
Biotechnology	0.56%
Automobiles	0.56%
Metals & Mining	0.52%

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- operational expenditure (OpEx) reflecting the green operational activities of investee companies.

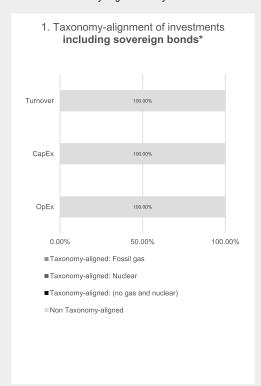

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

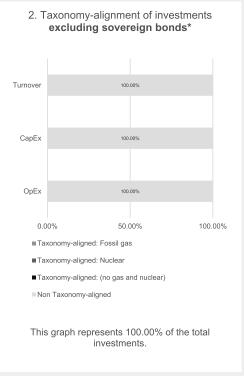

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?¹

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

- * For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures
- What was the share of investments made in transitional and enabling activities?
 The Fund did not invest in transitional and enabling activities.
- How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

In line with its investment strategy, namely, the Fund's commitment to maintain a minimum exposure to 'sustainable investments' with an environmental objective as per the SFDR art. 2(17) that do not qualify as environmentally sustainable under the EU Taxonomy Regulation,2.42% of the Fund was comprised of 'sustainable investments' with an environmental objective that do not qualify as environmentally sustainable under the EU Taxonomy.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The proportion of investments under '#2 Other' was 10.75% and included cash and derivatives or issuers for which there were no ESG Ratings for which there were no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Western Asset believes that financially material ESG factors can affect the creditworthiness of fixed-income issuers' securities and therefore impact the performance of fixed-income investment portfolios. These factors are wholly consistent with the Firm's long-term, fundamental value-oriented investment philosophy. Western Asset's research analysts were responsible for providing fundamental analysis at the industry and issuer levels and for opining on industry and issuer risk/reward characteristics by incorporating material ESG considerations. Supported by this broader approach, the Fund aimed to meet its environmental and social characteristics by seeking to invest in issuers such that the overall portfolio met minimum ESG ratings, achieved its decarbonisation and SDG alignment, as well as avoided issuers which were identified through application of SRI exclusions, allocated to sectors and invested in issuers targeting.

In order to meet the environmental and/or social characteristics during the reference period:

A. The Fund sought an average MSCI ESG rating of BBB or better.

- B. The Fund sought an overall Weighted Average Carbon Intensity ("WACI") that was at least 20% below the Benchmark. This helped the Fund align with PAI #3 and PAI #15 (GHG Intensity).
- C. The Fund sought to align, better than the Benchmark, with regards to investments in securities of issuers whose activities contributed to at least 1 of 8 selected SDGs.
- D. The Fund excluded issuers that failed on a range of SRI goals such as outlined below:
- a. Issuers deriving over 5% of revenue from tobacco production and/or distribution and from the production of nuclear weapons;
- b. Issuers deriving over 10% of revenue from civilian firearms (manufacture or supply), conventional weapons or thermal coal mining (production or distribution);
- c. Issuers that manufacture controversial weapons (anti-personnel landmines, biochemical weapons, blinding laser weapons, depleted uranium, incendiary weapons, and non-detectable fragments), own a controversial weapons company, or are owned by a controversial weapons company, aligning with PAI indicator #14 (Controversial Weapons);
- d. Issuers that 'Fail' UNGC and OECD principles based on internal research which seeks to identify gaps in issuers meeting their goals, aligning with PAI indicator #10 (Social and Employee Matter).

As part of the minimum 1% investment in sustainable investments (defined to be green, social, sustainable and sustainability-linked bonds), the Fund had 2.42% invested by market value % as of 28 February 2025.

The Fund met its environmental and/or sustainable guidelines as highlighted below:

- A. The Fund was rated A as per MSCI ESG.
- B. The Fund's overall WACI was 76.9% of the Benchmark.
- C. The Fund's allocation to issuers and issues aligned with SDGs was 25.5%.
- D. The Fund had 2.42% invested in sustainable investments by market value % as of 28 February 2025.
- E. The Fund did not hold any issuers that were in breach of SRI guidelines.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote. Not applicable.

FTGF Western Asset Global Multi Strategy Fund (the "Fund")

Legal Entity Identifier: 5493004ZO0T2R3JB1A61

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

Did this financial product have a sustainable investment objective? ☐ YES **⋈** NO 00 promoted Environmental/Social ☐ It made sustainable investments with an characteristics and while it did not have as its environmental objective: 0.00% objective a sustainable investment, it had a proportion of 2.76% of sustainable investments in economic activities that qualify as with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy environmentally sustainable under the EU Taxonomy with an environmental objective in economic in economic activities that do not qualify as activities that do not qualify environmentally sustainable under the EU environmentally sustainable under the EU Taxonomy with a social objective ☐ It made sustainable investments with a ☐ It promoted E/S characteristics, but did not social objective: 0.00% make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted the following environmental and/or social characteristics:

- alignment with one or more UN Sustainable Development Goals ("SDGs) through investment in green, social, sustainable and sustainability-linked bonds and through best-in-class investments;
- alignment with the following PAI indicators:
- \circ GHG Intensity (PAI #3 and PAI #15);
- o Social and Employee Matters (PAI #10); and
- o Controversial Weapons (PAI #14).

Derivative instruments have not been used to attain the environmental and/or social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental and/or social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The sustainability indicators used to measure the attainment of each of the environmental or social characteristics promoted by the Fund were:

- The PAI indicators mentioned in the answer above. Please refer to the values below which represent the performance of the indicators during the reference period.
- the allocation to green, social, sustainable and sustainability-linked bonds was at 2.76% as of 28 February 2025.

		PAI historical comparison					
		2025		2	2024	:	2023

Exposure to controversial weapons	Percentage of Fund invested	0.00%	43.31%	0.00%	50.04%	0.00%	83.00%

… And compared to previous periods?

The general sustainability indicators are in line with those in the previous period.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

The Fund's sustainable investments were in green, social, sustainable and sustainability-linked bonds which were achieved through a minimum 20% allocation to issuers aligned with the SDGs and issuers that met best-in-class thresholds set by the Investment Manager. Such bonds had sustainability-linked KPIs, or had proceeds which were used for projects which included, but were not limited to:

- Green Projects: renewable energy, energy efficiency, pollution prevention and control, environmentally sustainable
 management of living natural resources and land use, biodiversity, clean transportation, sustainable water and
 wastewater management, climate change adaptation, circular economy and green buildings; and
- Social Projects: affordable housing, affordable infrastructure (clean drinking water, sanitation), employment
 programmes and socio-economic advancement such as, but not restricted to, education, diversity, equality and
 inclusion to name a few.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Investment Manager used proprietary research and PAIs to ensure that sustainable investments did not cause significant harm to any environmental or social sustainable investment objective. Proprietary research, along with the use of inhouse developed tools, including but not limited to screening, enabled portfolio managers to identify issuers that the Investment Manager does not believe cause significant harm.

As a result, the Investment Manager was able to invest in issuers which aligned with the PAI indicators while avoiding issuers which did not. As part of the Fund's investment in green, social, sustainable and sustainability-linked bonds, the Investment Manager applied this approach to determine whether a bond met sustainability criteria.

Additionally, sovereign issuers were subjected to tests based on their political liberties and/or corruption.

When deploying funds to sustainable investments, especially the minimum 1% of portfolio of the Fund committed towards environmental objectives, where relevant, the Investment Manager utilised additional qualitative assessment (based on internal research or on external third-party opinion) of the issuers and of the projects "do no significant harm" eligibility.

Further, a number of exclusions were applied to the Fund to preclude issuers that may cause significant harm, as detailed further below.

--How were the indicators for adverse impacts on sustainability factors taken into account?

The Investment Manager developed a proprietary PAI tool which took into account material PAIs and which helped measure the Fund's alignment with respect to PAI indicators that were deemed to be material to the Fund.

PAIs served as a useful barometer to gauge which issuers to seek to invest in. More specifically, PAI #3 was utilised for assessment of corporate GHG intensity and PAI #15 for sovereign GHG intensity respectively; PAI #10 was utilised to identify issuers that fail as per UNGC Principles and OECD Guidelines; and PAI #14 was utilised to identify issuers that fail controversial weapons screens across the whole Fund compared to those in the investable universe.

While the Fund did not commit to having a PAI average better than its Benchmark, the difference between the two metrics helped to inform how successful the Fund was at managing adverse impacts.

impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Principal adverse

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Fund adhered to explicit guidelines which excluded issuers that failed as per UNGC Principles and OECD Guidelines. The Investment Manager's engagement with issuers was built on the principles of UNGC Principles and OECD Guidelines. Issuers that were deemed to fail as per UNGC Principles and OECD Guidelines were added to the Investment Manager's ESG Red List which was then utilised to exclude issuers from being an eligible investment in the Fund. Where relevant, the Investment Manager sought to engage with issuers where it had concerns, which may or may not have explicitly failed as per the underlying guidelines.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The manner in which PAIs were considered and taken into account is set out in further detail above.

PAI metrics provided above are based on the average calculation of quarterly snapshots during the reference period. The relevant metric calculation relates to the investments for which the underlying ESG data is available rather than all investments held by the Fund. Please note that this information is subject to change and should be used for informational purposes only.

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is - 2024-03-01 - 2025-02-28.

What were the top investments of this financial product?

The largest investments of this Fund during the reference period, excluding cash and derivatives, were:

Largest investments	Sector	% of Assets	Country
United States of America	Financials	27.20%	United States
Estados Unidos Mexicanos	Government Bonds	2.62%	Mexico

What was the proportion of sustainability-related investments?

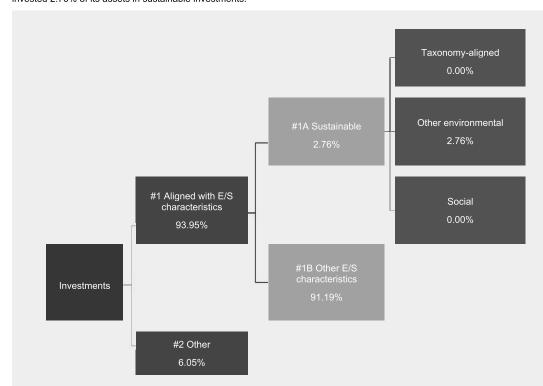

The proportion of sustainability-related investments was 2.76%.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

93.95% of the Fund was aligned with the environmental and/or social characteristics promoted by the Fund. The remaining portion (6.05%) was not aligned with the promoted characteristics and consisted primarily of liquid assets or issuers without an ESG rating.

Out of the Fund's segment which was aligned with the promoted environmental and/or social characteristics, the Fund invested 2.76% of its assets in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category #1A Sustainable covers environmentally and socially sustainable investments.
- The sub-category #18 Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

	Asset Allocation historical comparison

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- operational expenditure (OpEx) reflecting the green operational activities of investee companies.

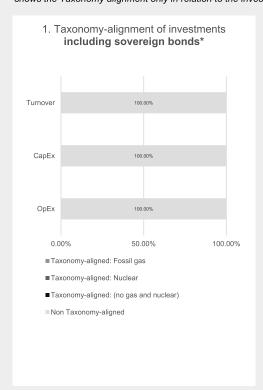

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

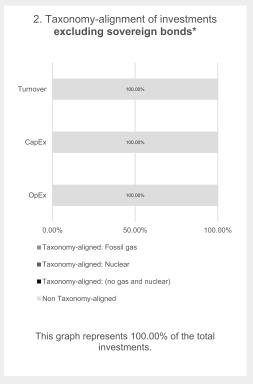

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?¹

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

- * For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures
- What was the share of investments made in transitional and enabling activities?
 The Fund did not invest in transitional and enabling activities.
- How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

In line with its investment strategy, namely, the Fund's commitment to maintain a minimum exposure to 'sustainable investments' with an environmental objective as per the SFDR art. 2(17) that do not qualify as environmentally sustainable under the EU Taxonomy Regulation, 2.76% of the Fund was comprised of 'sustainable investments' with an environmental objective that do not qualify as environmentally sustainable under the EU Taxonomy.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The proportion of investments under '#2 Other' was 6.05% and included cash and derivatives or issuers without an ESG rating for which there were no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Western Asset believes that financially material ESG factors can affect the creditworthiness of fixed-income issuers' securities and therefore impact the performance of fixed-income investment portfolios. These factors are wholly consistent with the Firm's long-term, fundamental value-oriented investment philosophy. Western Asset's research analysts were responsible for providing fundamental analysis at the industry and issuer levels and for opining on industry and issuer risk/reward characteristics by incorporating material ESG onsiderations. Supported by this broader approach, the Fund aimed to meet its environmental and social characteristics by seeking to invest in issuers such that the overall portfolio met minimum ESG ratings, achieved its decarbonisation and SDG alignment, as well as avoided issuers which were identified through application of SRI exclusions, allocated to sectors and invested in issuers targeting.

In order to meet the environmental and/or social characteristics during the reference period:

A. The Fund sought an average MSCI ESG rating of BBB or better.

- B. The Fund sought an overall Weighted Average Carbon Intensity ("WACI") that is at least 20% below the proxy Benchmark. This helped the Fund align with PAI #3 and PAI #15 (GHG Intensity).
- C. The Fund sought to invest a minimum of 20% in investments in securities of issuers whose activities contribute to at least 1 of 8 selected SDGs.
- D. The Fund excluded issuers that failed on a range of SRI goals such as outlined below:
- a. Issuers deriving over 5% of revenue from tobacco production and/or distribution and from the production of nuclear weapons;
- b. Issuers deriving over 10% of revenue from civilian firearms (manufacture or supply), conventional weapons or thermal coal mining (production or distribution);
- c. Issuers that manufacture controversial weapons (anti-personnel landmines, biochemical weapons, blinding laser weapons, depleted uranium, incendiary weapons, and non-detectable fragments), own a controversial weapons company, or are owned by a controversial weapons company, aligning with PAI indicator #14 (Controversial Weapons);
- d. Issuers that 'Fail' UNGC and OECD principles based on internal research which seeks to identify gaps in issuers meeting their goals, aligning with PAI indicator #10 (Social and Employee Matters).

As part of the minimum 1% investment in sustainable investments (defined to be green, social, sustainable and sustainability-linked bonds), the Fund had 2.76% invested by market value % as of 28 February 2025.

The Fund met its environmental and/or sustainable guidelines as highlighted below:

- A. The Fund was rated A as per MSCI ESG.
- B. The Fund's overall WACI was 73.3% of the proxy Benchmark.
- C. The Fund's allocation to issuers and issues aligned with SDGs was 26.6.
- D. The Fund did not hold any issuers that were in breach of SRI guidelines.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote. Not applicable.

FTGF Western Asset US High Yield Fund (the "Fund")

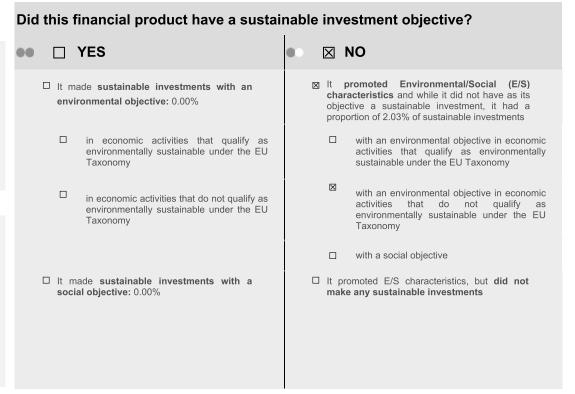

Legal Entity Identifier: 5493005YY2WWVLYH2080

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance

practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted the following environmental and/or social characteristics:

- alignment with one or more UN Sustainable Development Goals ("SDGs") through investment in green, social, sustainable and sustainability-linked bonds and through best-in-class investments;
- alignment with the following PAI indicators:
- o GHG Intensity (PAI #3 and PAI #15);
- Social and Employee Matters (PAI #10);
- \circ Controversial Weapons (PAI #14); and
- $\circ\,$ Investee Countries subject to Social Violations (PAI #16).

Derivative instruments have not been used to attain the environmental and/or social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental and/or social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The sustainability indicators used to measure the attainment of each of the environmental or social characteristics promoted by the Fund were:

- The PAI indicators mentioned in the answer above. Please refer to the values displayed in the section "How did this financial product consider principal adverse impacts on sustainability factors?" which represent the performance of the indicators during the reference period. Note that in 2025, Sovereigns were no longer held in this fund.
- The allocation to green, social, sustainable and sustainability-linked bonds was at 2.03% as of 28 February 2025.

		PAI historical comparison					
		2025		2024		2023

Exposure to controversial weapons	Percentage of Fund invested	0.00%	68.58%	0.00%	73.78%	0.00%	73.00%
Investee countries subject to social violations	Count of Countries in Fund	0.00	0.00%	0.00	100.00%	0.00	100.00%

… And compared to previous periods?

The general sustainability indicators are in line with those in the previous period.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

The Fund's sustainable investments were in green, social, sustainable and sustainability-linked bonds which were achieved through a minimum allocation of 20% by MV% to issuers aligned with the SDGs and issuers that met best-in-class thresholds set by the Investment Manager. Such bonds had sustainability-linked KPIs, or had proceeds which were used for projects which included, but were not limited to:

- Green Projects: renewable energy, energy efficiency, pollution prevention and control, environmentally sustainable
 management of living natural resources and land use, biodiversity, clean transportation, sustainable water and
 wastewater management, climate change adaptation, circular economy and green buildings; and
- Social Projects: affordable housing, affordable infrastructure (clean drinking water, sanitation), employment
 programmes and socio-economic advancement such as, but not restricted to, education, diversity, equality and
 inclusion to name a few.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Investment Manager used proprietary research and PAIs to ensure that sustainable investments did not cause significant harm to any environmental or social sustainable investment objective. Proprietary research, along with the use of inhouse developed tools, including but not limited to screening, enabled portfolio managers to identify issuers that the Investment Manager does not believe cause significant harm.

As a result, the Investment Manager was able to invest in issuers which aligned with the PAI indicators while avoiding issuers which did not. As part of the Fund's investment in green, social, sustainable and sustainability-linked bonds, the Investment Manager applied this approach to determine whether a bond met sustainability criteria.

Additionally, sovereign issuers were subjected to tests based on their political liberties and/or corruption.

When deploying funds to sustainable investments, especially the minimum 1% of portfolio of the Fund committed towards environmental objectives, where relevant the Investment Manager utilised additional qualitative assessment (based on internal research or on external third-party opinion) of the issuers and of the projects "do no significant harm" eligibility.

Further, a number of exclusions were applied to the Fund to preclude issuers that may cause significant harm, as detailed further below.

---How were the indicators for adverse impacts on sustainability factors taken into account?

The Investment Manager developed a proprietary PAI tool which took into account material PAIs and which helped measure the Fund's alignment with respect to PAI indicators that were deemed to be material to the Fund.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

PAIs served as a useful barometer to gauge which issuers to seek to invest in. More specifically, PAI #3 was utilised for assessment of corporate GHG intensity and PAI #15 for sovereign GHG intensity, respectively; PAI #10 was utilised to identify issuers that failed as per UNGC Principles and OECD Guidelines; PAI #14 was utilised to identify issuers that failed controversial weapons screens across the whole Fund compared to those in the investable universe; and PAI #16 was utilised to identify investee countries that failed at being designated as free by the Freedom House.

While the Fund did not commit to having a PAI average better than its benchmark, the difference between the two metrics helped to inform how successful the Fund was in managing adverse impacts.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Fund adhered to explicit guidelines which excluded issuers that failed as per UNGC Principles and OECD Guidelines. The Investment Manager's engagement with issuers was built on the principles of UNGC Principles and OECD Guidelines. Issuers that were deemed to fail as per UNGC Principles and OECD Guidelines were added to the Investment Manager's ESG Red List which was then utilised to exclude issuers from being an eligible investment in the Fund. Where relevant, the Investment Manager sought to engage with issuers where it had concerns, which may or may not have explicitly failed as per the underlying guidelines.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The manner in which PAIs were considered and taken into account is set out in further detail above.

PAI metrics provided are based on the average calculation of quarterly snapshots during the reference period. The relevant metric calculation relates to the investments for which the underlying ESG data is available rather than all investments held by the Fund. Please note that this information is subject to change and should be used for informational purposes only.

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is - 2024-03-01 - 2025-02-28.

What were the top investments of this financial product?

The largest investments of this Fund during the reference period, excluding cash and derivatives, were:

Largest investments	Sector	% of Assets	Country
CCO HOLDINGS, LLC	Communication Services	1.79%	United States
CHS/COMMUNITY HEALTH SYSTEMS, INC.	Health Care	1.65%	United States
CSC HOLDINGS, LLC	Communication Services	1.55%	United States
DISH DBS Corporation	Communication Services	1.53%	United States
NCL CORPORATION LTD.	Consumer Discretionary	1.53%	United States
FIRST QUANTUM MINERALS LTD.	Materials	1.49%	Canada
Carnival Corporation	Consumer Discretionary	1.19%	United States
Venture Global LNG	Energy	1.15%	United States
BNP PARIBAS SA	Financials	1.12%	France
Venture Global Calcasieu	Utilities	1.02%	United States
PERMIAN RESOURCES OPERATING, LLC	Energy	1.02%	United States
VIKING CRUISES LTD	Consumer Discretionary	1.01%	United States
ROYAL CARIBBEAN CRUISES LTD.	Consumer Discretionary	0.99%	United States
BOMBARDIER INC.	Industrials	0.97%	Canada
UPBOUND GROUP, INC.	Consumer Discretionary	0.94%	United States

What was the proportion of sustainability-related investments?

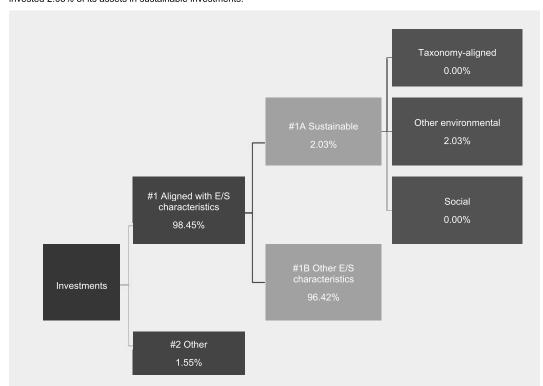

The proportion of sustainability-related investments was 2.03%.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

98.45% of the Fund was aligned with the environmental and/or social characteristics promoted by the Fund. The remaining portion (1.55%) was not aligned with the promoted characteristics and consisted primarily of liquid assets or issuers for which there was no ESG rating.

Out of the Fund's segment which was aligned with the promoted environmental and/or social characteristics, the Fund invested 2.03% of its assets in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category #1A Sustainable covers environmentally and socially sustainable investments.
- The sub-category #18 Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

	Asset Allocation historical comparison			
	2025	2024	2023	
Investment Category	Proportion of Investments	Proportion of Investments	Proportion of Investments	
#1 Aligned with E/S characteristics	98.45%	91.20%	89.00%	
#2 Other	1.55%	8.80%	11.00%	
#1A Sustainable	2.03%	3.08%	5.30%	
#1B Other E/S characteristics	96.42%	88.12%	83.70%	
Taxonomy-aligned	N/A	N/A	N/A	
Other environmental	2.03%	3.08%	5.30%	
Social	N/A	N/A	N/A	

In which economic sectors were the investments made?

The top sectors and sub-sectors of this Fund during the reference period, excluding cash and derivatives, were:

Top sector	% of Assets
Financials	27.04%
Consumer Discretionary	17.71%
Industrials	13.72%
Communication Services	11.17%
Health Care	7.89%
Energy	7.00%
Information Technology	4.40%
Materials	2.95%
Real Estate	2.75%
Utilities	2.12%
Consumer Staples	1.30%
Government Bonds	0.40%
Top sub-sector	% of Assets
Financial Services	15.95%
Hotels, Restaurants & Leisure	8.47%
Media	8.17%
Oil, Gas & Consumable Fuels	6.47%
Banks	6.29%
Health Care Providers & Services	3.87%
Automobile Components	3.16%
Specialty Retail	2.83%
Pharmaceuticals	2.71%
Passenger Airlines	2.60%
Commercial Services & Supplies	2.20%
Capital Markets	2.01%
Software	1.96%
Building Products	1.85%
Aerospace & Defense	1.72%

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- operational
 expenditure (OpEx)
 reflecting the green
 operational activities of
 investee companies.

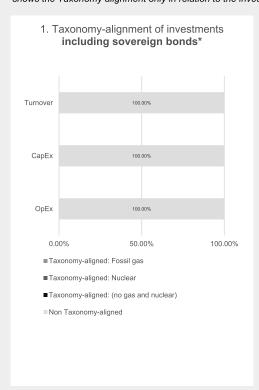

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

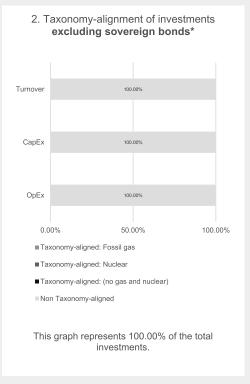

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?¹

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

- * For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures
- What was the share of investments made in transitional and enabling activities?
 The Fund did not invest in transitional and enabling activities.
- How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

In line with its investment strategy, namely, the Fund's commitment to maintain a minimum exposure to 'sustainable investments' with an environmental objective as per the SFDR art. 2(17) that do not qualify as environmentally sustainable under the EU Taxonomy Regulation, 2.03% of the Fund was comprised of 'sustainable investments' with an environmental objective that do not qualify as environmentally sustainable under the EU Taxonomy.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The proportion of investments under '#2 Other' was 1.55% and included cash and derivatives or other issuers for which there were no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Western Asset believes that financially material ESG factors can affect the creditworthiness of fixed-income issuers' securities and therefore impact the performance of fixed-income investment portfolios. These factors are wholly consistent with the Firm's long-term, fundamental value-oriented investment philosophy. Western Asset's research analysts were responsible for providing fundamental analysis at the industry and issuer levels and for opining on industry and issuer risk/reward characteristics by incorporating material ESG onsiderations. Supported by this broader approach, the Fund aimed to meet its environmental and social characteristics by seeking to invest in issuers such that the overall portfolio met minimum ESG ratings, achieved its decarbonisation and SDG alignment, as well as avoided issuers which were identified through application of SRI exclusions, allocated to sectors and invested in issuers targeting.

In order to meet the environmental and/or social characteristics during the reference period:

- A. The Fund sought an overall Weighted Average Carbon Intensity ("WACI") that was at least 20% below the Benchmark. This helped the Fund align with PAI #3 and PAI #15 (GHG Intensity).
- B. The Fund sought to align, better than the Benchmark, with regards to investments in securities of issuers whose activities contributed to at least 1 of 8 selected SDGs.
- C. The Fund excluded issuers that failed on a range of SRI goals such as outlined below:
- a. Issuers deriving over 5% of revenue from tobacco production and/or distribution and from the production of nuclear weapons;
- b. Issuers deriving over 10% of revenue from civilian firearms (manufacture or supply), conventional weapons or thermal coal mining (production or distribution):
- c. Issuers that manufacture controversial weapons (anti-personnel landmines, biochemical weapons, blinding laser weapons, depleted uranium, incendiary weapons, and non-detectable fragments), own a controversial weapons company, or are owned by a controversial weapons company, aligning with PAI indicator #14 (Controversial Weapon);
- d. Issuers that 'Fail' UNGC and OECD principles based on internal research which seeks to identify gaps in issuers meeting their goals, aligning with PAI indicator #10 (Social and Employee Matters);
- e. State and/or sovereign issuers that fail to be designated as "free" by the Freedom House Index, aligning with PAI indicator #16 (Investee Countries subject to Social Violations).

As part of the minimum 1% investment in sustainable investments (defined to be green, social, sustainable and sustainability-linked bonds), the Fund had 2.03% invested by market value % as of 28 February 2025.

The Fund met its environmental and/or sustainable guidelines as highlighted below:

- A. The Fund's overall WACI was 68.9 of the Benchmark.
- B. The Fund's allocation to issuers and issues aligned with SDGs was 38.3%
- C. The Fund had 2.03% invested by market value % in sustainable investments as of 28 February 2025.
- D. The Fund did not invest in any issuer that was in breach of SRI guidelines.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote. Not applicable

FTGF Western Asset Global High Yield Fund (the "Fund")

Legal Entity Identifier: 5493004GEBFENJC57G38

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance

practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

Did this financial product have a sustainable investment objective? ☐ YES **⋈** NO 00 promoted Environmental/Social ☐ It made sustainable investments with an characteristics and while it did not have as its environmental objective: 0.00% objective a sustainable investment, it had a proportion of 4.07% of sustainable investments in economic activities that qualify as with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy environmentally sustainable under the EU Taxonomy with an environmental objective in economic in economic activities that do not qualify as activities that do not qualify environmentally sustainable under the EU environmentally sustainable under the EU Taxonomy with a social objective ☐ It made sustainable investments with a ☐ It promoted E/S characteristics, but did not make any sustainable investments social objective: 0.00%

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted the following environmental and/or social characteristics:

- alignment with one or more UN Sustainable Development Goals ("SDGs") through investment in green, social, sustainable and sustainability-linked bonds and through best-in-class investments;
- alignment with the following PAI indicators:
- o GHG Intensity (PAI #3 and PAI #15);
- o Social and Employee Matters (PAI #10); and
- o Controversial Weapons (PAI #14).

Derivative instruments have not been used to attain the environmental and/or social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental and/or social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The sustainability indicators used to measure the attainment of each of the environmental or social characteristics promoted by the Fund were:

- The PAI indicators mentioned in the answer above. Please refer to the values displayed in the section "How did this financial product consider principal adverse impacts on sustainability factors?" which represent the performance of the indicators during the reference period.
- The allocation to green, social, sustainable and sustainability-linked bonds was at 4.07% as of 28 February 2025.

		PAI historical comparison					
		:	2025	:	2024	:	2023
PAI indicators	Unit of measurement	Value	Coverage	Value	Coverage	Value	Coverage
GHG Intensity USD	tCO2e/M\$ revenue	160.71	77.00%	213.05	63.38%	287.10	83.60%
GHG Intensity of investee countries USD	tCO2e/M\$ revenue	166.48	100.00%	176.32	100.00%	221.40	95.50%
Violations of UNGC principles and OECD Guidelines	Percentage of Fund invested	0.00%	17.84%	0.00%	64.11%	0.02%	82.00%
Exposure to controversial weapons	Percentage of Fund invested	0.00%	63.37%	0.00%	64.11%	0.00%	83.00%

… And compared to previous periods?

The general sustainability indicators are in line with those in the previous period.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

The Fund's sustainable investments were in green, social, sustainable and sustainability-linked bonds which were achieved through a minimum allocation to issuers aligned with the SDGs and issuers that met best-in-class thresholds set by the Investment Manager. Such bonds had sustainability-linked KPIs, or had proceeds which were used for projects which included, but were not limited to:

- Green Projects: renewable energy, energy efficiency, pollution prevention and control, environmentally sustainable management of living natural resources and land use, biodiversity, clean transportation, sustainable water and wastewater management, climate change adaptation, circular economy and green buildings; and
- Social Projects: affordable housing, affordable infrastructure (clean drinking water, sanitation), employment
 programmes and socio-economic advancement such as, but not restricted to, education, diversity, equality and
 inclusion to name a few.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Investment Manager used proprietary research and PAIs to ensure that sustainable investments did not cause significant harm to any environmental or social sustainable investment objective. Proprietary research, along with the use of inhouse developed tools, including but not limited to screening, enabled portfolio managers to identify issuers that the Investment Manager does not believe cause significant harm.

As a result, the Investment Manager was able to invest in issuers which aligned with the PAI indicators while avoiding issuers which did not. As part of the Fund's investment in green, social, sustainable and sustainability-linked bonds, the Investment Manager applied this approach to determine whether a bond met sustainability criteria.

Additionally, sovereign issuers were subjected to tests based on their political liberties and/or corruption.

When deploying funds to sustainable investments, especially the minimum 1% of portfolio of the Fund committed towards environmental objectives, where relevant the Investment Manager utilised additional qualitative assessment (based on internal research or on external third-party opinion) of the issuers and of the projects "do no significant harm" eligibility.

Further, a number of exclusions were applied to the Fund to preclude issuers that may cause significant harm, as detailed further below.

--How were the indicators for adverse impacts on sustainability factors taken into account?

The Investment Manager developed a proprietary PAI tool which took into account material PAIs and which helped measure the Fund's alignment with respect to PAI indicators that were deemed to be material to the Fund.

PAIs served as a useful barometer to gauge which issuers to seek to invest in. More specifically, PAI #3 was utilised for assessment of corporate GHG intensity and PAI #15 for sovereign GHG intensity, respectively; PAI #10 was utilised to identify issuers that failed as per UNGC Principles and OECD Guidelines; and PAI #14 was utilised to identify issuers that failed controversial weapons screens across the whole Fund compared to those in the investable universe.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

While the Fund did not commit to having a PAI average better than its Benchmark, the difference between the two metrics helped to inform how successful the Fund was at managing adverse impacts.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Fund adhered to explicit guidelines which excluded issuers that failed as per UNGC Principles and OECD Guidelines. The Investment Manager's engagement with issuers was built on the principles of UNGC Principles and OECD Guidelines. Issuers that were deemed to fail as per UNGC Principles and OECD Guidelines were added to the Investment Manager's ESG Red List which was then utilised to exclude issuers from being an eligible investment in the Fund. Where relevant, the Investment Manager sought to engage with issuers where it had concerns, which may or may not have explicitly failed as per the underlying guidelines.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The manner in which PAIs were considered and taken into account is set out in further detail above.

PAI metrics provided are based on the average calculation of quarterly snapshots during the reference period. The relevant metric calculation relates to the investments for which the underlying ESG data is available rather than all investments held by the Fund. Please note that this information is subject to change and should be used for informational purposes only.

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is - 2024-03-01 - 2025-02-28.

What were the top investments of this financial product?

The largest investments of this Fund during the reference period, excluding cash and derivatives, were:

Largest investments	Sector	% of Assets	Country
Turkiye Cumhuriyeti	Government Bonds	2.01%	Turkey
Republica Argentina	Government Bonds	1.64%	Argentina
Gobierno de la Republica Dominicana	Government Bonds	1.45%	Dominican Republic

MARSTON'S PLC	Financials	1.16%	United Kingdom

What was the proportion of sustainability-related investments?

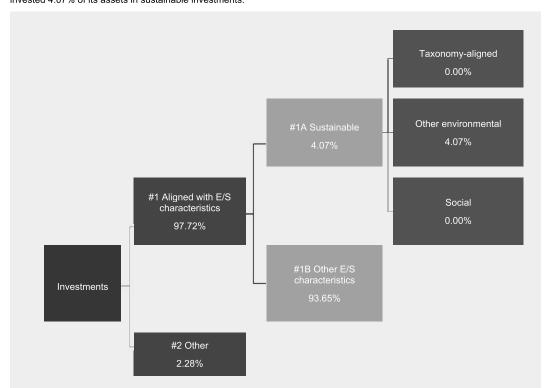

The proportion of sustainability-related investments was 4.07%.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

97.72% of the Fund was aligned with the environmental and/or social characteristics promoted by the Fund. The remaining portion (2.28%) was not aligned with the promoted characteristics and consisted primarily of liquid assets or issuers for which no ESG rating was available.

Out of the Fund's segment which was aligned with the promoted environmental and/or social characteristics, the Fund invested 4.07% of its assets in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category #1A Sustainable covers environmentally and socially sustainable investments.
- The sub-category #18 Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

	Asset Allocation historical comparison

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- operational expenditure (OpEx) reflecting the green operational activities of investee companies.

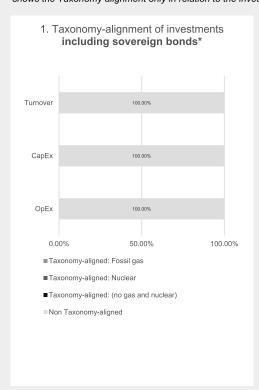

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

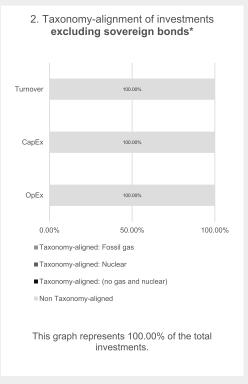

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?¹

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

- * For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures
- What was the share of investments made in transitional and enabling activities?
 The Fund did not invest in transitional and enabling activities.
- How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

In line with its investment strategy, namely, the Fund's commitment to maintain a minimum exposure to 'sustainable investments' with an environmental objective as per the SFDR art. 2(17) that do not qualify as environmentally sustainable under the EU Taxonomy Regulation, 4.07% of the Fund was comprised of 'sustainable investments' with an environmental objective that do not qualify as environmentally sustainable under the EU Taxonomy.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The proportion of investments under '#2 Other' was 2.28% and included cash and derivatives or issuers for which there were no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Western Asset believes that financially material ESG factors can affect the creditworthiness of fixed-income issuers' securities and therefore impact the performance of fixed-income investment portfolios. These factors are wholly consistent with the Firm's long-term, fundamental value-oriented investment philosophy. Western Asset's research analysts were responsible for providing fundamental analysis at the industry and issuer levels and for opining on industry and issuer risk/reward characteristics by incorporating material ESG onsiderations. Supported by this broader approach, the Fund aimed to meet its environmental and social characteristics by seeking to invest in issuers such that the overall portfolio met minimum ESG ratings, achieved its decarbonisation and SDG alignment, as well as avoided issuers which were identified through application of SRI exclusions, allocated to sectors and invested in issuers targeting.

In order to meet the environmental and/or social characteristics during the reference period:

- A. The Fund sought an overall Weighted Average Carbon Intensity ("WACI") that was at least 20% below the Benchmark. This helped the Fund align with PAI #3 and PAI #15 (GHG Intensity).
- B. The Fund sought to have at least 20% of its net assets invested in securities of issuers whose activities contributed to at least 1 of 8 selected SDGs.
- C. The Fund excluded issuers that failed on a range of SRI goals such as outlined below:
- a. Issuers deriving over 5% of revenue from tobacco production and/or distribution and from the production of nuclear weapons:
- b. Issuers deriving over 10% of revenue from civilian firearms (manufacture or supply), conventional weapons or thermal coal mining (production or distribution):
- c. Issuers that manufacture controversial weapons (anti-personnel landmines, biochemical weapons, blinding laser weapons, depleted uranium, incendiary weapons, and non-detectable fragments), own a controversial weapons company, or are owned by a controversial weapons company, aligning with PAI indicator #14 (Controversial Weapons);
- d. Issuers that 'Fail' UNGC and OECD principles based on internal research which seeks to identify gaps in issuers meeting their goals, aligning with PAI indicator #10 (Social and Employee matters).

As part of the minimum 1% investment in sustainable investments (defined to be green, social, sustainable and sustainability-linked bonds), the Fund had 4.07% invested by market value % as of 28 February 2025.

The Fund met its environmental and/or sustainable guidelines as highlighted below:

- A. The Fund's overall WACI was 63.8% of the Benchmark.
- B. The Fund's allocation to issuers and issues aligned with SDGs was 36.1%.
- C. The Fund had 4.07% invested by market value % in sustainable investments as of 28 February 2025.
- D. Using Western Asset definitions for UNGC, the Fund had no issuers that were found to be in breach of SRI guidelines.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote. Not applicable.

FTGF Western Asset Short Duration Blue Chip Bond Fund (the "Fund")

Legal Entity Identifier: 5493000382HJNRHILX42

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance

practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

Did this financial product have a sustainable investment objective? **⋈ NO** ☐ YES promoted Environmental/Social ☐ It made sustainable investments with an characteristics and while it did not have as its environmental objective: 0.00% objective a sustainable investment, it had a proportion of 9.44% of sustainable investments in economic activities that qualify as with an environmental objective in economic environmentally sustainable under the EU activities that qualify as environmentally sustainable under the EU Taxonomy with an environmental objective in economic П in economic activities that do not qualify as that do not qualify environmentally sustainable under the EU environmentally sustainable under the EU Taxonomy Taxonomy with a social objective ☐ It made sustainable investments with a ☐ It promoted E/S characteristics, but did not social objective: 0.00% make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted the following environmental and/or social characteristics:

- alignment with one or more UN Sustainable Development Goals ("SDGs") through investment in green, social, sustainable and sustainability-linked bonds and through best-in-class investments;
- alignment with the following PAI indicators:
- o GHG Intensity (PAI #3 and PAI #15);
- Social and Employee Matters (PAI #10);
- o Controversial Weapons (PAI #14); and
- \circ Investee Countries subject to Social Violations (PAI #16).

Derivative instruments have not been used to attain the environmental and/or social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental and/or social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The sustainability indicators used to measure the attainment of each of the environmental or social characteristics promoted by the Fund were:

- The PAI indicators mentioned in the answer above. Please refer to the values displayed in the section "How did this financial product consider principal adverse impacts on sustainability factors?" which represent the performance of the indicators during the reference period.
- the allocation to green, social, sustainable and sustainability-linked bonds was at 9.44% as of 28 February 2025.

		PAI historical comparison					
		2025 2024		2025 2024		:	2023
PAI indicators	Unit of measurement	Value	Coverage	Value	Coverage	Value	Coverage

Investee countries subject to social violations	Count of Countries in Fund	0.00	0.14%	0.00	100.00%	0.00	100.00%

… And compared to previous periods?

The general sustainability indicators are in line with those in the previous period.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

The Fund's sustainable investments were in green, social, sustainable and sustainability-linked bonds which were achieved through a minimum allocation to issuers aligned with the SDGs and issuers that met best-in-class thresholds set by the Investment Manager. The proceeds of such bonds were used for projects, or had sustainability-linked KPIs, including, but not limited to:

- Green Projects: renewable energy, energy efficiency, pollution prevention and control, environmentally sustainable
 management of living natural resources and land use, biodiversity, clean transportation, sustainable water and
 wastewater management, climate change adaptation, circular economy and green buildings; and
- Social Projects: affordable housing, affordable infrastructure (clean drinking water, sanitation), employment
 programmes and socio-economic advancement such as, but not restricted to, education, diversity, equality and
 inclusion to name a few.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Investment Manager used proprietary research and PAIs to ensure that sustainable investments did not cause significant harm to any environmental or social sustainable investment objective. Proprietary research, along with the use of inhouse developed tools, including but not limited to screening, enabled portfolio managers to identify issuers that the Investment Manager does not believe cause significant harm.

As a result, the Investment Manager was able to invest in issuers which aligned with the PAI indicators while avoiding issuers which did not. As part of the Fund's investment in green, social, sustainable and sustainability-linked bonds, the Investment Manager applied this approach to determine whether a bond met sustainability criteria.

Additionally, sovereign issuers were subjected to tests based on their political liberties and/or corruption.

When deploying funds to sustainable investments, especially the minimum 1% of the Fund committed towards environmental objectives, where relevant, the Investment Manager utilised additional qualitative assessment (based on internal research or on external third-party opinion) of the issuers and of the projects "do no significant harm" eligibility.

Further, a number of exclusions were applied to the Fund to preclude issuers that may cause significant harm, as detailed further below

----How were the indicators for adverse impacts on sustainability factors taken into account?

The Investment Manager developed a proprietary PAI tool which took into account material PAIs and which helped measure the Fund's alignment with respect to PAI indicators that were deemed to be material to the Fund.

More specifically, PAI #3 was utilised for assessment of corporate GHG intensity and PAI #15 for sovereign GHG intensity respectively; PAI #10 was utilised to identify issuers that failed as per UNGC Principles and OECD Guidelines; PAI #14 was utilised to identify issuers that failed on controversial weapons screens across the whole Fund compared to those in the investable universe; and PAI #16 was utilised to identify investee countries that failed at being designated as free by the Freedom House.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

While the Fund did not commit to having a PAI average better than its Benchmark, the difference between the two metrics helped to inform how successful the Fund was in managing adverse impacts.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Fund adhered to explicit guidelines which excluded issuers that failed as per UNGC Principles and OECD Guidelines. The Investment Manager's engagement with issuers was built on the principles of UNGC Principles and OECD Guidelines. Issuers that were deemed to fail as per UNGC Principles and OECD Guidelines were added to the Investment Manager's ESG Red List which was then utilised to exclude issuers from being an eligible investment in the Fund. Where relevant, the Investment Manager sought to engage with issuers where it had concerns, which may or may not have explicitly failed as per the underlying guidelines.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The manner in which PAIs were considered and taken into account is set out in further detail above.

PAI metrics provided below are based on the average calculation of quarterly snapshots during the reference period. The relevant metric calculation relates to the investments for which the underlying ESG data is available rather than all investments held by the Fund. Please note that this information is subject to change and should be used for informational purposes only.

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is - 2024-03-01 - 2025-02-28.

What were the top investments of this financial product?

The largest investments of this Fund during the reference period, excluding cash and derivatives, were:

Largest investments	Sector	% of Assets	Country
FRANKLIN RESOURCES, INC.	Financials	2.54%	United States
Banco Santander, S.A.	Financials	1.84%	Spain
BNP PARIBAS SA	Financials	1.80%	France

What was the proportion of sustainability-related investments?

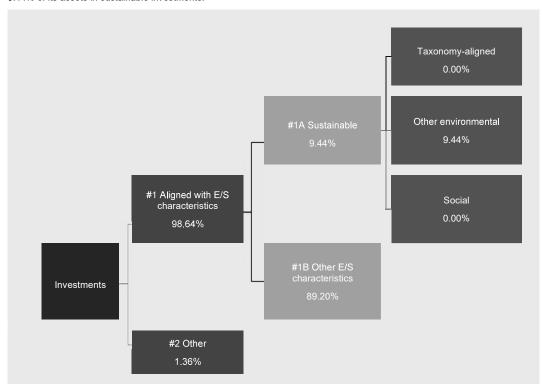

The proportion of sustainability-related investments was 9.44%.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

98.64% of the Fund was aligned with the environmental and/or social characteristics promoted by the Fund. The remaining portion (1,36%) was not aligned with the promoted characteristics and consisted primarily of cash or derivatives for which there was no ESG rating.

Out of the Fund's segment which was aligned with the promoted environmental and/or social characteristics, the Fund invested 9.44% of its assets in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category #1A Sustainable covers environmentally and socially sustainable investments.
- The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

	Asset Allocation historical comparison

Electrical Equipment	1.92%
Chemicals	1.91%

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- operational expenditure (OpEx) reflecting the green operational activities of investee companies.

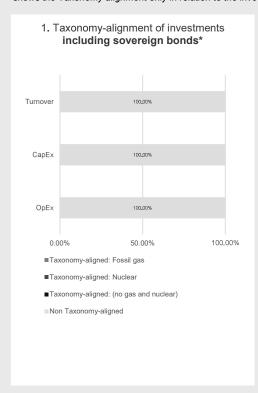

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

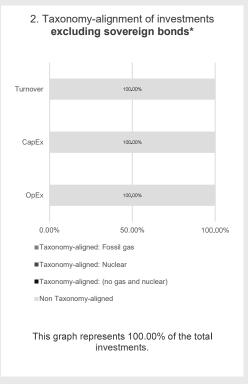

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?¹

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

- * For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures
- What was the share of investments made in transitional and enabling activities?
 The Fund did not invest in transitional and enabling activities.
- How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

In line with its investment strategy, namely, the Fund's commitment to maintain a minimum exposure to 'sustainable investments' with an environmental objective as per the SFDR art. 2(17) that do not qualify as environmentally sustainable under the EU Taxonomy Regulation, 9.44% of the Fund was comprised of 'sustainable investments' with an environmental objective that do not qualify as environmentally sustainable under the EU Taxonomy.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The proportion of investments under '#2 Other' was 1.36% and included cash and derivatives for which there were no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Western Asset believes that financially material ESG factors can affect the creditworthiness of fixed-income issuers' securities and therefore impact the performance of fixed-income investment portfolios. These factors are wholly consistent with the Firm's long-term, fundamental value-oriented investment philosophy. Western Asset's research analysts were responsible for providing fundamental analysis at the industry and issuer levels and for opining on industry and issuer risk/reward characteristics by incorporating material ESG considerations. Supported by this broader approach, the Fund aimed to meet its environmental and/or social characteristics by seeking to invest in issuers such that the overall portfolio met minimum ESG ratings, achieved its decarbonisation and SDG alignment, as well as avoided issuers which were identified through application of SRI exclusions, allocated to sectors and invested in issuers targeting.

In order to meet the environmental and/or social characteristics during the reference period:

A. The Fund sought an average MSCI ESG rating of BBB or better.

- B. The Fund sought an overall Weighted Average Carbon Intensity ("WACI") that was at least 20% below the proxy Benchmark. This helped the Fund align with PAI #3 and PAI #15 (GHG Intensity).
- C. The Fund sought to invest a minimum of 20% in investments in securities of issuers whose activities contribute to at least 1 of 8 selected SDGs.
- D. The Fund excluded issuers that failed on a range of SRI goals such as outlined below:
- a. Issuers deriving over 5% of revenue from tobacco production and/or distribution and from the production of nuclear weapons;
- b. Issuers deriving over 10% of revenue from civilian firearms (manufacture or supply), conventional weapons or thermal coal mining (production or distribution);
- c. Issuers that manufacture controversial weapons (anti-personnel landmines, biochemical weapons, blinding laser weapons, depleted uranium, incendiary weapons, and non-detectable fragments), own a controversial weapons company, or are owned by a controversial weapons company, aligning with PAI indicator #14 (Controversial Weapons);
- d. Issuers that 'Fail' UNGC and OECD principles based on internal research which seeks to identify gaps in issuers meeting their goals, aligning with PAI indicator #10 (Social and Employee Matters);
- e. State and/or sovereign issuers that fail to be designated as "free" by the Freedom House Index, aligning with PAI indicator #16 (Investee Countries subject to Social violation).

As part of the minimum 1% investment in sustainable investments (defined to be green, social, sustainable and sustainability-linked bonds), the Fund had 9.44% invested by market value % as of 28 February 2025.

The Fund promoted environmental and/or sustainable by demonstrated guidelines above as highlighted below:

- A. The Fund was rated __ A as per MSCI ESG.
- B. The Fund's overall WACI was 30.9% of the proxy Benchmark.
- C. The Fund's allocation to issuers and issues aligned with SDGs was 84.2% by MV% as of 28 February 2025.
- D. The Fund did not hold any issuers that were in breach of SRI guidelines.
- E. The Fund maintained a portfolio ESG rating higher than that of the investment universe.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote. Not applicable.

FTGF Western Asset Global Core Plus Bond Fund (the "Fund")

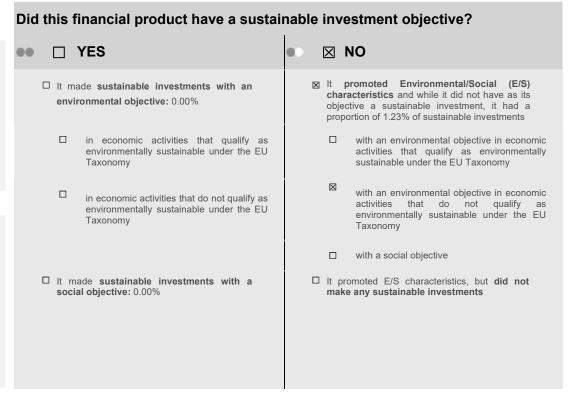

Legal Entity Identifier: 54930030VHR7UP4BBZ30

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted the following environmental and/or social characteristics:

- alignment with one or more UN Sustainable Development Goals ("SDGs") through investment in green, social, sustainable and sustainability-linked bonds and through best-in-class investments;
- alignment with the following PAI indicators:
- \circ GHG Intensity (PAI #3 and PAI #15);
- \circ Social and Employee Matters (PAI #10); and
- Controversial Weapons (PAI #14).

Derivative instruments have not been used to attain the environmental and/or social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental and/or social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The sustainability indicators used to measure the attainment of each of the environmental or social characteristics promoted by the Fund were:

- The PAI indicators mentioned in the answer above. Please refer to the values displayed below, which represent the performance of the indicators during the reference period.
- the allocation to green, social, sustainable and sustainability-linked bonds was at 1.23% as of 28 February 2025.

		PAI historical comparison					
		:	2025	2	2024	2	2023
PAI indicators	Unit of measurement	Value	Coverage	Value	Coverage	Value	Coverage
GHG Intensity USD	tCO2e/M\$ revenue	322.38	38.90%	64.51	30.03%	67.50	88.80%
GHG Intensity of investee countries USD	tCO2e/M\$ revenue	311.18	49.50%	197.16	100.00%	231.40	100.00%
Violations of UNGC principles and OECD Guidelines	Percentage of Fund invested	0.00%	39.01%	0.00%	30.89%	0.00%	87.00%
Exposure to controversial weapons	Percentage of Fund invested	0.00%	38.56%	0.00%	30.89%	0.00%	87.00%

… And compared to previous periods?

The general sustainability indicators are in line with those in the previous period.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

The objective of the Fund's sustainable investments was to reduce GHG emissions as measured through weighted average carbon intensity. The Fund's sustainable investments were in green, social, sustainable and sustainability-linked bonds which were achieved through a minimum allocation to issuers aligned with the SDGs and issuers that met best-in-class thresholds set by the Investment Manager. Such bonds had sustainability-linked KPIs, or had proceeds which were used for projects which included, but were not limited to:

- Green Projects: renewable energy, energy efficiency, pollution prevention and control, environmentally sustainable
 management of living natural resources and land use, biodiversity, clean transportation, sustainable water and
 wastewater management, climate change adaptation, circular economy and green buildings; and
- Social Projects: affordable housing, affordable infrastructure (clean drinking water, sanitation), employment
 programmes and socio-economic advancement such as, but not restricted to, education, diversity, equality and
 inclusion to name a few.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Investment Manager used proprietary research and PAIs to ensure that sustainable investments did not cause significant harm to any environmental or social sustainable investment objective. Proprietary research, along with the use of inhouse developed tools, including but not limited to screening, enabled portfolio managers to identify issuers that the Investment Manager does not believe cause significant harm.

As a result, the Investment Manager was able to invest in issuers which aligned with the PAI indicators while avoiding issuers which did not. As part of the Fund's investment in green, social, sustainable and sustainability-linked bonds, the Investment Manager applied this approach to determine whether a bond met sustainability criteria.

Additionally, sovereign issuers were subjected to tests based on their political liberties and/or corruption.

When deploying funds to sustainable investments, especially the minimum 1% of portfolio of the Fund committed towards environmental objectives, where relevant, the Investment Manager utilised additional qualitative assessment (based on internal research or on external third-party opinion) of the issuers and of the projects "do no significant harm" eligibility.

Further, a number of exclusions were applied to the Fund to preclude issuers that may cause significant harm, as detailed further below.

-How were the indicators for adverse impacts on sustainability factors taken into account?

The Investment Manager developed a proprietary PAI tool which took into account material PAIs and which helped measure the Fund's alignment with respect to PAI indicators that were deemed to be material to the Fund.

PAIs served as a useful barometer to gauge which issuers to seek to invest in. More specifically, PAI #3 was utilised for assessment of corporate GHG intensity and PAI #15 for sovereign GHG intensity respectively, PAI #10 was utilised to identify issuers that fail as per UNGC Principles and OECD Guidelines; and PAI #14 was utilised to identify issuers that fail controversial weapons screens across the whole Fund compared to those in the investable universe.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

While the Fund did not commit to having a PAI average better than its benchmark, the difference between the two metrics helped to inform how successful the Fund was at managing adverse impacts.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Fund adhered to explicit guidelines which excluded issuers that failed as per UNGC Principles and OECD Guidelines. The Investment Manager's engagement with issuers was built on the principles of UNGC Principles and OECD Guidelines. Issuers that were deemed to fail as per UNGC Principles and OECD Guidelines were added to the Investment Manager's ESG Red List which was then utilised to exclude issuers from being an eligible investment in the Fund. Where relevant, the Investment Manager sought to engage with issuers where it had concerns, which may or may not have explicitly failed as per the underlying guidelines.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The manner in which PAIs were considered and taken into account is set out in further detail above.

PAI metrics provided below are based on the average calculation of quarterly snapshots during the reference period. The relevant metric calculation relates to the investments for which the underlying ESG data is available rather than all investments held by the Fund. Please note that this information is subject to change and should be used for informational purposes only.

What were the top investments of this financial product?

The largest investments of this Fund during the reference period, excluding cash and derivatives, were:

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is - 2024-03-01 -

2025-02-28.

Largest investments	Sector	% of Assets	Country

Entertainment	0.49%
Diversified Telecommunication Services	0.44%

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- operational expenditure (OpEx) reflecting the green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

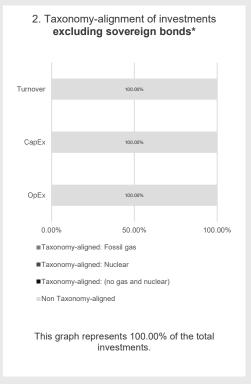

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?¹

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

- * For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures
- What was the share of investments made in transitional and enabling activities?
 The Fund did not invest in transitional and enabling activities.
- How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

In line with its investment strategy, namely, the Fund's commitment to maintain a minimum exposure to 'sustainable investments' with an environmental objective as per the SFDR art. 2(17) that do not qualify as environmentally sustainable under the EU Taxonomy Regulation, 1.23% of the Fund was comprised of 'sustainable investments' with an environmental objective that do not qualify as environmentally sustainable under the EU Taxonomy.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The proportion of investments under '#2 Other' was 5.32% and included cash and derivatives or issuers without an ESG rating for which there were no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Western Asset believes that financially material ESG factors can affect the creditworthiness of fixed-income issuers' securities and therefore impact the performance of fixed-income investment portfolios. These factors are wholly consistent with the Firm's long-term, fundamental value-oriented investment philosophy. Western Asset's research analysts were responsible for providing fundamental analysis at the industry and issuer levels and for opining on industry and issuer risk/reward characteristics by incorporating material ESG considerations. Supported by this broader approach, the Fund aimed to meet its environmental and social characteristics by seeking to invest in issuers such that the overall portfolio met minimum ESG ratings, achieved its decarbonisation and SDG alignment, as well as avoided issuers which were identified through application of SRI exclusions, allocated to sectors and invested in issuers targeting.

In order to meet the environmental and/or social characteristics during the reference period:

A. The Fund sought an average MSCI ESG rating of BBB or better.

- B. The Fund sought an overall Weighted Average Carbon Intensity ("WACI") that was at least 20% below the Benchmark. This helped the Fund align with PAI #3 and PAI #15 (GHG Intensity).
- C. The Fund sough to have at least 20%, with regards to investments in securities of issuers whose activities contribute to at least 1 of 8 selected SDGs.
- D. The Fund excluded issuers that fail on a range of SRI goals such as outlined below:
- a. Issuers deriving over 5% of revenue from tobacco production and/or distribution and from the production of nuclear weapons;
- b. Issuers deriving over 10% of revenue from civilian firearms (manufacture or supply), conventional weapons or thermal coal mining (production or distribution);
- c. Issuers that manufacture controversial weapons (anti-personnel landmines, biochemical weapons, blinding laser weapons, depleted uranium, incendiary weapons, and non-detectable fragments), own a controversial weapons company, or are owned by a controversial weapons company, aligning with PAI indicator #14 (Controversial Weapons);
- d. Issuers that 'Fail' UNGC and OECD principles based on internal research which seeks to identify gaps in issuers meeting their goals, aligning with PAI indicator #10 (Social and Employee Matters);

As part of the minimum 1% investment in sustainable investments (defined to be green, social, sustainable and sustainability-linked bonds), the Fund had 1.23% invested by market value % as of 28 February 2025.

The Fund met its environmental and/or sustainable guidelines as highlighted below:

- A. The Fund was rated __BBB_ as per MSCI ESG.
- B. The Fund's overall WACI was 77.3% of the Benchmark.
- C. The Fund's allocation to issuers and issues aligned with SDGs was 22.5%
- D. Using Western Asset definitions for UNGC, the Fund did not hold any issuers that were in breach of SRI guidelines.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote. Not applicable.

FTGF Brandywine Global Fixed Income Fund (the "Fund")

Legal Entity Identifier: 549300TFZOEP7EEQG432

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted environmental and social characteristics using several interconnected approaches. Each country was evaluated using the Investment Manager's 60+ input ESG scoring methodology to assess environmental, social, and governance characteristics. These characteristics included assessments on physical and transition climate risks, environmental conservation and waste, labour rights, education, individual and institutional freedom, women and children's rights and protections, crime and corruption and may have include other characteristics from time to time reflecting the unconstrained strategy pursued by the Fund. The Investment Manager's 60+ input ESG scoring methodology was used to create portfolio and investable universe scores and rankings, with the lowest scoring 10% excluded from consideration; these scores also drove material engagement topics to address with issuers in the second lowest decile (80th - 90th percentile scores) which also included GHG emissions, a mandatory sovereign PAI. No reference benchmark was designated for the purpose of attaining the environmental or social characteristics promoted by the Fund.

Issuers in the lowest scoring 10% (the bottom decile) were excluded from the investable universe during the reporting period.

Issuers in 10-20% worst scoring (2nd lowest decile) were treated as engagement candidates during the reporting period.

Derivative instruments were not used to attain the environmental / social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental /social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The sustainability indicators used to measure the attainment of the environmental or social characteristics promoted by the Fund were:

- A. Specific Inputs into the ESG scoring methodology employed by the Investment Manager which aligned with the environmental or social characteristics by the Fund. These inputs derived from:
- 1. The application of the ESG exclusions

The Fund commits to excluding issuers in the lowest scoring decile of the investment universe. No divestments were made as no holdings fell into the bottom decile. The bottom decile remained excluded.

- 2. The Fund treats those issuers scoring in the second lowest decile as engagement candidates. As a result, the following engagements were conducted: Mexico.
- B. Tracking of the relevant Principle Adverse Impact (PAI) indicators such as PAI #15 (GHG intensity).

		PAI historical comparison					
			2025	:	2024	;	2023
PAI indicators	Unit of measurement	Value	Coverage	Value	Coverage	Value	Coverage
GHG Intensity of investee countries USD	tCO2e/M\$ revenue	265.31	95.03%	386.70	83.31%	488.87	86.14%

… And compared to previous periods?

The Fund commits to excluding issuers in the lowest scoring decile of the investment universe. The following divestments were made as a result:

- Previous Period: No divestments were made as no holdings fell into the bottom decile. The bottom decile remained excluded.
- Current Period: No divestments were made as no holdings fell into the bottom decile. The bottom decile remained excluded.

The Fund treats those issuers scoring in the second lowest decile as engagement candidates. As a result, the following engagements were conducted:

- Previous Period: Republic of South Africa
- · Current Period: Mexico

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

Not applicable. The Fund does not commit to have sustainable investments.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable. The Fund does not commit to have sustainable investments.

-How were the indicators for adverse impacts on sustainability factors taken into

Not applicable. The Fund does not commit to have sustainable investments.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable. The Fund does not commit to have sustainable investments.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Mandatory PAIs for sovereigns were tracked, measured, and reported; the Investment Manager also used changes in PAIs and related KPIs to assess opportunity for and realized improvement, which informed investments and position sizes. The Investment Manager assessed "do not significant harm" thresholds on fundamental, sector/industry, country, and portfolio levels to make

353

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-

bribery matters.

investment decisions. The two sovereign PAIs (PAI #15 (GHG intensity) and PAI #16 (Investee countries subject to social violations)) were included in the Investment Manager's proprietary ESG scoring methodology.

What were the top investments of this financial product?

The largest investments of this Fund during the reference period, excluding cash and derivatives, were:

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is - 2024-03-01 - 2025-02-28.

Largest investments	Sector	% of Assets	Country
US TREASURY N/B	REASURY N/B Government Bonds		United States
US TREASURY FRN	Government Bonds	32.66%	United States

What was the proportion of sustainability-related investments?

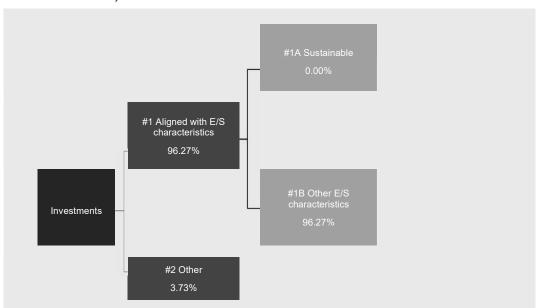

The proportion of sustainability-related investments was 0%.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

A portion of 96.27% of the portfolio was aligned with the E/S characteristics promoted by the Fund. The remaining portion (3.73%) was not aligned with the promoted characteristics and primarily consisted of liquid assets.

The Fund did not make any sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category #1A Sustainable covers environmentally and socially sustainable investments.
- The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

	Asset Allocation historical comparison		
	2025	2024	2023

In which economic sectors were the investments made?

The top sectors and sub-sectors of this Fund during the reference period, excluding cash and derivatives, were:

Top sector	% of Assets
Government Bonds	96.27%
Top sub-sector	% of Assets
Government Bonds	96.27%

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- operational expenditure (OpEx) reflecting the green operational activities of investee companies.

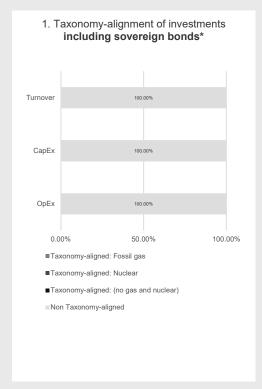

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

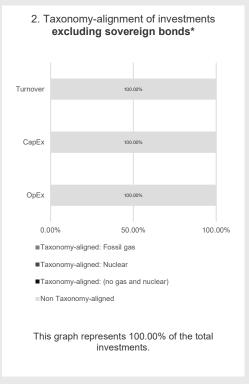

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?¹

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

- * For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures
- What was the share of investments made in transitional and enabling activities?
 The Fund did not invest in transitional and enabling activities.
- How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

0% of the Fund's investments were in sustainable investments with an environmental objective that are not aligned with the EU Taxonomy.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

0% of the Fund's investments were in socially sustainable investments.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The financial product had a 3.73% share of investments which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

- 1. The Fund commits to excluding issuers in the lowest scoring decile of the investment universe. No divestments were made as no holdings fell into the bottom decile. The bottom decile remained excluded.
- 2. The Fund treats those issuers scoring in the second lowest decile as engagement candidates. As a result, the following engagements were conducted: Mexico
- 3. Up to 90% of investments were tracked and monitored for environmental and social factor deterioration or improvements

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote. Not applicable.

FTGF Brandywine Global Income Optimiser Fund (the "Fund")

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

To what extent were the environmental and/or social characteristics promoted by this financial product met?

In terms of sovereign issuers, the ESG analysis framework covered a wide range of ESG factors using a 60+ input ESG scoring methodology and those factors included but were not limited to: deforestation and land usage/conservation, climate change vulnerability, overall greenhouse gas emissions, reliance on fossil fuel exports, water usage, civil and political rights, private sector oversight and regulation, particularly with respect to safety. Regarding corporate issuers, the Investment Manager evaluated environmental and social issues that included but were not limited to: carbon emissions and greenhouse gas emissions, water usage and conservation.

Issuers in the lowest scoring 10% (the bottom decile) were excluded from the investable universe during the reporting period.

Issuers in 10-20% worst scoring (2nd lowest decile) were treated as engagement candidates during the reporting period.

Derivative instruments were not used to attain the environmental / social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental /social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The sustainability indicators used to measure the attainment of the environmental or social characteristics promoted by the Fund were:

- A. Specific Inputs into the ESG scoring methodology employed by the Investment Manager which aligned with the environmental or social characteristics by the Fund. These inputs derived from:
- 1. The application of the ESG exclusions

The Fund commits to excluding issuers in the lowest scoring decile of the investment universe. The fund excluded investments in the lowest decile and no issuers fell into the lowest decile over the reporting period.

2. The Fund treats those issuers scoring in the second lowest decile as engagement candidates. As a result, the following engagements were conducted: Allegiant Travel Co, Arab Republic of Egypt, Civitas Resources Inc, Codelco Inc, Ero Copper Corp, Minerva Luxembourg SA, Mohegan Tribal Gaming AU, Nota do Tesouro Nacional, RenaissanceRe Holdings Ltd.

B. Tracking of the relevant Principle Adverse Impact (PAI) indicators such as PAI #15. Please, refer to the values displayed below.

C. Exposure to Green, Social and Sustainability (GSS) Bonds at 4.78% and the use of bond proceeds by issuers, specifically the use of proceeds of green, social, sustainable and transition bonds that meet the Fund's sustainable investments as a percentage of net assets commitment., such as, but not limited to:

- Clean and affordable energy (solar and biofuels)
- · Clean transportation
- · Decent work and economic growth
- Green buildings
- Sustainable cities and communities

		PAI historical comparison					
		:	2025	:	2024	:	2023
PAI indicators	Unit of measurement	Value	Coverage	Value	Coverage	Value	Coverage
GHG Intensity of investee countries USD	tCO2e/M\$ revenue	444.89	18.71%	437.25	24.40%	481.49	10.54%

... And compared to previous periods?

The Fund commits to excluding issuers in the lowest scoring decile of the investment universe. The following divestments were made as a result:

Previous Period: World Acceptance Corp

Current Period: No divestments were needed as no issuers fell into the lowest decile.

The Fund treats those issuers scoring in the second lowest decile as engagement candidates. As a result, the following engagements were conducted:

Previous Period: Civitas Resources Inc, Taseko Mines Ltd., Mexico, Devon Energy Corporation, Colombia, Leviathan Bond Ltd, Texas Capital Bancshares, Mileage Plus Holdings LLC, Continental Airlines, United Airlines, Republic of South Africa, Ford Motor Credit Co LLC, Vici Properties, Brazil, Dream Finders Homes Inc., Ero Copper Corp.

Current Period: Allegiant Travel Co, Arab Republic of Egypt, Civitas Resources Inc, Codelco Inc, Ero Copper Corp, Minerva Luxembourg SA, Mohegan Tribal Gaming AU, Nota do Tesouro Nacional, RenaissanceRe Holdings Ltd.

Exposure to Green, Social and Sustainability (GSS) Bonds

Previous Period: at 5.52%. The use of proceeds of these bonds were specified by the issuer (and verified by a third party or the Investment Manager) and benefited underlying environmental or social projects such as, but not limited to:

- Clean transportation & pollution control
- Recycled water
- Affordable and clean energy
- Reduction of poverty & inequalities
- Decent work and economic growth

Current Period: at 4.78%. The use of proceeds of these bonds were specified by the issuer (and verified by a third party or the Investment Manager) and benefited underlying environmental or social projects such as, but not limited to:

- Clean and affordable energy (solar and biofuels)
- Clean transportation
- Decent work and economic growth
- Green buildings
- Sustainable cities and communities

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

The Fund invested 4.78% of its net assets in green and/or social bonds which are sustainable investments. The Fund made such investments only where the use of the proceeds of such bonds were specified by the issuer (and verified by a third party or the Investment Manager) and benefited underlying environmental or social projects such as, but not limited to:

- Clean and affordable energy (solar and biofuels)
- Clean transportation
- Decent work and economic growth
- Green buildings
- Sustainable cities and communities

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

When evaluating the DNSH principle, the Investment Manager relied on a combination of internal fundamental research, sell-side research, news, PAIs, and ESG data from third party providers.

The Investment Manager reviewed any public sanctions flagged up via screens provided by a third-party provider, related to UN Global Compact (UNGC) failures, as well as measurements and KPIs related to the mandatory PAIs for both corporates and sovereigns. For sustainable investments in securities issued by governments or supranational organisations (which such supranational organisation does not have a specific mission statement that indicates that all the activities/projects being financed are sustainable), the Investment Manager evaluated the DNSH principle at use-of-proceeds level.

The Fund tracked mandatory PAIs to identify adverse impact exposures.

-How were the indicators for adverse impacts on sustainability factors taken into account?

Mandatory PAIs for corporates and sovereigns were tracked, measured, and reported. The Investment Manager assessed DNSH thresholds on a fundamental, sector/industry, country, and portfolio levels to make investment decisions. The Investment Manager's policy is to engage with issuers and then divest as a last resort. The Investment Manager divested immediately if a material short-term risk was uncovered.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Investment Manager tracked OECD/UNGC violations (sourced from a third party on an automated basis from January 2022) and failures; companies that failed were excluded from the portfolio/investment universe.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Mandatory PAIs for corporates and sovereigns were tracked, measured, and reported. The Investment Manager also used changes in PAIs and related KPIs to assess opportunity for and realized improvement, which informed investments and position sizes.

The Investment Manager assessed "do not significant harm" thresholds on fundamental, sector/industry, country, and portfolio levels to make investment decisions.

The mandatory PAIs were not all inherently included in the proprietary ESG scoring for this Fund. However, the Investment Manager tracked and monitored the PAIs.

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is - 2024-03-01 - 2025-02-28.

What were the top investments of this financial product?

The largest investments of this Fund during the reference period, excluding cash and derivatives, were:

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

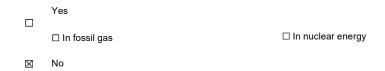

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- operational expenditure (OpEx) reflecting the green operational activities of investee companies.

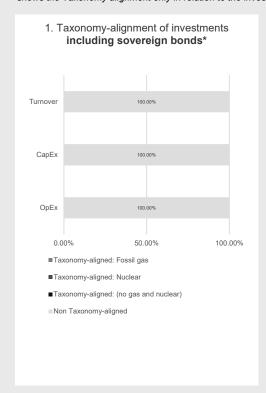

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

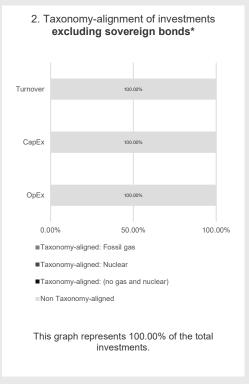

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?¹

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

- * For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures
- What was the share of investments made in transitional and enabling activities?
 The Fund did not invest in transitional and enabling activities.
- How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

The financial product had a share of investments with an environmental objective not aligned with the EU taxonomy of 4.78%.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

The financial product had a share of investments with a social objective of 0%.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The financial product had a 4.81% share of investments which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

- 1. The Fund commits to excluding issuers in the lowest scoring decile of the investment universe. The fund excluded investments in the lowest decile and no issuers fell into the lowest decile over the reporting period.
- 2. The Fund treats those issuers scoring in the second lowest decile as engagement candidates. As a result, the following engagements were conducted: Allegiant Travel Co, Arab Republic of Egypt, Civitas Resources Inc, Codelco Inc, Ero Copper Corp, Minerva Luxembourg SA, Mohegan Tribal Gaming AU, Nota do Tesouro Nacional, RenaissanceRe Holdings Ltd.
- 3. Up to 90% of investments were tracked and monitored for environmental and/or social factor deterioration or improvements.
- 4. The Fund invested at least 1% of its net assets in sustainable investments with environmental/social objectives, as outlined above.5. The Fund did not invest in its set revenue thresholds, as outlined in the prospectus, for the following industries:
 - Tobacco
 - Thermal coal
 - · Controversial weapons including nuclear weapons
 - Adult entertainment

The Fund did not invest in issuers that are assessed as 'fail' under the United Nations Global Compact nor in sovereign issuers identified as high-risk jurisdictions or in the UN Security Council Sanctions.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote. Not applicable.

FTGF ClearBridge US Value Fund (the "Fund")

Legal Entity Identifier: 5493000ZGGIQZ97B7W66

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

Did this financial product have a sustainable investment objective? ☐ YES \bowtie NO 00 It promoted Environmental/Social ☐ It made sustainable investments with an characteristics and while it did not have as its environmental objective: 0.00% objective a sustainable investment, it had a proportion of 31.88% of sustainable investments in economic activities that qualify as with an environmental objective in economic environmentally sustainable under the EU activities that qualify as environmentally sustainable under the EU Taxonomy Taxonomy with an environmental objective in economic in economic activities that do not qualify as activities that do not qualify environmentally sustainable under the EU environmentally sustainable under the EU Taxonomy with a social objective ☐ It made sustainable investments with a ☐ It promoted E/S characteristics, but did not social objective: 0.00% make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

In selecting securities during the reporting period, the Investment Manager used an established proprietary research and engagement process to determine a company's profile on environmental, social and governance ("ESG") issues. This proprietary process generated an ESG ratings system that utilized a materiality map to identify specific ESG characteristics that pertained to the investment

The environmental and/or social characteristics promoted by the Fund were:

- Environmental factors such as a company's environmental practices, Greenhouse Gas (GHG) emissions and energy efficiency initiatives;
- Social factors such as a company's approach to community relations, occupational safety and health, and reliability and pricing of services

Amongst its investments, the Fund maintained its committed 5% percent "sustainable investment" minimum.

Derivative instruments have not been used to attain the environmental / social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental /social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The sustainability indicators used to measure the attainment of each of the environmental or social characteristics promoted by the Fund were:

- 31.88% of the Fund held in sustainable investments as defined under the Investment Manager's proprietary sustainable investments methodology which includes product and/or service alignment with the United Nations Sustainable Development Goals ("SDG") and consideration of Do No Significant Harm (DNSH);
- all Principal Adverse Impact (PAI) indicators which were material to the company being rated, specifically PAI #1
 (GHG Emissions), PAI #2 (Carbon Footprint), PAI #3 (GHG Intensity), PAI #10 (Violations of UN Global Compact
 (UNGC) and OECD Guidelines), PAI #13 (Board Gender Diversity) and PAI #14 (Exposure to Controversial
 Weapons). Please refer to the values disclosed in the section "How did this financial product consider principal
 adverse impacts on sustainability factors?";

- voted on 910 agenda items, which support proposals around good governance and improving sustainability practices
- the percentage of the portfolio rated B under the Investment Manager's proprietary ESG rating that was equal to 1.2%
- proprietary methodologies to assess the progress of the Investment Manager's ESG engagement meetings;
 ClearBridge conducted periodic ESG engagements with its portfolio companies. Investment team's views of progress discussed during these meetings were reflected in their proprietary ESG ratings, proxy voting decisions, and investments decisions.
- Fund is considered in-scope for ClearBridge's Net Zero target and was measured against the proportion of companies that have set, and have committed to set, science-based targets for greenhouse gas emissions reductions or are climate solutions providers; 33.32%

… And compared to previous periods?

The general sustainability indicators are in line with those in the previous period.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

The sustainable investments made by the Fund were in equity securities issued by companies which contributed to one or both of the following:

- through their products and services, to any one or more of the environmental or social objectives of the UN Sustainable Development Goals (SDGs) and their underlying targets and indicators determined through the Investment Manager's assessment for contribution; 16.85% of the portfolio
- GHG intensity and emissions reduction targets across a firm's economic activities determined through a third party verified decarbonization target aligned to the Paris Agreement or is a climate solutions provider. Issuers were monitored for progress against targets through our engagement process; 33.32% of the portfolio

In addition to contributing to one of the environmental or social objectives listed above, companies were evaluated by the Investment Manager's proprietary good governance screen and passed the Do No Significant Harm (DNSH) criteria as further detailed below.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Investment Manager used a combination of third party severe risk controversy scores, third-party global norms-based screening including UN Global Compact (UNGC) compliance, PAI consideration* and other material environmental, social, and governance factors, which were embedded in the Investment Manager's fundamental research and proprietary ESG ratings process, which included a good governance evaluation, to review if investments caused significant harm to any sustainable investment objective.

Additionally, the Investment Manager used its engagement process to identify best in class securities.

*The PAIs taken into consideration were dependent on the Investment Manager's proprietary ESG materiality assessment by sub-sector which was applied during its ESG rating process or on data availability.

----How were the indicators for adverse impacts on sustainability factors taken into account?

All PAIs which were material to the company being rated were considered as part of the Investment Manager's ESG rating which was applied as part of the security selection process.

The manner in which PAIs were considered and taken into account is set out in further detail below.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Investment Manager supports the principles of the UNGC. Therefore, the Fund did not invest in companies that violated any of the ten principles in each of the four areas (human rights, labour, environment, and anti-corruption) of the UNGC.

The Investment Manager used a third-party data provider who monitored compliance with UNGC principles. In instances where there were discrepancies or disagreements between the Investment Manager's research and the provider's assessment of a specific controversy, the Investment Manager, along with the compliance team and members of the ESG team engaged the company on the issue. Where the Investment Manager reached a consensus that the company had taken the necessary steps to address the controversy, or had effectively remediated the issue, the Investment Manager provided a detailed explanation for why the company continued to be invested in.

To ensure sustainable investments were aligned with the OECD guidelines, the Investment Manager used a third-party provider as a best effort to monitor compliance and potential violations.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

All PAIs which were material to the company being rated were considered as part of the Investment Manager's ESG rating which was applied as part of the security selection process, specifically:

PAI #1 (GHG Emissions), PAI #2 (Carbon Footprint), PAI #3 (GHG Intensity)

The Investment Manager assessed the specific climate-related risks and opportunities faced by individual companies as part of its stock selection process, which integrated these considerations, among other environmental, social and governance considerations;

While the Investment Manager assessed each sector on a specific set of criteria that was pertinent to its business operations, the assessment generally included careful consideration of climate-related factors such as: the regulatory/policy environment; the geographic location of assets and operations; the ability to pass on costs to customers; technology alternatives and advancements; changing customer preferences; commodity prices; future capital expenditure and R&D plans; long-term business strategy; overall quality of the management team; and other factors; and

The Investment Manager used MSCI Carbon Portfolio Analytics to assess exposure to companies with fossil fuel reserves. The Investment Manager conducted carbon intensity analysis on the firm's investments in aggregate to understand the carbon intensity of the firm's total assets relative to the global equity markets. The Investment Manager also conducted analysis on carbon intensity at the portfolio level.

PAI #10 (Violation of UNGC / OECD Guidelines)

Please refer to "Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?"

PAI #13 (Board gender diversity)

The Investment Manager uses third-party data for board gender diversity monitoring. Further, on a case-by-case basis, the Investment Manager has a provision in its Proxy Voting Policy to vote with respect to the nominating committee members and chair if the company

does not have at least one female or ethnically/racially diverse board director. The Investment Manager considered Diversity as a component of its ESG analysis and rating, as well as a firm-wide theme for company engagement.

PAI #14 (Exposure to controversial weapons)

The Fund did not invest in companies that generate any turnover from (a) banned weapons according to (i) The Convention of the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on their Destruction and (ii) The Convention on the Prohibition of Cluster Munitions and (b) weapons classed as either B- or C- weapons pursuant to the United Nations Biological Weapons Convention and the United Nations Chemical Weapons Convention respectively.

What were the top investments of this financial product?

The largest investments of this Fund during the reference period, excluding cash, were:

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is - 2024-03-01 - 2025-02-28.

What was the proportion of sustainability-related investments?

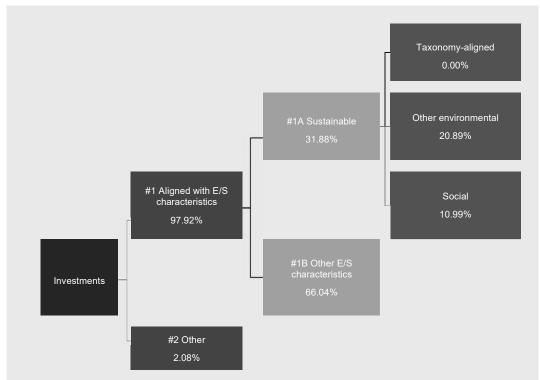

The proportion of sustainability-related investments was 31.88%.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

A portion of 97.92% of the Fund's portfolio was aligned with the E/S characteristics promoted by the Fund. The remaining portion (2.08%) was not aligned with the promoted characteristics and consisted primarily of liquid assets.

Out of the Fund's portfolio segment which is aligned with the promoted environmental and/or social characteristics, the Fund invested 31.88% of its portfolio in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category #1A Sustainable covers environmentally and socially sustainable investments.
- The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

	Asset Allocation historical comparison

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- operational expenditure (OpEx) reflecting the green operational activities of investee companies.

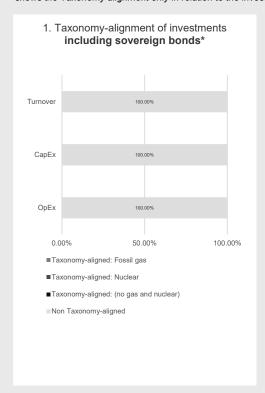

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

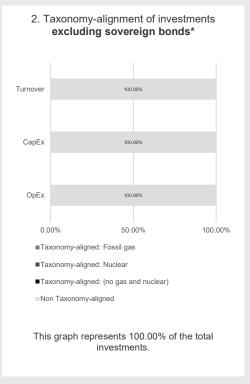

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?¹

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

- * For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures
- What was the share of investments made in transitional and enabling activities?
 The Fund did not invest in transitional and enabling activities.
- How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

As a result of the investment strategy of the Fund, the Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy and, accordingly, as of the end of February 2025, 20.89% of the portfolio of the Fund was comprised of investments with an environmental objective not aligned with the EU Taxonomy.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

The share of socially sustainable investments was 10.99%

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The proportion of investments under "#2 Other" was 2.08% and comprised of cash held on deposit and derivative instruments used for hedging and derivatives for which there were no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

1. The Investment Manager utilized its proprietary rating system and fundamental research to assess how a company managed its ESG risks and opportunities, including a good governance screen. The rating system consisted of four rating levels: AAA, AA, A and B, which were assigned to companies based on their sustainability strategy and performance key ESG issues. All companies in the Fund were rated. The rating distribution for this Fund as of 28 February 2025 was:

AAA: 14.4%

AA: 61.4%

A: 23.0%

B: 1.2%

- 2. The Investment Manager continuously engaged with its portfolio companies. ESG engagement at ClearBridge generally had two overlapping objectives:
 - Research: Gaining a better understanding of ESG issues that could impact our investment thesis
 - Impact: Encouraging specific changes at the company that could lead to positive real-world impact

Additionally, the Investment Manager engaged directly with the "B" rated companies held by the Fund on a regular basis, with the goal of improving on the material environmental and/or social attributes of those companies.

For more details on our engagement approach, please refer to our Engagement and Stewardship policy found here: https://franklintempletonprod.widen.net/content/qz5ty08kfn/original/engagementstewardshippolicy.pdf

3.The Fund did not invest in its set revenue thresholds, as outlined in the prospectus, for the following industries:

- Tobacco
- · Controversial weapons
- Companies that generate 10% or more of their turnover directly from conventional weapons.
- 4. The Fund did not invest in companies that violate one or several of the ten principles under the four areas covered by UNGC (human rights, labour, environment and anti-corruption).

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote. Not applicable.

FTGF ClearBridge US Appreciation Fund (the "Fund")

Legal Entity Identifier: 549300SQ18HYQNQ20536

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

Did this financial product have a sustainable investment objective? ☐ YES \bowtie NO 00 promoted Environmental/Social ☐ It made sustainable investments with an characteristics and while it did not have as its environmental objective: 0.00% objective a sustainable investment, it had a proportion of 58.49% of sustainable investments in economic activities that qualify as with an environmental objective in economic environmentally sustainable under the EU activities that qualify as environmentally sustainable under the EU Taxonomy Taxonomy with an environmental objective in economic in economic activities that do not qualify as activities that do not qualify environmentally sustainable under the EU environmentally sustainable under the EU Taxonomy with a social objective ☐ It made sustainable investments with a ☐ It promoted E/S characteristics, but did not social objective: 0.00% make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

In selecting securities during the reporting period, the Investment Manager used an established proprietary research and engagement process to determine a company's profile on environmental, social and governance ("ESG") issues. This proprietary process generated an ESG ratings system that utilized a materiality map to identify specific ESG characteristics that pertained to the investment. The environmental and/or social characteristics promoted by the Fund were key (ESG) issues deemed material to the specific company and the sector in which the company operates which included, but were not limited to, health and safety, gender diversity, climate risk, corporate governance risk and data security.

Additionally, the Fund has maintained its committed 5% percent "sustainable investment" minimum

Derivative instruments have not been used to attain the environmental / social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental /social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The sustainability indicators used to measure the attainment of each of the environmental or social characteristics promoted by the Fund were:

- 58.49% of the Fund held in sustainable investments as defined under the Investment Manager's proprietary sustainable investments methodology which includes product and/or service alignment with the United Nations Sustainable Development Goals ("SDG"), which was 30.69%, and consideration of Do No Significant Harm (DNSH);
- specific Principal Adverse Impact (PAI) indicators, namely: PAI #1 (GHG Emissions), PAI #2 (Carbon Footprint), PAI #3 (GHG Intensity), PAI #10 (Violations of UN Global Compact and OECD Guidelines), PAI #13 (Board Gender Diversity) and PAI #14 (Exposure to controversial weapons) were calculated. Please refer to the values disclosed in the section "How did this financial product consider principal adverse impacts on sustainability factors?";
- proprietary methodologies to assess the progress of the Investment Manager's ESG engagement meetings ClearBridge conducted periodic ESG engagements with its portfolio companies. The investment team's views of progress discussed during these meetings were reflected in their proprietary ESG ratings, proxy voting decisions, and investments decisions.
- voted on 1037 agenda items which support proposals around good governance and improving sustainability

- practices;
- portfolio exposure to best-in-class companies as determined by the Investment Manager's proprietary ESG rating.
 The rating distribution for this Fund as of 28 February 2025 is:
- o AAA: 37.7%
- o AA: 43.4%
- o A: 18.9%
- o B: 0 %

… And compared to previous periods?

The general sustainability indicators are in line with those in the previous period.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

The sustainable investments made by the Fund were in equity securities issued by companies which contributed to at least one of the following:

- through their products and services, to any one or more of the environmental or social objectives of the SDGs and their underlying targets and indicators determined through the Investment Manager's assessment for contribution; 30.69 % of the portfolio
- GHG intensity and emissions reduction targets across a firm's economic activities determined through a third party verified decarbonization target aligned to the Paris Agreement or is a climate solutions provider; 27.80% of the portfolio

In addition to contributing to one of the environmental or social objectives listed above, companies were evaluated by the Investment Manager's proprietary good governance screen and passed the Do No Significant Harm (DNSH) criteria as further detailed below.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Investment Manager used a combination of third party severe risk controversy scores, third-party global norms-based screening including UN Global Compact (UNGC) compliance, PAI consideration* and other material environmental, social, and governance factors, which were embedded in the Investment Manager's fundamental research and proprietary ESG ratings process, which included a governance evaluation, to review if investments cause significant harm to any sustainable investment objective.

Additionally, the Investment Manager used its engagement process to identify best in class securities.

*The PAIs taken into consideration were dependent on the Investment Manager's proprietary ESG materiality assessment by sub-sector which was applied during its ESG rating process or on data availability.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

-How were the indicators for adverse impacts on sustainability factors taken into account?

All PAIs which were material to the company being rated were considered as part of the Investment Manager's ESG rating which was applied as part of the security selection process.

The manner in which PAIs were considered and taken into account is set out in further detail below.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Investment Manager supports the principles of the UNGC. Therefore, the Fund did not invest in companies that violated any of the ten principles in each of the four areas (human rights, labour, environment, and anti-corruption) of the UNGC.

The Investment Manager used a third-party data provider who monitored compliance with UNGC principles. In instances where there were discrepancies or disagreements between the Investment Manager's research and the provider's assessment of a specific controversy, the Investment Manager, along with the compliance team and members of the ESG team engaged the company on the issue. Where the Investment Manager reached a consensus that the company had taken the necessary steps to address the controversy, or had effectively remediated the issue, the Investment Manager provided a detailed explanation for why the company continued to be invested in.

To ensure sustainable investments were aligned with the OECD guidelines, the Investment Manager used a third-party provider as a best effort to monitor compliance and potential violations.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

All PAIs which were material to the company being rated were considered as part of the Investment Manager's ESG rating which was applied as part of the security selection process, specifically:

PAI #1 (GHG Emissions), PAI #2 (Carbon Footprint), PAI #3 (GHG Intensity)

The Investment Manager assessed the specific climate-related risks and opportunities faced by individual companies as part of its stock selection process, which integrated these considerations, among other environmental, social and governance considerations;

While the Investment Manager assessed each sector on a specific set of criteria that was pertinent to its business operations, the assessment generally included careful consideration of climate-related factors such as: the regulatory/policy environment; the geographic location of assets and operations; the ability to pass on costs to customers; technology alternatives and advancements; changing customer preferences; commodity prices; future capital expenditure and R&D plans; long-term business strategy; overall quality of the management team; and other factors; and

The Investment Manager used MSCI Carbon Portfolio Analytics to assess exposure to companies with fossil fuel reserves. The Investment Manager conducted carbon intensity analysis on the firm's investments in aggregate to understand the carbon intensity of the firm's total assets relative to the global equity markets. The Investment Manager can also conduct analysis on carbon intensity at the portfolio level.

PAI #10 (Violation of UNGC / OECD Guidelines)

Please refer to "Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?".

PAI #13 (Board gender diversity)

The Investment Manager uses third-party data for board gender diversity monitoring. Further, on a case-by-case basis, the Investment Manager has a provision in its Proxy Voting Policy to vote with respect to the nominating committee members and chair if the company does not have at least one female or ethnically/racially diverse board director. The Investment Manager considered Diversity as a component of its ESG analysis and rating, as well as a firm-wide theme for company engagement.

PAI #14 (Exposure to controversial weapons)

The Fund did not invest in companies that generate any of their turnover from the production and/or distribution of controversial weapons (i.e., antipersonnel mines, nuclear weaponry, biological & chemical weaponry, and cluster munitions).

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is - 2024-03-01 - 2025-02-28.

What were the top investments of this financial product?

The largest investments of this Fund during the reference period, excluding cash, were:

Largest investments	Sector	% of Assets	Country
MICROSOFT CORPORATION	Information Technology	8.02%	United States
APPLE INC.	Information Technology	5.75%	United States
AMAZON.COM, INC.	Consumer Discretionary	4.40%	United States

What was the proportion of sustainability-related investments?

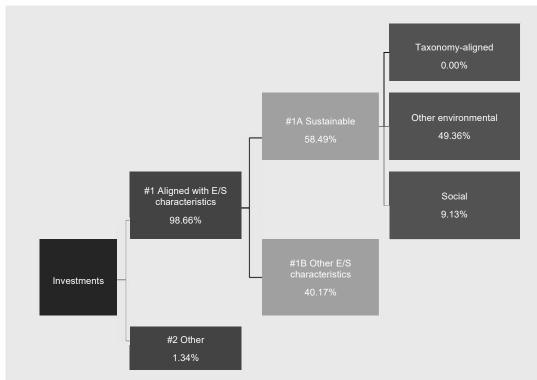

The proportion of sustainability-related investments was 58.49%.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

A portion of 98.66% of the Fund's portfolio was aligned with the E/S characteristics promoted by the Fund. The remaining portion (1.34%) was not aligned with the promoted characteristics and consisted primarily of liquid assets.

Out of the Fund's portfolio segment which was aligned with the promoted environmental and/or social characteristics, the Fund invested 58.49% of its portfolio in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category #1A Sustainable covers environmentally and socially sustainable investments.
- The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

	Asset Allocation historical comparison					
	2025 2024 2023

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- expenditure (OpEx)
 reflecting the green
 operational activities of
 investee companies.

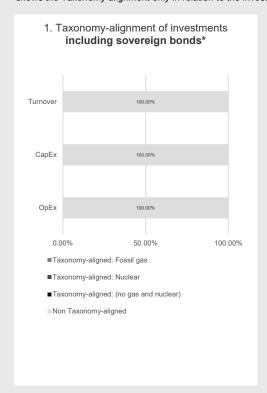

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

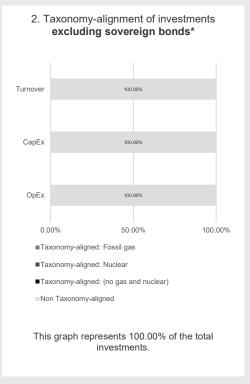

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?¹

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

- * For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures
- What was the share of investments made in transitional and enabling activities?
 The Fund did not invest in transitional and enabling activities.
- How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

As a result of the investment strategy of the Fund, the Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy and, accordingly, as of the end of February 2025, 49.36% of the portfolio of the Fund was comprised of investments with an environmental objective not aligned with the EU Taxonomy.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

The share of socially sustainable investments was 9.13%.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The proportion of investments under "#2 Other" was 1.34% and comprised of cash held on deposit and derivative instruments used for hedging and derivatives for which there were no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

1. The Investment Manager utilized its proprietary rating system and fundamental research to assess how a company manages its ESG risks and opportunities, including good governance. The rating system consisted of four rating levels: AAA, AA, A and B, which were assigned to companies based on their sustainability strategy and performance key ESG issues. All companies in the Fund were rated. The rating distribution for this Fund as of 28 February 2025 was:

AAA: 37.7%

AA: 43,4%

A: 18.9%

B: 0%

- 2. The Investment Manager continuously engaged with its portfolio companies. ESG engagement at ClearBridge generally had two overlapping objectives:
 - Research: Gaining a better understanding of ESG issues that could impact our investment thesis
 - Impact: Encouraging specific changes at the company that could lead to positive real-world impact

For more details on our engagement approach, please refer to our Engagement and Stewardship policy found here: https://franklintempletonprod.widen.net/content/qz5ty08kfn/original/engagementstewardshippolicy.pdf

- 3. The Fund did not invest in its set revenue thresholds, as outlined in the prospectus, for the following industries:
 - Tobacco
 - · Controversial weapons
 - Gambling
 - Adult entertainment
- 4. The Fund did not invest in companies that violate one or several of the ten principles under the four areas covered by UNGC (human rights, labour, environment and anti-corruption).

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote. Not applicable.

FTGF ClearBridge US Large Cap Growth Fund (the "Fund")

Legal Entity Identifier: 5493003YRBLHS9UVBW79

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

Did this financial product have a sustainable investment objective? ☐ YES \bowtie NO 00 promoted Environmental/Social ☐ It made sustainable investments with an characteristics and while it did not have as its environmental objective: 0.00% objective a sustainable investment, it had a proportion of 70.82% of sustainable investments in economic activities that qualify as with an environmental objective in economic environmentally sustainable under the EU activities that qualify as environmentally sustainable under the EU Taxonomy Taxonomy with an environmental objective in economic in economic activities that do not qualify as activities that do not gualify environmentally sustainable under the EU environmentally sustainable under the EU Taxonomy with a social objective ☐ It made sustainable investments with a ☐ It promoted E/S characteristics, but did not social objective: 0.00% make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

In selecting securities during the reporting period, the Investment Manager used an established proprietary research and engagement process to determine a company's profile on environmental, social and governance ("ESG") issues. This proprietary process generated an ESG ratings system that utilized a materiality map to identify specific ESG characteristics that pertained to the investment. The environmental and/or social characteristics promoted by the Fund were key (ESG) issues deemed material to the specific company and the sector in which the company operates which included, but were not limited to, health and safety, gender diversity, climate risk, corporate governance risk and data security.

Additionally, the fund has maintained its committed 20% percent "sustainable investment" minimum.

Derivative instruments have not been used to attain the environmental / social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental /social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The sustainability indicators used to measure the attainment of each of the environmental or social characteristics promoted by the Fund were:

- 70.82% of the Fund held in sustainable investments as defined under the Investment Manager's proprietary sustainable investments methodology which includes product and/or service alignment with the United Nations Sustainable Development Goals ("SDG") and consideration of Do No Significant Harm (DNSH);
- specific Principal Adverse Impact (PAI) indicators, namely PAI #1 (GHG Emissions), PAI #2 (Carbon Footprint), PAI #3 (GHG Intensity), PAI #10 (Violations of UN Global Compact and OECD Guidelines), PAI #13 (Board Gender Diversity) and PAI #14 (Exposure to controversial weapons). Please refer to the values disclosed in the section "How did this financial product consider principal adverse impacts on sustainability factors?";
- proprietary methodologies to assess the progress of the Investment Manager's ESG engagement meetings. ClearBridge conducted periodic ESG engagements with its portfolio companies. Investment team's views of progress discussed during these meetings were reflected in their proprietary ESG ratings, proxy voting decisions, and investments decisions.
- voted on 614 agenda items which support proposals around good governance and improving sustainability

- practices:
- portfolio exposure to best-in-class companies as determined by the Investment Manager's proprietary ESG rating.
 The rating distribution for this Fund as of 28 February 2025 was:
- o AAA: 44.4%
- o AA: 41.3%
- o A: 14.5%
- o B: 0%

Fund is considered in-scope for ClearBridge's Net Zero target and is therefore measured against the proportion of companies that have set, and have committed to set science-based targets for greenhouse gas reductions or are climate solutions providers; 62.15%

… And compared to previous periods?

The general sustainability indicators are in line with those in the previous period.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

The sustainable investments made by the Fund were in equity securities issued by companies which contributed to at least one of the following:

- through their products and services, to any one or more of the environmental or social objectives of the SDGs and their underlying targets and indicators determined through the Investment Manager's assessment for contribution; 33.30% of the portfolio
- GHG intensity and emissions reduction targets across a firm's economic activities determined through a third party
 verified decarbonization target aligned to the Paris Agreement or is a climate solutions provider. Issuers were
 monitored for progress against targets through our engagement process; 51.92% of the portfolio

In addition to contributing to one of the environmental or social objectives listed above, companies were evaluated by the Investment Manager's proprietary good governance screen and passed the Do No Significant Harm (DNSH) criteria as further detailed below.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Investment Manager used a combination of third party severe risk controversy scores, third-party global norms-based screening including UN Global Compact (UNGC) compliance, PAI consideration* and other material environmental, social, and governance factors, which were embedded in the Investment Manager's fundamental research and proprietary ESG ratings process, which included a governance evaluation, to review if investments cause significant harm to any sustainable investment objective.

Additionally, the Investment Manager used its engagement process to identify best in class securities.

*The PAIs taken into consideration were dependent on the Investment Manager's proprietary ESG materiality assessment by sub-sector which was applied during its ESG rating process or on data availability.

-----How were the indicators for adverse impacts on sustainability factors taken into account?

All PAIs which were material to the company being rated were considered as part of the Investment Manager's ESG rating which was applied as part of the security selection process.

The manner in which PAIs were considered and taken into account is set out in further detail below.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Investment Manager supports the principles of the UNGC. Therefore, the Fund did not invest in companies that violated any of the ten principles in each of the four areas (human rights, labour, environment, and anti-corruption) of the UNGC.

The Investment Manager used a third-party data provider who monitored compliance with UNGC principles. In instances where there were discrepancies or disagreements between the Investment Manager's research and the provider's assessment of a specific controversy, the Investment Manager, along with the compliance team and members of the ESG team engaged the company on the issue. Where the Investment Manager reached a consensus that the company had taken the necessary steps to address the controversy, or had effectively remediated the issue, the Investment Manager provided a detailed explanation for why the company continued to be invested in.

To ensure sustainable investments were aligned with the OECD guidelines, the Investment Manager used a third-party provider as a best effort to monitor compliance and potential violations.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

All PAIs which were material to the company being rated were considered as part of the Investment Manager's ESG rating which was applied as part of the security selection process, specifically:

PAI #1 (GHG Emissions), PAI #2 (Carbon Footprint), PAI #3 (GHG Intensity)

The Investment Manager assessed the specific climate-related risks and opportunities faced by individual companies as part of its stock selection process, which integrated these considerations, among other environmental, social and governance considerations;

While the Investment Manager assessed each sector on a specific set of criteria that was pertinent to its business operations, the assessment generally includes careful consideration of climate-related factors such as: the regulatory/policy environment; the geographic location of assets and operations; the ability to pass on costs to customers; technology alternatives and advancements; changing customer preferences; commodity prices; future capital expenditure and R&D plans; long-term business strategy; overall quality of the management team; and other factors; and

The Investment Manager used MSCI Carbon Portfolio Analytics to assess exposure to companies with fossil fuel reserves. The Investment Manager conducted carbon intensity analysis on the firm's investments in aggregate to understand the carbon intensity of the firm's total assets relative to the global equity markets. The Investment Manager also conducted analysis on carbon intensity at the portfolio level.

PAI #10 (Violation of UNGC / OECD Guidelines)

Please refer to "Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?"

PAI #13 (Board gender diversity)

The Investment Manager uses third-party data for board gender diversity monitoring. Further, on a case-by-case basis, the Investment Manager has a provision in its Proxy Voting Policy to vote with respect to the nominating committee members and chair if the company does not have at least one female or ethnically/racially diverse board director. The Investment Manager considered Diversity as a component of its ESG analysis and rating, as well as a firm-wide theme for company engagement.

PAI #14 (Exposure to controversial weapons)

The Fund did not invest in companies that generate any of their turnover from the production and/or distribution of controversial weapons (i.e., antipersonnel mines, nuclear weaponry, biological & chemical weaponry, and cluster munitions).

What were the top investments of this financial product?

The largest investments of this Fund during the reference period, excluding cash, were:

The list includes the
investments constituting
the greatest proportion
of investments of the
financial product during
the reference period
which is - 2024-03-01 -

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- operational
 expenditure (OpEx)
 reflecting the green
 operational activities of
 investee companies.

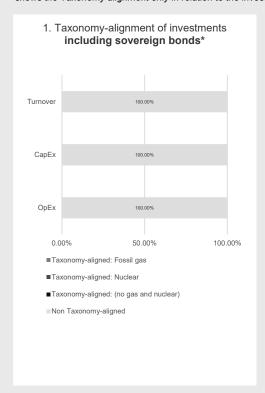

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

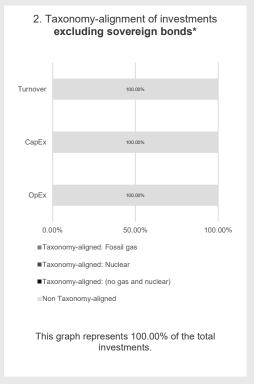

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?¹

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

- * For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures
- What was the share of investments made in transitional and enabling activities?
 The Fund did not invest in transitional and enabling activities.
- How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

As a result of the investment strategy of the Fund, the Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy and, accordingly, as of the end of February 2025, 70.82% of the portfolio of the Fund was comprised of investments with an environmental objective not aligned with the EU Taxonomy.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

The share of socially sustainable investments was 0%.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The proportion of investments under "#2 Other" was 2.56% and comprised of cash held on deposit and derivative instruments used for hedging and derivatives for which there were no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

1. The Investment Manager utilized its proprietary rating system and fundamental research to assess how a company managed its ESG risks and opportunities, including a good governance screen. The rating system consisted of four rating levels: AAA, AA, A and B, which were assigned to companies based on their sustainability strategy and performance key ESG issues. All companies in the Fund were rated. The rating distribution for this Fund as of 28 February 2025 was:

AAA: 44.4%

AA: 41.3%

A: 14.5%

B: 0%

- 2. The Investment Manager continuously engaged with its portfolio companies. ESG engagement at ClearBridge generally had two overlapping objectives:
 - Research: Gaining a better understanding of ESG issues that could impact our investment thesis
 - Impact: Encouraging specific changes at the company that could lead to positive real-world impact

For more details on our engagement approach, please refer to our Engagement and Stewardship policy found here: https://franklintempletonprod.widen.net/content/qz5ty08kfn/original/engagementstewardshippolicy.pdf

- 3. The Fund did not invest in its set revenue thresholds, as outlined in the prospectus, for the following industries:
 - Companies that generated 10% or more of their turnover directly from conventional weapons;
 - Companies that generated any of their turnover from the production and/or distribution of controversial weapons
 - Tobacco
 - Controversial weapons
 - Adult entertainment
- 4. The Fund did not invest in companies that violate one or several of the ten principles under the four areas covered by UNGC (human rights, labour, environment and anti-corruption).

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote. Not applicable.

FTGF ClearBridge US Aggressive Growth Fund (the "Fund")

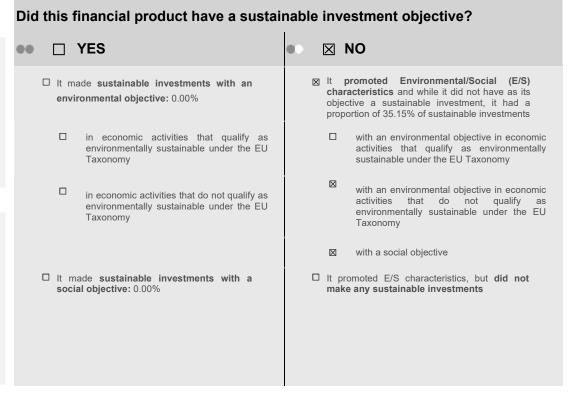

Legal Entity Identifier: 5493007ZJMPVPNDQMY52

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

To what extent were the environmental and/or social characteristics promoted by this financial product met?

In selecting securities during the reporting period, the Investment Manager used an established proprietary research and engagement process to determine a company's profile on environmental, social and governance ("ESG") issues. This proprietary process generated an ESG ratings system that utilized a materiality map to identify specific ESG characteristics that pertained to the investment. The environmental and/or social characteristics promoted by the Fund were key (ESG) issues deemed material to the specific company and the sector in which the company operates which included, but were not limited to, health and safety, gender diversity, climate risk, corporate governance risk and data security.

Additionally, the Fund has maintained its committed 5% percent "sustainable investment" minimum

Derivative instruments have not been used to attain the environmental / social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental /social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The sustainability indicators used to measure the attainment of each of the environmental or social characteristics promoted by the Fund were:

- 35.15% of the Fund held in sustainable investments as defined under the Investment Manager's proprietary sustainable investments methodology which includes product and/or service alignment with the United Nations Sustainable Development Goals ("SDG") and consideration of Do No Significant Harm (DNSH);
- specific Principal Adverse Impact (PAI) indicators, namely: PAI #1 (GHG Emissions), PAI #2 (Carbon Footprint), PAI #3 (GHG Intensity), PAI #10 (Violations of UN Global Compact and OECD Guidelines), PAI #13 (Board Gender Diversity) and PAI #14(Exposure to controversial weapons). Please refer to the values disclosed in the section "How did this financial product consider principal adverse impacts on sustainability factors?";
- proprietary methodologies to assess the progress of the Investment Manager's ESG engagement meetings. ClearBridge conducted periodic ESG engagements with its portfolio companies. Investment team's views of progress discussed during these meetings were reflected in their proprietary ESG ratings, proxy voting decisions, and investments decisions.
- voted on 448 agenda items which support proposals around good governance and improving sustainability

- practices;
- portfolio exposure to best-in-class companies as determined by the Investment Manager's proprietary ESG rating.
 The rating distribution for this Fund as of 28 February 2025 was:
- AAA: 24.3%
- AA: 43.1%
- A: 32.6%
- B: 0%

… And compared to previous periods?

The general sustainability indicators are in line with those in the previous period.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

The sustainable investments made by the Fund were in equity securities issued by companies which contributed to at least one of the following:

- through their products and services, to any one or more of the environmental or social objectives of the SDGs and their underlying targets and indicators determined through the Investment Manager's assessment for contribution; 16.73% of the portfolio
- GHG intensity and emissions reduction targets across a firm's economic activities determined through a third party verified decarbonization target aligned to the Paris Agreement or is a climate solutions provider; 18.42% of the portfolio

In addition to contributing to one of the environmental or social objectives listed above, companies were evaluated by the Investment Manager's proprietary good governance screen and passed the Do No Significant Harm (DNSH) criteria as further detailed below

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Investment Manager used a combination of third-party severe risk controversy scores, third-party global norms-based screening including UN Global Compact (UNGC) compliance, PAI consideration* and other material environmental, social, and governance factors, which were embedded in the Investment Manager's fundamental research and proprietary ESG ratings process, which included a governance evaluation, to review if investments cause significant harm to any sustainable investment objective.

Additionally, the Investment Manager used its engagement process to identify best in class securities.

*The PAIs taken into consideration were dependent on the Investment Manager's proprietary ESG materiality assessment by sub-sector which was applied during its ESG rating process or on data availability.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

-How were the indicators for adverse impacts on sustainability factors taken into account?

All PAIs which were material to the company being rated were considered as part of the Investment Manager's ESG rating which was applied as part of the security selection process.

The manner in which PAIs were considered and taken into account is set out in further detail below.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Investment Manager supports the principles of the UNGC. Therefore, the Fund did not invest in companies that violated any of the ten principles in each of the four areas (human rights, labour, environment, and anti-corruption) of the UNGC.

The Investment Manager used a third-party data provider who monitored compliance with UNGC principles. In instances where there were discrepancies or disagreements between the Investment Manager's research and the provider's assessment of a specific controversy, the Investment Manager, along with the compliance team and members of the ESG team engaged the company on the issue. Where the Investment Manager reached a consensus that the company had taken the necessary steps to address the controversy, or had effectively remediated the issue, the Investment Manager provided a detailed explanation for why the company continued to be invested in.

To ensure sustainable investments were aligned with the OECD guidelines, the Investment Manager used a third-party provider as a best effort to monitor compliance and potential violations.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

All PAIs which were material to the company being rated were considered as part of the Investment Manager's ESG rating which was applied as part of the security selection process, specifically:

PAI #1 (GHG Emissions), PAI #2 (Carbon Footprint), PAI #3 (GHG Intensity)

The Investment Manager assessed the specific climate-related risks and opportunities faced by individual companies as part of its stock selection process, which integrated these considerations, among other environmental, social and governance considerations;

While the Investment Manager assessed each sector on a specific set of criteria that was pertinent to its business operations, the assessment generally included careful consideration of climate-related factors such as: the regulatory/policy environment; the geographic location of assets and operations; the ability to pass on costs to customers; technology alternatives and advancements; changing customer preferences; commodity prices; future capital expenditure and R&D plans; long-term business strategy; overall quality of the management team; and other factors; and

The Investment Manager used MSCI Carbon Portfolio Analytics to assess exposure to companies with fossil fuel reserves. The Investment Manager conducted carbon intensity analysis on the firm's investments in aggregate to understand the carbon intensity of the firm's total assets relative to the global equity markets. The Investment Manager also conducted analysis on carbon intensity at the portfolio level.

PAI #10 (Violation of UNGC / OECD Guidelines)

Please refer to "Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?".

PAI #13 (Board gender diversity)

The Investment Manager uses third-party data for board gender diversity monitoring. Further, on a case-by-case basis, the Investment Manager has a provision in its Proxy Voting Policy to vote with respect to the nominating committee members and chair if the company does not have at least one female or ethnically/racially diverse board director. The Investment Manager considered Diversity as a component of its ESG analysis and rating, as well as a firm-wide theme for company engagement.

PAI #14 (Exposure to controversial weapons)

The Fund did not invest in companies that generate any of their turnover from the production and/or distribution of controversial weapons (i.e., antipersonnel mines, nuclear weaponry, biological & chemical weaponry, and cluster munitions).

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is - 2024-03-01 - 2025-02-28.

What were the top investments of this financial product?

The largest investments of this Fund during the reference period, excluding cash, were:

Largest investments	Sector	% of Assets	Country
VERTEX PHARMACEUTICALS INCORPORATED	Health Care	7.18%	United States
BROADCOM INC.	Information Technology	6.94%	United States
CROWDSTRIKE HOLDINGS, INC.	Information Technology	5.15%	United States
AUTODESK, INC.	Information Technology	5.10%	United States

What was the proportion of sustainability-related investments?

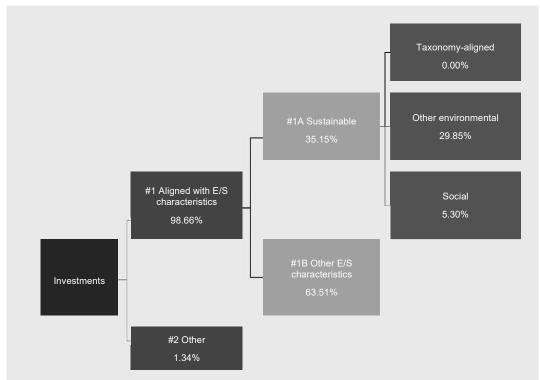

The proportion of sustainability-related investments was 35.15%.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

A portion of 98.66% of the Fund's portfolio was aligned with the E/S characteristics promoted by the Fund. The remaining portion (1.34%) was not aligned with the promoted characteristics and consisted primarily of liquid assets.

Out of the Fund's portfolio segment which was aligned with the promoted environmental and/or social characteristics, the Fund invested 35.15% of its portfolio in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category #1A Sustainable covers environmentally and socially sustainable investments.
- The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

	Asset Allocation historical comparison					
	2025	2024	2023

Commercial Services & Supplies	2.43%
Health Care Equipment & Supplies	2.37%

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- operational expenditure (OpEx) reflecting the green operational activities of investee companies.

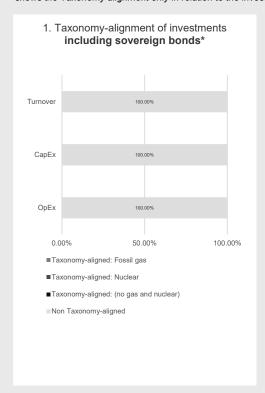

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

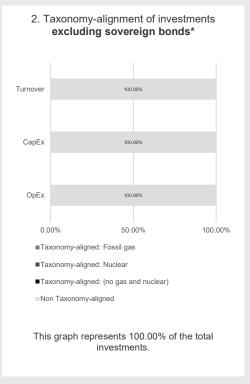

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?¹

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

- * For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures
- What was the share of investments made in transitional and enabling activities?
 The Fund did not invest in transitional and enabling activities.
- How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

As a result of the investment strategy of the Fund, the Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy and, accordingly, as of the end of February 2025, 29.85% of the portfolio of the Fund was comprised of investments with an environmental objective not aligned with the EU Taxonomy.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

The share of socially sustainable investments was 5.3%.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The proportion of investments under "#2 Other" was 1.34% and comprised of cash held on deposit and derivative instruments used for hedging and derivatives for which there were no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

- 1. The Investment Manager utilized its proprietary rating system and fundamental research to assess how a company managed its ESG risks and opportunities, including a good governance screen. The rating system consisted of four rating levels: AAA, AA, A and B, which were assigned to companies based on their sustainability strategy and performance key ESG issues. All companies in the Fund were rated. The rating distribution for this Fund as of 28 February 2025 was:
 - AAA- 24 3%
 - AA: 43.1%
 - A: 32.6%
 - B: 0%
- 2. The Investment Manager continuously engaged with its portfolio companies. ESG engagement at ClearBridge generally had two overlapping objectives:
 - · Research: Gaining a better understanding of ESG issues that could impact our investment thesis
 - · Impact: Encouraging specific changes at the company that could lead to positive real-world impact

For more details on our engagement approach, please refer to our Engagement and Stewardship policy found here: https://franklintempletonprod.widen.net/content/qz5ty08kfn/original/engagementstewardshippolicy.pdf

- 3. The Fund did not invest in its set revenue thresholds, as outlined in the prospectus, for the following industries:
 - Tobacco
 - Controversial weapons
 - Gambling
 - · Adult entertainment
- 4. The Fund did not invest in companies that violate one or several of the ten principles under the four areas covered by UNGC (human rights, labour, environment and anti-corruption).

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote. Not applicable.

FTGF ClearBridge US Equity Sustainability Leaders Fund (the "Fund")

Legal Entity Identifier: 549300RLIXEW79ZFOB12

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

Did this financial product have a sustainable investment objective? ☐ YES **⋈ NO** promoted Environmental/Social ☐ It made sustainable investments with an characteristics and while it did not have as its environmental objective: 0.00% objective a sustainable investment, it had a proportion of 84.13% of sustainable investments in economic activities that qualify as with an environmental objective in economic environmentally sustainable under the EU activities that qualify as environmentally sustainable under the EU Taxonomy with an environmental objective in economic П in economic activities that do not qualify as that do not qualify environmentally sustainable under the EU environmentally sustainable under the EU Taxonomy Taxonomy with a social objective ☐ It made sustainable investments with a ☐ It promoted E/S characteristics, but did not social objective: 0.00% make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

During the reporting period, as part of its investment policy, the Investment Manager invested in companies across market capitalizations promoting strong or improving environmental, social and governance ("ESG") characteristics. The Fund used an established proprietary research and engagement process to determine whether a company is a Sustainability Leader. This proprietary process includes generating an ESG ratings system that utilized a materiality map to identify specific ESG characteristics that pertained to the investment. These characteristics included, but were not limited to:

- Energy efficiency;
- Clean power;
- Carbon mitigating enabling technologies;
- Water efficiency;
- Material waste reduction processes;
- · Workforce diversity;
- Health and wellness;
- · Fair wages;
- Supply chain monitoring; and
- Community involvement.

Additionally, the Fund has maintained its committed 50% percent "sustainable investment" minimum.

Derivative instruments have not been used to attain the environmental / social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental /social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The sustainability indicators used to measure the attainment of each of the environmental or social characteristics promoted by the Fund were:

- 84.13% of the Fund held in sustainable investments as defined under the Investment Manager's proprietary sustainable investments methodology which includes product and/or service alignment with the United Nations Sustainable Development Goals ("SDG") and consideration of Do No Significant Harm (DNSH);
- specific principal adverse impact ("PAI") indicators, specifically PAI #1 (GHG Emissions), PAI #2 (Carbon Footprint), PAI #3 (GHG Intensity), PAI #4 (Exposure to companies active in the fossil fuel sector), PAI #7 (Activities negatively affecting biodiversity-sensitive areas), PAI #10 (Violations of the UN Global Compact and OECD Guidelines), PAI #13 (Board Gender Diversity), and PAI #14 (Exposure to controversial weapons) were calculated. Please refer to the values disclosed in the section "How did this financial product consider principal adverse impacts on sustainability factors?";
- proprietary methodologies to assess the progress of the Investment Manager's ESG engagement meetings;
 ClearBridge conducted periodic ESG engagements with its portfolio companies. Investment team's views of progress discussed during these meetings were reflected in their proprietary ESG ratings, proxy voting decisions, and investments decisions.
- voted on 772 agenda items which support proposals around good governance and improving sustainability practices;
- portfolio exposure to best-in-class issuers, as defined by proprietary ESG ratings; The rating distribution for this Fund as of 28 February 2025 is:
- o AAA: 54.3%
- o AA: 42.4%
- o A: 3.3%
- o B: 0%
 - Fund is considered in-scope for ClearBridge's Net Zero target and is therefore measured against the proportion of companies that have set, and have committed to set, science-based targets for greenhouse gas emissions reductions or are climate solutions providers; 55.33%

… And compared to previous periods?

The general sustainability indicators are in line with those in the previous period.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

The sustainable investments made by the Fund were in equity securities issued by companies which contributed to one of the following:

- through their products and services, to any one or more of the environmental or social objectives of the SDGs and their underlying targets and indicators determined through the Investment Manager's assessment for contribution; 56.96% of the portfolio
- GHG intensity and emissions reduction targets across a firm's economic activities determined through a third party verified decarbonization target aligned to the Paris Agreement or is a climate solutions provider. Issuers are monitored for progress against targets through our engagement process; 55.33% of the portfolio

In addition to contributing to one of the environmental or social objectives listed above, companies must go through a proprietary good governance evaluation and must pass the Do No Significant Harm (DNSH) criteria as further detailed below.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Investment Manager used a combination of third party severe risk controversy scores, third-party global norms-based screening including UN Global Compact (UNGC) compliance, PAI consideration* and other material environmental, social, and governance factors, which were embedded in the Investment Manager's fundamental research and proprietary ESG ratings process, which included a governance evaluation, to review if investments cause significant harm to any sustainable investment objective

Additionally, the Investment Manager used its engagement process to identify best in class securities.

*The PAIs taken into consideration were dependent on the Investment Manager's proprietary ESG materiality assessment by sub-sector which was applied during its ESG rating process or on data availability.

--How were the indicators for adverse impacts on sustainability factors taken into account?

All PAIs which were material to the company being rated were considered as part of the Investment Manager's ESG rating which was applied as part of the security selection process.

The manner in which PAIs were considered and taken into account is set out in further detail below.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Investment Manager supports the principles of the UNGC. Therefore, the Fund did not invest in companies that violated any of the ten principles in each of the four areas (human rights, labour, environment, and anti-corruption) of the UNGC.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

The Investment Manager used a third-party data provider who monitored compliance with UNGC principles. In instances where there were discrepancies or disagreements between the Investment Manager's research and the provider's assessment of a specific controversy, the Investment Manager, along with the compliance team and members of the ESG team engaged the company on the issue. Where the Investment Manager reached a consensus that the company had taken the necessary steps to address the controversy, or had effectively remediated the issue, the Investment Manager provided a detailed explanation for why the company continued to be invested in.

To ensure sustainable investments were aligned with the OECD guidelines, the Investment Manager used a third-party provider as a best effort to monitor compliance and potential violations.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

All PAIs which were material to the company being rated were considered as part of the Investment Manager's ESG rating which was applied as part of the security selection process, specifically:

PAI #1 (GHG Emissions), PAI #2 (Carbon Footprint), PAI #3 (GHG Intensity)

The Investment Manager assessed the specific climate-related risks and opportunities faced by individual companies as part of its stock selection process, which integrated these considerations, among other environmental, social and governance considerations;

While the Investment Manager assesses each sector on a specific set of criteria that was pertinent to its business operations, the assessment generally included careful consideration of climate-related factors such as: the regulatory/policy environment; the geographic location of assets and operations; the ability to pass on costs to customers; technology alternatives and advancements; changing customer preferences; commodity prices; future capital expenditure and R&D plans; long-term business strategy; overall quality of the management team; and other factors; and

The Investment Manager used MSCI Carbon Portfolio Analytics to assess exposure to companies with fossil fuel reserves. The Investment Manager conducted carbon intensity analysis on the firm's investments in aggregate to understand the carbon intensity of the firm's total assets relative to the global equity markets. The Investment Manager also conducted analysis on carbon intensity at the portfolio level.

PAI #4 (Exposure to companies active in the fossil fuel sector)

The Fund did not invest in a company whose primary business involved the extraction of fossil fuels.

PAI #7 (Activities negatively affecting biodiversity-sensitive areas)

While the Fund does not currently have formal thresholds on exclusions related to biodiversity issues, it was taken into consideration among the broader environmental and climate impact assessment for investments and potential investments of the Fund. The Fund expects all companies invested in to have a positive biodiversity profile and any transgressions could result in exclusion from investment.

PAI #10 (Violation of UNGC / OECD Guidelines)

Please refer to "Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?"

PAI #13 (Board gender diversity)

The Investment Manager uses third-party data for board gender diversity monitoring. Further, the Investment Manager has a provision in its Proxy Voting Policy to vote against the nominating committee members and chair if the company does not have at least one female board director. The Investment Manager considered Diversity, Equality and Inclusion as a component of its ESG analysis and rating, as well as a firm-wide theme for company engagement.

PAI #14 (Exposure to controversial weapons)

The Fund did invest in companies that generate any of their turnover from the production and/or distribution of controversial weapons (i.e., antipersonnel mines, nuclear weaponry, biological & chemical weaponry, cluster munitions, white phosphorus).

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is - 2024-03-01 - 2025-02-28.

What were the top investments of this financial product?

The largest investments of this Fund during the reference period, excluding cash, were:

What was the proportion of sustainability-related investments?

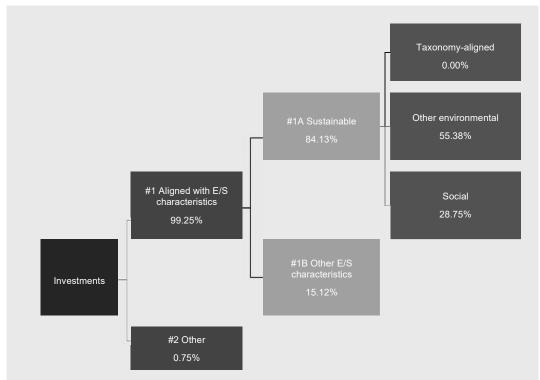

The proportion of sustainability-related investments was 84.13%.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

A portion of 99.25% of the Fund's portfolio was aligned with the E/S characteristics promoted by the Fund. The remaining portion (0.75%) was not aligned with the promoted characteristics and consisted primarily of liquid assets.

Out of the Fund's portfolio segment which was aligned with the promoted environmental and/or social characteristics, the Fund invested 84.13% of its portfolio in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category #1A Sustainable covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

	Asset Allocation historical comparison				
	2025	2024	2023		
Investment Category	Proportion of Investments	Proportion of Investments	Proportion of Investments		
#1 Aligned with E/S characteristics	99.25%	99.83%	98.66%		
#2 Other	0.75%	0.17%	1.34%		
#1A Sustainable	84.13%	85.40%	81.00%		
#1B Other E/S characteristics	15.12%	14.43%	17.66%		
Taxonomy-aligned	N/A	N/A	N/A		
Other environmental	55.38%	55.60%	48.00%		
Social	28.75%	29.80%	33.00%		

In which economic sectors were the investments made?

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- operational
 expenditure (OpEx)
 reflecting the green
 operational activities of
 investee companies.

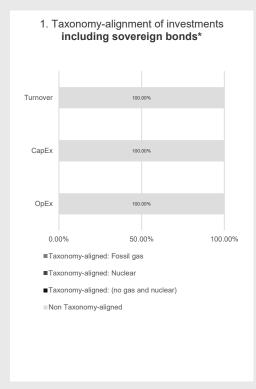

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

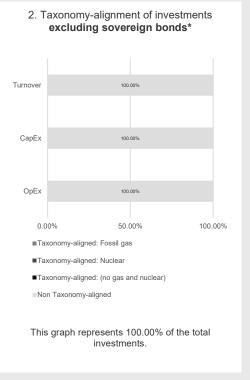

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?¹

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

- * For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures
- What was the share of investments made in transitional and enabling activities?
 The Fund did not invest in transitional and enabling activities.
- How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

As a result of the investment strategy of the Fund, the Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy and, accordingly, as of the end of February 2025, 55.38% of the portfolio of the Fund was comprised of investments with an environmental objective not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

The share of socially sustainable investments was 28.75%.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The proportion of investments under "#2 Other" was 0.75% and comprised of cash held on deposit and derivative instruments used for hedging and derivatives for which there were no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

- 1. The Investment Manager utilized its proprietary rating system and fundamental research to identify Sustainability Leaders, including a good governance screen. The rating system consisted of four rating levels: AAA, AA, A and B, which were assigned to companies based on their sustainability strategy and performance key ESG issues. All companies in the Fund have been rated. The Investment Manager considers AAA and AA to be "best-in-class". The rating distribution for this Fund as of 28 February 2025 was:
- o AAA: 54.3%
- o AA: 42.4%
- o A: 3.3%
- o B: 0%
- 2. The Investment Manager continuously engaged with its portfolio companies. ESG engagement at ClearBridge generally had two overlapping objectives:
 - · Research: Gaining a better understanding of ESG issues that could impact our investment thesis
 - Impact: Encouraging specific changes at the company that could lead to positive real-world impact

For more details on our engagement approach, please refer to our Engagement and Stewardship policy found here: https://franklintempletonprod.widen.net/content/qz5ty08kfn/original/engagementstewardshippolicy.pdf

- 3. The Fund did not invest in its set revenue thresholds, as outlined in the prospectus, for the following industries:
 - Fossil fuels
 - Tobacco
 - Controversial weapons
 - Conventional weapons
 - Nuclear Power
 - Gambling
 - Adult entertainment
- 4. The Fund did not invest in companies that violate one or several of the ten principles under the four areas covered by UNGC (human rights, labour, environment and anti-corruption).
- 5. The Investment Manager maintained a portfolio ESG rating higher than that of the Fund's investment universe.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote. Not applicable.

FTGF ClearBridge Global Growth Leaders Fund (the "Fund")

Legal Entity Identifier: 549300S2ND6DHQ60NF78

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance

practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

Did this financial product have a sustainable investment objective? ☐ YES **⋈** NO 00 promoted Environmental/Social ☐ It made sustainable investments with an characteristics and while it did not have as its environmental objective: 0.00% objective a sustainable investment, it had a proportion of 50.24% of sustainable investments in economic activities that qualify as with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy environmentally sustainable under the EU Taxonomy with an environmental objective in economic in economic activities that do not qualify as activities that do not qualify environmentally sustainable under the EU environmentally sustainable under the EU Taxonomy with a social objective ☐ It made sustainable investments with a ☐ It promoted E/S characteristics, but did not social objective: 0.00% make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

In selecting securities during the reporting period, the Investment Manager used an established proprietary research and engagement process to determine a company's profile on environmental, social and governance ("ESG") issues. This proprietary process generated an ESG ratings system that utilized a materiality map to identify specific ESG characteristics that pertained to the investment. The environmental and/or social characteristics promoted by the Fund were key (ESG) issues deemed material to the specific company and the sector in which the company operates which included, but were not limited to, health and safety, gender diversity, climate risk, corporate governance risk and data security.

Additionally, the Fund has maintained its committed 5% percent "sustainable investment" minimum

Derivative instruments have not been used to attain the environmental / social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental /social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or

the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The sustainability indicators used to measure the attainment of each of the environmental or social characteristics promoted by the Fund were:

- 50.24% of the Fund held in sustainable investments as defined under the Investment Manager's proprietary sustainable investments methodology which includes product and/or service alignment with the United Nations Sustainable Development Goals ("SDG") and consideration of Do No Significant Harm (DNSH);
- specific Principal Adverse Impact (PAI) indicators, namely: PAI #1 (GHG Emissions), PAI #2 (Carbon Footprint), PAI #3 (GHG Intensity), PAI #10 (Violations of UN Global Compact and OECD Guidelines), PAI #13 (Board Gender Diversity) and PAI #14 (Exposure to controversial weapons) were calculated. Please refer to the values disclosed in the section "How did this financial product consider principal adverse impacts on sustainability factors?";
- proprietary methodologies to assess the progress of the Investment Manager's ESG engagement meetings;
 ClearBridge conducted periodic ESG engagements with its portfolio companies. Investment team's views of progress discussed during these meetings were reflected in their proprietary ESG ratings, proxy voting decisions, and investments decisions
- voted on 1291 agenda items which support proposals around good governance and improving sustainability

practices;

portfolio exposure to best-in-class companies as determined by the Investment Manager's proprietary ESG rating.
 The rating distribution for this Fund as of 28 February 2025 is:

AAA: 26.8%

AA: 56.7%

A: 15.2%

B: 0%

		PAI historical comparison					
		2025		2024		2023

… And compared to previous periods?

The general sustainability indicators are in line with those in the previous period.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

The sustainable investments made by the Fund are in equity securities issued by companies which contribute to one of the following:

- through their products and services, to any one or more of the environmental or social objectives of the SDGs and their underlying targets and indicators determined through the Investment Manager's assessment for contribution; 21.34%
- GHG intensity and emissions reduction targets across a firm's economic activities determined through a third party verified decarbonization target aligned to the Paris Agreement; 28.90%

In addition to contributing to one of the environmental or social objectives listed above, companies must go through a proprietary good governance evaluation and must pass the Do No Significant Harm (DNSH) criteria as further detailed below.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Investment Manager used a combination of third party severe risk controversy scores, third-party global norms-based screening including UN Global Compact (UNGC) compliance, PAI consideration* and other material environmental, social, and governance factors, which were embedded in the Investment Manager's fundamental research and proprietary ESG ratings process, which included a governance evaluation, to review if investments cause significant harm to any sustainable investment objective.

Additionally, the Investment Manager used its engagement process to identify best in class securities.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-

corruption and antibribery matters. *The PAIs taken into consideration were dependent on the Investment Manager's proprietary ESG materiality assessment by sub-sector which was applied during its ESG rating process or on data availability.

How were the indicators for adverse impacts on sustainability factors taken into account?

All PAIs which were material to the company being rated were considered as part of the Investment Manager's ESG rating which was applied as part of the security selection process.

The manner in which PAIs were considered and taken into account is set out in further detail below.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Investment Manager supports the principles of the UNGC. Therefore, the Fund did not invest in companies that violated any of the ten principles in each of the four areas (human rights, labour, environment, and anti-corruption) of the LINGC.

The Investment Manager used a third-party data provider who monitored compliance with UNGC principles. In instances where there were discrepancies or disagreements between the Investment Manager's research and the provider's assessment of a specific controversy, the Investment Manager, along with the compliance team and members of the ESG team engaged the company on the issue. Where the Investment Manager reached a consensus that the company had taken the necessary steps to address the controversy, or had effectively remediated the issue, the Investment Manager provided a detailed explanation for why the company continued to be invested in.

To ensure sustainable investments were aligned with the OECD guidelines, the Investment Manager used a third-party provider as a best effort to monitor compliance and potential violations.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

All PAIs which were material to the company being rated were considered as part of the Investment Manager's ESG rating which was applied as part of the security selection process, specifically:

PAI #1 (GHG Emissions), PAI #2 (Carbon Footprint), PAI #3 (GHG Intensity)

The Investment Manager assessed the specific climate-related risks and opportunities faced by individual companies as part of its stock selection process, which integrated these considerations, among other environmental, social and governance considerations;

While the Investment Manager assessed each sector on a specific set of criteria that was pertinent to its business operations, the assessment generally included careful consideration of climate-related factors such as: the regulatory/policy environment; the geographic location of assets and operations; the ability to pass on costs to customers; technology alternatives and advancements; changing customer preferences; commodity prices; future capital expenditure and R&D plans; long-term business strategy; overall quality of the management team; and other factors; and

The Investment Manager used MSCI Carbon Portfolio Analytics to assess exposure to companies with fossil fuel reserves. The Investment Manager conducted carbon intensity analysis on the firm's investments in aggregate to understand the carbon intensity of the firm's total assets relative to the global equity markets. The Investment Manager can also conduct analysis on carbon intensity at the portfolio level.

PAI #10 (Violation of UNGC / OECD Guidelines)

Please refer to "Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?".

PAI #13 (Board gender diversity)

The Investment Manager uses third-party data for board gender diversity monitoring. Further, on a case-by-case basis, the Investment Manager has a provision in its Proxy Voting Policy to vote with respect to the nominating committee members and chair if the company does not have at least one female or ethnically/racially diverse board director. The Investment Manager considered Diversity as a component of its ESG analysis and rating, as well as a firm-wide theme for company engagement.

PAI #14 (Exposure to controversial weapons)

The Fund did not invest in companies that generate any of their turnover from the production and/or distribution of controversial weapons (i.e., antipersonnel mines, nuclear weaponry, biological & chemical weaponry, and cluster munitions).

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is - 2024-03-01 - 2025-02-28.

What were the top investments of this financial product?

The largest investments of this Fund during the reference period, excluding cash, were:

Largest investments	Sector	% of Assets	Country
APPLE INC.	Information Technology	4.41%	United States
MICROSOFT CORPORATION	Information Technology	4.28%	United States
NVIDIA CORPORATION	Information Technology	4.23%	United States
AMAZON.COM, INC.	Consumer Discretionary	4.01%	United States
ALPHABET INC.	Communication Services	3.08%	United States
ELI LILLY AND COMPANY	Health Care	2.70%	United States
Taiwan Semiconductor Manufacturing Co., Ltd.	Information Technology	2.43%	Taiwan

What was the proportion of sustainability-related investments?

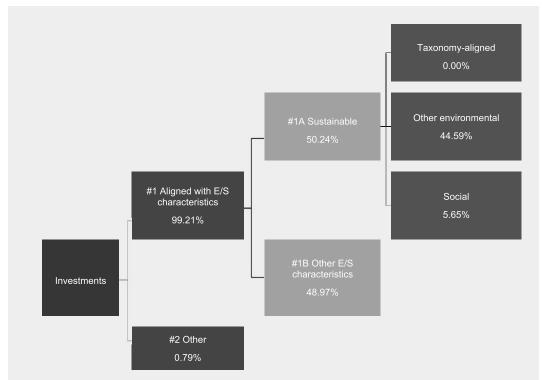

The proportion of sustainability-related investments was 50.24%.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

A portion of 99.21% of the Fund's portfolio was aligned with the E/S characteristics promoted by the Fund. The remaining portion (0.79%) was not aligned with the promoted characteristics and consisted primarily of liquid assets.

Out of the Fund's portfolio segment which was aligned with the promoted environmental and/or social characteristics, the Fund invested 50.24% of its portfolio in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

	Asset Allocation historical comparison			
	2025	2024	2023

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- operational expenditure (OpEx) reflecting the green operational activities of investee companies.

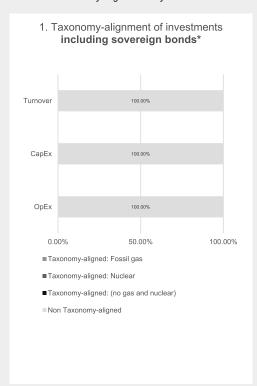

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

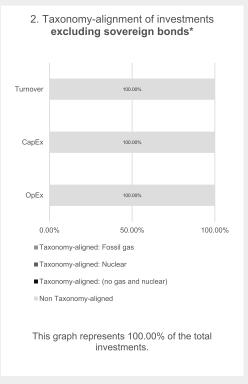

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?¹

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

- * For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures
- What was the share of investments made in transitional and enabling activities?

 The Fund did not invest in transitional and enabling activities.
- How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

As a result of the investment strategy of the Fund, the Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy and, accordingly, as of the end of February 2025, 44.59% of the portfolio of the Fund was comprised of investments with an environmental objective not aligned with the EU Taxonomy.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

The share of socially sustainable investments was 5.65%.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The proportion of investments under "#2 Other" was 0.79% and comprised of cash held on deposit and derivative instruments used for hedging and derivatives for which there were no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

1. The Investment Manager utilized its proprietary rating system and fundamental research to assess how a company manages its ESG risks and opportunities, including good governance screen. The rating system consisted of four rating levels: AAA, AA, A and B, which were assigned to companies based on their sustainability strategy and performance key ESG issues. All companies in the Fund were rated. The rating distribution for this Fund as of 28 February 2025 was:

AAA: 26.8%

AA: 56.7%

A: 15.2%

B: 0%

- 2. The Investment Manager continuously engaged with its portfolio companies including engaging with the bottom 10% (in terms of AUM and number of issuers) of the portfolio per the Investment Manager's proprietary ESG rating system. ESG engagement at ClearBridge generally had two overlapping objectives:
 - Research: Gaining a better understanding of ESG issues that could impact our investment thesis
 - Impact: Encouraging specific changes at the company that could lead to positive real-world impact

For more details on our engagement approach, please refer to our Engagement and Stewardship policy found here: https://franklintempletonprod.widen.net/content/qz5ty08kfn/original/engagementstewardshipp olicv.pdf

- 3. The Fund did not invest in or its set revenue thresholds, as outlined in the prospectus, for the following industries:
 - Tobacco
 - · Controversial weapons
 - Gambling
 - · Adult entertainment
 - · Companies with significant involvement in the extraction and/or production of fossil fuels and mining.
 - Companies that generate 10% or more of their turnover directly from conventional weapons.
- 4. The Fund did not invest in companies that violate one or several of the ten principles under the four areas covered by UNGC (human rights, labour, environment and anti-corruption).

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote. Not applicable

FTGF ClearBridge Infrastructure Value Fund (the "Fund")

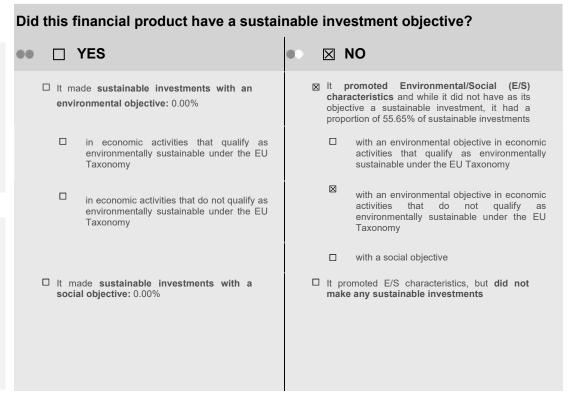

Legal Entity Identifier: 549300C63RJNQRH38W57

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted a positive impact with respect to:

- Climate change mitigation;
- · Climate change adaptation; and/or
- Social impact.

The promotion of a positive impact in the above areas resulted in the Fund promoting the following environmental and/or social characteristics during the reference period:

- investments that support the transition to a low carbon economy, either through direct reduction in emissions, enabling
 of lower emission alternatives or the provision of lower emissions substitute products or services such as rail transport
 versus air or road alternatives;
- infrastructure investments supporting adaptation to climate change;
- infrastructure that supports social impact, such as provision of fair access to essential services, for example access to water, energy and communications; and
- compliance with the UN Global Compact (UNGC) principles.

In selecting securities during the reporting period, the Investment Manager used an established proprietary research and engagement process to determine a company's profile on environmental, social and governance ("ESG") issues. This proprietary process includes an ESG ratings system that utilizes a materiality map to identify specific ESG characteristics that pertain to the investment.

The Investment Manager applied its ESG process to all investments during the period. In addition, the Fund met its committed 15% percent "sustainable investment" minimum.

Derivative instruments have not been used to attain the environmental / social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental /social characteristics promoted by the Fund.

How did the sustainability indicators perform?

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The sustainability indicators used to measure the attainment of each of the environmental or social characteristics promoted by the Fund were:

- \circ the proportion of the Fund held in sustainable investments as defined by the Investment Manager's proprietary sustainable investments methodology was 55.65%; and
- o the Fund's portfolio ESG rating (7.41) compared to the ESG rating of the investment universe (6.67), as seen in the table below;

Where the ESG scores are based on MSCI data, equal weighted for the "Investable universe ESG rating" and portfolio weighted for the "Fund ESG rating". Additionally, we note, the Fund performance exceeds the Investable universe rating utilising other external ESG rating providers. The Fund's "investable universe" includes 200 infrastructure stocks collectively called the RARE200, reviewed quarterly as part of the investment process.

	Sustainability KPI historical comparison				
	2025 2024 2023

… And compared to previous periods?

The general sustainability indicators are in line with those in the previous period.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

Given the Fund's infrastructure mandate to invest in core infrastructure assets and the important role infrastructure plays in both the provision of essential services and energy transition, the Fund held investments that contributed to the sustainable objectives relating to climate change mitigation and/or adaptation objectives, and/or made a positive social contribution.

Of the Sustainable Investments the key contributions to the objectives included:

- Electric utility and Renewables companies supporting the transition to a low carbon economy and thus climate change mitigation (21%)
- Lower emission mobility infrastructure supporting the transition to a lower carbon economy and thus climate change mitigation (28%)
- Water utilities that support adaptation to climate change and social impact by providing access to essential clean reliable water (8%)
- · Communications infrastructure that may provide an alternative to transport as well as social impact by providing

access to essential services (0%)

The above was initially assessed by considering the contributions to one or both of the following:

- SDG alignment of products and services (46% of the portfolio)
- GHG intensity and emissions reduction targets across a firm's economics activities determined through a third party verified decarbonization target aligned to the Paris Agreement (52% of the portfolio)

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Investment Manager used a combination of third party severe risk controversy scores, third-party global norms-based screening including UN Global Compact (UNGC) compliance, PAI consideration* and other material environmental, social, and governance factors, which were embedded in the Investment Manager's fundamental research and proprietary ESG ratings process, which included a good governance evaluation, to review if investments caused significant harm to any sustainable investment objective.

Additionally, the Investment Manager used its engagement process to identify best in class securities.

*The PAIs taken into consideration were dependent on the Investment Manager's proprietary ESG materiality assessment by sub-sector which was applied during its ESG rating process or on data availability.

-How were the indicators for adverse impacts on sustainability factors taken into account?

The Investment Manager's investment process integrated ESG via a bottom-up research-driven approach that utilised many data sources, including PAIs. PAI's were considered in the context of the relevant infrastructure sub-sector.

The manner in which PAIs were considered and taken into account is set out in further detail below.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Investment Manager supports the principles of the UNGC. Therefore, the Fund did not invest in companies that violated any of the ten principles in each of the four areas (human rights, labour, environment, and anti-corruption) of the INGC.

The Investment Manager used a third-party data provider who monitored compliance with UNGC principles. In instances where there were discrepancies or disagreements between the Investment Manager's research and the provider's assessment of a specific controversy, the Investment Manager, along with the compliance team and members of the ESG team engaged the company on the issue. Where the Investment Manager reached a consensus that the company had taken the necessary steps to address the controversy, or had effectively remediated the issue, the Investment Manager provided a detailed explanation for why the company continued to be invested in.

To ensure sustainable investments were aligned with the OECD guidelines, the Investment Manager used a third-party provider as a best effort to monitor compliance and potential violations.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

PAIs were considered as part of the Investment Manager's broad ESG process as well as the consideration of the do no significant harm (DNSH) principle. The ESG processes where PAIs were considered were: (i) the proprietary ESG score; (ii) controversy monitoring and ongoing engagement; and (iii) qualitative ESG considerations.

The following PAIs were considered:

PAI #1 (GHG Emissions), PAI #2 (Carbon Footprint), PAI #3 (GHG Intensity)

The Investment Manager assessed the specific climate-related risks and opportunities faced by individual companies as part of its bottom-up stock selection process, which integrated GHG data, among other environmental, social and governance considerations. Each infrastructure sub-sector was assessed against a weighting of factors relevant to its business operations. Company management of GHG emissions, including credible reduction plans, is also considered as part of this process.

PAI #5 (Share of non-renewable energy production)

The Investment Manager assessed energy generation mix as part of its bottom-up research assessment, particularly as it pertains to climate change and Net Zero goals. The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria. The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not

take into account the EU criteria for environmentally sustainable economic activities. Any other sustainable investments must also not significantly harm any environmental or social objectives.

PAI #10 (Violations of UNGC / OECD Guidelines)

Please refer to "Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?".

PAI #14 (Exposure to controversial weapons)

The Fund does not, and did not, invest in companies that generate any turnover from (a) banned weapons according to (i) The Convention of the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on their Destruction and (ii) The Convention on the Prohibition of Cluster Munitions and (b) weapons classed as either B- or C- weapons pursuant to the United Nations Biological Weapons Convention and the United Nations Chemical Weapons Convention respectively.

What were the top investments of this financial product?

The largest investments of this Fund during the reference period, excluding cash and derivatives, were:

The list includes the
investments constituting
the greatest proportion
of investments of the
financial product during
the reference period
which is - 2024-03-01 -
2025-02-28.

Largest investments	Sector	% of Assets	Country

What was the proportion of sustainability-related investments?

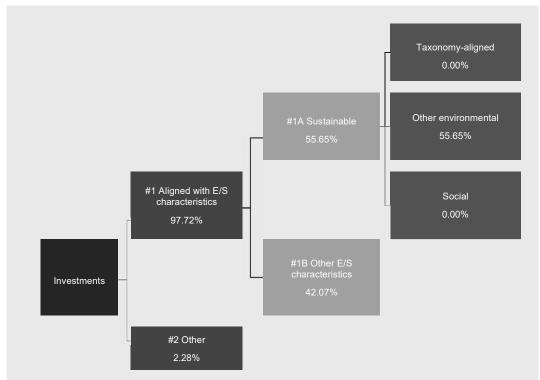

The proportion of sustainability-related investments was 55.65%.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

A portion of 97.72% of the Fund's portfolio was aligned with the E/S characteristics promoted by the Fund. The remaining portion (2.28%) was not aligned with the promoted characteristics and consisted primarily of liquid assets.

Out of the Fund's portfolio segment which was aligned with the promoted environmental and/or social characteristics, the Fund invested 55.65% of its portfolio in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category #1A Sustainable covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

	Asset Allocation historical comparison			
	2025	2024	2023	
Investment Category	Proportion of Investments	Proportion of Investments	Proportion of Investments	
#1 Aligned with E/S characteristics	97.72%	98.55%	95.98%	
#2 Other	2.28%	1.45%	40.20%	
#1A Sustainable	55.65%	61.70%	57.35%

Taxonomy-aligned	N/A	N/A	N/A	
Other environmental	55.65%	61.70%	57.35%	
Social	N/A	N/A	N/A	

In which economic sectors were the investments made?

The top sectors and sub-sectors of this Fund during the reference period, excluding cash and derivatives, were:

Top sector	% of Assets
Utilities	58.07%
Industrials	24.60%
Energy	11.84%
Real Estate	3.21%
Top sub-sector	% of Assets
Electric Utilities	36.02%
Multi-Utilities	13.78%
Oil, Gas & Consumable Fuels	11.84%
Ground Transportation	10.67%
Transportation Infrastructure	10.11%
Water Utilities	7.78%
Construction & Engineering	3.82%
Specialized REITs	3.21%
Gas Utilities	0.49%

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- operational expenditure (OpEx) reflecting the green operational activities of investee companies.

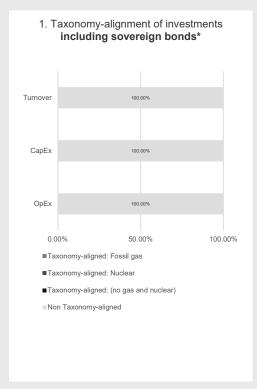

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

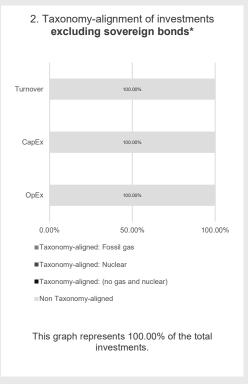

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?¹

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

- * For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures
- What was the share of investments made in transitional and enabling activities?
 The Fund did not invest in transitional and enabling activities.
- How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

As a result of the investment strategy of the Fund, the Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy and, accordingly, as of the end of February 2025, 55.65% of the portfolio of the Fund was comprised of investments with an environmental objective not aligned with the EU Taxonomy.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

The share of socially sustainable investments was 0%.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The proportion of investments under "#2 Other" was 2.28% and comprised of cash held on deposit and derivative instruments used for hedging and derivatives for which there were no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

1. The Investment Manager consistently applied its ESG process, that is integrated and considered in all key elements of the investments process.

This included:

- Negative screens at investable universe construction to respect limits for extraction and productions of fossil fuels, tobacco, weapons and UNGC failures
- · Applied its Three Pillar process for ESG integration, namely:
- o Forecasted cashflow adjustments based on ESG factors
- o Required return adjustment based on ESG risk as assessed by the Managers proprietary scorecard (see below)
- o Engagement, including controversy monitoring
 - Other ESG analysis and processes including, but not limited to, Sustainability Reviews of company ESG scorecards, energy mix analysis and decarbonisation plans, PAI consideration and so on.

Some of the above actions are further described with outcomes below.

- 2. The Investment Manager utilized its proprietary rating system and fundamental research to assess how a company manages its ESG risks and opportunities. The rating system consisted of four rating levels: AAA, AA, A and B, which are assigned to companies based on their sustainability strategy and performance key ESG issues. All companies in the Fund have been rated. The rating distribution for this Fund as of 28 February 2025 is:
 - AAA: 19%
 - AA: 79%
 - A: 3%
 - B: 0%
- 3. The Investment Manager engaged with its portfolio companies on an ongoing basis. ESG engagement at ClearBridge generally had two overlapping objectives:
 - Research: Gaining a better understanding of ESG issues that could impact our investment thesis
 - Impact: Encouraging specific changes at the company that could lead to positive real-world impact

The Fund's engagements over the reporting were as follows:

- Environmental: 63%
- Social: 63%
- Governance: 74%
- 4. The result was the Fund respected the binding elements of its investment strategy.
- 5. The Fund maintained a portfolio ESG rating higher than that of the Fund's investment universe.

How did this financial product perform compared to the reference benchmark?

Reference

benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Not applicable.

FTGF ClearBridge Global Infrastructure Income Fund (the "Fund")

Legal Entity Identifier: 54930016JDVIT9OWQK33

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

Did this financial product have a sustainable investment objective? **⋈ NO** ☐ YES promoted Environmental/Social ☐ It made sustainable investments with an characteristics and while it did not have as its environmental objective: 0.00% objective a sustainable investment, it had a proportion of 54.79% of sustainable investments in economic activities that qualify as with an environmental objective in economic environmentally sustainable under the EU activities that qualify as environmentally sustainable under the EU Taxonomy with an environmental objective in economic П in economic activities that do not qualify as that not qualify environmentally sustainable under the EU environmentally sustainable under the EU Taxonomy Taxonomy with a social objective $\hfill \square$ It made sustainable investments with a ☐ It promoted E/S characteristics, but did not social objective: 0.00% make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted a positive impact with respect to:

- Climate change mitigation;
- · Climate change adaptation; and/or
- Social impact.

The promotion of a positive impact in the above areas resulted in the Fund promoting the following environmental and/or social characteristics during the reference period:

- investments that support the transition to a low carbon economy, either through direct reduction in emissions, enabling
 of lower emission alternatives or the provision of lower emissions substitute products or services such as rail transport
 versus air or road alternatives;
- infrastructure investments supporting adaptation to climate change;
- infrastructure that supports social impact, such as provision of fair access to essential services, for example access to water, energy and communications; and
- compliance with the UN Global Compact (UNGC) principles.

In selecting securities during the reporting period, the Investment Manager used an established proprietary research and engagement process to determine a company's profile on environmental, social and governance ("ESG") issues. This proprietary process includes an ESG ratings system that utilizes a materiality map to identify specific ESG characteristics that pertain to the investment.

The Investment Manager applied its ESG process to all investments during the period. In addition, the Fund met its committed 15% percent "sustainable investment" minimum.

Derivative instruments have not been used to attain the environmental / social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental /social characteristics promoted by the Fund.

How did the sustainability indicators perform?

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The sustainability indicators used to measure the attainment of each of the environmental or social characteristics promoted by the Fund were:

- \circ the proportion of the Fund held in sustainable investments as defined by the Investment Manager's proprietary sustainable investments methodology was 54.79%; and
- o the Fund's portfolio ESG rating (7.57) compared to the ESG rating of the investment universe (6.78, as seen in the table below;

Where the ESG scores are based on MSCI data, equal weighted for the "Investable universe ESG rating" and portfolio weighted for the "Fund ESG rating". Additionally, we note the Fund performance exceeds the Investable universe rating utilising other external ESG rating providers.

	Sustainability KPI historical comparison		
	2025 2024 2023

… And compared to previous periods?

The general sustainability indicators are in line with those in the previous period.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

Given the Fund's infrastructure mandate to invest in core infrastructure assets and the important role infrastructure plays in both the provision of essential services and energy transition, the Fund held investments that contributed to sustainable objectives relating to climate change mitigation and/or adaptation objectives, as well as made a positive social contribution.

Of the Sustainable Investments the key contributions to the objectives included:

- Electric utilities and renewables companies supporting the transition to a low carbon economy and thus climate change mitigation (30%)
- Lower emission mobility infrastructure supporting the transition to a lower carbon economy and thus climate change mitigation (14%)
- Water utilities that support adaptation to climate change and social impact by providing access to essential clean reliable water (7%)
- Communications infrastructure that may provide an alternative to transport as well as social impact by providing
 access to essential services (3%)

The above was initially assessed by considering the contributions to one or both of the following:

- SDG alignment of products and services (44.1% of the portfolio)
- GHG intensity and emissions reduction targets across a firm's economics activities determined through a third party verified decarbonization target aligned to the Paris Agreement (46.7% of the portfolio)

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Investment Manager used a combination of third party severe risk controversy scores, third-party global norms-based screening including UN Global Compact (UNGC) compliance, PAI consideration* and other material environmental, social, and governance factors, which were embedded in the Investment Manager's fundamental research and proprietary ESG ratings process, which included a good governance evaluation, to review if investments caused significant harm to any sustainable investment objective.

Additionally, the Investment Manager used its engagement process to identify best in class securities.

*The PAIs taken into consideration were dependent on the Investment Manager's proprietary ESG materiality assessment by sub-sector which was applied during its ESG rating process or on data availability.

----How were the indicators for adverse impacts on sustainability factors taken into account?

The Investment Manager's investment process integrated ESG via a bottom-up research-driven approach that utilised many data sources, including PAIs. PAI's were considered in the context of the relevant infrastructure sub-sector.

The manner in which PAIs were considered and taken into account is set out in further detail below.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Investment Manager supports the principles of the UNGC. Therefore, the Fund did not invest in companies that violated any of the ten principles in each of the four areas (human rights, labour, environment, and anti-corruption) of the UNGC.

The Investment Manager used a third-party data provider who monitored compliance with UNGC principles. In instances where there were discrepancies or disagreements between the Investment Manager's research and the provider's assessment of a specific controversy, the Investment Manager, along with the compliance team and members of the ESG team engaged the company on the issue. Where the Investment Manager reached a consensus that the company had taken the necessary steps to address the controversy, or had effectively remediated the issue, the Investment Manager provided a detailed explanation for why the company continued to be invested in.

To ensure sustainable investments were aligned with the OECD guidelines, the Investment Manager used a third-party provider as a best effort to monitor compliance and potential violations.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

PAIs were considered as part of the Investment Manager's broad ESG process as well as the consideration of the do no significant harm (DNSH) principle. The ESG processes where PAIs were considered were: (i) the proprietary ESG score; (ii) controversy monitoring and ongoing engagement; and (iii) qualitative ESG considerations.

The following PAIs were considered:

PAI #1 (GHG Emissions), PAI #2 (Carbon Footprint), PAI #3 (GHG Intensity)

The Investment Manager assessed the specific climate-related risks and opportunities faced by individual companies as part of its bottom-up stock selection process, which integrated GHG data, among other environmental, social and governance considerations. Each infrastructure sub-sector was assessed against a weighting of factors relevant to its business operations. Company management of GHG emissions, including credible reduction plans, were also considered as part of this process.

PAI #5 (Share of non-renewable energy production)

The Investment Manager assessed energy generation mix as part of its bottom-up research assessment, particularly as it pertains to climate change and Net Zero goals.

PAI #10 (Violations of UNGC / OECD Guidelines)

Please refer to "Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?".

PAI #14 (Exposure to controversial weapons)

The Fund does not, and did not, invest in companies that generate any turnover from (a) banned weapons according to (i) The Convention of the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on their Destruction and (ii) The Convention on the Prohibition of Cluster Munitions and (b) weapons classed as either B- or C- weapons pursuant to the United Nations Biological Weapons Convention and the United Nations Chemical Weapons Convention respectively.

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is - 2024-03-01 - 2025-02-28.

What were the top investments of this financial product?

The largest investments of this Fund during the reference period, excluding cash and derivatives, were:

Largest investments	Sector	% of Assets	Country
ENTERGY CORPORATION	Utilities	5.35%	United States
NEXTERA ENERGY, INC.	Utilities	4.67%	United States
Dominion Energy, Inc.	Utilities	4.19%	United States
REDEIA CORPORACION, S.A.	Utilities	4.17%	Spain
CROWN CASTLE INC.	Real Estate	3.94%	United States
SEVERN TRENT PLC	Utilities	3.80%	United Kingdom
E.ON SE	Utilities	3.76%	Germany
UNION PACIFIC CORPORATION	Industrials	3.71%	United States
PEMBINA PIPELINE CORPORATION	Energy	3.42%	Canada
ENEL - SPA	Utilities	3.35%	Italy
OGE ENERGY CORP.	Utilities	3.23%	United States
EDP, S.A.	Utilities	3.04%	Portugal

NATIONAL GRID PLC	Utilities	2.76%	United Kingdom

What was the proportion of sustainability-related investments?

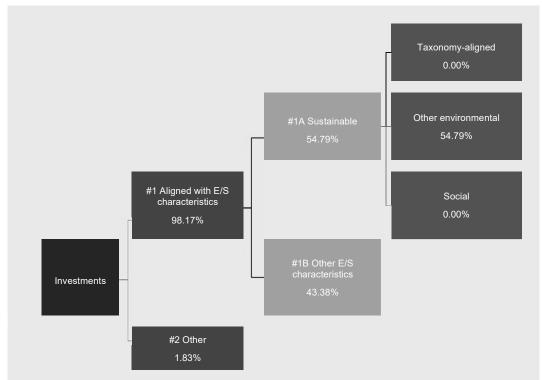

The proportion of sustainability-related investments was 54.79%.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

A portion of 98.17% of the Fund's portfolio was aligned with the E/S characteristics promoted by the Fund. The remaining portion (1.83%) was not aligned with the promoted characteristics and consisted primarily of liquid assets.

Out of the Fund's portfolio segment which was aligned with the promoted environmental and/or social characteristics, the Fund invested 54.79% of its portfolio in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category #1A Sustainable covers environmentally and socially sustainable investments.
- The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

	Asset Allocation historical comparison		
	2025	2024	2023
Investment Category	Proportion of Investments	Proportion of Investments	Proportion of Investments
#1 Aligned with E/S characteristics	98.17%	97.37%	98.02%
#2 Other	1.83%	2.63%	1.98%
#1A Sustainable	54.79%	50.10%	35.52%
#1B Other E/S characteristics	43.38%	47.27%	62.50%
Taxonomy-aligned	N/A	N/A	N/A
Other environmental	54.79%	50.10%	35.52%
Social	N/A	N/A	N/A

In which economic sectors were the investments made?

The top sectors and sub-sectors of this Fund during the reference period, excluding cash and derivatives, were:

Top sector	% of Assets
Utilities	64.51%
Industrials	14.49%
Energy	12.95%
Real Estate	6.23%
Top sub-sector	% of Assets
Electric Utilities	36.29%
Multi-Utilities	13.70%
Oil, Gas & Consumable Fuels	12.95%
Transportation Infrastructure	7.65%
Specialized REITs	6.23%
Water Utilities	6.09%
Gas Utilities	5.26%
Ground Transportation	4.19%
Independent Power & Renewable Electricity Producers	3.17%
Construction & Engineering	2.65%

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- operational expenditure (OpEx) reflecting the green operational activities of investee companies.

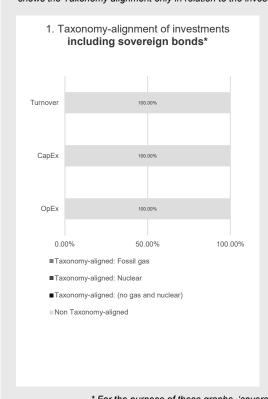

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

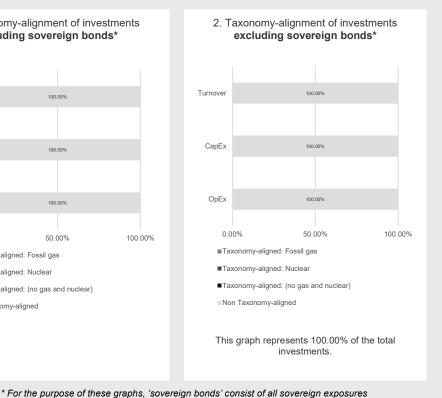

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?¹

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

- What was the share of investments made in transitional and enabling activities?
 - The Fund did not invest in transitional and enabling activities.
- How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

As a result of the investment strategy of the Fund, the Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy and, accordingly, as of the end of February 2025, 54.79% of the portfolio of the Fund was comprised of investments with an environmental objective not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

The share of socially sustainable investments was 0%.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The proportion of investments under "#2 Other" was 1.83% and comprised of cash held on deposit and derivative instruments used for hedging and derivatives for which there were no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

1. The Investment Manager consistently applied its ESG process, that is integrated and considered in all key elements of the investments process.

This included:

- Negative screens at investable universe construction to respect limits for extraction and productions of fossil fuels, tobacco, weapons and UNGC failures
- The application of its Three Pillar process for ESG integration, namely:
- o Forecasted cashflow adjustments based on ESG factors
- o Required return adjustment based on ESG risk as assessed by the Managers proprietary scorecard (see below)
- o Engagement, including controversy monitoring
 - Other ESG analysis and processes including, but not limited to, Sustainability Reviews of company ESG scorecards, energy
 mix analysis and decarbonisation plans, PAI consideration and so on.

Some of the above actions are further described with outcomes below.

- 2. The Investment Manager utilized its proprietary rating system and fundamental research to assess how a company manages its ESG risks and opportunities. The rating system consisted of four rating levels: AAA, AA, A and B, which are assigned to companies based on their sustainability strategy and performance key ESG issues. All companies in the Fund have been rated. The rating distribution for this Fund as of 28 February 2025 is:
 - AAA: 17%
 - AA: 78%
 - A: 5%
 - B: 0%
- 3. The Investment Manager engaged with its portfolio companies on an ongoing basis. ESG engagement by the Investment Manager generally had two overlapping objectives:
 - Research: Gaining a better understanding of ESG issues that could impact our investment thesis
 - · Impact: Encouraging specific changes at the company that could lead to positive real-world impact

The Fund's engagements over the reference period were as follows:

- Environmental: 57%
- Social: 57%
- Governance: 70%
- 4. The result was the Fund respected the binding elements of its investment strategy
- 5. The Fund maintained a portfolio ESG rating higher than that of the Fund's investment universe.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote. Not applicable.

FTGF ClearBridge Global Sustainability Improvers Fund (the "Fund")

Legal Entity Identifier: 254900JA2MNQ8SPZ8938

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

Did this financial product have a sustainable investment objective? ☐ YES ⊠ NO ☐ It made sustainable investments with an characteristics and while it did not have as its environmental objective: 0.00% objective a sustainable investment, it had a proportion of 46.71% of sustainable investments in economic activities that qualify as with an environmental objective in economic environmentally sustainable under the EU activities that qualify as environmentally sustainable under the EU Taxonomy with an environmental objective in economic П in economic activities that do not qualify as activities that do qualify not environmentally sustainable under the EU environmentally sustainable under the EU Taxonomy Taxonomy with a social objective ☐ It made sustainable investments with a ☐ It promoted E/S characteristics, but did not social objective: 0.00% make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

During the reporting period, the Fund promoted a range of environmental and social characteristics that the Investment Manager considered to be material to the specific company and the industry in which the company operated. These characteristics included, but were not limited to:

Environmental:

- Climate change mitigation
- Climate change adaptation
- Water
- Biodiversity

Social:

- Health & safety
- Gender diversity
- Financial inclusion
- Food security
- Clean water

Additionally, the Fund has maintained its committed 10% percent "sustainable investment" minimum.

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The sustainability indicators used to measure the attainment of each of the environmental or social characteristics promoted by the Fund were:

 46.71% of the Fund held in sustainable investments as defined under the Investment Manager's proprietary sustainable investments methodology which includes product and/or service alignment with the United Nations Sustainable Development Goals ("SDG") and consideration of Do No Significant Harm (DNSH);

- specific principal adverse impact ("PAI") indicators, specifically PAI #1 (GHG Emissions), PAI #2 (Carbon Footprint), PAI #3 (GHG Intensity), PAI #4 (Exposure to companies active in the fossil fuel sector), PAI #7 (Activities negatively affecting biodiversity-sensitive areas), PAI #10 (Violations of the UN Global Compact and OECD Guidelines), PAI #13 (Board Gender Diversity), and PAI #14 (Exposure to controversial weapons) were calculated. Please refer to the values disclosed in the section "How did this financial product consider principal adverse impacts on sustainability factors?";
- voted on 650 agenda items which support proposals around good governance and improving sustainability practices;
- Portfolio exposure to companies that have set and committed to set, science-based greenhouse gas emissions reduction targets; 19.4%

Proprietary methodologies to assess the progress of the Investment Manager's ESG engagement meetings: ClearBridge conducted periodic ESG engagements with its portfolio companies. Investment team's views of progress discussed during these meetings were reflected in their proprietary ESG ratings, proxy voting decisions, and investments decisions.

… And compared to previous periods?

The general sustainability indicators are in line with those in the previous period.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

The sustainable investments made by the Fund were in equity securities issued by companies which contributed to at least one of the following:

- through their products and services, to any one or more of the environmental or social objectives of the SDGs and their underlying targets and indicators determined through the Investment Manager's assessment for contribution; 27.3% of the portfolio
- GHG intensity and emissions reduction targets across a firm's economic activities determined through a third party verified decarbonization target aligned to the Paris Agreement or is a climate solutions provider; 19.4% of the portfolio

In addition to contributing to one of the environmental or social objectives listed above, companies were evaluated by the Investment Manager's proprietary good governance screen and passed the Do No Significant Harm (DNSH) criteria as further detailed below.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Investment Manager used a combination of third party severe risk controversy scores, third-party global norms-based screening including UN Global Compact (UNGC) compliance, PAI consideration* and other material environmental, social, and governance factors, which were embedded in the Investment Manager's fundamental research and proprietary ESG ratings

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters. process, which included a governance evaluation, to review if investments cause significant harm to any sustainable investment objective.

Additionally, the Investment Manager used its engagement process to identify best in class securities.

*The PAIs taken into consideration were dependent on the Investment Manager's proprietary ESG materiality assessment by sub-sector which was applied during its ESG rating process or on data availability.

----How were the indicators for adverse impacts on sustainability factors taken into account?

All PAIs which were material to the company being rated were considered as part of the Investment Manager's ESG rating which was applied as part of the security selection process.

The manner in which PAIs were considered and taken into account is set out in further detail below.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Investment Manager supports the principles of the UNGC. Therefore, the Fund did not invest in companies that violated any of the ten principles in each of the four areas (human rights, labour, environment, and anti-corruption) of the LINGC.

The Investment Manager used a third-party data provider who monitored compliance with UNGC principles. In instances where there were discrepancies or disagreements between the Investment Manager's research and the provider's assessment of a specific controversy, the Investment Manager, along with the compliance team and members of the ESG team engaged the company on the issue. Where the Investment Manager reached a consensus that the company had taken the necessary steps to address the controversy, or had effectively remediated the issue, the Investment Manager provided a detailed explanation for why the company continued to be invested in.

To ensure sustainable investments were aligned with the OECD guidelines, the Investment Manager used a third-party provider as a best effort to monitor compliance and potential violations.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

All PAIs which were material to the company being rated were considered as part of the Investment Manager's ESG rating which was applied as part of the security selection process, specifically:

PAI #1 (GHG Emissions), PAI #2 (Carbon Footprint), PAI #3 (GHG Intensity)

The Investment Manager assessed the specific climate-related risks and opportunities faced by individual companies as part of its stock selection process, which integrated these considerations, among other environmental, social and governance considerations.

While the Investment Manager assessed each sector on a specific set of criteria that was pertinent to its business operations, the assessment generally included careful consideration of climate-related factors such as: the regulatory/policy environment; the geographic location of assets and operations; the ability to pass on costs to customers; technology alternatives and advancements; changing customer preferences; commodity prices; future capital expenditure and R&D plans; long-term business strategy; overall quality of the management team; and other factors.

The Investment Manager used MSCI Carbon Portfolio Analytics to assess exposure to companies with fossil fuel reserves. The Investment Manager conducted carbon intensity analysis on the firm's investments in aggregate to understand the carbon intensity of the firm's total assets relative to the global equity markets. The Investment Manager was also able to conduct analysis on carbon intensity at the portfolio level.

PAI #10 (Violation of UNGC / OECD Guidelines)

Please refer to "Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?".

PAI #13 (Board gender diversity)

The Investment Manager uses third-party data for board gender diversity monitoring. Further, on a case-by-case basis, the Investment Manager has a provision in its Proxy Voting Policy to vote with respect to the nominating committee members and chair if the company does not have at least one female or ethnically/racially diverse board director. The Investment Manager considered Diversity as a component of its ESG analysis and rating, as well as a firm-wide theme for company engagement.

PAI #14 (Exposure to controversial weapons)

The Fund did not invest in companies that generate any of their turnover from the production and/or distribution of controversial weapons (i.e., antipersonnel mines, nuclear weaponry, biological & chemical weaponry, and cluster munitions).

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is - 2024-03-01 - 2025-02-28.

What were the top investments of this financial product?

The largest investments of this Fund during the reference period, excluding cash, were:

Largest investments	Sector	% of Assets	Country
Hitachi, Ltd.	Industrials	4.33%	Japan
COMPASS GROUP PLC	Consumer Discretionary	4.19%	United Kingdom
WELLS FARGO & COMPANY	Financials	4.17%	United States
TotalEnergies SE	Energy	3.81%	France
Banco Bilbao Vizcaya Argentaria, S.A.	Financials	3.80%	Spain
ASTRAZENECA PLC	Health Care	3.40%	United Kingdom
NEXANS SA	Industrials	3.39%	France
UNILEVER PLC	Consumer Staples	3.39%	United Kingdom
PAYPAL HOLDINGS, INC.	Financials	3.38%	United States

AMERICAN INTERNATIONAL GROUP, INC.	Financials	3.10%	United States
Siemens Aktiengesellschaft	Industrials	3.07%	Germany

What was the proportion of sustainability-related investments?

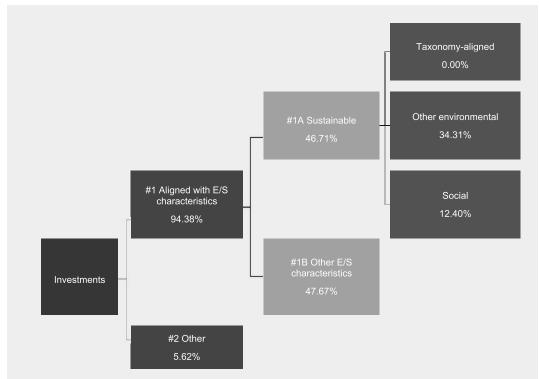

The proportion of sustainability-related investments was 46.71%.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

A portion of 94.38% of the Fund's portfolio was aligned with the E/S characteristics promoted by the Fund. The remaining portion (5.62%) was not aligned with the promoted characteristics and consisted primarily of liquid assets.

Out of the Fund's portfolio segment which was aligned with the promoted environmental and/or social characteristics, the Fund invested 46.71% of its portfolio in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

	Asset Allocation historical comparison		
	2025	2024	
Investment Category	Proportion of Investments	Proportion of Investments	
#1 Aligned with E/S characteristics	94.38%	92.40%	
#2 Other	5.62%	7.60%

Capital Markets	3.19%
Multi-Utilities	2.95%
Ground Transportation	2.43%

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- operational expenditure (OpEx) reflecting the green operational activities of investee companies.

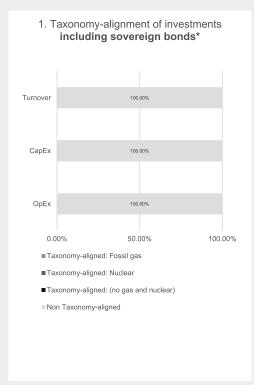

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

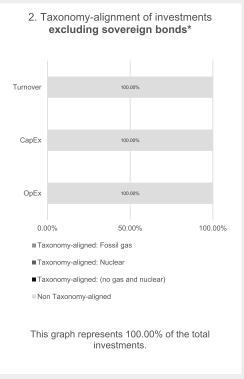

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?¹

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

- * For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures
- What was the share of investments made in transitional and enabling activities?

 The Fund did not invest in transitional and enabling activities.
- How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

As a result of the investment strategy of the Fund, the Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy and, accordingly, as of the end of February 2025, 34.31% of the portfolio of the Fund was comprised of investments with an environmental objective not aligned with the EU Taxonomy.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

The share of socially sustainable investments was 12.40%.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The proportion of investments under "#2 Other" was 5.62% and comprised of cash held on deposit and derivative instruments used for hedging and derivatives for which there were no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

- 1. The Fund did not invest in its set revenue thresholds, as outlined in the prospectus, for the following industries:
 - · Conventional and controversial weapons
 - Tobacco
 - Gambling
 - Adult entertainment
- 2. The Investment Manager utilized its proprietary rating system and fundamental research to assess how a company manages its ESG risks and opportunities, including good governance. The rating system consisted of four rating levels: AAA, AA, A and B, which were assigned to companies based on their sustainability strategy and performance key ESG issues. All companies in the Fund were rated. The rating distribution for this Fund as of 28 February 2025 was:

AAA: 30%

AA: 42%

A: 27%

B: 0%

- 3. The Investment Manager continuously engaged with its portfolio companies. ESG engagement at ClearBridge generally had two overlapping objectives:
 - · Research: Gaining a better understanding of ESG issues that could impact our investment thesis
 - · Impact: Encouraging specific changes at the company that could lead to positive real-world impact

The Investment Manager engaged with at least 50% of the portfolio of the Fund's assets under management and number of issuers during the calendar year.

- 4. The Fund did not invest in companies that violate one or several of the ten principles under the four areas covered by UNGC (human rights, labour, environment and anti-corruption).
- 5. The Fund's assets were tracked and monitored for environmental and social factor deterioration or improvement.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote. Not applicable.

FTGF Martin Currie Global Long-Term Unconstrained Fund (the "Fund")

Legal Entity Identifier: 5493007B7CQP4E08O434

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance

practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

Did this financial product have a sustainable investment objective? **⋈ NO** ☐ YES promoted Environmental/Social ☐ It made sustainable investments with an characteristics and while it did not have as its environmental objective: 0.00% objective a sustainable investment, it had a proportion of 80.73% of sustainable investments in economic activities that qualify as with an environmental objective in economic environmentally sustainable under the EU activities that qualify as environmentally sustainable under the EU Taxonomy with an environmental objective in economic П in economic activities that do not qualify as that not qualify environmentally sustainable under the EU environmentally sustainable under the EU Taxonomy Taxonomy with a social objective $\hfill \square$ It made sustainable investments with a ☐ It promoted E/S characteristics, but did not social objective: 0.00% make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

To meet the environmental and/or social characteristics promoted by the financial product, the Fund included investments in companies:

- · which are reducing and managing their carbon emissions;
- with limited to no exposure to the fossil fuel industry;
 with a focus on the officient use of energy and water.
- with a focus on the efficient use of energy and water;
- which are limiting pollution and managing biodiversity risk;
- · with good track-records on human rights and employee matters; and
- with no exposure to controversial weapons.

Not all holdings in the Fund necessarily promoted all characteristics. These factors were considered as part of the analysis of each company and where material incorporated into the investment analysis.

Derivative instruments have not been used to attain the environmental / social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental /social characteristics promoted by the Fund.

Sustainability

indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

At the end of the reference period, 80.15% of the Fund was held in sustainable investments, as defined by the Investment Manager's proprietary framework based on United Nations Sustainable Development Goals (SDG).

All the 14 PAI mandatory indicators and two additional indicators were taken into account and measured. Please refer to the values disclosed in the section "How did this financial product consider principal adverse impacts on sustainability factors?".

At the end of the period, approximately 61% of the portfolio's Net Asset Value (NAV) was invested in companies that had approved science-based targets under the Science-Based Targets Initiative, with a further 16% invested in companies committed to setting targets within the next two years.

Over the period the Fund's management team conducted 6 engagements on Environmental, Social and Governance (ESG) topics with the aim of influencing behaviour, covering topics including board composition, and director remuneration. As at the end of the year the engagements were at the stages of completion as shown below.

There was a total of 40 engagements over the period.

Furthermore, the Investment Manager relied on external Data Metrics (e.g. MSCI), including Carbon Footprint and ESG scoring, its internal research (including carbon cost analysis and modern slavery risk factors), as inputs to inform its analysis and internal proprietary governance and sustainability risk ratings, which were used as a basis for security selection, exclusions and engagement process.

In line with our Climate Policy, we have categorised companies into our internal Net Zero Alignment categorisation. This will augment and give greater information to clients in addition to those committed assets that have specific targets based on adoption of science-based targets. For this Fund, the portfolio distribution across those categories is below:

	Sustainability KPI historical comparison

We have seen a minor decrease in engagements on Environmental Social and Governance (ESG) topics with the aim of influencing behaviour compared to the previous period, to 6 from 7. As at the end of the year the engagements were at the stages of completion as shown below.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

The sustainable investments of the Fund comprised equity securities issued by companies which contributed, through their products or services, to the environmental or social objectives of a relevant subset of targets underlying the 17 Sustainable Development Goals (SDGs).

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

In addition to identifying potential sustainable investments by mapping companies to a specific subset of targets of the SDGs as detailed above, potential investee companies were subject to the Investment Manager's assessment of the DNSH principle which was conducted in two ways:

- 1. an assessment of compliance with global norms, based on the United Nations Global Compact (UNGC) principles, and controversies related to the other environmental aspects of the PAI indicators.
- 2. an assessment of DNSH in relation to climate change-related factors highlighted by the PAI indicators, including areas such as business exposure to fossil fuel extraction and a high and unmanaged carbon footprint in a high-emitting industry.

When assessing climate change-related DNSH, the Investment Manager also considered the nature of a company's operations as well as the presence of controversies or signals from the PAI indicators. For each grouping of PAI indicators, the Investment Manager assessed the materiality of each PAI indicator and the presence of potential significant harm, which assessment was conducted using proprietary analysis. The findings from the DNSH assessment may have influenced the Governance and Sustainability risk ratings assigned by the Investment Manager, however the DNSH assessment is designed to operate as a parallel process to the risk ratings in order to meet the commitment to make 'sustainable investments' under SFDR. The key output of the DNSH assessment is to determine whether any evidence of significant harm existed that would exclude an investment from being considered a sustainable investment.

----How were the indicators for adverse impacts on sustainability factors taken into account?

The Investment Manager took into account all 14 PAI mandatory indicators and two additional indicators in its management of the Fund. The two additional indicators were:

- Environmental: Investments in companies without carbon emission reduction initiatives; and
- Social: Lack of a human rights policy.

The Investment Manager's analysis of companies took these factors into account and where the Investment Manager identified potential material adverse impacts, it engaged with the companies. Under the specific requirements of SFDR, the Investment Manager also reported on the PAI indicators using company sourced data or looked for proxies where these were not available.

For further information on how the Investment Manager's analysis of companies took these factors into account, please refer to the section below titled "How did this financial product consider principal adverse impacts on sustainability factors?"

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Any potential sustainable investments that were identified were subject to the Investment Manager's broader ESG analysis that looked at management, culture, social and environmental risk. This analysis was framed around the OECD Guidelines for Multinational Enterprises and the Investment Manager had a specific additional focus on social exploitation risk framed around the UN Guiding Principles on Business and Human Rights.

The UNGC (on which the Fund has binding criteria) sets out 10 principles that set out minimum responsibilities in the areas of human rights, labour, environment and anti-corruption as derived from established conventions.

There is significant overlap between the principles of the UNGC and the OECD Guidelines that are effectively captured by the Investment Manager's UNGC screen. Material other multilateral instruments cited in the guidelines are also building blocks of the OECD guidelines, namely the ILO (International Labour Organisation) Fundamental Principles and the Universal Declaration of Human Rights. These effectively cover potential controversies related to the OECD's key pillars of human rights, labour, environment, anticorruption & consumer protection.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Sustainability factors can have an impact on the companies in which the Fund invests, and the Investment Manager also recognises that companies themselves can have an adverse impact on, for example, the environment, their employees or the communities in which they operate. These adverse impacts include, but are not limited to, the generation of greenhouse gas (GHG) emissions and other forms of pollution or potential violations of the UNGC. The Investment Manager's analysis of companies took these factors into account and where it identified potential material adverse impacts, the Investment Manager engaged with the companies concerned as set out in more detail in the Investment Manager's Stewardship and Engagement Policy. Under the specific requirements of SFDR, the Investment Manager also reported on the PAI indicators using company sourced data or proxies where these were not available.

Analysis of the PAIs was incorporated in the Investment Manager's due diligence on each company. The assessment of the 14 mandatory PAIs and two additional PAIs are grouped into six key areas for assessing materiality. Not all PAIs were material for every

company. The Investment Manager assessed whether any of the six areas were material for the investee company and, where material, incorporated these areas into its risk ratings, investment thesis and, if relevant, planned engagement activity.

The six key groupings of the PAIs are as follows:

- Carbon Emissions and Management (PAIs #1 (GHG emissions), #2 (Carbon footprint) & #3 (GHG intensity of investee companies) as well as optional PAI on companies without carbon emissions reduction initiatives);
- Exposure to companies in the fossil fuel industry (PAI #4 (Exposure to companies active in the fossil fuel sector));
- Energy & Water Efficiency (PAIs #5 (Share of non-renewable energy consumption and production) & #6 (Energy consumption intensity per high impact sector));
- Pollution & Biodiversity (PAIs #7 (Activities negatively affecting biodiversity-sensitive areas), #8 (Emissions to water) & #9 (Hazardous waste ratio));
- Human Rights and Employee Matters (PAIs #10-13 (Violations of UNGC and OECD Guidelines; Lack of processes and compliance mechanisms to monitor compliance with UNGC and OECD Guidelines; Unadjusted pay gap; and Board diversity) as well as an additional PAI focused on companies that lack a human rights policy); and Exposure to controversial weapons (PAI #14 (Exposure to controversial weapons)).

In some instances, such as PAI #10 (Violations of UNGC and OECD Guidelines), the Fund has binding criteria and will not invest in companies that are assessed as 'fail' under the UNGC. In line with the Investment Manager's Controversial Weapons Policy, the Fund will not hold companies with exposure to controversial weapons.

Information on PAIs on sustainability factors can be found in the manager's Responsible Investment Policy.

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is - 2024-03-01 - 2025-02-28.

What were the top investments of this financial product?

The largest investments of this Fund during the reference period, excluding cash, were:

Largest investments	Sector	% of Assets	Country
NVIDIA CORPORATION	Information Technology	8.59%	United States
MICROSOFT CORPORATION	Information Technology	5.34%	United States
ASML Holding N.V.	Information Technology	5.13%	Netherlands
Ferrari N.V.	Consumer Discretionary	4.79%	Italy
LINDE PUBLIC LIMITED COMPANY	Materials	4.24%	United Kingdom
Atlas Copco Aktiebolag	Industrials	3.74%	Sweden
MASTERCARD INCORPORATED.	Financials	3.69%	United States
L'OREAL SA	Consumer Staples	3.60%	France
MONCLER S.P.A.	Consumer Discretionary	3.58%	Italy

Adyen N.V.	Financials	3.38%	Netherlands
KINGSPAN GROUP PUBLIC LIMITED COMPANY	Industrials	3.19%	Ireland

What was the proportion of sustainability-related investments?

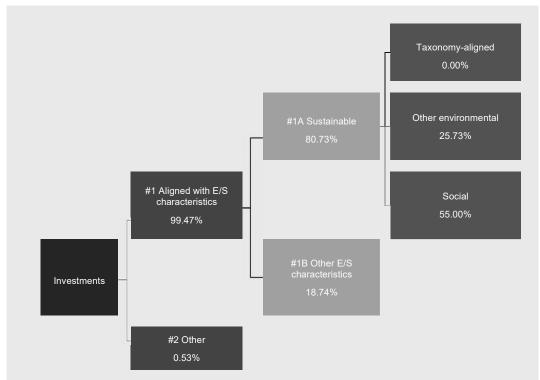

The proportion of sustainability-related investments was 80.73%.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

A portion of 99.47% of the Fund's portfolio was aligned with E/S Characteristics promoted by the Fund. The remaining portion (0.53%) was not aligned with the promoted characteristics and primarily consisted of liquid assets.

Out of the Fund's portfolio segment which was aligned with the promoted environmental and/or social characteristics, the Fund invested 80.73% of its portfolio in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category #1A Sustainable covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

	Asset Allocation historical comparison					
	2025	2024	2023			
Investment Category	Proportion of Investments	Proportion of Investments	Proportion of Investments			
#1 Aligned with E/S characteristics	99.47%	97.74%	99.50%			
#2 Other	0.53%	2.26%	0.50%			
#1A Sustainable	80.73%	83.84%	88.00%			
#1B Other E/S characteristics	18.74%	13.90%	11.50%			
Taxonomy-aligned	N/A	N/A	N/A			
Other environmental	25.73%	30.96%	30.00%			
Social	55.00%	52.88%	58.00%			

In which economic sectors were the investments made?

The top sectors and sub-sectors of this Fund during the reference period, excluding cash, were:

Top sector	% of Assets
Information Technology	30.06%
Health Care	27.07%
Consumer Discretionary	12.65%
Financials	9.50%
Industrials	8.19%
Materials	5.53%
Consumer Staples	5.42%
Communication Services	1.01%
Top sub-sector	% of Assets
Semiconductors & Semiconductor Equipment	14.97%
Software	11.36%
Life Sciences Tools & Services	8.33%
Health Care Equipment & Supplies	7.64%
Financial Services	7.07%
Textiles, Apparel & Luxury Goods	6.89%
Pharmaceuticals	6.03%
Chemicals	5.53%
Automobiles	4.79%
Personal Care Products	4.60%
Building Products	4.45%
Machinery	3.74%
Biotechnology	2.57%
Health Care Technology	2.50%
Capital Markets	2.43%

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- operational expenditure (OpEx) reflecting the green operational activities of investee companies.

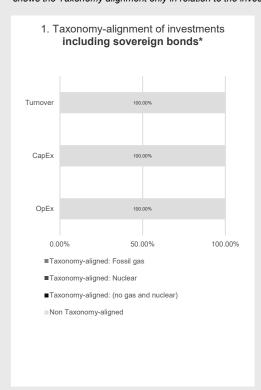

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

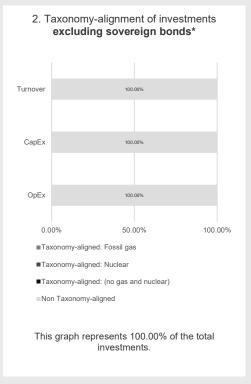

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?¹

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

- * For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures
- What was the share of investments made in transitional and enabling activities?
 The Fund did not invest in transitional and enabling activities.
- How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

As a result of the investment strategy of the Fund, the Fund did not make sustainable investments with an environmental objective aligned with the EU taxonomy and, accordingly, 25.73% of the portfolio of the Fund was comprised of investments with an environmental objective not aligned with the EU taxonomy.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

The share of socially sustainable investments was 55.00%.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The portion of investments under '#2 Other' was 0.53% and included cash for which there were no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

- Engaged with portfolio companies on topics such as board composition and director remuneration.
- Adhered to the exclusions as set out in the prospectus regarding proprietary governance and sustainability risk ratings, UN Global Compact violations, controversial weapons, and all other business activities for which exclusions are in place.
- Considered all 14 mandatory PAIs, and two additional PAIs as part of investment analysis which includes indicators on energy and water efficiency, pollution and biodiversity risk.
- Companies that have a sustainability or governance risk rating of 4 or higher, the rating scale ranging from 1 (low risk) to 5 (high risk), were not included in the Fund.
- The Fund maintained a portfolio ESG rating higher than that of the Fund's investment universe (equities listed or traded on Regulated Markets located anywhere in the world)

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote. Not applicable.

FTGF Martin Currie Global Emerging Markets Fund (the "Fund")

Legal Entity Identifier: 549300Y8TPNIB3NAMF62

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance

practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

Did this financial product have a sustainable investment objective? **⋈ NO** ☐ YES promoted Environmental/Social ☐ It made sustainable investments with an characteristics and while it did not have as its environmental objective: 0.00% objective a sustainable investment, it had a proportion of 67.37% of sustainable investments in economic activities that qualify as with an environmental objective in economic environmentally sustainable under the EU activities that qualify as environmentally sustainable under the EU Taxonomy with an environmental objective in economic П in economic activities that do not qualify as that do not qualify environmentally sustainable under the EU environmentally sustainable under the EU Taxonomy Taxonomy with a social objective $\hfill \square$ It made sustainable investments with a ☐ It promoted E/S characteristics, but did not social objective: 0.00% make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

To meet the environmental and/or social characteristics promoted by the financial product, the Fund included investments in companies:

- · which are reducing and managing their carbon emissions;
- with limited to no exposure to the fossil fuel industry;
- with a focus on the efficient use of energy and water;
- which are limiting pollution and managing biodiversity risk;
- with good track-records on human rights and employee matters; and
- with no exposure to controversial weapons.

Not all holdings in the Fund necessarily promoted all characteristics. These factors were considered as part of the analysis of each company and where material incorporated into the investment analysis.

Derivative instruments have not been used to attain the environmental / social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental /social characteristics promoted by the Fund.

Sustainability

indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

At the end of the reference period, 68.13% of the Fund was held in sustainable investments, as defined by the Investment Manager's proprietary framework based on United Nations Sustainable Development Goals (SDG).

All the 14 PAI mandatory indicators and two additional indicators were taken into account and measured. Please refer to the values disclosed in the section "How did this financial product consider principal adverse impacts on sustainability factors?".

At the end of the period, approximately 20% of the portfolio's Net Asset Value (NAV) was invested in companies that had approved science-based targets under the Science-Based Targets Initiative, with a further 8% invested in companies committed to setting targets within the next two years.

Over the period the Fund's management team conducted 30 engagements on Environmental, Social and Governance (ESG) topics with the aim of influencing behaviour, covering topics including board composition, companies' net zero carbon transition plans, and workplace culture. As at the end of the year the engagements were at the stages of completion as shown below.

Furthermore, the Investment Manager relied on external Data Metrics (e.g. MSCI), including Carbon Footprint and ESG scoring, its internal research (including carbon cost analysis and modern slavery risk factors), as inputs to inform its analysis and internal proprietary governance and sustainability risk ratings, which were used as a basis for security selection, exclusions and engagement process.

In line with our Climate Policy, we have categorised companies into our internal Net Zero Alignment categorisation. This will augment and give greater information to clients in addition to those committed assets that have specific targets based on adoption of science-based targets. For this Fund, the portfolio distribution across those categories is below:

	Sustainability KPI historical comparison		
	2025	2024	2023

PAI historical comparison

... And compared to previous periods?

Compared to the previous period, we have seen an increase in the proportion of the Fund's NAV invested in companies with a science-based target to 20% as at 28 February 2025 from 17% as at 29 February 2024, and a decrease in the proportion in companies that have committed to set science-based targets to 8% from 11%. This is due to companies that were previously committed to setting targets taking the final step and formalising these commitments, as well as portfolio changes.

On engagements we have seen an increase in early-stage engagements and a decrease in late-stage engagements, as we continue to engage with portfolio companies on material matters with some reaching their conclusion.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

The sustainable investments of the Fund comprised equity securities issued by companies which contributed, through their products or services, to the environmental or social objectives of a relevant subset of targets underlying the 17 Sustainable Development Goals (SDGs).

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

In addition to identifying potential sustainable investments by mapping companies to a specific subset of targets of the SDGs as detailed above, potential investee companies were subject to the Investment Manager's assessment of the DNSH principle which was conducted in two ways:

- 1. an assessment of compliance with global norms, based on the United Nations Global Compact (UNGC) principles, and controversies related to the other environmental aspects of the PAI indicators.
- 2. an assessment of DNSH in relation to climate change-related factors highlighted by the PAI indicators, including areas such as business exposure to fossil fuel extraction and a high and unmanaged carbon footprint in a high-emitting industry.

When assessing climate change-related DNSH, the Investment Manager also considered the nature of a company's operations as well as the presence of controversies or signals from the PAI indicators. For each grouping of PAI indicators, the Investment Manager assessed the materiality of each PAI indicator and the presence of potential significant harm, which assessment was conducted using proprietary analysis. The findings from the DNSH assessment may have influenced the Governance and Sustainability risk ratings assigned by the Investment Manager, however the DNSH assessment is designed to operate as a parallel process to the risk ratings in order to meet the commitment to make 'sustainable investments' under SFDR. The key output of the DNSH assessment is to determine whether any evidence of significant harm existed that would exclude an investment from being considered a sustainable investment.

-How were the indicators for adverse impacts on sustainability factors taken into account?

The Investment Manager took into account all 14 PAI mandatory indicators and two additional indicators in its management of the Fund. The two additional indicators were:

- · Environmental: Investments in companies without carbon emission reduction initiatives; and
- Social: Lack of a human rights policy.

The Investment Manager's analysis of companies took these factors into account and where the Investment Manager identified potential material adverse impacts, it engaged with the companies. Under the specific requirements of SFDR, the Investment Manager also reported on the PAI indicators using company sourced data or looked for proxies where these were not available.

For further information on how the Investment Manager's analysis of companies took these factors into account, please refer to the section below titled "How did this financial product consider principal adverse impacts on sustainability factors?"

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Any potential sustainable investments that were identified were subject to the Investment Manager's broader ESG analysis that looked at management, culture, social and environmental risk. This analysis was framed around the OECD Guidelines for Multinational Enterprises and the Investment Manager had a specific additional focus on social exploitation risk framed around the UN Guiding Principles on Business and Human Rights.

The UNGC (on which the Fund has binding criteria) sets out 10 principles that set out minimum responsibilities in the areas of human rights, labour, environment and anti-corruption as derived from established conventions.

There is significant overlap between the principles of the UNGC and the OECD Guidelines that are effectively captured by the Investment Manager's UNGC screen. Material other multilateral instruments cited in the guidelines are also building blocks of the OECD guidelines, namely the ILO (International Labour Organisation) Fundamental Principles and the Universal Declaration of Human Rights. These effectively cover potential controversies related to the OECD's key pillars of human rights, labour, environment, anticorruption & consumer protection.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Sustainability factors can have an impact on the companies in which the Fund invests, and the Investment Manager also recognises that companies themselves can have an adverse impact on, for example, the environment, their employees or the communities in

which they operate. These adverse impacts include, but are not limited to, the generation of greenhouse gas (GHG) emissions and other forms of pollution or potential violations of the UNGC. The Investment Manager's analysis of companies took these factors into account and where it identified potential material adverse impacts, the Investment Manager engaged with the companies concerned as set out in more detail in the Investment Manager's Stewardship and Engagement Policy. Under the specific requirements of SFDR, the Investment Manager also reported on the PAI indicators using company sourced data or proxies where these were not available.

Analysis of the PAIs was incorporated in the Investment Manager's due diligence on each company. The assessment of the 14 mandatory PAIs and two additional PAIs are grouped into six key areas for assessing materiality. Not all PAIs were material for every company. The Investment Manager assessed whether any of the six areas were material for the investee company and, where material, incorporated these areas into its risk ratings, investment thesis and, if relevant, planned engagement activity.

The six key groupings of the PAIs are as follows:

- Carbon Emissions and Management (PAIs #1 (GHG emissions), #2 (Carbon footprint) & #3 (GHG intensity of investee companies) as well as optional PAI on companies without carbon emissions reduction initiatives);
- Exposure to companies in the fossil fuel industry (PAI #4 (Exposure to companies active in the fossil fuel sector)); Energy & Water Efficiency (PAIs #5 (Share of non-renewable energy consumption and production) & #6 (Energy consumption intensity per high impact sector));
- Pollution & Biodiversity (PAIs #7 (Activities negatively affecting biodiversity-sensitive areas), #8 (Emissions to water) & #9 (Hazardous waste ratio));
- Human Rights and Employee Matters (PAIs #10-13 (Violations of UNGC and OECD Guidelines; Lack of processes and compliance mechanisms to monitor compliance with UNGC and OECD Guidelines; Unadjusted pay gap; and Board diversity) as well as an additional PAI focused on companies that lack a human rights policy); and
- Exposure to controversial weapons (PAI #14 (Exposure to controversial weapons)).

In some instances, such as PAI #10 (Violations of UNGC and OECD Guidelines), the Fund has binding criteria and will not invest in companies that are assessed as 'fail' under the UNGC. In line with the Investment Manager's Controversial Weapons Policy, the $\dot{\text{Fund}}$ will not hold companies with exposure to controversial weapons.

Information on PAIs on sustainability factors can be found in the manager's Responsible Investment Policy.

What was the proportion of sustainability-related investments?

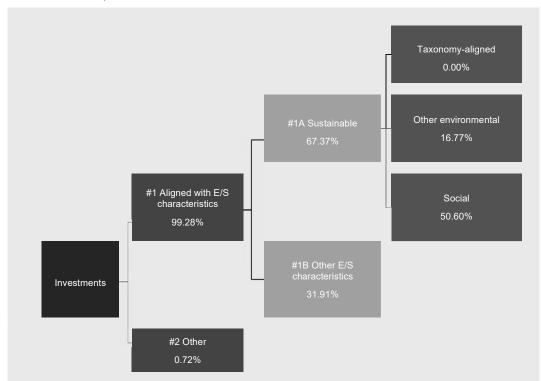

The proportion of sustainability-related investments was 67.37%.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

A portion of 99.28% of the Fund's portfolio was aligned with E/S Characteristics promoted by the Fund. The remaining portion (0.72%) was not aligned with the promoted characteristics and primarily consisted of liquid assets.

Out of the Fund's portfolio segment which was aligned with the promoted environmental and/or social characteristics, the Fund invested 67.37% of its portfolio in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category #1A Sustainable covers environmentally and socially sustainable investments.
- The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- operational expenditure (OpEx) reflecting the green operational activities of investee companies.

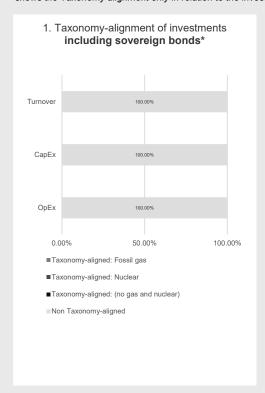

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

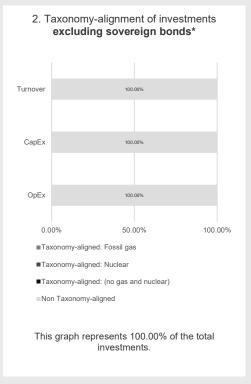

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?¹

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

- * For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures
- What was the share of investments made in transitional and enabling activities?
 The Fund did not invest in transitional and enabling activities.
- How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

As a result of the investment strategy of the Fund, the Fund did not make sustainable investments with an environmental objective aligned with the EU taxonomy and, accordingly, 16.77% of the portfolio of the Fund was comprised of investments with an environmental objective not aligned with the EU taxonomy.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

The share of socially sustainable investments was 50.60%.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The portion of investments under '#2 Other' was 0.72% and included cash for which there were no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

- Engaged with portfolio companies on topics including board composition, companies' net zero carbon transition plans, and workplace culture.
- Adhered to the exclusions as set out in the prospectus regarding proprietary governance and sustainability risk ratings, UN Global Compact violations, controversial weapons, and other business activities for which exclusions are in place.
- Considered all 14 mandatory PAIs, and two additional PAIs as part of investment analysis which includes indicators on energy and water efficiency, pollution and biodiversity risk.
- Companies that have a sustainability or governance risk rating of 4 or higher, the rating scale ranging from 1 (low risk) to 5 (high risk), were not included in the Fund.

How did this financial product perform compared to the reference benchmark?

Reference

Not applicable.

benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics

that they promote.

FTGF Martin Currie European Unconstrained Fund (the "Fund")

Legal Entity Identifier: 5493001JP7YZEMZJTE31

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

Did this financial product have a sustainable investment objective? ☐ YES \bowtie NO 88 It promoted Environmental/Social ☐ It made sustainable investments with an characteristics and while it did not have as its environmental objective: 0.00% objective a sustainable investment, it had a proportion of 77.78% of sustainable investments in economic activities that qualify as with an environmental objective in economic environmentally sustainable under the EU activities that qualify as environmentally sustainable under the EU Taxonomy Taxonomy with an environmental objective in economic in economic activities that do not qualify as activities that do not gualify environmentally sustainable under the EU environmentally sustainable under the EU Taxonomy with a social objective ☐ It made sustainable investments with a ☐ It promoted E/S characteristics, but did not social objective: 0.00% make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

To meet the environmental and/or social characteristics promoted by the financial product, the Fund included investments in companies:

- · which are reducing and managing their carbon emissions;
- with limited to no exposure to the fossil fuel industry;
- · with a focus on the efficient use of energy and water;
- which are limiting pollution and managing biodiversity risk;
- · with good track-records on human rights and employee matters; and
- with no exposure to controversial weapons.

Not all holdings in the Fund necessarily promoted all characteristics. These factors were considered as part of the analysis of each company and where material incorporated into the investment analysis.

Derivative instruments have not been used to attain the environmental / social characteristics promoted by the Fund.

No index has been designated as a reference benchmark for the purpose of attaining the environmental /social characteristics promoted by the Fund.

Sustainability

indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

At the end of the reference period, 81.41% of the Fund was held in sustainable investments, as defined by the Investment Manager's proprietary framework based on United Nations Sustainable Development Goals (SDG).

All the 14 PAI mandatory indicators and two additional indicators were taken into account and measured. Please refer to the values disclosed in the section "How did this financial product consider principal adverse impacts on sustainability factors?".

At the end of the period, approximately 65% of the portfolio's Net Asset Value (NAV) was invested in companies that had approved science-based targets under the Science-Based Targets Initiative, with a further 7% invested in companies committed to setting targets within the next two years.

Over the period the Fund's management team conducted 5 engagements on Environmental, Social and Governance (ESG) topics with the aim of influencing behaviour, covering topics including board composition and climate change risks. As at the end of the year the engagements were at the stages of completion as shown below.

There was a total of 31 engagements over the period.

Furthermore, the Investment Manager relied on external Data Metrics (e.g. MSCI), including Carbon Footprint and ESG scoring, its internal research (including carbon cost analysis and modern slavery risk factors), as inputs to inform its analysis and internal proprietary governance and sustainability risk ratings, which were used as a basis for security selection, exclusions and engagement process.

In line with our Climate Policy, we have categorised companies into our internal Net Zero Alignment categorisation. This will augment and give greater information to clients in addition to those committed assets that have specific targets based on adoption of science-based targets. For this Fund, the portfolio distribution across those categories is below:

	Sustainability KPI historical comparisor

PAI historical comparison

… And compared to previous periods?

Compared to the previous period, we have seen an increase in the proportion of the Fund's NAV invested in companies with a science-based target to 65% from 62% as at the end of the previous period, and a decrease in the proportion in companies that

have committed to set science-based targets to 7% from 20%. This is due to changes in portfolio holdings, and company commitment's lapsing without them becoming approved targets.

We have seen an increase in the number of engagements on Environmental Social and Governance (ESG) topics with the aim of influencing behaviour compared to the previous period, to 5 from 4. We have seen total engagements increase to 31 from 22.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

The sustainable investments of the Fund comprised equity securities issued by companies which contributed, through their products or services, to the environmental or social objectives of a relevant subset of targets underlying the 17 Sustainable Development Goals (SDGs).

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-

bribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

In addition to identifying potential sustainable investments by mapping companies to a specific subset of targets of the SDGs as detailed above, potential investee companies were subject to the Investment Manager's assessment of the DNSH principle which was conducted in two ways:

- 1. an assessment of compliance with global norms, based on the United Nations Global Compact (UNGC) principles, and controversies related to the other environmental aspects of the PAI indicators.
- 2. an assessment of DNSH in relation to climate change-related factors highlighted by the PAI indicators, including areas such as business exposure to fossil fuel extraction and a high and unmanaged carbon footprint in a high-emitting industry.

When assessing climate change-related DNSH, the Investment Manager also considered the nature of a company's operations as well as the presence of controversies or signals from the PAI indicators. For each grouping of PAI indicators, the Investment Manager assessed the materiality of each PAI indicator and the presence of potential significant harm, which assessment was conducted using proprietary analysis. The findings from the DNSH assessment may have influenced the Governance and Sustainability risk ratings assigned by the Investment Manager, however the DNSH assessment is designed to operate as a parallel process to the risk ratings in order to meet the commitment to make 'sustainable investments' under SFDR. The key output of the DNSH assessment is to determine whether any evidence of significant harm existed that would exclude an investment from being considered a sustainable investment.

-----How were the indicators for adverse impacts on sustainability factors taken into account?

The Investment Manager took into account all 14 PAI mandatory indicators and two additional indicators in its management of the Fund. The two additional indicators were:

- Environmental: Investments in companies without carbon emission reduction initiatives; and
- Social: Lack of a human rights policy.

The Investment Manager's analysis of companies took these factors into account and where the Investment Manager identified potential material adverse impacts, it engaged with the companies. Under the specific requirements of SFDR, the Investment Manager also reported on the PAI indicators using company sourced data or looked for proxies where these were not available.

For further information on how the Investment Manager's analysis of companies took these factors into account, please refer to the section below titled "How did this financial product consider principal adverse impacts on sustainability factors?".

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Any potential sustainable investments that were identified were subject to the Investment Manager's broader ESG analysis that looked at management, culture, social and environmental risk. This analysis was framed around the OECD Guidelines for Multinational Enterprises and the Investment Manager had a specific additional focus on social exploitation risk framed around the UN Guiding Principles on Business and Human Rights.

The UNGC (on which the Fund has binding criteria) sets out 10 principles that set out minimum responsibilities in the areas of human rights, labour, environment and anti-corruption as derived from established conventions.

There is significant overlap between the principles of the UNGC and the OECD Guidelines that are effectively captured by the Investment Manager's UNGC screen. Material other multilateral instruments cited in the guidelines are also building blocks of the OECD guidelines, namely the ILO (International Labour Organisation) Fundamental Principles and the Universal Declaration of Human Rights. These effectively cover potential controversies related to the OECD's key pillars of human rights, labour, environment, anticorruption & consumer protection.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Sustainability factors can have an impact on the companies in which the Fund invests, and the Investment Manager also recognises that companies themselves can have an adverse impact on, for example, the environment, their employees or the communities in which they operate. These adverse impacts include, but are not limited to, the generation of greenhouse gas (GHG) emissions and other forms of pollution or potential violations of the UNGC. The Investment Manager's analysis of companies took these factors into account and where it identified potential material adverse impacts, the Investment Manager engaged with the companies concerned as set out in more detail in the Investment Manager's Stewardship and Engagement Policy. Under the specific requirements of SFDR, the Investment Manager also reported on the PAI indicators using company sourced data or proxies where these were not available.

Analysis of the PAIs was incorporated in the Investment Manager's due diligence on each company. The assessment of the 14 mandatory PAIs and two additional PAIs are grouped into six key areas for assessing materiality. Not all PAIs were material for every company. The Investment Manager assessed whether any of the six areas were material for the investee company and, where material, incorporated these areas into its risk ratings, investment thesis and, if relevant, planned engagement activity.

The six key groupings of the PAIs are as follows:

- Carbon Emissions and Management (PAIs #1 (GHG emissions), #2 (Carbon footprint) & #3 (GHG intensity of investee companies) as well as optional PAI on companies without carbon emissions reduction initiatives);
- Exposure to companies in the fossil fuel industry (PAI #4 (Exposure to companies active in the fossil fuel sector));
- Energy & Water Efficiency (PAIs #5 (Share of non-renewable energy consumption and production) & #6 (Energy consumption intensity per high impact sector));
- Pollution & Biodiversity (PAIs #7 (Activities negatively affecting biodiversity-sensitive areas), #8 (Emissions to water) & #9 (Hazardous waste ratio));
- Human Rights and Employee Matters (PAIs #10-13 (Violations of UNGC and OECD Guidelines; Lack of processes and compliance mechanisms to monitor compliance with UNGC and OECD Guidelines; Unadjusted pay gap; and Board diversity) as well as an additional PAI focused on companies that lack a human rights policy); and
- Exposure to controversial weapons (PAI #14 (Exposure to controversial weapons)).

In some instances, such as PAI #10 (Violations of UNGC and OECD Guidelines), the Fund has binding criteria and will not invest in companies that are assessed as 'fail' under the UNGC. In line with the Investment Manager's Controversial Weapons Policy, the Fund will not hold companies with exposure to controversial weapons.

Information on PAIs on sustainability factors can be found in the manager's Responsible Investment Policy.

What were the top investments of this financial product?

The largest investments of this Fund during the reference period, excluding cash, were:

Largest investments	Sector	% of As
Ferrari N.V.	Consumer Discretionary	9.39%
ASML Holding N.V.	Information Technology	7.89%
MONCLER S.P.A.	Consumer Discretionary	6.38%

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is - 2024-03-01 -2025-02-28.

What was the proportion of sustainability-related investments?

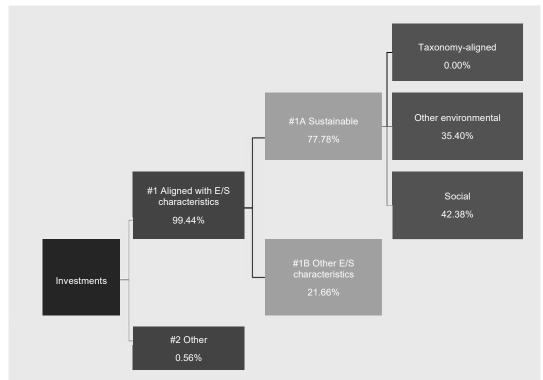

The proportion of sustainability-related investments was 77.78%.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

A portion of 99.44% of the Fund's portfolio was aligned with E/S Characteristics promoted by the Fund. The remaining portion (0.56%) was not aligned with the promoted characteristics and primarily consisted of liquid assets.

Out of the Fund's portfolio segment which was aligned with the promoted environmental and/or social characteristics, the Fund invested 77.78% of its portfolio in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category #1A Sustainable covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

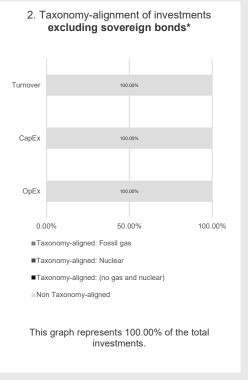

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?¹

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

- * For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures
- What was the share of investments made in transitional and enabling activities?
 The Fund did not invest in transitional and enabling activities.
- How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

As a result of the investment strategy of the Fund, the Fund did not make sustainable investments with an environmental objective aligned with the EU taxonomy and, accordingly, 35.40% of the portfolio of the Fund was comprised of investments with an environmental objective not aligned with the EU taxonomy.

What was the share of socially sustainable investments?

The share of socially sustainable investments was 42.38%.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The portion of investments under '#2 Other' was 0.56% and included cash for which there were no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

- · Engaged with portfolio companies on topics including board composition and climate change risks.
- Adhered to the exclusions as set out in the prospectus regarding proprietary governance and sustainability risk ratings, UN Global Compact violations, controversial weapons, and all other business activities for which exclusions are in place.
- Considered all 14 mandatory PAIs, and two additional PAIs as part of investment analysis which includes indicators on energy and water efficiency, pollution and biodiversity risk.
- Companies that have a sustainability or governance risk rating of 4 or higher, the rating scale ranging from 1 (low risk) to 5 (high risk), were not included in the Fund.
- The Fund maintained a portfolio ESG rating higher than that of the Fund's investment universe being shares of companies domiciled or listed in Europe, or which conduct the predominant part of their economic activity in Europe.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote. Not applicable.

investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not

Sustainable

significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852. establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainable investment objective

Did this financial product have a sustainable investment objective? 00 ☐ It promoted Environmental/Social (E/S) It made sustainable investments with an characteristics and while it did not have as its objective environmental objective: 12.05% a sustainable investment, it had a proportion of 0.00% of sustainable investment with an environmental objective in economic П in economic activities that qualify as activities that qualify as environmentally environmentally sustainable under the sustainable under the EU Taxonomy **EU Taxonomy** \Box in economic activities that do not with an environmental objective in economic qualify as environmentally sustainable activities that do not qualify as environmentally under the EU Taxonomy sustainable under the EU Taxonomy with a social objective ☐ It promoted E/S characteristics, but did not make any It made sustainable investments with a social **objective:** 86.10% sustainable investments

To what extent was the sustainable investment objective of this financial product met?

Sustainability indicators measure how the sustainable objectives of this financial product are attained

To meet the sustainable investment objective of the Fund, investee companies provided products and/or services that (i) contribute to fairness of social opportunity (ii) contribute towards improving wellbeing, inclusion and/or (iii) support a just transition towards a sustainable economy.

Derivative instruments have not been used to attain the environmental / social objective of the Fund.

As at 28 February 2025, 97.80% of the AUM of the Fund was invested in companies that contributed to the sustainable investment objective, with the remaining 2.20% held in cash.

No index has been designated as a reference benchmark for the purpose of attaining the sustainable investment objective of the Fund

How did the sustainability indicators perform?

The sustainability indicators used to measure the attainment of the sustainable investment objective by the Fund are the following:

- The proportion of the Fund represented by sustainable investments with a social objective: Over the period, the proportion of the Fund invested in sustainable investments with a social objective was greater than 70%.
- The proportion of the Fund represented by environmentally sustainable investments that support the Fund's social objective: Over the period, the proportion of the Fund that was not invested in sustainable investments with a social objective, or held in cash, was invested in sustainable investments with an environmental objective that supported the Fund's social objective.
- The proportion of the Fund meeting, exceeding and lagging specific impact Key Performance Indicators (KPIs) that are set for each company. As at the end of the period, the status of KPIs across the portfolio was distributed as below:
- The proportion of the Fund with a structured engagement process in place:
- o focused on where the Investment Manager is engaging on specific company KPIs; and

o focused on improving sustainability related behaviour.

100% of the Fund was engaged with on at least one of the two areas above, during each stock's holding period.

In line with our Climate Policy, we have categorised companies into our internal Net Zero Alignment categorisation. This will augment and give greater information to clients in addition to those committed assets that have specific targets based on adoption of science-based targets. For this Fund, the portfolio distribution across those categories is below:

	Sustainability KPI historical comparison		
	2025	2024	
Sustainability KPI Name	Value	Value	
Impact KPIs: Meeting	60.80%	N/A	
Impact KPIs: Exceeding	19.60%	N/A	
Impact KPIs: Lagging	19.60%	N/A	
MC Net Zero Alignment: Achieving Net Zero	0.00%	0.00%	
MC Net Zero Alignment: Aligned to Net Zero	6.30%	0.00%	
MC Net Zero Alignment: Aligning to Net Zero	26.10%	32.90%	
MC Net Zero Alignment: Committed	17.40%	24.90%	
MC Net Zero Alignment: Initial Climate Action	12.70%	5.20%	
MC Net Zero Alignment: No Action	35.40%	35.20%	

... And Compared to Previous Periods?

Compared to the previous period, we saw a decrease in the proportion of company-specific KPIs that were meeting our expectations. We also saw a minor increase in the proportion of KPIs Exceeding and Lagging versus the previous period. However, with over 80% of the KPIs categorised as Meeting or Exceeding as at the end of the period, we believe this provides an indication of the attainment of the sustainable investment objective.

Compared to the previous period, we saw an increase in the proportion of companies Aligned to Net Zero, as they made progress against their stated carbon emissions reduction targets. This is mirrored in a decrease in the proportion Aligning to Net Zero (has set a target, but is not yet on a trajectory to meet it). There was a decrease in the proportion of companies that have committed to set science-based targets, and an increase in the proportion of companies taking Initial Climate Action. This was in part due to barriers preventing companies from finalising their targets after a commitment was made. The companies in the Initial Climate Action category continue to take action to reduce their emissions profile. The proportion of companies in the No Action category was broadly stable versus the previous period.

How did the sustainable investments not cause significant harm to any sustainable investment objective?

In addition to identifying potential sustainable investments by mapping companies to a specific subset of targets of the SDGs as detailed above, potential investee companies were subject to the Investment Manager's assessment of the DNSH principle which was conducted in two ways:

- 1. an assessment of compliance with global norms, based on the United Nations Global Compact (UNGC) principles, and controversies related to the other environmental aspects of the PAI indicators.
- 2. an assessment of DNSH in relation to climate change-related factors highlighted by the PAI indicators, including areas such as business exposure to fossil fuel extraction and a high and unmanaged carbon footprint in a high-emitting industry.

When assessing climate change-related DNSH, the Investment Manager also considered the nature of a company's operations as well as the presence of controversies or signals from the PAI indicators. For each grouping of PAI indicators, the Investment Manager assessed the materiality of each PAI indicator and the presence of potential significant harm, which assessment was conducted using proprietary analysis. The findings from the DNSH assessment may have influenced the Governance and Sustainability risk ratings assigned by the Investment Manager, however the DNSH assessment is designed to operate as a parallel process to the risk ratings in order to meet the commitment to make 'sustainable investments' under SFDR. The key output of the DNSH assessment is to determine whether any evidence of significant harm existed that would exclude an investment from being considered a sustainable investment.

-How were the indicators for adverse impacts on sustainability factors taken into account?

The Investment Manager took into account all 14 PAI mandatory indicators and two additional indicators in its management of the Fund. The two additional indicators were:

- · Environmental: Investments in companies without carbon emission reduction initiatives; and
- Social: Lack of a human rights policy.

The Investment Manager's analysis of companies took these factors into account and where the Investment Manager identified potential material adverse impacts, it engaged with the companies. Under the specific

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

requirements of SFDR, the Investment Manager also reported on the PAI indicators using company sourced data or looked for proxies where these were not available.

For further information on how the Investment Manager's analysis of companies took these factors into account, please refer to the section below titled "How did this financial product consider principal adverse impacts on sustainability factors?".

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Any potential sustainable investments that were identified were subject to the Investment Manager's broader ESG analysis that looked at management, culture, social and environmental risk. This analysis was framed around the OECD Guidelines for Multinational Enterprises and the Investment Manager had a specific additional focus on social exploitation risk framed around the UN Guiding Principles on Business and Human Rights.

The UNGC (on which the Fund has binding criteria) sets out 10 principles that set out minimum responsibilities in the areas of human rights, labour, environment and anti-corruption as derived from established conventions.

There is significant overlap between the principles of the UNGC and the OECD Guidelines that are effectively captured by the Investment Manager's UNGC screen. Material other multilateral instruments cited in the guidelines are also building blocks of the OECD guidelines, namely the ILO (International Labour Organisation) Fundamental Principles and the Universal Declaration of Human Rights. These effectively cover potential controversies related to the OECD's key pillars of human rights, labour, environment, anticorruption & consumer protection.

How did this financial product consider principal adverse impacts on sustainability factors?

Sustainability factors can have an impact on the companies in which the Fund invests, and the Investment Manager also recognises that companies themselves can have an adverse impact on, for example, the environment, their employees or the communities in which they operate. These adverse impacts include, but are not limited to, the generation of greenhouse gas (GHG) emissions and other forms of pollution or potential violations of the UNGC. The Investment Manager's analysis of companies took these factors into account and where it identified potential material adverse impacts, the Investment Manager engaged with the companies concerned as set out in more detail in the Investment Manager's Stewardship and Engagement Policy. Under the specific requirements of SFDR, the Investment Manager also reported on the PAI indicators using company sourced data or proxies where these were not available.

Analysis of the PAIs was incorporated in the Investment Manager's due diligence on each company. The assessment of the 14 mandatory PAIs and two additional PAIs are grouped into six key areas for assessing materiality. Not all PAIs were material for every company. The Investment Manager assessed whether any of the six areas were material for the investee company and, where material, incorporated these areas into its risk ratings, investment thesis and, if relevant, planned engagement activity.

The six key groupings of the PAIs are as follows:

- Carbon Emissions and Management (PAIs #1 (GHG emissions), #2 (Carbon footprint) & #3 (GHG intensity of
 investee companies) as well as optional PAI on companies without carbon emissions reduction initiatives);
- Exposure to companies in the fossil fuel industry (PAI #4 (Exposure to companies active in the fossil fuel sector));
- Energy & Water Efficiency (PAIs #5 (Share of non-renewable energy consumption and production) & #6 (Energy consumption intensity per high impact sector));
- Pollution & Biodiversity (PAIs #7 (Activities negatively affecting biodiversity-sensitive areas), #8 (Emissions to water) & #9 (Hazardous waste ratio));
- Human Rights and Employee Matters (PAIs #10-13 (Violations of UNGC and OECD Guidelines; Lack of
 processes and compliance mechanisms to monitor compliance with UNGC and OECD Guidelines; Unadjusted
 pay gap; and Board diversity) as well as an additional PAI focused on companies that lack a human rights
 policy); and
- Exposure to controversial weapons (PAI #14 (Exposure to controversial weapons)).

In some instances, such as PAI #10 (Violations of UNGC and OECD Guidelines), the Fund has binding criteria and will not invest in companies that are assessed as 'fail' under the UNGC. In line with the Investment Manager's Controversial Weapons Policy, the Fund will not hold companies with exposure to controversial weapons.

Information on PAIs on sustainability factors can be found in the manager's Responsible Investment Policy.

What were the top investments of this financial product?

The largest investments of this Fund during the reference period, excluding cash, were:

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is 2024-03-01 – 2025-02-28.

Largest investments	Sector	% of Assets	Country
MercadoLibre, Inc.	Consumer Discretionary	6.83%	Uruguay
INTUITIVE SURGICAL, INC.	Health Care	6.66%	United States
XYLEM INC.	Industrials	5.74%	United States

VEOLIA ENVIRONNEMENT SA	Utilities	4.33%	France
AIRTEL AFRICA PLC	Communication Services	4.06%	United Kingdom

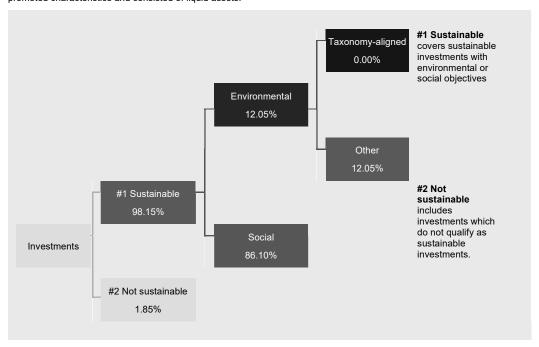

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets. The proportion of sustainability-related investments was 98.15%.

What was the asset allocation?

98.15% of the Fund's NAV invested in sustainable investments. The remaining portion (1.85%) was not aligned with the promoted characteristics and consisted of liquid assets.

	Asset Allocation historical comparison			
	2025	2024		
Investment Category	Proportion of Investments	Proportion of Investments		
#1 Sustainable	98.15%	96.90%		
#2 Not sustainable	1.85%	3.10%

Software	3.89%
Health Care Technology	3.84%
Health Care Providers & Services	3.78%
Household Durables	2.87%
Professional Services	2.74%

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are economic activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

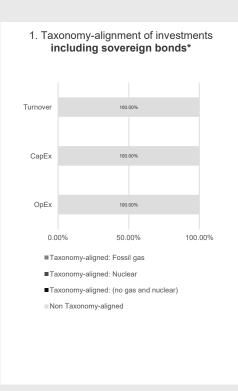

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

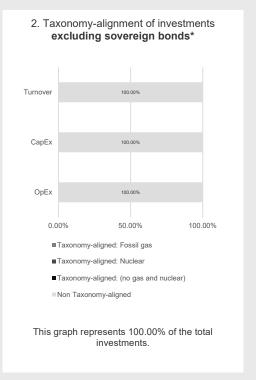

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying¹

Yes
□
□ In fossil gas □ In nuclear energy
□
■ No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy.

As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

- What was the share of investments made in transitional and enabling activities?
 The Fund did not invest in transitional and enabling activities.
- How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

What was the share of sustainable investments with an environmental objective that were not aligned with the EU taxonomy?

As a result of the investment strategy of the Fund, the Fund did not make sustainable investments with an environmental objective aligned with the EU taxonomy and, accordingly, during the reference period, 12.05% of the Fund was comprised of investments with an environmental objective not aligned with the EU taxonomy.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

the criteria for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of socially sustainable investments?

The share of socially sustainable investments was 86.10% during the reference period.

What investments were included under "not sustainable", what was their purpose and were there any minimum environmental or social safeguards?

The portion of investments under '#2 Other' was 1.85% and included cash for which there were no minimum environmental or social safeguards.

What actions have been taken to attain the sustainable investment objective during the reference period?

During each company's holding period, the Portfolio Managers engaged with investee companies on the impact each company is having through its products and services, or on improving sustainability related behaviours.

All binding elements as set out in the prospectus were adhered to. Please see the Annex for the Fund for full details of these. Considered all 14 mandatory PAIs, and two additional PAIs as part of investment analysis.

How did this financial product perform compared to the reference sustainable benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the

sustainable objective.

Not applicable.

Franklin Responsible Income 2028 Fund (the "Fund")

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

To what extent were the environmental and/or social characteristics promoted by this financial product met?

In order to promote the transition to a low-carbon economy, the portfolio management team avoided exposure to what they termed Climate Laggards. Sovereign issuers that were ranked within the bottom 20% of their peer group, based on environmental factors including, but not limited to, GHG emissions, energy intensity, protection of biodiversity, air pollution, and renewable energy mix, were labelled Climate Laggards. For corporate issuers, it was companies that were ranked within the top 20% of their peer industry group based on their GHG intensity. At the end of the reporting period, the Fund's allocation to Climate Laggards stood at 0% of its net asset value (NAV) during the reference period.

In addition to this, the Fund also refrained from investing in issuers involved in controversial business behaviours or adverse economic activities (as further described in the Precontractual Disclosure), including but not limited to, where exposure to fossil fuel extraction or energy production from fossil fuels exceeded the investment team's acceptable limit (e.g., any company, which derives more than 5% of its revenues from thermal coal extraction is deemed not investable), an issuer was involved in production of weapons of mass destruction or a corporation seriously and repeatedly breached United Nations Global Compact. In addition to the listed exclusions, the Fund also refrained from investing in sovereign issuers listed with a "Not Free" status according to the Freedom House Index.

The Fund committed to allocate a minimum of 11% of its assets to sustainable investments in economic activities with at least 10% contributing to environmental objectives and at least 1% to social objectives.

Over the reporting period from 1 March 2024 to 28 February 2025, the Fund exceeded these commitments, with a weighted average over the four quarters of 18.76% of its NAV invested in sustainable investments. This includes 13.24% in activities contributing to environmental objectives and 5.52% in those supporting social objectives. These allocations were primarily achieved through investments in green, social, and sustainability use-of-proceeds bonds, which were explicitly issued to finance eligible environmental and/or social projects.

An example of this is the Fund's investment in a use-of-proceeds bond issued by the Republic of Iceland to support environmental and social projects. The issuer's sustainable investment framework focuses on key sectors such as renewable energy, clean transportation, and social priorities including education, healthcare, and well-being, among others. The breadth and strategic alignment of the framework left a highly positive impression.

In this regard, over the reference period mentioned above, the weighted average across the four quarters resulted in 99.45% of the Fund's assets being aligned with the environmental and social (E/S) characteristics. The remaining 0.55%, also based on the weighted average, consisted of cash and derivatives, which were not aligned with these characteristics.

Sustainability

indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The following sustainability indicators were used to measure the attainment of environmental or social characteristics promoted by the Fund:

Exposure to Green, Social and Sustainability (GSS) Bonds and those issued by the Environmental Champions.

- 13.24% of investments in green bonds;
- 5.52% of investments in social bonds;
- 0.00% of investments in sustainability bonds;
- 36.49% of investments in bonds issued by best-in-class issuers ("Environmental Champions");

Percentage of investment in issuers having exposure to or tying with excluded sectors and additional exclusions further described in the investment strategy section of this annex – 0.00%

PAI historical comparison

… And compared to previous periods?

Please note, due to a change in methodology, sustainability indicators for this reference period (Environmental Champions, percentage of investment in green, social and sustainable bonds, and PAIs) are now based on the average values at the end of each quarter. In contrast, the data for the previous reference period, as of the fiscal year-end on 29 February 2024 in the above

tables, only reflects values at that specific date. As a result, the methodological differences between the two periods make the results difficult to compare in a meaningful way.

Nevertheless, the number of engagements increased from 72 to 93, reflecting a stronger commitment by the Investment Managers, who remained highly active and expanded their engagement efforts throughout the reporting period.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

The objectives of the sustainable investments were, amongst others, to fund and promote:

- a) the efficient use of energy, raw materials, water, and land;
- b) the production of renewable energy;
- c) the reduction of waste, and greenhouse gas (GHG) emissions, and lower impact of economic activities on biodiversity;
- d) the development of a circular economy;
- e) tackling inequalities and fostering social cohesion;
- f) social integration;
- g) good labour relations; or
- h) investments in human capital, including disadvantaged communities.

The Fund's sustainable investments included a minimum allocation of 10% of its portfolio to sustainable investments in economic activities that contribute to environmental objectives.

This was achieved by investing in bonds labelled as "green" or in any other securities whose:

- A) proceeds were used on eligible environmental projects;
- B) framework adheres to international standards (including but not limited to, the International Capital Market Association (the "ICMA") Green Bond Principles, future European Union Green Bond Standard (the "EU GBS")); and
- C) issuers do not significantly harm other environmental and social objectives while demonstrating good governance practices.

The use of proceeds for these bonds was clearly defined and aligned with the objectives above.

Additionally, the Fund committed to include a minimum allocation of 1% of its portfolio to sustainable social activities. This was achieved by investing in bonds labelled as "social" or in any other securities, whose:

- A) proceeds were used on eligible social projects;
- B) framework adheres to international standards (including but not limited to, ICMA Social Bond Principles); and
- C) issuers do not significantly harm other environmental and social objectives while demonstrating good governance practices.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Investment Manager used proprietary data tools and qualitative research to ensure alignment with the Do No Significant Harm (DNSH) principle across the portfolio.

Corporate issuers were monitored using the Principle Adverse Impact Risk App ("PAI Risk App"). The PAI Risk App used data from MSCI to identify issuers involved in harmful economic activities and/or controversies. Issuers deemed to violate PAI #7 (activities negatively affecting biodiversity-sensitive areas), #10 (violation of the UN Global Compact principles and the principles of the OECD Guidelines for Multinational Enterprises), and #14 (exposure to controversial weapons) were excluded from the Fund's investment universe.

The Investment Manager also used the Energy and Environmental Transition Index ("EETI") which ranks the remaining issuers in the Fund's investment universe according to their GHG emissions and intensity. Issuers falling within the bottom 20% of their peer groups with respect to PAI #1 (GHG emissions) and #3 (carbon footprint) (for corporates) and PAI #15 (GHG intensity) (for sovereigns) were excluded from the investment universe.

Additionally, sovereign issuers were subjected to tests based on their political liberties (PAI #16) and/or corruption.

When deploying funds to sustainable investments, especially with regards to the commitment to invest 18.76% of the Net Asset Value (NAV) in keeping with environmental and social objectives, the Investment Manager applied additional qualitative assessment (based on internal research or on external second party opinion) of the issuer's and of the projects' DNSH eligibility.

--How were the indicators for adverse impacts on sustainability factors taken into account?

Adverse impact indicators, including PAIs and other data points deemed by the Investment Manager as proxies for adverse impact, were used to:

- a. remove issuers that were considered to do significant harm from the portfolio; and
- b. inform the Investment Manager about the risk associated with adverse impact and take appropriate action that included due diligence, qualitative scrutiny and/or engagement (for details of an engagement see sections "Principal Adverse Impact" and "Investment Strategy" of the Fund of this annex).

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

While assessing eligible green and social bonds, the Investment Manager reviewed and documented the materiality of relevant PAIs for the project as well as how the project's implementation affects the issuer's overall PAIs outlook.

For example, while investing in a green bond whose use of proceeds targets development of renewable energy sources, (e.g. solar/PV panels), the Investment Manager ascertained that financed projects score well on PAIs linked to GHG emissions.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

For bonds issued by sovereign countries, the Organisation for Economic Cooperation and Development (the "OECD") Guidelines for Multinational Enterprises and the United Nations Guiding Principles on Business and Human Rights were not applicable to such investments. For bonds issued by corporate issuers, the sustainable investments were aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights.

Alignment was monitored using data from MSCI. Breaches identified by these service providers were flagged in the investment compliance system for subsequent investigation by the Investment Manager.

Where due diligence proved that the issuer was not aligned with OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, it was deemed un-investable.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

PAI indicators were considered for the purpose of:

- (i) identifying issuers deemed to be "Best-in-class";
- (ii) restricting the Fund's investment universe; and
- (iii) guiding thematic engagement.

Identifying Best-in-class issuers

The Fund invested in bonds issued by corporates and sovereigns deemed by the Investment Manager to be "Environmental Champions". "Environmental Champions" were identified using two proprietary ESG rankings:

- The EETI ranks sovereign issuers energy efficiency, natural capital conservation, renewable energy performance, using various data points, including GHG Intensity (emissions normalized by gross domestic product, CO2e/GDP).
- The ESG Credit App ranks corporate issuers by their GHG emissions and GHG intensity using various data points such as scope 1 and 2 GHG emissions, emitters' historic trajectories.

Restricting Fund's investible universe

Sovereign issuers falling within the bottom 20% of the investment universe based on the EETI and corporate issuers falling within the bottom 20% (i.e. climate laggards) based on the ESG Credit App were also excluded from the portfolio.

Guiding thematic engagement

The Investment Manager committed to engage with 5% of active holdings which were considered as underperformers in terms of their aggregate exposure to applicable mandatory PAI metrics.

More information on how the Fund considered its PAIs may be found in the section "How did the sustainability indicators perform?".

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is - 2024-03-01 - 2025-02-28.

What were the top investments of this financial product?

The largest investments of this Fund during the reference period, excluding cash, were:

Largest investments	Sector	% of Assets	Country
Government of Romania 2.125% 07-MAR-2028	Government Bonds	2.11%	Romania
NatWest Markets Plc 4.25% 13-JAN-2028	Financials	1.79%	United Kingdom
ENGIE SA. 1.75% 27-MAR-2028	Utilities	1.74%	France
Intesa Sanpaolo S.p.A. 1.75% 20-MAR-2028	Financials	1.74%	Italy
UBS Group AG 4.625% 17-MAR-2028	Financials	1.72%	Switzerland
OP Yrityspankki Oyj 0.375% 16-JUN-2028	Financials	1.65%	Finland
National Grid plc 0.163% 20-JAN-2028	Utilities	1.65%	United Kingdom
JPMorgan Chase & Co. 1.638% 18-MAY-2028	Financials	1.64%	United States

Barclays PLC 0.877% 28-JAN-2028	Financials	1.61%	United Kingdom
Sage Group plc 3.82% 15-FEB-2028	Information Technology	1.61%	United Kingdom
CaixaBank, S.A. 0.75% 26-MAY-2028	Financials	1.60%	Spain

What was the proportion of sustainability-related investments?

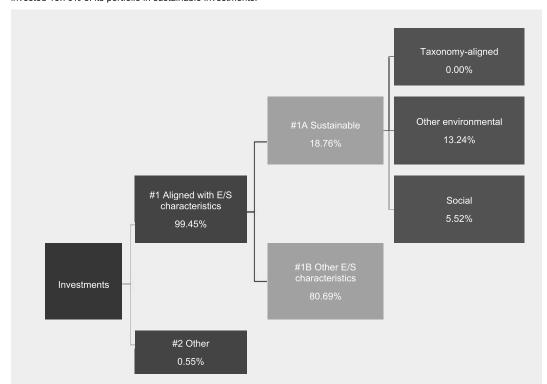

The portion of sustainability-related investments is 18.76%.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

A portion of 99.45% of the Fund's portfolio was aligned with the E/S characteristics promoted by the Fund (if not stated otherwise, all values shown are based on weighted average over 4 quarters during the reporting reference period). The remaining portion (0.55%) was not aligned with the promoted characteristics and consisted primarily of liquid assets.

Out of the Fund's portfolio segment which was aligned with the promoted environmental and social characteristics, the Fund invested 18.76% of its portfolio in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category #1A Sustainable covers environmentally and socially sustainable investments.
- The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

	Asset Allocation historical comparison					
	2025	2025 2024 2023				
Investment Category	Proportion of Investments	Proportion of Investments	Proportion of Investments			
#1 Aligned with E/S characteristics	99.45%	98.56%	96.35%			
#2 Other	0.55%	1.44%	3.65%			
#1A Sustainable	18.76%	15.72%	17.58%			
#1B Other E/S characteristics	80.69%	82.84%	78.77%			
Taxonomy-aligned	N/A	N/A	N/A			
Other environmental	13.24%	11.24%	12.98%			
Social	5.52%	4.48%	4.59%			

In which economic sectors were the investments made?

The top sectors and sub-sectors of this Fund during the reference period, excluding cash, were:

Top sector	% of Assets
Financials	56.10%
Industrials	13.07%
Consumer Discretionary	6.19%
Health Care	5.52%
Utilities	5.42%
Government Bonds	3.93%
Information Technology	3.65%
Materials	2.40%
Communication Services	1.75%
Real Estate	1.27%
Consumer Staples	0.16%
Top sub-sector	% of Assets
Banks	40.31%
Capital Markets	7.39%
Financial Services	7.26%
Government Bonds	3.93%
Multi-Utilities	3.40%
Electrical Equipment	2.76%
Transportation Infrastructure	2.62%
Passenger Airlines	2.55%
Ground Transportation	2.23%
Software	2.22%
Automobiles	2.16%
Electric Utilities	2.02%
Containers & Packaging	1.88%
Health Care Equipment & Supplies	1.51%
Pharmaceuticals	1.47%

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- operational
 expenditure (OpEx)
 reflecting the green
 operational activities of
 investee companies.

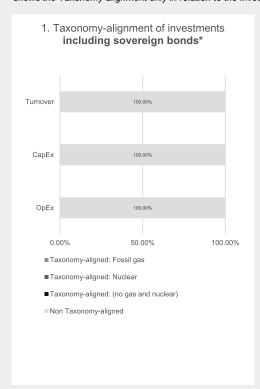

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

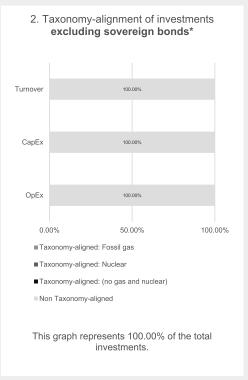

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?¹

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

- * For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures
- What was the share of investments made in transitional and enabling activities?

 The Fund did not invest in transitional and enabling activities.
- How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

13.24% of the portfolio of the Fund was comprised of investments with an environmental objective not aligned with the EU Taxonomy.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852. As a result of the investment strategy of the Fund, the Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

The share of socially sustainable investments was 5.52%.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The portion of investments under "#2 Other" was 0.55% and comprised of liquid assets (ancillary liquid assets, bank deposits, money market instruments and money market funds) held for the purposes of servicing the day-to-day requirements of the Fund.

No minimum environmental and/or social safeguards were put in place.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

1. The Investment Manager utilised numerous IT tools in order to determine a portfolio's composition so that it is aligned with the promoted environmental and social characteristics. Those characteristics were promoting the transition to a low-carbon economy by avoiding investments in issuers that are lagging in the transition and implementing negative screens as part of its investment process. Using internal and external inputs (e.g., MSCI datasets), the investment managers assessed which issuers were eligible (or not) to be held in the portfolio.

For example, the Fund employed a proprietary ESG rating methodology with the aim to avoid investment in issuers that are lagging in the transition to support a low-carbon economy. The Fund used a selectivity approach in order to exclude from its portfolio issuers (corporates and sovereigns) that scored in the bottom 20% of its investment universe based on a set of characteristics. For corporates, the Investment Managers look at their GHG emissions and intensity, while for sovereigns, have a list of 16 environmental metrics such as energy efficiency, biodiversity protection, and responsible waste management. A sophisticated IT tools (Energy and Environmental Transition Index [EETI] for sovereigns and ESG Credit App for corporates) assigns a rank to issuers based on these characteristics and reduces the investable universe by the aforementioned 20%.

The Fund has proprietary exclusion list, in that sense, the Investment Managers did not invest in issuers that:

- Repeatedly and seriously violate the United Nations Global Compact principles, the UN Guiding Principles on Business and Human Rights, and the OECD Guidelines for Multinational Enterprises;
- Have "Not Free" status according to the Freedom House Index for sovereign issuers;
- Manufacture controversial weapons such as those that are defined as being indiscriminate; or those that manufacture components intended for use in such weapons;
- derive more than 5% of their revenue from production of conventional weapons;
- Manufacture tobacco or tobacco products; or those that derive revenue from such products that exceeds the Investment Managers' 5% threshold:
- derive more than 5% of their revenue from gambling or adult entertainment;
- derive more than 5% of their revenue from the mining of thermal coal and its sale to external parties;
- derive more than 5% of their revenue from the most polluting fossil fuels;
- Exceed the Investment Managers' 30% tolerance level of fossil fuels or 5% tolerance level of thermal coal used to generate electricity or lack ambitions regarding decarbonization targets for electricity generation;
- Negatively affect biodiversity-sensitive areas; and
- Score an ESG rating of CCC according to MSCI.

If a security held by the Fund fell under at least one of the above exclusions, the Investment Manager divested from such security as soon as practicable and at the latest within a period of six months.

Further, the issuers were monitored using the Principle Adverse Impact Risk App (PAI Risk App). The app analyses corporate and sovereign issuers performance based on the 14 mandatory Principal Adverse Indicators (PAI) metrics. The PAI app preliminary identified and excluded from investment universe the issuers that:

- repeatedly and seriously violate the United Nations Global Compact principles and OECD Guidelines for Multinational Enterprises (PAI 10)
- have exposure to controversial weapons (PAI 14)
- have operations located in biodiversity sensitive areas and are involved in controversies with severe impact on the environment (PAI 7)
- are countries subject to social violations as referred in international treaties and conventions (PAI 16)
- 2. When deploying funds to sustainable investments, especially with regards to the commitment to invest at least 11% of the Net Asset Value (NAV) in keeping with environmental and social objectives, the Investment Manager applied additional qualitative assessment (i.e., the Sustainable Investment Evaluation Form based on internal research or on external second party opinion) of the issuer's and of the projects' DNSH eligibility.

In line with Investment Managers' ambition to achieve a positive impact on the environment and social aspects, as well as to satisfy the regulatory requirements, the Investment Managers first check that all the eligible expenditures for a bond that is being considered for purchase are in fact sustainable and positively contribute to environmental and/or social goals. Then, the Investment Managers ensure that neither the issuer nor the project that is funded via the bond issue causes any significant harm to other environmental or social objectives. At the same time, the Investment Managers check the overall impact of an issuer on the environment, as would not invest in a utility that, despite green energy investments, increases their fossil fuel-powered electricity production capacity. Social aspects are equally important, and Investment Managers refrain from investing in green or social projects if there is evidence of any severe employee—and/or local community-related controversies. While assessing those parameters, Investment Managers look through a prism of sixteen mandatory principle adverse impact (PAI) indicators.

3. Engagement was an integral part of the Fund's sustainability approach and ESG management During the reference period, the Investment Managers engaged with numerous issuers. The Investment Managers have done this via email, direct video calls, by attending roadshows or in-person meetings, and through cross-sectional engagement by sending out surveys on a specific topic. The engagement consisted of both voluntarily engagement to promote the Fund's environmental and social characteristics and obtain data for the best-informed investments decision as well as obligatory engagement with 5% issuers underperforming their peers in regard to PAIs exposure.

While all engagements are listed above, in the "How did the sustainability indicators perform?" section, the following example helps to highlight the portfolio managers' approach:

- The engagement took place during a dedicated one-on-one meeting with the Bank of Ireland Group in December 2024. The Group's ESG strategy is structured around three central pillars: advancing the green transition, strengthening community engagement, and fostering positive employee relations. The Investment Managers sought to gain greater insight into the Group's environmental strategy and its forthcoming disclosure plans. Discussions highlighted the extension of its approach beyond greenhouse gas (GHG) emissions to include biodiversity and water quality. The issuer referred to its monitoring of national indicators, including those from the Irish Environmental Protection Agency. The Investment Managers welcomed the measures taken to support farmers through targeted training and incentive schemes and took note of the Group's commitment to publish its 2024 EU taxonomy alignment data in February 2025. The dialogue also covered social aspects, such as the Group's diversity and inclusion efforts. The issuer reported having achieved gender parity at the board level, in line with Irish equal pay legislation, and described additional inclusive practices such as the provision of paternity leave and support for neurodiversity-related initiatives
- As part of this effort, they also engaged with issuers underperforming in terms of their overall exposure to mandatory PAI
 indicators during the 2024 reference period. An example of such an engagement is a meeting with the representatives of the
 Republic of Romania. During the meeting, the Investment Managers encouraged the issuer to consider further issuance of useof-proceeds instruments to support Romania's energy transition strategy and to address additional environmental challenges,
 such as sustainable water management.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote. Not applicable.

Franklin Responsible Income 2029 Fund (the "Fund")

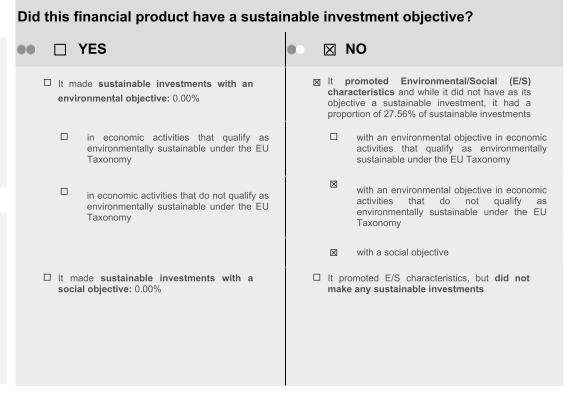

Legal Entity Identifier: 254900HN2FBZVQ2RSC08

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not

To what extent were the environmental and/or social characteristics promoted by this financial product met?

In order to promote the transition to a low-carbon economy, the portfolio management team avoided exposure to what they termed Climate Laggards. Sovereign issuers that were ranked within the bottom 20% of their peer group, based on environmental factors including, but not limited to, GHG emissions, energy intensity, protection of biodiversity, air pollution, and renewable energy mix, were labelled Climate Laggards. For corporate issuers, it was companies that were ranked within the top 20% of their peer industry group based on their GHG intensity. At the end of the reporting period, the Fund's allocation to Climate Laggards stood at 0% of its net asset value (NAV) during the reference period.

In addition to this, the Fund also refrained from investing in issuers involved in controversial business behaviours or adverse economic activities (as further described in the Precontractual Disclosure), including but not limited to, where exposure to fossil fuel extraction or energy production from fossil fuels exceeded the investment team's acceptable limit (e.g., any company, which derives more than 5% of its revenues from thermal coal extraction is deemed not investable), an issuer was involved in production of weapons of mass destruction or a corporation seriously and repeatedly breached United Nations Global Compact. In addition to the listed exclusions, the Fund also refrained from investing in sovereign issuers listed with a "Not Free" status according to the Freedom House Index.

The Fund committed to allocate a minimum of 11% of its assets to sustainable investments in economic activities with at least 10% contributing to environmental objectives and at least 1% in those to social objectives.

Over the reporting period, from 1 March 2024 to 28 February 2025, the Fund exceeded these commitments, with a weighted average over the four quarters of 27.56% of its NAV invested in sustainable investments. This included 26.10% in economic activities contributing to environmental objectives and 1.46% in those supporting social objectives. These allocations were primarily achieved through investments in green, social, and sustainability use-of-proceeds bonds, which were explicitly issued to finance specific eligible environmental and/or social projects.

An example of this commitment is the Fund's investment in a use-of-proceeds bond issued by Swedbank AB, aimed at supporting environmental and social projects. The issuer's sustainable investment framework focuses on key sectors such as renewable energy, energy efficiency, and social priorities including reduced inequalities, no poverty, and others. Swedbank stands out as a bank actively driving the energy transition, differentiating itself from those still heavily involved in financing fossil fuels. In this regard, over the reference period mentioned above, the weighted average across the four quarters resulted in 97.66% of the Fund's assets being aligned with the environmental and social (E/S) characteristics. The remaining 2.34%, also based on the weighted average, consisted of cash and derivatives, which were not aligned with these characteristics.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The following sustainability indicators were used to measure the attainment of environmental or social characteristics promoted by the Fund:

Exposure to Green, Social and Sustainability (GSS) Bonds and those issued by the Environmental Champions.

- 26.10% of investments in green bonds;
- 1.46% of investments in social bonds;
- 0.00% of investments in sustainability bonds;
- 27.77% of investments in bonds issued by best-in-class issuers ("Environmental Champions");

Percentage of investment in issuers having exposure to or tying with excluded sectors and additional exclusions further described in the investment strategy section of this annex -0.00%

Investee countries subject to social violations	Count of Countries in Fund	0.00	2.72%

… And compared to previous periods?

Not applicable. The Fund was launched on 27 March 2024.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objective?

The objectives of the sustainable investments were, amongst others, to fund and promote:

- a) the efficient use of energy, raw materials, water, and land;
- b) the production of renewable energy;
- c) the reduction of waste, and greenhouse gas (GHG) emissions, and lower impact of economic activities on biodiversity;
- d) the development of a circular economy;
- e) tackling inequalities and fostering social cohesion;
- f) social integration
- g) good labour relations; or
- h) investments in human capital, including disadvantaged communities.

The Fund's sustainable investments included a minimum allocation of 10% of its portfolio to sustainable investments in economic activities that contribute to environmental objectives.

This was achieved by investing in bonds labelled as "green" or in any other securities whose:

- A) proceeds were used on eligible environmental projects;
- B) framework adheres to international standards (including but not limited to, the International Capital Market Association (the "ICMA") Green Bond Principles, future European Union Green Bond Standard (the "EU GBS")); and
- C) issuers do not significantly harm other environmental and social objectives while demonstrating good governance practices.

The use of proceeds for these bonds was clearly defined and aligned with the objectives above.

Additionally, the Fund committed to include a minimum allocation of 1% of its portfolio to sustainable social activities with a social objective. This was achieved by investing in bonds labelled as "social" or in any other securities, whose:

- A) proceeds were used on eligible social projects;
- B) framework adheres to international standards (including but not limited to, ICMA Social Bond Principles); and
- C) issuers do not significantly harm other environmental and social objectives while demonstrating good governance practices.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Investment Manager used proprietary data tools and qualitative research to ensure alignment with the Do No Significant Harm (DNSH) principle across the portfolio.

Corporate issuers were monitored using the Principle Adverse Impact Risk App ("PAI Risk App"). The PAI Risk App used data from MSCI to identify issuers involved in harmful economic activities and/or controversies. Issuers deemed to violate PAI #7 (activities negatively affecting biodiversity-sensitive areas), #10 (violation of the UN Global Compact principles and the principles of the OECD Guidelines for Multinational Enterprises), and #14 (exposure to controversial weapons) were excluded from the Fund's investment universe.

The Investment Manager also used the Energy and Environmental Transition Index ("EETI") which ranks the remaining issuers in the Fund's investment universe according to their GHG emissions and intensity. Issuers falling within the bottom

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

20% of their peer groups with respect to PAI #1 (GHG emissions) and #3 (carbon footprint) (for corporates) and PAI #15 (GHG intensity) (for sovereigns) were excluded from the investment universe.

Additionally, sovereign issuers were subjected to tests based on their political liberties (PAI #16) and/or corruption.

When deploying funds to sustainable investments, especially with regards to the commitment to invest at least 11% of the Net Asset Value (NAV) in keeping with environmental and social objectives, the Investment Manager applied additional qualitative assessment (based on internal research or on external second party opinion) of the issuer's and of the projects' DNSH eligibility.

----How were the indicators for adverse impacts on sustainability factors taken into account?

Adverse impact indicators, including PAIs and other data points deemed by the Investment Manager as proxies for adverse impact, were used to:

a. remove issuers that were considered to do significant harm from the portfolio; and

b. inform the Investment Manager about the risk associated with adverse impact and take appropriate action – that included due diligence, qualitative scrutiny and/or engagement (for details of an engagement see sections "Principal Adverse Impact" and "Investment Strategy" of the Fund of this annex).

While assessing eligible green and social bonds, the Investment Manager reviewed and documented the materiality of relevant PAIs for the project as well as how the project's implementation affects the issuer's overall PAIs outlook.

For example, while investing in a green bond whose use of proceeds targets development of renewable energy sources, (e.g. solar/PV panels), the Investment Manager ascertained that financed projects score well on PAIs linked to GHG emissions.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

For bonds issued by sovereign countries, the Organisation for Economic Cooperation and Development (the "OECD") Guidelines for Multinational Enterprises and the United Nations Guiding Principles on Business and Human Rights were not applicable to such investments. For bonds issued by corporate issuers, the sustainable investments were aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights.

Alignment was monitored using data from MSCI. Breaches identified by this data provider were flagged in the investment compliance system for subsequent investigation by the Investment Manager.

Where due diligence proved that the issuer was not aligned with OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, it was deemed un-investable.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

PAI indicators were considered for the purpose of:

- (i) identifying issuers deemed to be "Best-in-class";
- (ii) restricting the Fund's investment universe; and
- (iii) guiding thematic engagement.

Identifying Best-in-class issuers

The Fund invested in bonds issued by corporates and sovereigns deemed by the Investment Manager to be "Environmental Champions". "Environmental Champions" were identified using two proprietary ESG rankings:

- The EETI ranks sovereign issuers energy efficiency, natural capital conservation, renewable energy performance, using
 various data points, including GHG Intensity (emissions normalized by gross domestic product, CO2e/GDP).
- The ESG Credit App ranks corporate issuers by their GHG emissions and GHG intensity using various data points such as scope 1 and 2 GHG emissions, emitters' historic trajectories.

Restricting Fund's investible universe

Sovereign issuers falling within the bottom 20% of the investment universe based on the EETI and corporate issuers falling within the bottom 20% (i.e. climate laggards) based on the ESG Credit App were also excluded from the portfolio.

Guiding thematic engagement

The Investment Manager committed to engage with 5% of active holdings which were considered as underperformers in terms of their aggregate exposure to applicable mandatory PAI metrics.

More information on how the Fund considered its PAIs may be found in the periodic reporting of the Fund.

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is - 2024-03-27 - 2025-02-28.

What were the top investments of this financial product?

The largest investments of this Fund during the reference period, excluding cash, were:

Largest investments	Sector	% of Assets	Country
Government of Romania 6.625% 27-SEP-2029	Government Bonds	1.87%	Romania
Morgan Stanley 4.656% 02-MAR-2029	Financials	1.65%	United States
NatWest Group Plc 4.771% 16-FEB-2029	Financials	1.65%	United Kingdom
ING Groep N.V. 4.5% 23-MAY-2029	Financials	1.64%	Netherlands
Standard Chartered PLC 0.8% 17-NOV-2029	Financials	1.59%	United Kingdom
Societe Generale SA 4.75% 28-SEP-2029	Financials	1.55%	France
BPCE Societe anonyme 3.875% 11-JAN-2029	Financials	1.54%	France
Raiffeisenbank a.s. 1.0% 09-JUN-2028	Financials	1.53%	Czech Republic
Lloyds Banking Group PLC 4.5% 01/11/2029	Financials	1.50%	United Kingdom
Abertis Infraestructuras, S.A. 4.125% 07-AUG-2029	Industrials	1.49%	Spain
Credit Mutuel Arkea Societe cooperative a forme anonyme 3.5% 09-FEB-2029	Financials	1.49%	France
UBS Group AG 7.75% 03/01/2029	Financials	1.48%	Switzerland
KBC Group NV 4.25% 28-NOV-2029	Financials	1.47%	Belgium
Banque Federative du Credit Mutuel Societe anonyme 1.875% 18- JUN-2029	Financials	1.46%	France
Credit Agricole S.A. 0.5% 21-SEP-2029	Financials	1.46%	France

What was the proportion of sustainability-related investments?

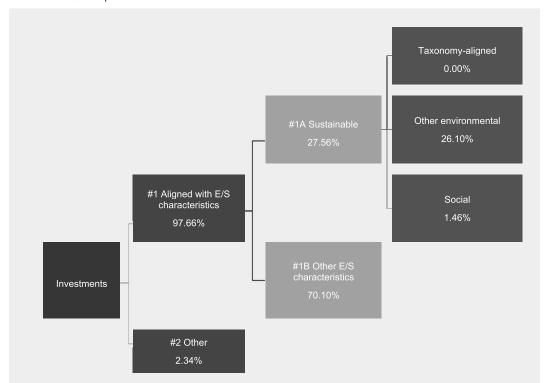

The portion of sustainability-related investments is 27.56%.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

A portion of 97.66% of the Fund's portfolio was aligned with the E/S characteristics promoted by the Fund (if not stated otherwise, all values shown are based on weighted average over 4 quarters during the reporting reference period). The remaining portion (2.34%) was not aligned with the promoted characteristics and consisted primarily of liquid assets.

Out of the Fund's portfolio segment which was aligned with the promoted environmental and social characteristics, the Fund invested 27.56% of its portfolio in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category #1A Sustainable covers environmentally and socially sustainable investments.
- The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

The top sectors and sub-sectors of this Fund during the reference period, excluding cash, were:

Top sector	% of Assets
Financials	51.95%
Industrials	14.84%
Consumer Discretionary	8.49%
Communication Services	5.63%
Real Estate	4.39%
Consumer Staples	3.19%
Information Technology	2.84%
Government Bonds	2.72%
Health Care	1.41%
Materials	1.31%
Utilities	0.97%
Top sub-sector	% of Assets
Banks	41.59%
Capital Markets	4.38%
Automobile Components	4.06%
Financial Services	3.78%
Real Estate Management & Development	3.28%
Passenger Airlines	2.90%
Government Bonds	2.72%
Transportation Infrastructure	2.51%
Commercial Services & Supplies	2.50%
Machinery	2.13%
Diversified Telecommunication Services	2.03%
Automobiles	2.02%
Entertainment	1.93%
Ground Transportation	1.74%
Textiles, Apparel & Luxury Goods	1.45%

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g for a transition to a green economy.
- operational expenditure (OpEx) reflecting the green operational activities of investee companies.

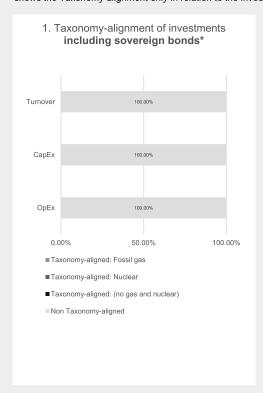

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

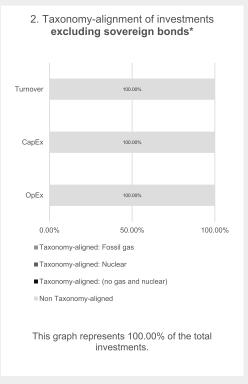

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?¹

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

- * For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures
- What was the share of investments made in transitional and enabling activities?

 The Fund did not invest in transitional and enabling activities.
- How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU taxonomy?

26.10% of the portfolio of the Fund was comprised of investments with an environmental objective not aligned with the EU Taxonomy.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852. As a result of the investment strategy of the Fund, the Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

The share of socially sustainable investments was 1.46%.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The portion of investments under "#2 Other" was 2.34% and comprised of liquid assets (ancillary liquid assets, bank deposits, money market instruments and money market funds) held for the purposes of servicing the day-to-day requirements of the Fund.

No minimum environmental and/or social safeguards were put in place.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

1. The Investment Manager utilised numerous IT tools in order to determine a portfolio's composition so that it is aligned with the promoted environmental and social characteristics. Those characteristics were promoting the transition to a low-carbon economy by avoiding investments in issuers that are lagging in the transition and implementing negative screens as part of its investment process. Using internal and external inputs (e.g., MSCI datasets), the investment managers assessed which issuers were eligible (or not) to be held in the portfolio.

For example, the Fund employed a proprietary ESG rating methodology with the aim to avoid investment in issuers that are lagging in the transition to support a low-carbon economy. The Fund used a selectivity approach in order to exclude from its portfolio issuers (corporates and sovereigns) that scored in the bottom 20% of its investment universe based on a set of characteristics. For corporates, the Investment Managers look at their GHG emissions and intensity, while for sovereigns, have a list of 16 environmental metrics such as energy efficiency, biodiversity protection, and responsible waste management. A sophisticated IT tools (Energy and Environmental Transition Index [EETI] for sovereigns and ESG Credit App for corporates) assigns a rank to issuers based on these characteristics and reduces the investable universe by the aforementioned 20%.

The Fund has proprietary exclusion list, in that sense, the Investment Managers did not invest in issuers that:

- repeatedly and seriously violate the United Nations Global Compact principles, the UN Guiding Principles on Business and Human Rights, and the OECD Guidelines for Multinational Enterprises;
- Have "Not Free" status according to the Freedom House Index for sovereign issuers;
- Manufacture controversial weapons such as those that are defined as being indiscriminate; or those that manufacture components intended for use in such weapons;
- Derive more than 5% of their revenue from production of conventional weapons;
- Manufacture tobacco or tobacco products; or those that derive revenue from such products that exceeds the Investment Managers' 5% threshold:
- Derive more than 5% of their revenue from gambling or adult entertainment;
- Derive more than 5% of their revenue from the mining of thermal coal and its sale to external parties;
- Derive more than 5% of their revenue from the most polluting fossil fuels;
- Exceed the Investment Managers' 30% tolerance level of fossil fuels or 5% tolerance level of thermal coal used to generate electricity or lack ambitions regarding decarbonization targets for electricity generation;
- Negatively affect biodiversity-sensitive areas; and
- Score an ESG rating of CCC according to MSCI.

If a security held by the Fund fell under at least one of the above exclusions, the Investment Manager divested from such security as soon as practicable and at the latest within a period of six months.

Further, the issuers were monitored using the Principle Adverse Impact Risk App (PAI Risk App). The app analyses corporate and sovereign issuers performance based on the 14 mandatory Principal Adverse Indicators (PAI) metrics. The PAI app preliminary identified and excluded from investment universe the issuers that:

- repeatedly and seriously violate the United Nations Global Compact principles and OECD Guidelines for Multinational Enterprises (PAI 10)
- have exposure to controversial weapons (PAI 14)
- have operations located in biodiversity sensitive areas and are involved in controversies with severe impact on the environment (PAI 7)
- are countries subject to social violations as referred in international treaties and conventions (PAI 16)
- 2. When deploying funds to sustainable investments, especially with regards to the commitment to invest at least 11% of the portfolio in keeping with environmental and social objectives, the Investment Manager applied additional qualitative assessment (i.e., the Sustainable Investment Evaluation Form based on internal research or on external second party opinion) of the issuer's and of the projects' DNSH eligibility.

In line with Investment Managers' ambition to achieve a positive impact on the environment and social aspects, as well as to satisfy the regulatory requirements, the Investment Managers first check that all the eligible expenditures for a bond that is being considered for purchase are in fact sustainable and positively contribute to environmental and/or social goals. Then, the Investment Managers ensure that neither the issuer nor the project that is funded via the bond issue causes any significant harm to other environmental or social objectives. At the same time, the Investment Managers check the overall impact of an issuer on the environment, as would not invest in a utility that, despite green energy investments, increases their fossil fuel-powered electricity production capacity. Social aspects are equally important, and Investment Managers refrain from investing in green or social projects if there is evidence of any severe employee—and/or local community-related controversies. While assessing those parameters, Investment Managers look through a prism of sixteen mandatory principle adverse impact (PAI) indicators.

3. Engagement was an integral part of the Fund's sustainability approach and ESG management During the reference period, the Investment Managers engaged with numerous issuers. The Investment Managers have done this via email, direct video calls, by attending roadshows or in-person meetings, and through cross-sectional engagement by sending out surveys on a specific topic. The engagement consisted of both voluntarily engagement to promote the Fund's environmental and social characteristics and obtain data for the best-informed investments decision as well as obligatory engagement with 5% issuers underperforming their peers in regard to PAIs exposure.

While all engagements are listed above, in the "How did the sustainability indicators perform?" section, the following example helps to highlight the portfolio managers' approach:

- The engagement took place during a dedicated one-on-one meeting with the Bank of Ireland Group in December 2024. The Group's ESG strategy is structured around three central pillars: advancing the green transition, strengthening community engagement, and fostering positive employee relations. The Investment Managers sought to gain greater insight into the Group's environmental strategy and its forthcoming disclosure plans. Discussions highlighted the extension of its approach beyond greenhouse gas (GHG) emissions to include biodiversity and water quality. The issuer referred to its monitoring of national indicators, including those from the Irish Environmental Protection Agency. The Investment Managers welcomed the measures taken to support farmers through targeted training and incentive schemes and took note of the Group's commitment to publish its 2024 EU taxonomy alignment data in February 2025. The dialogue also covered social aspects, such as the Group's diversity and inclusion efforts. The issuer reported having achieved gender parity at the board level, in line with Irish equal pay legislation, and described additional inclusive practices such as the provision of paternity leave and support for neurodiversity-related initiatives.
- The Investment Managers continue to engage with the issuers are hold in the account. The Investment Managers are on track
 to engage with the 5% of holdings which were considered as underperformers in terms of their aggregate exposure to applicable
 mandatory PAIs metrics during the calendar year 2025.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote. Not applicable.
